ACTION REQUEST

Subject: Proposed FY 2010 University of Michigan Hospitals and Health Centers (UMHHC) Operating Budget

Action Requested: Approval

Background:

UMHHC has completed its annual operating budget process for FY 2010. The enclosed budget is predicated upon a combination of modest patient activity growth, inflationary rate increases, and expense management. The activity, revenue and expense projections result in a 1.7% operating margin.

The current economic conditions and the reimbursement climate for health care are expected to continue as significant challenges in FY 2010.

Demand for both inpatient and outpatient services continues to grow. Additional observation beds are planned for the new fiscal year, providing increased access to meet growing patient demands. This budget includes an ongoing commitment to productivity improvements and cost effectiveness strategies across inpatient and outpatient areas. The FY 2010 UMHHC Operating Budget also reflects incremental increases in expenditures necessary to achieve the activity projections.

We recommend the Regents approve the proposed FY 2010 University of Michigan Hospitals and Health Centers' Operating Budget.

Respectfully submitted,

Timothy R. Slottow
