ANN ARBOR CAMPUS

1. **Recommendations for approval of new appointments and promotions for regular associate and full professor ranks, with tenure.**

   (1) Castro, Maria G., Ph.D., professor of neurosurgery, with tenure, and professor of cell and developmental biology, without tenure, Medical School, effective July 1, 2011.

   (2) Harris, Marcelline R., associate professor of nursing, with tenure, School of Nursing, effective September 1, 2011.

   (3) Inman, Daniel J., professor of aerospace engineering, with tenure, effective September 1, 2011, chair, Department of Aerospace Engineering, and Clarence L. (Kelly) Johnson Collegiate Professor of Aerospace Engineering, College of Engineering, effective September 1, 2011 through August 31, 2016.

   (4) Kenyon, Matthew, associate professor of art and design, with tenure, School of Art and Design, effective September 1, 2011.

   (5) Lowenstein, Pedro R., M.D., Ph.D., professor of neurosurgery, with tenure, and professor of cell and developmental biology, without tenure, Medical School, effective July 1, 2011.

   (6) Miranda, Marie Lynn, professor of natural resources, with tenure, effective September 1, 2011, and dean, School of Natural Resources and Environment, effective January 1, 2012 through December 31, 2017.

   (7) Tulsky, David S., Ph.D., professor of physical medicine and rehabilitation, with tenure, Medical School, effective July 1, 2011.

   (8) Young, Yin Lu (Julie), promotion to associate professor of naval architecture and marine engineering, with tenure, College of Engineering, effective September 1, 2011 (currently associate professor of naval architecture and marine engineering, without tenure.)

2. **Recommendations for approval of reappointments of regular instructional staff and selected administrative/professional staff.**

   (1) Atkins, III, Daniel E., associate vice president for research cyberinfrastructure, Office of the Vice President for Research, effective September 1, 2011 through August 31, 2012 (also W. K. Kellogg Professor of Community Information, professor of information, with tenure, School of Information, and professor of electrical engineering and computer science, with tenure, College of Engineering.)
ANN ARBOR CAMPUS

2. Recommendations for approval of reappointments of regular instructional staff and selected administrative/professional staff.

(2) Avi-Yonah, Reuven S., Irwin I. Cohn Professor of Law, Law School, effective September 1, 2011 through August 31, 2016 (also professor of law, with tenure.)

(3) Axelrod, Robert, Mary Ann and Charles R. Walgreen, Jr. Professor for the Study of Human Understanding, College of Literature, Science, and the Arts, effective October 1, 2011 through September 30, 2016 (also professor of political science, with tenure, College of Literature, Science, and the Arts, and professor of public policy, with tenure, Gerald R. Ford School of Public Policy.)

(4) Baker, Jr., James R., M.D., Ruth Dow Doan Professor of Biologic Nanotechnology, Medical School, effective September 1, 2011 through August 31, 2016 (also professor of internal medicine, with tenure, associate professor of pathology, without tenure, Medical School, and professor of biomedical engineering, without tenure, College of Engineering.)

(5) Baum, David H., assistant dean for student affairs, Law School, effective September 1, 2011 through August 31, 2014.

(6) Cohen, Michael D., William D. Hamilton Collegiate Professor of Complex Systems, School of Information, effective September 1, 2011 through August 31, 2016 (also professor of information, with tenure, School of Information, and professor of public policy, without tenure, Gerald R. Ford School of Public Policy.)

(7) Courant, Paul N., professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016 (also university librarian and dean of libraries, Arthur F. Thurnau Professor, Harold T. Shapiro Collegiate Professor of Public Policy, professor of public policy, with tenure, Gerald R. Ford School of Public Policy, and professor of economics and public policy, with tenure, College of Literature, Science, and the Arts.)

(8) Dolan, Robert J., Stephen M. Ross Professor of Business, Stephen M. Ross School of Business, effective September 1, 2011 through June 30, 2012 (also professor of marketing, with tenure.)

(9) Fishman, Barry J., associate professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016 (also associate professor of education, with tenure, School of Education.)

ANN ARBOR CAMPUS

2. Recommendations for approval of reappointments of regular instructional staff and selected administrative/professional staff.

   (12) Guindi, Susan Marie, assistant dean for career services, Law School, effective September 1, 2011 through August 31, 2013.

   (13) Hines, Jr., James R., Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts, effective September 1, 2011 through August 31, 2016 (also professor of economics, with tenure, College of Literature, Science, and the Arts, professor of business economics, with tenure, Stephen M. Ross School of Business, L. Hart Wright Collegiate Professor of Law, and professor of law, with tenure, Law School.)

   (14) Hu, Howard, chair, Department of Environmental Health Sciences, and NSF International Department Chair of Environmental Health Sciences, School of Public Health, effective September 1, 2011 through August 31, 2014 (also professor of environmental health sciences, with tenure, professor of epidemiology, without tenure, School of Public Health, and professor of internal medicine, without tenure, Medical School.)

   (15) Lampert, Magdalene, George Herbert Mead Collegiate Professor of Education, School of Education, effective September 1, 2011 through August 31, 2016 (also professor of education, with tenure.)

   (16) Litman, Jessica D., professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016 (also John F. Nickoll Professor of Law, and professor of law, with tenure, Law School.)

   (17) Logue, Kyle D., Wade H. and Dores M. McCree Collegiate Professor of Law, Law School, effective September 1, 2011 through August 31, 2016 (also professor of law, with tenure.)

   (18) Montie, James E., M.D., Valassis Professor of Urologic Oncology, Medical School, effective September 1, 2011 through August 31, 2016 (also professor of urology, with tenure.)

   (19) Osawa, Yoichi, Ph.D., Warner-Lambert/Parke-Davis Professor of Medicine, Medical School, effective September 1, 2011 through August 31, 2016 (also professor of pharmacology, with tenure.)
ANN ARBOR CAMPUS

2. Recommendations for approval of reappointments of regular instructional staff and selected administrative/professional staff.

(20) Punch, Jeffrey D., M.D., Jeremiah and Claire Turcotte Professor of Transplantation Surgery, Medical School, effective September 1, 2011 through August 31, 2016 (also professor of surgery, with tenure.)

(21) Siedel, III, George J., Williamson Family Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2011 through August 31, 2016 (also Arthur F. Thurnau Professor, and professor of law, history and communication, with tenure.)

(22) Slemrod, Joel B., Paul W. McCracken Professor of Business Economics, Stephen M. Ross School of Business, effective September 1, 2011 through August 31, 2016 (also professor of business economics and public policy, with tenure, Stephen M. Ross School of Business, and professor of economics, with tenure, College of Literature, Science, and the Arts.)

(23) Sutcliffe, Kathleen M., Gilbert and Ruth Whitaker Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2011 through August 31, 2016 (also professor of organizational behavior and human resource management, with tenure.)

(24) Svejnar, Jan, Everett E. Berg Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2011 through August 31, 2016 (also professor of business economics, corporate strategy and international business, with tenure, Stephen M. Ross School of Business, professor of public policy, with tenure, Gerald R. Ford School of Public Policy, and professor of economics, without tenure, College of Literature, Science, and the Arts.)

(26) Weiss, Janet A., Mary C. Bromage Collegiate Professor of Organizational Behavior and Public Policy, Stephen M. Ross School of Business, effective September 1, 2011 through August 31, 2016 (also dean, Horace H. Rackham School of Graduate Studies, vice provost for academic affairs-graduate studies, Office of the Provost and Executive Vice President for Academic Affairs, professor of organizational behavior and public policy, with tenure, Stephen M. Ross School of Business, and professor of public policy, without tenure, Gerald R. Ford School of Public Policy.)

COMMITTEE APPOINTMENTS

11. Ann Arbor and Dearborn campuses.
Recommendations for approval of new appointments and promotions for regular associate and full professor ranks, with tenure
ACTION REQUEST: Faculty Appointment Approval

NAME: Maria G. Castro, Ph.D.

