AWARDS ESTABLISHED
Research and Other Sponsored Activities
July 1, 2010 through April 30, 2011

The awards detailed in this list were established July 1, 2010 through April 30, 2011. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified, as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was established. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

	Number of Awards FY 2010	Number of Awards FY 2011	% Change	Value of Awards FY 2010	Value of Awards FY 2011	% Change

Research Awards	1,986	1,721	-13.3%	\$ 932,410,670	\$ 784,232,217	-15.9%
Research Training	101	120	18.8%	\$ 21,136,858	\$ 48,397,914	129.0%
Other Sponsored Activity	470	574	22.1%	\$ 63,598,206	\$ 79,974,976	25.8%

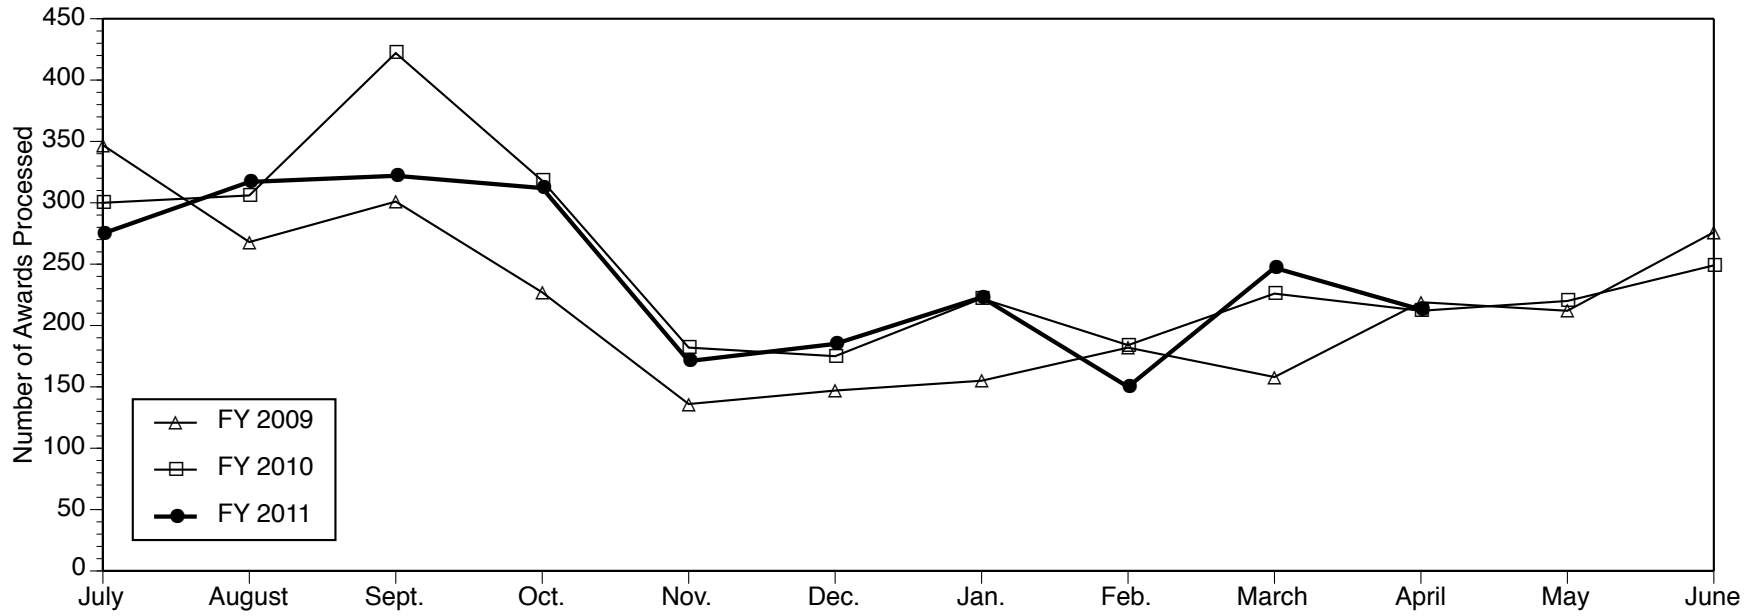

March 2011 total award activity in dollar value is significantly below that of April 2010. The primary cause for this decline is the processing of a \$63.2 million award in April 2010 with no comparable large award processed in April 2011. This occurrence negatively impacted the year-to-date dollar value showing a decrease of 10.3% compared with a decline of 3.7% in the previous month. A reminder that last year's activity was significantly influenced by the ARRA funding
