Performance for all assets is shown as of September 30, 2011, to be consistent with the most recent valuation date for alternative assets.

- (a) The benchmark has been modified to include additional asset classes in order to be more representative of a passive implementation of a global, diversified institutional portfolio. The benchmark shown is the historical 80% Equities/20% Fixed Income benchmark until June 30, 2011, and the new, broader benchmark after that date.
- (b) The benchmark has been modified by combining the Cambridge Associates (CA) non-U.S. Private Equity Universe with the CA U.S. Private Equity Universe to create a global index to act as our benchmark for private equity from July 1, 2011, going forward.