TITLES: Professor of Neurosurgery, and
        Professor of Cell and Developmental Biology, Medical School

TENURE STATUS: With Tenure (Neurosurgery)
                Without Tenure (Cell and Developmental Biology)

EFFECTIVE DATE: July 1, 2011

APPOINTMENT PERIOD: 12 Months

On the recommendation of Karin Muraszko, M.D., the Julian T. Hoff Professor and Chair of the Department of Neurosurgery, and J. Douglas Engel, Ph.D., the G. Carl Huber Professor of Developmental Biology and Chair of the Department of Cell and Developmental Biology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Maria G. Castro, Ph.D. as professor of neurosurgery, with tenure, and professor of cell and developmental biology, without tenure, Medical School, effective July 1, 2011.

Academic Degrees:
Dr. Castro received her Ph.D. degree in biochemistry in 1986 from the National University of La Plata, Argentina.

Professional Record:
Dr. Castro completed a fellowship from 1986 to 1988 at the National Institutes of Health and a fellowship in 1990 at the University of Reading in the United Kingdom. She was appointed as a lecturer at the Dundee Institute of Technology in the United Kingdom in 1991. In 1992, Dr. Castro was appointed as a lecturer at the University of Wales College of Cardiff. She was appointed as a senior lecturer in 1995 and rose to the rank of professor in 1998 at the University of Manchester School of Medicine. In 2001, Dr. Castro was appointed as professor of medicine at Cedars-Sinai Medical Center, with a joint appointment as professor of medicine at the University of California at Los Angeles.

Summary of Evaluation:
Dr. Castro’s research focuses on the molecular and cellular biology of glioblastoma multiforme, particularly using gene therapy approaches to trigger bystander immunological responses. She has published over 140 articles in highly respected journals, and holds four patents. Dr. Castro is the principal investigator of an R01, co-principal investigator on an additional R01, and co-investigator on several other grants. She is highly respected for her research, as evidenced by her invited presentations at more than 100 national and international venues.
Recent and Significant Publications:

Dr. Castro has an outstanding record of teaching at all levels. She teaches undergraduate, graduate, master’s students and residents, postdoctoral fellows and junior faculty. She has trained 11 doctoral and 13 master’s students, and has run a summer program for high school students with great success. She has developed numerous courses for the academic development of new investigators. Dr. Castro was a member of the Network of Minority Research Investigators, National Institute of Diabetes and Digestive and Kidney Diseases of the National Institutes of Health.

External Reviews:

**Reviewer A:** “Dr. Castro is well known to me since she is one of the foremost experts in the field of biological/gene therapies for brain tumors...She has been making a significant impact in understanding how gene therapy can be applied to the treatment of malignant glioma...She has also been a fantastic mentor and teacher of graduate students and fellows...She spends a lot of time with them and ensures that they are productive in their research and she tries to ensure their path to independence.”

**Reviewer B:** “Dr. Castro is a highly accomplished and outstanding investigator. Her research findings have appeared published in some of the most prestigious biomedical journals...Dr. Castro is considered a world leader in neuro-immunology, brain cancer immunotherapies and brain tumor microenvironment....Dr. Castro has an outstanding international reputation and she is a highly sought after reviewer and consultant.”
Reviewer C: “Maria consistently publishes pioneering work in the development of novel immune and targeted glioma therapeutics...Maria's publications are a tour de force in both prolificacy and the consistently high impact journals she publishes within. This is a strong indication that her abilities as an investigator are cutting-edge at the national and international level.”

Reviewer D: “Dr. Castro is a superb academician/scientist and exceptional teacher and mentor, who has made and will continue to make outstanding contributions to research in the area of tumor biology and therapeutics, she will be a tremendous asset as a teacher and mentor and will make incredibly valuable contributions in any administrative role that she may be engaged in within the larger University structures...Dr. Castro will make the University of Michigan very proud.”

Reviewer E: “The Department of Neurosurgery and the University of Michigan as a whole will tremendously benefit from Dr. Castro's appointment, she is a star scientist, an inspiring and sought after mentor and teacher and a committed, fair and well-balanced administrator, who will bring incredible leadership to the University. She is a sure thing.”

Dr. Castro has made major service contributions to her institution and her field. She is co-director of the Board of Governors of the Gene Therapeutics Research Institute of Cedars-Sinai Medical Center and serves on the editorial board of the World Journal of Virology, as well as numerous other journals. Dr. Castro serves on several study sections for the National Institutes of Health, and has chaired sessions of national committees including the American Society of Cell and Gene Therapy, and the Federation of American Societies in Experimental Biology. She is a grant reviewer for national and international organizations and is a member of several societies including the Cellular and Molecular Biology of Glias study section.

Summary of Recommendation:
Dr. Castro will contribute enormously to our goal to create more translational research within the departments, and specifically to develop experimental protocols for the treatment of brain tumors. She will play an important role in the expansion of work in gliomas, as well as in enhancing the overall development and growth of the Cancer Center. I am pleased, therefore, to recommend the appointment of Maria G. Castro, Ph.D. as professor of neurosurgery, with tenure, and professor of cell and developmental biology, without tenure, Medical School, effective July 1, 2011.

ACTION REQUEST: Faculty Appointment Approval

NAME: Marcelline R. Harris

TITLE: Associate Professor of Nursing, School of Nursing

TENURE STATUS: With Tenure

EFFECTIVE DATE: September 1, 2011

APPOINTMENT PERIOD: University Year

With the endorsement of the Executive Committee of the School of Nursing, I am pleased to recommend the appointment of Marcelline R. Harris as associate professor of nursing, with tenure, School of Nursing, effective September 1, 2011.

ACADEMIC DEGREES

Professor Harris received her bachelor of science in nursing from the College of St. Catherine in 1972. She received her master of science in nursing and patient care management from South Dakota State University in 1986 and her doctorate in nursing research from the University of Nebraska Medical Center in 1997. She also completed a post-doctoral fellowship in the NIH/NLM Program in Medical Informatics at the University of Minnesota and the Mayo Clinic in 2001.

PROFESSIONAL RECORD

Professor Harris began her academic career as an assistant professor of medical informatics at the Mayo Clinic and Mayo Clinic College of Medicine in 2002. Additionally, in 2002 she was appointed as an associate consultant with master’s faculty privileges in the Department of Health Sciences Research, Division of Biomedical Statistics and Informatics of the Mayo Clinic and Mayo Graduate School (2002-2007) and as a clinical nurse researcher and nurse administrator in the department of nursing, Division of Nursing Research and Informatics in the Mayo Clinic (2002-2010). In 2007, she was appointed a senior associate consultant with full faculty privileges in clinical and translational sciences in the Division of Biomedical Statistics and Informatics, Department of Health Sciences Research in the Mayo Clinic and Graduate School.

SUMMARY OF EVALUATION

Professor Harris has maintained an active research program and is viewed as a leader in the field of informatics by her nursing and interdisciplinary colleagues. Her research focus is at the intersection of clinical informatics research and nursing health services research and is a model of interdisciplinary collaboration with a focus on information and terminology modeling,
knowledge representation, and clinical decision support. There is very little research or theory development at the intersection of these fields, and she is well positioned to advance this scientific focus. Her particular emphasis is the embedding of knowledge in technology and the subsequent use of the system outputs for advancing science. Going forward, she is interested in identifying the informatics methods and techniques that focus on clinical information systems and the aggregation and utilization of that information on the context of nursing health services research.

Professor Harris has published 34 manuscripts (first author on 10) and six book chapters (first author on four) in peer-reviewed journals and books relevant to her program of research. Her publications are in high profile nursing and interdisciplinary journals, including *Nursing Research, Nursing Clinics of North America, Studies in Health Technology and Informatics, the Journal of Biomedical Informatics*, and the *New England Journal of Medicine*.

Professor Harris is an accomplished teacher who sets high standards for her students and invests the time and effort necessary to assist them to meet those standards and grow as beginning scholars and researchers. She is an active mentor giving generously of her time and expertise in mentoring students, junior faculty and colleagues. Additionally, Professor Harris' record of service demonstrates her commitment to responsible academic citizenship.

PUBLICATIONS

EXCERPTS FROM EXTERNAL REVIEWERS

Reviewer (A)

"For her work, her peers in the nursing and biomedical informatics community hold Dr. Harris in high regard. She is well respected as an interdisciplinary scholar whose publications demonstrate technical precision and both conceptual and clinical value to the profession. It is important to note that there are few other doctorally prepared nurses with major care delivery
administrative responsibilities who have made the extensive contributions that Dr. Harris has made. In terms of volume and impact, her scholarly productivity far exceeds that of many nurses…”

Reviewer (B)
“Dr. Harris is a recognized national leader in informatics. I firmly concur that the accomplishments of Dr. Harris demonstrate a sustained record of scholarship that has lead to transformational change in informatics and health care.”

