

AWARDS ESTABLISHED
 Research and Other Sponsored Activities
 May 1, 2009 through May 31, 2009

Received by the Regents
 June 18, 2009

The awards detailed in this list were established May 1, 2009 through May 31, 2009. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified, as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was established. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

	Number of Awards FY 2008	Number of Awards FY 2009	% Change	Value of Awards FY 2008	Value of Awards FY 2009	% Change

Other Sponsored Activity	559	544	(2.7%)	\$41,794,171	\$63,270,748	51.4%

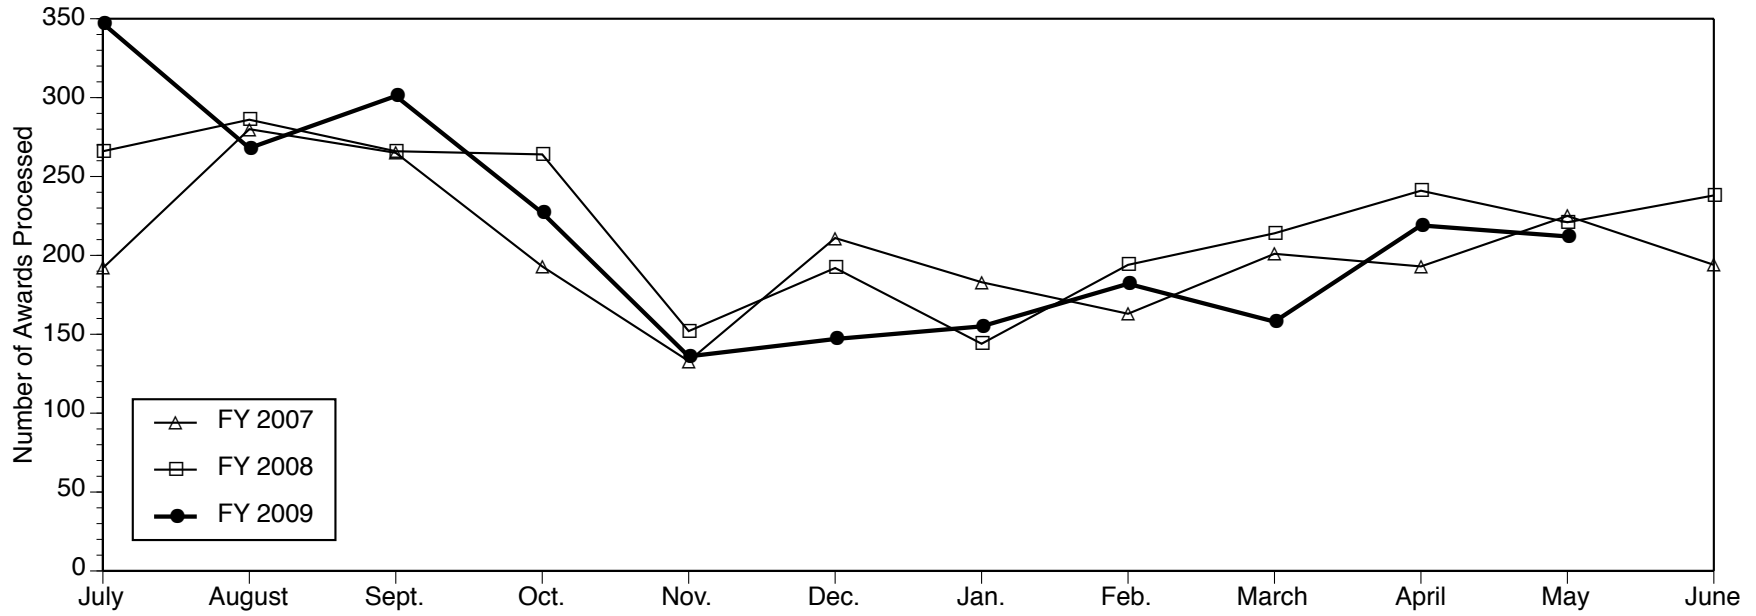

FY 2009 awarded dollars are back in positive territory after being in the negative since March. While the number of awards for May were down from the previous May, values are up because there were a greater number of awards valued over \$1.0 million established in 2009 then 2008.
