THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST

Subject: Michigan Medicine
        University Hospital
        Operating Room Air Handling Unit Upgrades

Action Requested: Approval to Proceed with Project

Background:

This project will upgrade two operating room suite air handling units and return fans to provide improved reliability, performance, and energy efficiency. The scope of this project includes the architectural, electrical, and mechanical work necessary to accomplish these improvements. There will be no impact on parking from this project.

The estimated cost of the project is $1,600,000. Funding will be provided from Health System resources. The construction cash flow may be provided, all or in part, by bond proceeds or increasing the commercial paper issuance under the commercial paper program, secured by a pledge of General Revenues, and authorized by the Board of Regents. The engineering firm of MA Engineering will design the project. The project is expected to provide an average of six on-site construction jobs. Construction is scheduled to be completed in the spring of 2018.

We recommend that the Board of Regents approve the Michigan Medicine University Hospital Operating Room Air Handling Unit Upgrades project as described and authorize issuing the project for bids and awarding construction contracts providing that bids are within the approved budget.

Respectfully submitted,

Marschall S. Runge
Executive Vice President for Medical Affairs and
Dean, Medical School

June 2017

Kevin P. Hegarty
Executive Vice President and
Chief Financial Officer