Reviewer (C)
“Her research is very highly respected for its rigor, importance, and the clarity with which it is presented. In sum, Dr. Harris stands out among a relatively small number of individuals who have combined clinical training in nursing with research-intensive training in informatics, to create a professional portfolio that is very highly regarded.”

Reviewer (D)
“I… am impressed by the quality, focus and scholarly impact of her contributions. Dr. Harris’s [sic] publications are exemplars of excellence in health services research. The most outstanding contribution is the in press article in The New England Journal of Medicine. This retrospective observational study indicates that nurse staffing below target levels is associated with higher patient mortality. These types of studies are highly influential in the policy arena where nurse staffing and patient impact questions are raised nationally and internationally.”

Reviewer (E)
“I believe this candidate’s achievements in her field would far surpass others of like preparation. She has been extremely productive and has sustained a record of scholarly excellence.”

SUMMARY

Taken together, Professor Harris’ record of teaching, independent scholarship, sustained funding, national reputation, research achievements, and academic service meet the criteria for appointment as associate professor of nursing, with tenure. I am very pleased to recommend the appointment of Marcelline R. Harris as associate professor of nursing, with tenure, School of Nursing, effective September 1, 2011.

RECOMMENDED BY:

Kathleen Potempa
Dean, School of Nursing

RECOMMENDATION ENDORSED BY:

Philip J. Hanlon, Provost and
Executive Vice President for Academic Affairs

July 2011
On the recommendation of the Executive Committee of the College of Engineering, I am pleased to recommend the appointment of Daniel J. Inman as professor of aerospace engineering, with tenure, effective September 1, 2011, Clarence L. (Kelly) Johnson Collegiate Professor of Aerospace Engineering, and chair, Department of Aerospace Engineering, College of Engineering, effective September 1, 2011 through August 31, 2016.

ACADEMIC DEGREES

Daniel Inman received a B.S. in physics from Grand Valley State College in 1970. He received his M.S. in physics and Ph.D. in mechanical engineering from Michigan State University in 1975 and 1980, respectively.

PROFESSIONAL RECORD

Following graduation, Professor Inman joined the faculty of the State University of New York as an assistant professor in the Department of Mechanical and Aerospace Engineering. He was promoted to associate professor in 1984 and to professor in 1987. He held the position of chair of the Department from 1989-1992. He founded Garman Systems Incorporated in 1987 and served as president until 1996. After leaving SUNY, Professor Inman was named the G.R. Goodson Endowed Professor in 1998 at Virginia Polytechnic Institute and State University, and has served as the director of the NSF Center for Energy Harvesting Materials and Systems at that institution.

SUMMARY OF EVALUATION

Professor Inman’s research focuses on intelligent materials systems, and adaptive structures and smart structures. He also focuses on autonomic structures including morphing autonomous unmanned aircraft and autonomous active sensing. Some of Professor Inman’s current projects involve: solving vibration and control problems using smart structures, energy harvesting (use of smart materials to capture ambient energy for use in small electronics and wireless sensors, and methods focusing on harvesting vibration and thermal energy using piezoelectric, thermal electric and photovoltaic materials and devices), morphing aircraft structures (modeling and control theory of changing wing properties for flight and mission control, and using smart materials for adaptive control surfaces for flight), dynamics of cable harnessed satellites (vibration modeling including the wiring of satellites), smart materials and structural health monitoring (use of monitoring techniques with smart materials for wireless damage assessment),
bio inspired sensor nodes, and the use of piezoceramic-based composite actuators to simulate the motion of a jellyfish to serve as a base for sensor buoys. His national reputation in the field of aerospace engineering is illustrated by the fact that he is a fellow of five different professional organizations (AIAA, ASME, AAM, IIAC, NIA). His international presence is equally strong as indicated by his holding the Brunel Chair in Intelligent Materials and Structures at the University of Bristol in the United Kingdom, and his Honorary Professorship from the Nanjing University of Aeronautics and Astronautics, Nanjing, Jiangsu, China.

PUBLICATIONS

EXCERPTS FROM EXTERNAL REVIEWS

REVIEWER A: “His professional accomplishments speak for themselves: technical editor of several major journals and a book series; author of textbooks...; center director; former department chair; Fellow of a number of major professional organizations; recipient of major awards including the ASME J. P. Den Hartog Award for lifetime contributions to the field of vibration engineering; supervisor of nearly fifty completed Ph.D. degrees...He is viewed by his peers to be among the top researchers and practitioners in the world in both mechanical vibrations and intelligent structures. He is an outstanding representative of the engineering profession, and I have no doubt whatsoever that he will do a tremendous job as your head of aerospace engineering.”

REVIEWER B: “Professor Inman is a leading national and international authority in the control and dynamics of aerospace systems...Dan Inman would certainly rank in the top five of his peer group. His own contributions to research and technology development have been broadly recognized and adopted by his peers.”

REVIEWER C: “Dan Inman has an enviable knack of identifying and then leading the field of new areas – Smart Materials & Structures and Energy Harvesting being two good illustrations.”
REVIEWER D: "...it is clear that the ‘right’ candidate for this job must have an outstanding track record in education, research and service...this person must have vision and leadership skills, which necessarily implies an ability to motivate faculty, students and staff and build consensus to achieve your goals of maintaining the University of Michigan as an international leader in aerospace engineering...a successful candidate for this Chair position needs to be an outspoken advocate for your Engineering School and...must always be promoting the careers of the [junior] faculty at Michigan. I believe Dan Inman has a proven track record doing all these activities. As such, he will make an outstanding Aerospace Engineering Department Chair.”

REVIEWER E: “In my opinion, Dan is one of the most creative minds in our field. He is full of endless enthusiasm and encouragement, especially for the young researchers and has the good judgment and maturity to remain neutral and find an objective and impartial way to resolve conflict.”

REVIEWER F: “...I believe Dr. Inman is truly a great hire for the University of Michigan. I believe he will cultivate junior faculty and work closely with senior faculty to build the reputation of the department...”

REVIEWER G: “In addition to his award-winning expertise as an outstanding and dedicated teacher, mentor and scholar, Professor Inman has demonstrated outstanding intellectual and programmatic leadership in the performance and translation of innovative research that is recognized worldwide for its excellence and impact.”

SUMMARY OF RECOMMENDATION

Daniel Inman has a proven record as an excellent leader and scholar in the field of aerospace engineering. He has established a strong commitment to the broader academic interests that are key to assuming the role of department chair and has demonstrated leadership throughout his professional career. We are presented with an excellent opportunity to hire a superb researcher, strong educator, and outstanding leader to continue the tradition of excellence in the Department of Aerospace Engineering. I am pleased to recommend the appointment of Daniel J. Inman as professor of aerospace engineering, with tenure, effective September 1, 2011, Clarence L. (Kelly) Johnson Collegiate Professor of Aerospace Engineering, and chair, Department of Aerospace Engineering, College of Engineering, effective September 1, 2011 through August 31, 2016.

Provost and Executive Vice President for Academic Affairs

July 2011
THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Faculty Appointment Approval

NAME: Matthew Kenyon

TITLE: Associate Professor of Art and Design, School of Art and Design

TENURE STATUS: With Tenure

EFFECTIVE DATE: September 1, 2011

APPOINTMENT PERIOD: University Year

On the recommendation of the Executive Committee of the School of Art and Design, I am pleased to recommend the appointment of Matthew Kenyon as associate professor of art and design, with tenure, School of Art and Design, effective September 1, 2011.

ACADEMIC DEGREES

Matthew Kenyon received a Bachelor of Arts degree from Southeastern Louisiana University in 1999 and a Master of Fine Arts degree from Virginia Commonwealth University in 2002.

PROFESSIONAL RECORD

Professor Kenyon held the position of assistant professor of new media and interdisciplinary digital studio at the Pennsylvania State University School of Visual Arts from 2006 to 2011. Previously, he served as assistant professor of visual arts and new media at the State University of New York (Fredonia) from 2004 to 2006, and as assistant professor of new media at the University of Montevallo (Alabama) from 2002 to 2004.

