

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST

Subject: Subcontract Agreement between the University of Michigan and Prove Concepts, LLC

Action Requested: Authorization to enter into Agreement

Preamble:

A statutory conflict of interest situation was identified by the Office of Research and Sponsored Projects while reviewing the Proposal Approval Form which then triggered a review by the UMOR Conflict of Interest Review Committee. A plan for management of the possible risks associated with the conflict of interest was then developed and approved by the Committee and agreed to by the parties involved.

This proposed agreement (“Agreement”) falls under the State of Michigan Conflict of Interest Statute because Professor Peter Ma is an employee of the University of Michigan (“University”), and a partial owner of Prove Concepts, LLC. The law permits such an Agreement provided it is disclosed to the Board of Regents (“Regents”) of the University of Michigan and approved in advance by a 2/3 vote.

Background:

Dr. Peter Ma, a Professor in the Department of Biologic and Materials Science, is the partial owner of a for-profit company called Prove Concepts, LLC (the “Company”). The Company wishes to fund an NIH (prime) STTR Phase I & II project entitled “Long Term Pulsatile Delivery of PTH to Treat Osteoporosis” (ORSP #19-PAF06354) in the Department of Biologic and Materials Science under the direction of Dr. Peter Ma. The purpose of this project is to assess the histological and microCT analyses of bones.

Agreement Terms:

The terms of the Agreement conform to University policy. The period of performance for the project is approximately three (3) years. The amount of funding support will not exceed \$561,600. Since research projects are often amended, this agreement includes provisions for changes in time and scope. University procedures for approval of these changes will be followed and additional conflict of interest review will be done as appropriate.

Impact of the Agreement:

The Agreement will support an effort by Dr. Ma to use his expertise and University laboratory, as well as other University resources, for the histological and microCT analyses of bones.

Recommendations:

This matter has been reviewed and approved by the UMOR Conflict of Interest Review Committee. In light of this disclosure and our finding that the Agreement was negotiated in conformance with standard University practices, I recommend that the Board of Regents approve the University's entering into this Agreement with Prove Concepts, LLC.

Respectfully submitted,

S. Jack Hu
Vice President for Research
