

AWARDS PROCESSED
 Research and Other Sponsored Activities
 March 1, 2009 through March 31, 2009

Received by the Regents
 April 16, 2009

The awards detailed in this list were processed March 1, 2009 through March 31, 2009. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified, as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was received. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

Other Sponsored Activity	455	455	0.0%	\$34,936,679	\$57,551,272	64.7%

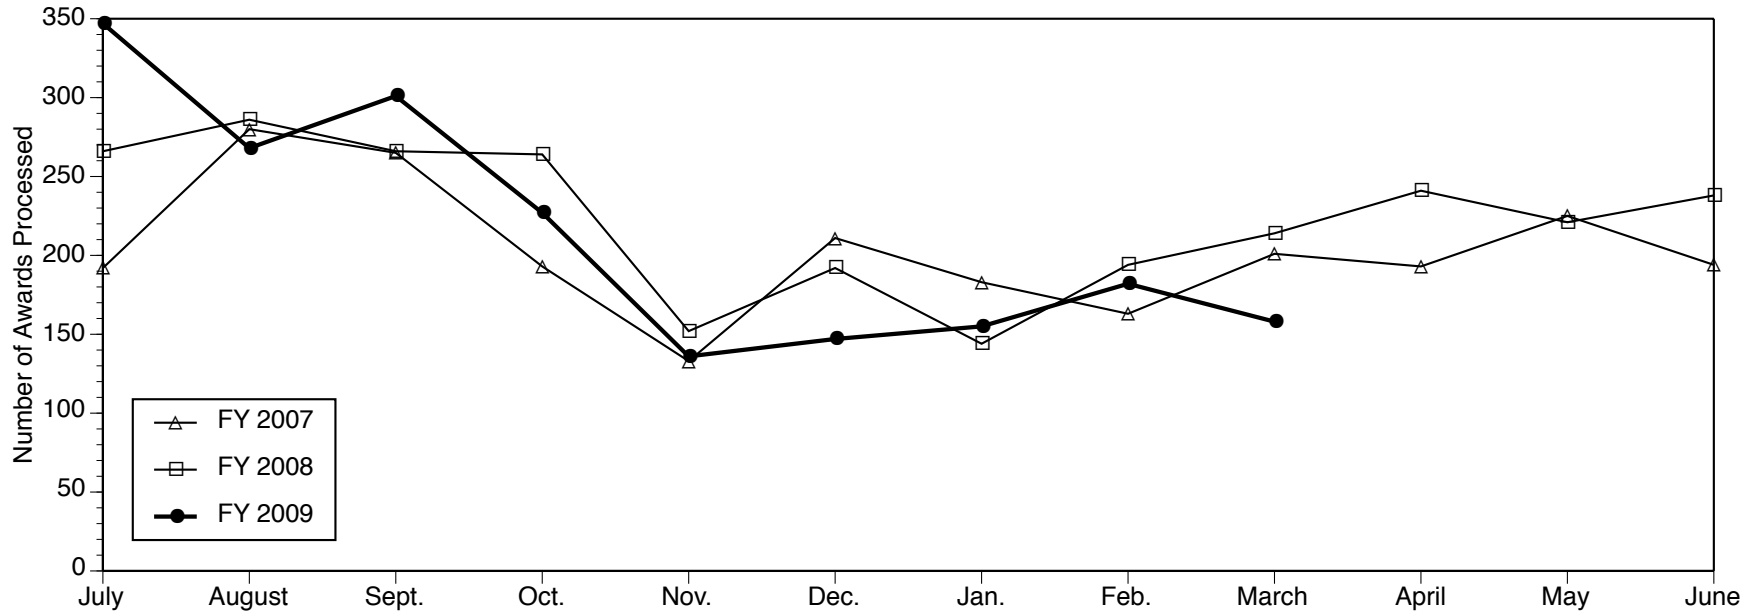

March 2009 activity witnessed a significant decline in both the number and dollar value of awards when compared with March 2008 which has resulted in the year-to-date total dollar value percentage change to drop more than half. The drop in dollar value is partially attributed to the decline in the number of awards. Another contributing cause is the drop in the number of large awards valued at \$1.0 million or more. In March 2008 there were 26 such awards totaling \$62.1 million. In March 2009 there were 16 such awards valued at \$29.9 million representing a decline in dollar value of nearly 52%.

PROJECTS ESTABLISHED FOR RESEARCH AND OTHER SPONSORED ACTIVITIES

March 1, 2009 through March 31, 2009

The projects listed here by sponsor were established during the month designated in the heading above. For each project, the listing includes the project title, the project director (and his or her unit affiliations), faculty or primary research staff participating in the project (and their unit affiliations), the amount awarded for the period, and the project period. NOTE: When more than one unit is listed for the project director, the unit responsible for the project is given first.