SUMMARY OF EVALUATION

Professor Kenyon is a highly-collaborative and innovative artist who is a rising star in the emerging art-design domain of data visualization. His use of technology to examine and critique contemporary culture is humorous, thought-provoking, and poetic. His creative work – exhibited under the collective identity S.W.A.M.P. – has been shown extensively at major venues across the US and internationally and has been included in major publications and anthologies. Professor Kenyon has been successful in securing funding for his research and creative work, including a collaboration on nano-technology research supported by NSF and several projects funded by the Pennsylvania State University Social Science Research Institute. Recruited to the School of Art and Design as one of five faculty members in the Computational Media and Interactive Systems cluster (funded through the University’s Interdisciplinary Faculty Initiative), he brings a strong record of interdisciplinary collaboration and leadership in merging laboratory and data analysis with aesthetic design in a fine arts context.
Professor Kenyon is an inventive, dedicated, rigorous, and inspirational teacher who has had a positive and lasting impact on students’ educational and creative careers. His strengths include the teaching of contemporary technological tools and concepts and the ability to contextualize those tools and concepts in a research-based art-design setting. His appointment will enhance current instructional strengths of the School on many levels, and he will fill a critical gap in the teaching of data visualization, gaming, and media theory. With experience in cross-disciplinary collaborative teaching, Professor Kenyon is equally well positioned to contribute to the instructional potential of the Computational Media cluster.

Throughout his academic career, Professor Kenyon has been a highly engaged and productive university citizen. At Pennsylvania State University, he was responsible for the establishment of studios for student interdisciplinary research/creative work, he researched and implemented an online portfolio application to aid in the admissions and faculty review process, and he served as a student group advisor and as acting head of his program. While a graduate student at Virginia Commonwealth University, he helped build his department’s first fine arts computer lab, and as an assistant professor at the University of Montevallo, he led successful efforts to design curricula, budget models, and facilities for the school’s new media concentration. His entrepreneurial spirit and commitment to collaboration and teamwork will be of tremendous benefit to both the School and his interdisciplinary cluster.

EXCERPTS FROM EXTERNAL LETTERS

Reviewer (A)  
“He uses the lens of technology to amplify our current cultural state and reveals the ironies and indignities of the world with the images and objects he leaves us... The quality, the truly unique nature, and the depth of critical thinking involved with Mr. Kenyon’s work all point to what I believe is a bright future of thinking, making and teaching.”

Reviewer (B)  
“...he seems to be an artist to place a long term bet on for moving nimbly across the landscape of future fertile territories that are characterized by the ongoing interactions between the human, the world at large and the technological mediations that we continually invent.”

Reviewer (C)  
“The inclusion of Matthew’s collaboratively produced work into this important show [Talk to Me, Museum of Modern Art, New York] speaks to his rising status in the field of smart object design. I particularly appreciate that Matthew attempts to build a social message into his extensive series of installation projects.”

Reviewer (D)  
“In general, I see a very strong progression in the technical expertise of Professor Kenyon’s work. I also see unique conceptual development in the data visualization pieces...And, I certainly feel that Professor Kenyon’s level of achievement exceeds requirements for someone being considered for tenure and promotion.”
Reviewer (E)
“The inclusion of Matt’s work in Stephen Wilson’s book Art + Science Now is a very impressive recognition of his establishment as an artist who probes cultural, philosophical and social questions connected with cutting-edge scientific and technological research. It is therefore not surprising to see Matt’s name appear next to the most renowned pioneers in the field such as Stelarc, SymbioticA and Eduardo Kac.”

Reviewer (F)
“...I have had the opportunity to work closely with many of the leading artists in the digital arts field. Mr. Kenyon is a very original new media artist and researcher...I am certain he would make an invaluable addition to your staff.”

Reviewer (G)
“Kenyon’s stature as an emerging artist to watch in the international scene—the only context truly relevant for media art today—is clearly established...Kenyon’s homely devices, tangible interfaces, and performative contraptions demystify languages of power. His audience does not need to be techno-savvy...This negotiation between the theoretically-based construct on the one hand, and the hands-on fascination of simple gadgets and gizmos on the other, makes Kenyon’s work both refreshing and important.”

SIGNIFICANT RECENT WORK AND ACTIVITIES

2010  Group Exhibition, *File Prix Lux – Art of the XII Century*, Electronic Language International Festival, Sao Paulo, Brazil.

SUMMARY

Matthew Kenyon is an exceptional artist-designer, a committed educator, and university citizen. He is well-positioned both in academic expertise and research university experience to engage at a high level with colleagues across campus and to contribute to the success of the Computational Media cluster and to the School of Art and Design. I am pleased to recommend the appointment of Matthew Kenyon as associate professor of art and design, with tenure, School of Art and Design, effective September 1, 2011.

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Faculty Appointment Approval

NAME: Pedro R. Lowenstein, M.D., Ph.D.

TITLES: Professor of Neurosurgery, and
Professor of Cell and Developmental Biology, Medical School

TENURE STATUS: With Tenure (Neurosurgery)
Without Tenure (Cell and Developmental Biology)

EFFECTIVE DATE: July 1, 2011

APPOINTMENT PERIOD: 12 Months

On the recommendation of Karin Muraszko, M.D., the Julian T. Hoff Professor and Chair of the Department of Neurosurgery, and J. Douglas Engel, Ph.D., the G. Carl Huber Professor of Developmental Biology and Chair of the Department of Cell and Developmental Biology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Pedro R. Lowenstein, M.D., Ph.D. as professor of neurosurgery, with tenure, and professor of cell and developmental biology, without tenure, Medical School, effective July 1, 2011.

Academic Degrees:
Dr. Lowenstein received his M.D. degree in 1981 and Ph.D. in 1984, both from the University of Buenos Aires, Argentina.

Professional Record:
Dr. Lowenstein completed a postdoctoral fellowship at Johns Hopkins University from 1984-1986, and a visiting fellowship at the National Institutes of Health from 1986-1987. He was appointed as a research scientist at Oxford University from 1987-1990, and was appointed as a lecturer in anatomy at the University of Dundee in Scotland from 1990-1992. In 1992, he was appointed as a lecturer in neuroscience at the University of Wales and was promoted to senior lecturer in 1994. Dr. Lowenstein was appointed as a research fellow at the Lister Institute of Preventive Medicine at the University of Manchester School of Medicine in 1993 and advanced to professor of molecular medicine and gene therapy at that institution in 1995. He was appointed as a professor at Cedars-Sinai Medical Center, with a joint appointment as professor of pharmacology and medicine at the University of California at Los Angeles in 2001.

Summary of Evaluation:
Dr. Lowenstein's research focuses on the molecular and cellular biology of brain neoplasms. He examines the interactions between tumor cells and the microvasculature, and applies mathematical modeling approaches to his research. Dr. Lowenstein has over 150 published papers, many in high-profile journals. He has been an invited speaker at over 100 venues nationally and internationally. He is director of the board of governor's Gene Therapeutics Research Institute and is the Bram and Elaine Goldsmith Endowed Chair in Gene Therapeutics at the Cedars-Sinai Medical Center.
Recent and Significant Publications:

Dr. Lowenstein’s teaching activities include didactic teaching of undergraduate and graduate students, postdoctoral fellows and junior faculty. He has mentored several trainees in his laboratory, and many of his trainees have continued on to successful academic careers. Dr. Lowenstein has designed courses in gene therapy and pharmacology at UCLA and is regarded as an excellent instructor.

External Reviews:

**Reviewer A:** “Pedro is outstanding in all regards including being an international leader, an inspiring and dedicated teacher, and a dynamic ‘mover and shaker’ in innovative concepts and programmatic developments in these areas. He has an amazing track record in generating NIH funding and publishing in high impact journals. His remarkably collaborative and inclusive approach to basic and translation research, combined with his infectious enthusiasm and broad prospective will be an invaluable resource to your department in staying in the forefront of new frontiers in translational science.”

**Reviewer B:** “Dr. Lowenstein has made landmark discoveries in the field of adenovirus-mediated gene transfer. Cutting-edge work published in the most prestigious and influential peer reviewed journals has served to support the development of gene therapy for the treatment of brain diseases, especially for the treatment of brain tumors...his work always continues to take unexpected turns into unexplored areas...he is about to publish a series of papers on the patterns of brain tumor growth that are due to revolutionize what the field has thought for the last forty years.”
Reviewer C: “His enthusiasm, vigor, and drive are particularly noteworthy. What impresses me more than anything is that he is delivering on his vision to combine basic research with translation to the clinic. Translational research is a buzzword these days, but Dr. Lowenstein has lived this idea for more than 20 years and is delivering.”

Reviewer D: “Dr. Lowenstein’s work in brain tumor biology and therapeutic approaches using gene therapy is at the forefront internationally and is widely recognized and respected. He has numerous publications that are highly regarded and highly cited in this area. His very recent work in this area and immunologic privilege in the CNS is exciting and ground breaking.”

Reviewer E: “I am convinced that in the years to come Dr. Lowenstein will become not only a leader in your Department of Neurosurgery, but also within the University of Michigan. In this way, his appointment will benefit both your own Department and Programs and the University of Michigan at large.”

Dr. Lowenstein’s service includes his role as an expert advisor to the Gene Therapy Advisory Committee in the United Kingdom, and as a member of the Medical Research Council Medical Advisory Board in the United Kingdom. He has served on institutional, national, and international committees and as a grant reviewer for numerous national and international journals and associations, including the Wellcome Trust and the National Science Foundation. Dr. Lowenstein is also a member of multiple editorial boards and has organized several scientific conferences.

Summary of Recommendation:
Dr. Lowenstein is a remarkable scholar who has an international reputation for his translational research. He has distinguished himself as a lecturer and mentor and has contributed his time freely to many service activities. I am pleased, therefore, to recommend the appointment of Pedro R. Lowenstein, M.D., Ph.D. as professor of neurosurgery, with tenure, and professor of cell and developmental biology, without tenure, Medical School, effective July 1, 2011.

July 2011
Approval of a Faculty and Administrative Appointment

Marie Lynn Miranda
Dean, and Professor of Natural Resources, School of Natural Resources and Environment
With Tenure
September 1, 2011 (Professor)
January 1, 2012 through December 31, 2017 (Dean)

I am pleased to recommend for Regental approval the appointment of Marie Lynn Miranda as professor of natural resources, with tenure, effective September 1, 2011, and dean, School of Natural Resources and Environment, for a five-year renewable term, effective January 1, 2012 through December 31, 2017. This recommendation follows a national search conducted by a search advisory committee.

Professor Miranda is a faculty member in the Nicholas School of the Environment, the Integrated Toxicology and Environmental Health Program, and the Duke Global Health Institute at Duke University. She is the founding director of the Children’s Environmental Health Initiative, a position she has held since 1999. She is also a faculty member in the Department of Pediatrics within Duke Medicine.

Marie Lynn Miranda earned her A.B. degree from Duke University in 1985 and her M.A. and Ph.D. degrees in economics from Harvard University in 1988 and 1990, respectively. She joined the faculty of Duke University as an assistant professor of public policy in the Sanford Institute of Public Policy in 1990. In 1995, she transferred her faculty appointment to the Nicholas School of the Environment where she was an assistant professor of the practice of environmental policy and director of undergraduate programs. In 1999, she was promoted to associate professor of the practice of environmental policy, and became a faculty member in the Integrated Toxicology Program and founding director of the Children’s Environmental Health Initiative. In December 2007, she became an associate professor (with tenure) of environmental sciences and policy and pediatrics. On July 1, 2011, she was promoted to professor in the Nicholas School and the Department of Pediatrics. From 2000-2005, Professor Miranda held the Dan and Margaret Gabel Chair in Environmental Ethics and Sustainable Environmental Management, one of Duke’s fixed term endowed chairs.

Among her many academic leadership positions, she has chaired the Nicholas School’s Faculty Council and is completing two years of services as vice-chair of the university-wide Executive Committee of the Academic Council. She is also a member of the Business and Finance
Committee of the Duke Board of Trustees, the University Priorities Committee, and the Duke Translational Medicine Institute’s Leadership Group.

Professor Miranda is a dedicated teacher and researcher. In recognition of her commitment to teaching, she was awarded a Lilly Foundation Pedagogy Fellowship and the Richard K. Lublin Distinguished Award for Teaching Excellence, Duke’s highest honor for teaching. Her courses focus on environmental sciences and policy. Her research, which is funded at the level of several million dollars a year, is supported by both federal and foundation sponsors ranging from the U.S. Environmental Protection Agency to the Centers for Disease Control and Prevention, the National Institutes of Health, the World Health Organization, and the Robert Wood Johnson Foundation. Professor Miranda has published over sixty articles in peer-reviewed journals. Nationally, Professor Miranda serves on the federal Children’s Health Protection Advisory Committee and serves as the principal investigator on one of the twelve federally funded children’s environmental health centers.

As founding director of the Children’s Environmental Health Initiative (CEHI), she leads a mission-driven research, education, and outreach organization committed to fostering environments where all children can prosper. With a full-time staff of 30 and more than 40 faculty collaborators, CEHI advances an agenda of bringing science to bear in effecting policy change. CEHI’s peer-reviewed work is widely cited in the U.S. Environmental Protection Agency’s current Integrated Science Assessment for revisions to the National Ambient Air Quality Standard for lead. CEHI also works closely with a wide range of community organizations and non-profits in addressing children’s environmental health issues in the community. In 2008, CEHI won the USEPA’s Environmental Justice Achievement Award.

Professor Miranda has exhibited a keen ability to bring integrated, interdisciplinary perspectives to bear on pressing policy concerns especially related to complex questions of environmental health. With her scientific expertise and her leadership skills, she will play a critical role in advancing the University’s commitment to developing approaches and solutions for a more sustainable world. I recommend her appointments with the greatest enthusiasm.

Respectfully submitted,

Philip J. Hanlon
Provost and Executive Vice President for Academic Affairs

July 2011
On the recommendation of Edward A. Hurvitz, M.D., James W. Rae Collegiate Professor and Chair of the Department of Physical Medicine and Rehabilitation, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of David S. Tulsky, Ph.D. as professor of physical medicine and rehabilitation, with tenure, Medical School, effective July 1, 2011.

Academic Degrees:
Dr. Tulsky received the Ph.D. degree in clinical psychology from the University of Illinois at Chicago in 1989.

Professional Record:
Dr. Tulsky was appointed as an instructor at Rush Medical College in Chicago from 1989-1991, followed by an appointment as an assistant professor at the California School of Professional Psychology from 1991-1992. From 1992-2000, he was the project director and manager at The Psychological Corporation in San Antonio, Texas. Dr. Tulsky was appointed as an associate professor of physical medicine and rehabilitation at the University of Medicine and Dentistry of New Jersey from 2001-2010. He has been an adjunct associate professor in the Department of Physical Medicine and Rehabilitation at the University of Michigan since August of 2010.

Summary of Evaluation:
Dr. Tulsky’s research focuses on the development and validation of testing instruments for cognitive functioning, with particular interest in assessment of quality of life measures in people with significant neurological deficits. He has published 53 articles, one book and 12 book chapters. Dr. Tulsky is principal investigator on three National Institutes of Health grants, and investigator on seven additional grants. Dr. Tulsky’s expertise is evidenced by over 100 invited presentations locally, nationally, and internationally.
Recent and Significant Publications

Dr. Tulsky’s teaching includes his role supervising numerous Ph.D. students and M.D. level researchers. He has served as a mentor to junior faculty, and has participated in several university training committees. Dr. Tulsky has organized symposia and workshops, and has led a large research and measurement development project for The Psychological Corporation in developing the Wechsler Adult Intelligence Scale. He will play a major role in the Department of Physical Medicine and Rehabilitation as director of the Rehabilitation Outcomes and Assessment Research Center.

External Reviews:

**Reviewer A:** “His research has provided an extremely important psychometric foundation for the entire field of cognitive and neuropsychological assessment and he is highly regarded nationally and internationally...He has been involved in and published leading articles in assessing cognitive impairment from aging-dementia to stroke and TBI.”

**Reviewer B:** “He is well known throughout the field of medical rehabilitation for his clinical research in both spinal cord injury and traumatic brain injury with a focus on outcome measurement development and cognition.”

**Reviewer C:** “Dr. Tulsky has achieved significant national recognition. His work is widely known and highly respected. In my view, he ranks among the top ten percent of researchers in the fields of Rehabilitation and Rehabilitation Psychology. He has gained an international reputation befitting an individual with the title professor.”

**Reviewer D:** “Dr. Tulsky has developed an innovative research program in the area of patient-reported outcomes measurement instrumentation and rehabilitation populations. The NIH has established this area of research as part of their Roadmap to improving the research infrastructure. Dr. Tulsky’s work has addressed these initiatives and has been awarded several
collaborative grants...His work is unique and he is at the cutting edge of measurement science in rehabilitation medicine.”

Reviewer E: “There is no question that Dr. Tulsky’s scholarship has had a significant impact on the field. His revisions of the Wechsler scales had an effect on almost every psychologist involved in cognitive assessment, including the ways in which general intelligence and episodic memory were conceptualized. Dr. Tulsky’s chapters, edited volumes, and numerous presentations about these new scales cemented his role as a leader in neuropsychology and test development.”

Reviewer F: “He has played an important role in the development and norming of the NIH Toolbox, an instrument that will impact research activities for years to come. His publications are required reading in graduate classes and are likely some of the most accessed materials by clinicians. Anyone considering development of an outcome measure, assessment of quality of life, or evaluation of cognitive abilities will want to consult with Dr. Tulsky.”

Dr. Tulsky has been a member of several committees, including the International Review Board of Quality of Life Research and the American Congress of Rehabilitation Medicine. He is currently on the executive committee of the National Institute on Disability and Rehabilitation Research (NIDRR), Model Spinal Cord Injury System, and chairs the Outcomes Measurement/Quality of Life & Participation Special Interest Committee for that organization. He is also a reviewer for multiple journals.

Summary of Recommendation:
Dr. Tulsky is a leader in his field of expertise who will bring to Michigan substantial experience and demonstrated competence in research, mentoring, and service. His collaborative research approach will build and strengthen research efforts in the Department of Physical Medicine and Rehabilitation and foster collaborations across the University of Michigan. I am pleased, therefore, to recommend the appointment of David S. Tulsky, Ph.D. as professor of physical medicine and rehabilitation, with tenure, Medical School, effective July 1, 2011.

ACTION REQUEST: Faculty Promotion Approval

NAME: Yin Lu (Julie) Young

CURRENT TITLE: Associate Professor of Naval Architecture and Marine Engineering, without tenure, College of Engineering

RECOMMENDED TITLE: Associate Professor of Naval Architecture and Marine Engineering, with tenure, College of Engineering

EFFECTIVE DATE: September 1, 2011

It is recommended that Yin Lu (Julie) Young, associate professor of naval architecture and marine engineering, without tenure, College of Engineering, be granted tenure to be held with her title of associate professor of naval architecture and marine engineering, College of Engineering, effective September 1, 2011.

Academic Degrees:
Ph.D. 2002 The University of Texas at Austin
M.S. 1998 The University of Texas at Austin
B.S. 1996 University of Southern California

Professional Record:
09/09- present Associate Professor, Department of Naval Architecture and Marine Engineering, University of Michigan
07/09-08/09 Visiting Associate Research Scientist, Department of Naval Architecture and Marine Engineering, University of Michigan
05/09 – 07/09 Senior ASEE-ONR Summer Faculty Fellow, Naval Surface Warfare Center, Carderock Division, Maryland
03/08-08/08 UPS Visiting Professor, Department of Civil and Environmental Engineering, Stanford University
09/02-06/09 Assistant Professor, Department of Civil and Environmental Engineering, Princeton University

Summary of Evaluation:
Teaching: Professor Young is an enthusiastic and dedicated teacher and mentor. When she arrived on campus in July 2009, she volunteered to teach a first-year College-wide course, Engineering 100: Introduction to Engineering. She also developed and taught a new graduate course in advanced marine hydrodynamics, NA520: Wave Loads on Ships and Offshore Structures. She excelled in both, illustrating her strong commitment to teaching and an ability to engage graduate students in the area of complex fluid-structure interactions. Professor Young is known as an energetic and committed instructor. The student letters describe Professor Young as a professor concerned about student learning and willing to take extra effort to engage them in
the learning process. Professor Young’s graduate advising and one-on-one Ph.D. mentoring has been very strong. She will have graduated three Ph.D. students by May 2011. Her research group now at Michigan includes five M.S. and doctoral students and two postdoctoral scholars. It is also a measure of the effectiveness Professor Young’s mentoring that all of her students, including undergraduates, are encouraged to publish and present the results of their research in archival journals and at international conferences.

Research: Professor Young’s research activities are extensive, varied, and substantial. Professor Young conducts research in a wide variety of topics related to hydrodynamics with interests spanning multiphase flows, flow-structure interactions, hydro-energy conversion, coastal processes, and biomedical engineering. She has worked most extensively in the area of flow-structure interactions as they occur in hydrodynamic systems. Of particular note is her work in the area of the hydro-elastic response of marine propulsors to varying flows and loads. Her work has led to the development of physics-based numerical models that are now being used by the U.S. Navy for the design and evaluation of composite-bladed propulsors that will “self-adapt” to changing flow conditions in ship wakes and as they interact with free surfaces. Professor Young has extended her modeling effort to include extreme flow structure interactions that occur during underwater explosions, developing an Eulerian compressible multiphase fluid solver mated with a Lagrangian solid solver that are coupled at the solid-fluid interface. Professor Young was recognized with an Office of Naval Research (ONR) Young Investigator Award in 2005. Professor Young’s research program has been supported by a wide variety of sources. She has been the PI or co-PI on over a dozen research grants and contracts, supported by external funding of over $2.6 million of which approximately $1.3 M is at the University of Michigan. Professor Young has been extremely productive, having authored or co-authored over 40 archival journal publications, with 17 of these published over the last two years. The impact of her work is expected to grow given the overall trajectory of her research and publication record.

Recent and Significant Publications:

**Service:** Professor Young has made important service and leadership contributions to both the University and to professional organizations. Her willingness to teach ENG100 as a first time UM faculty member represents an impressive service contribution to both the department and College. In addition to serving on Naval Architecture and Marine Engineering Ph.D. qualifying exams committees, she is also a member of the important Naval Architecture and Marine Engineering Chair Search Committee and the Marine/Naval CFD (Computational Fluid Dynamics) Junior Faculty Search Committee. Perhaps more impressive is Professor Young’s national and international service portfolio. She was or is active in service roles including: a representative of the U.S. National Committee on Theoretical and Applied Mechanics (USNC/TAM); member, co-chair, or chair of SNAME, ASME, ICTAM, CAFOE - National Academy of Engineering, and ONR conferences, workshops, and symposia committees; and invited speaker at national and international meetings and conferences. These activities and their associated impact show that Professor Young has the visibility of a generally more senior, tenured faculty member. As the external reviewers note, Professor Young’s contributions are equivalent to or go beyond those of an average tenured faculty member of any good academic institution.

**External Reviewers:**

Reviewer A: “Overall the quality and the significance of her research activity is very good... I definitively recommend Julie to be tenured at University of Michigan. At my institution I will recommend her for an equivalent position.”

Reviewer B: “Here she has attacked a very difficult problem because of the complexities in computing both the flow in a shoaling breaking wave and the behavior of the deformable porous sand bed and in coupling the flow and bed models. ... She and her co-authors compared the results of the computations to their own laboratory experiments and found the predictions to be good. Given the complexity of the phenomena, this is impressive work. ... She is a credit to your institution.”

Reviewer C: “I have found in her presentations of her research work a high degree of enthusiasm that is infectious. ... In her short professional career to date she has accomplished much. If she continues at that pace and maintains her enthusiasm she has great potential to be a significant contributor to science, engineering and the education of engineering students.”

Reviewer D: “Professor Young’s record portrays a thoughtful and creative researcher with a very promising career ahead of her in the general area of Naval hydrodynamics and coastal engineering. ... I wholeheartedly and without any reservations support promoting Professor Young to a rank of Associate Professor with tenure in your department. She is clearly a rising star in the Naval Hydrodynamics area, and is well ahead of any other young researchers in similar areas that I know of.”
Reviewer E: “Professor Young’s prolific publications in the scholarly journals and conferences in the composite propeller area have attracted world-wide attention from academia, industry and marine journalists. She has been invited to present her innovative ideas at numerous academic institutions and conferences…”

Reviewer F: “Dr. Young is an energetic and outstanding scholar in computational methods in fluid-structure interactions. She has all the ingredients and the potentials to become one of the leading scholars and university educators. … Based on my knowledge of Dr. Young’s accomplishments, there is no doubt in my mind that she will be a true asset to any university. I would consider the academic accomplishments by Dr. Young are at least comparable to those who would be promoted to associate professor with tenure at any top university in this country.”

Reviewer G: “Professor Young’s record of publication is excellent for a scholar of her relatively junior status. … Further, the scope and range of her published work is broader than one would generally expect of a junior faculty, which, again, is a highly desirable attribute. … She most certainly meets the research-, teaching- and service-related criteria for tenure at a top-tier research university like Michigan. She is well on her way to academic prominence and your department stands to benefit from her success for many years to come.”

Reviewer H: “First and foremost, Professor Young’s academic record speaks amply of her excellent research scholarship and funding achievements. There is no doubt that she is a ‘once-in-a-decade’ truly exceptional academician nationally and internationally.”

Summary of Recommendation:
Professor Young is a widely respected researcher in numerical and physical modeling of multiphase flows and composite marine structures and has drawn praise from her colleagues here at Michigan and also from peer institutions. She is a devoted and caring teacher and advisor, and has a substantial internal and external service record. It is with the support of the College of Engineering Executive Committee that I recommend Professor Yin Lu (Julie) Young for granting of tenure to be held with her current title of associate professor of naval architecture and marine engineering, Department of Naval Architecture and Marine Engineering, College of Engineering, effective September 1, 2011.

Recommendations for approval of reappointments

of regular instructional staff and selected academic administrative staff
THE UNIVERSITY OF MICHigan
REGENTS COMMUNICATION

ACTION REQUEST: Reappointment of an Administrative Appointment for a Faculty Member

NAME: Daniel E. Atkins III

CURRENT TITLES: Associate Vice President for Research Cyberinfrastructure, Office of the Vice President for Research, W. K. Kellogg Professor of Community Information, Professor of Information, with tenure, School of Information, and Professor of Electrical Engineering and Computer Science, with tenure, College of Engineering

TITLE BEING RENEWED: Associate Vice President for Research Cyberinfrastructure, Office of the Vice President for Research

TERM: One Year, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2012

We are pleased to recommend the reappointment of Daniel E. Atkins III as associate vice president for research cyberinfrastructure, Office of the Vice President for Research, effective September 1, 2011 through August 31, 2012. Professor Atkins reports to the provost and executive vice president for academic affairs and the vice president for research in this capacity.

Professor Atkins received his Bachelor of Science in electrical engineering from Bucknell University in 1965. He attended the University of Illinois, Urbana, where he completed his Master of Science in electrical engineering in 1967 and his Doctorate in computer science in 1970. He joined the University of Michigan faculty in 1971 as an assistant professor of computer engineering and was promoted through the ranks to professor in 1981.

From 1982-1991, Professor Atkins held positions as associate dean for research and graduate programs and interim dean of the College of Engineering. He was the founding dean of the School of Information serving as dean of the School of Information and Library Studies beginning in 1992. Under his leadership, the school was re-chartered by the Regents as the School of Information in 1994.

Professor Atkins chaired the National Science Foundation Blue-Ribbon Advisory Panel on Cyberinfrastructure, which in 2003 issued the internationally recognized report, “Revolutionizing Science and Engineering Through Cyberinfrastructure.” From 2006-2008, he was on leave from the University to serve the National Science Foundation as the inaugural director of the Office of Cyberinfrastructure. He is the author or co-author of numerous papers, articles, books, and conference proceedings.
Professor Atkins has been instrumental in the formation of a new strategic partnership with Information and Technology Services, which has created an initiative called, “Computing and Information Resources for Research as a Utility Service (CIRRUS).” This is part of a strategy to develop a world-class, 21st century, information technology infrastructure in support of the academic, research, teaching and learning missions of the university.

We are pleased to recommend the reappointment of Daniel E. Atkins III as associate vice president for research cyberinfrastructure, Office of the Vice President for Research, effective September 1, 2011 through August 31, 2012.

REGENTS COMMUNICATION

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: Reuven S. Avi-Yonah

CURRENT TITLES: Irwin I. Cohn Professor of Law, and Professor of Law, with tenure, Law School

TITLE BEING RENEWED: Irwin I. Cohn Professor of Law, Law School

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

The Law School respectfully requests that the Regents approve the reappointment of Reuven S. Avi-Yonah as the Irwin I. Cohn Professor of Law, Law School, effective September 1, 2011 through August 31, 2016.

The Irwin I. Cohn Professorship was established in 2000 by a gift from Avern L. Cohn, J.D. 1949, of West Bloomfield, Michigan, in honor of his father, a 1917 graduate of the Michigan Law School. Judge Cohn, a United States District Judge for the Eastern District of Michigan, shared his father’s love of law, commitment to the University and sense of public duty. The endowment includes prior gifts by Judge Cohn to the Irwin I. Cohn Faculty Research Fund, the Avern L. Cohn Fund for the Advancement of Michigan Law, and the Irwin I. and Avern Cohn Dean’s Discretionary Fund. Professor Avi-Yonah was named the first holder of the Irwin I. Cohn Professorship in 2001.

Professor Avi-Yonah received a B.A. degree summa cum laude in history from Hebrew University in 1983. He received an A.M. (1984) and a Ph.D. (1986) in history from Harvard University, and a J.D. degree magna cum laude from Harvard Law School in 1989. After several years of private practice, Professor Avi-Yonah joined the faculty of the Harvard Law School as an assistant professor of law in 1994. He came to the University of Michigan as a professor of law, with tenure, in 2000.

Professor Avi-Yonah is widely recognized as a leading scholar in the field of international law and international taxation. His major articles address such questions as international taxation of electronic commerce, globalization and the international ramifications of taxation policy choices made by the United States. He has also been active in the profession, serving as a member of the Executive Committee of the Tax Section of the New York State Bar Association and a member of the United States Income Advisory Board, Tax Management. He has been a consultant to the U.S. Treasury Office of Tax Policy.
We are pleased to recommend the reappointment of Reuven S. Avi-Yonah as the Irwin I. Cohn Professor of Law, Law School, for a five-year renewable term, effective September 1, 2011 through August 31, 2016. His reappointment is recommended with enthusiasm.

July 2011
ACTION REQUEST: Faculty Reappointment to an Endowed Professorship

NAME: Robert Axelrod

CURRENT TITLES: Mary Ann and Charles R. Walgreen, Jr. Professor for the Study of Human Understanding, Professor of Political Science, with tenure, College of Literature, Science, and the Arts, and Professor of Public Policy, with tenure, Gerald R. Ford School of Public Policy

TITLE BEING RENEWED: Mary Ann and Charles R. Walgreen, Jr. Professor for the Study of Human Understanding, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: October 1, 2011 through September 30, 2016

On the recommendation of the Executive Committees of the Department of Political Science and the College of Literature, Science, and the Arts, and with the endorsement of the Gerald R. Ford School of Public Policy, we are pleased to recommend the reappointment of Robert Axelrod as the Mary Ann and Charles R. Walgreen, Jr. Professor for the Study of Human Understanding, College of Literature, Science, and the Arts, for a five-year renewable term, effective October 1, 2011 through September 30, 2016.

As a result of a generous gift from Charles R. Walgreen, Jr., the Mary Ann and Charles R. Walgreen, Jr. Professorship for the Study of Human Understanding was established by the Regents in 1968. The occupant of the professorship is allowed wide discretion in the development of an instructional program at either graduate or undergraduate level, and is to be permitted adequate opportunity for research, writing, public lectures, and service with public or private agencies concerned with the development of understanding between people. The professorship has been awarded to distinguished members of the faculty from a number of different departments.

Over the last five years, Professor Axelrod has applied his social science expertise in four areas of research: cancer, the Israeli-Palestinian peace process, theories of sense-making in foreign policy, and cybersecurity. His cancer research grew out of his work on the evolution of cooperation. If different lines of tumor cells could overcome different defenses, they might be able to cooperate to overcome all those defenses together even though none could overcome all the defenses on its own. This research has produced articles in *Perspectives on Politics*, the *Proceedings of the National Academy of Sciences, Translational Oncology*, and *Theoretical Population Biology.*
Professor Axelrod is also working on problems related to the Israeli-Palestinian conflict under the aegis of the World Federation of Scientists. Interviews with leaders of various parties and factions involved in the conflict resulted in publication in *Science, Negotiation Journal, Perspectives on Terrorism*, and an op-ed in the *New York Times*. He is also principal investigator on a multi-university project sponsored by the Air Force Office of Scientific Research on “Case-Based Influence.” The goal is to understand how foreign policy elites make sense out of novel situations such as the recent cascade of uprisings in the Arab nations.

Finally, Professor Axelrod has long had an interest in the possibilities afforded by new information technology. He has been active in the Brookings Project on the Future of Cybersecurity and U.S.-China Relations. Recent papers have been published in *Perspectives on Politics* and in an edited volume.

Professor Axelrod served as president of the American Political Science Association (2006-2007). He was awarded an honorary degree from Georgetown University and received the Wilber Cross Medal of the Yale for “extraordinary intellectual accomplishments” (2008). Within Political Science he has served on several search and promotion committees.

We are very pleased to recommend the reappointment of Robert Axelrod as the Mary Ann and Charles R. Walgreen, Jr. Professor for the Study of Human Understanding, College of Literature, Science, and the Arts, for a five-year renewable term, effective October 1, 2011 through September 30, 2016.

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: James R. Baker, Jr., M.D.

CURRENT TITLES: Ruth Dow Doan Professor of Biologic Nanotechnology, Professor of Internal Medicine, with tenure, Associate Professor of Pathology, without tenure, Medical School, and Professor of Biomedical Engineering, without tenure, College of Engineering

TITLE BEING RENEWED: Ruth Dow Doan Professor of Biologic Nanotechnology, Medical School

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

With the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the reappointment of James R. Baker, Jr., M.D. as the Ruth Dow Doan Professor of Biologic Nanotechnology, Medical School, effective September 1, 2011 through August 31, 2016.

This professorship was established in 2001 through an endowment funded by a generous gift from Mr. Herbert D. (Ted) Doan, The Herbert and Junia Doan Foundation, and the Herbert H. and Grace A. Dow Foundation. The gift is designated to support a combined professorship and directorship of the Center for Biologic Nanotechnology at the University of Michigan. Dr. Baker has held this prestigious professorship since 2001.

Dr. Baker has a special interest in dendritic polymers and their application to medical and biological science. He is highly respected for his expertise in the field of nanotechnology. He established the Center for Biologic Nanotechnology at the University of Michigan in 1998, and he facilitates this area of study. He has held the title as director of the Center since its inception. Dr. Baker also serves as the research director for the Michigan Bioterrorism and Health Preparedness Research and Training Center. He is a member of the Nanotechnology Technical Advisory Group for the Office of the United States President’s Council of Advisors on Science and Technology, and the United States Defense Information Agency Science and Technology Board. Dr. Baker’s research is funded through the Bill and Melinda Gates Foundation, the National Institutes of Health, and the National Cancer Institute.

Dr. Baker’s success as a researcher is evident through many awards he has received, including the Distinguished University Innovator Award from the University of Michigan, the Damen Award for the Stritch School of Medicine, from Loyola University and his induction as a fellow in the American Association for the Advancement of Science. He serves on multiple...
institutional committees and is a consultant for the National Center for Design of Biomimetic Nanoconductors at the Beckman Institute for Advanced Science and Technology.

Dr. Baker is a pioneer in the emerging field of nanomedicine; his long-standing research in immunology has helped define the basis of several autoimmune diseases. It is with pleasure, that I recommend the reappointment of James R. Baker, Jr., M.D. as the Ruth Dow Doan Professor of Biologic Nanotechnology, Medical School, effective September 1, 2011 through August 31, 2016.

The Law School respectfully requests that the Regents approve the reappointment of David H. Baum as assistant dean for student affairs, Law School, effective September 1, 2011 through August 31, 2014, subject to the conditions outlined in an appointment letter from the Law School. His responsibilities will not include teaching.

Dean Baum has earned two degrees from the University of Michigan -- a B.A. degree in honors English with high distinction in 1985, and a J.D. degree in 1989. As an undergraduate he was an Angell Scholar, a Regents Scholar, and was awarded Class Honors. While in Law School, he served as an instructor in the Writing and Advocacy Program.

After graduation from Law School, Dean Baum clerked for the Honorable Noel Anketell Kramer, and then was an assistant United States attorney in Washington, D.C. In 1995 he returned to Ann Arbor as a special assistant to the associate dean for student affairs. In May 1998 he was promoted to director of the Office of Student Services, and in March 2000 promoted to assistant dean.

The reappointment of Dean Baum will ensure that the Law School student services program will continue to provide the excellent support that has become our tradition. We recommend his reappointment as assistant dean for student affairs, Law School, with enthusiasm, effective September 1, 2011 through August 31, 2014.

Philip J. Hanlon, Provost and Executive Vice President for Academic Affairs

July 2011
The deans of the School of Information with the endorsement of the dean of the Gerald R. Ford School of Public Policy, we are pleased to recommend the reappointment of Michael D. Cohen as the William D. Hamilton Professor of Complex Systems, School of Information, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

William D. Hamilton was a professor of biology at the University of Michigan from 1978-1984. The William D. Hamilton Collegiate Professorship in Complex Systems was established by the Regents in June 2001, and awarded to Professor Cohen in September 2001.

Professor Cohen was educated at Stanford University (A.B. with Honors, 1966), and the University of California, Irvine (Ph.D., 1972). He has been on the University of Michigan faculty since 1973, where he earned tenure in the Department of Political Science and was a member of the core faculty of the Gerald R. Ford School of Public Policy. Since 1996 he has been on the charter faculty of the School of Information, where his tenure now resides; he has retained appointments in the Department of Political Science and the School of Public Policy.

Professor Cohen served as an assistant dean in the College of Literature, Science, and the Arts from 1986-1989. He was the first officer of the College to have specific responsibility for developing the application of computing to its research and teaching missions. In 1993 Professor Cohen was a co-founder of the Collaboratory for Research on Electronic Work, an interdisciplinary research program linking scholars across the University who share an interest in the exploitation of information technology to develop new forms of organizing work. From 1994 to 2010 he served as co-director of the Interdisciplinary Committee on Organizational Studies, a campus-wide community of nearly two hundred faculty and graduate students with a common focus on organizational research. He now serves on the ICOS Executive Committee. In addition to his efforts in forming the School of Information, he chaired the development of its innovative master’s curriculum. Professor Cohen was among the faculty who founded the
University's Center for the Study of Complex Systems. It was during the work that led to the Center that he became a colleague and friend of Professor William D. Hamilton. Professor Cohen has also linked the University with important extramural developments, serving in long-term appointments as a research consultant to the Xerox Palo Alto Research Center, and as an external faculty member of the Santa Fe Institute.

Professor Cohen has made contributions to the analysis of voting models in political science, to utility theory in economics, and to the study of conflict and social structure in sociology. His experimental studies of organizational routines have provided a foundation in cognitive psychology for understanding the role of routines in organizational learning and adaptation, and for improving the design of information systems in organizations. He has been a leader in connecting the findings and methods of research on complex systems to the concerns of the social sciences.

We are pleased to recommend the reappointment of Michael D. Cohen as the William D. Hamilton Collegiate Professor of Complex Systems, School of Information, effective September 1, 2011 through August 31, 2016.

ACTION REQUEST: Renewal of Joint Appointment for a Faculty Member

NAME: Paul N. Courant

CURRENT TITLES: University Librarian and Dean of Libraries, Arthur F. Thurnau Professor; Harold T. Shapiro Collegiate Professor of Public Policy, Professor of Public Policy, with tenure, Gerald R. Ford School of Public Policy, Professor of Economics and Public Policy, with tenure, College of Literature, Science, and the Arts, and Professor of Information, without tenure, School of Information.

TITLE BEING RENEWED: Professor of Information, without tenure, School of Information

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

With the support of the deans of the School of Information, the Gerald R. Ford School of Public Policy, and the College of Literature, Science, and the Arts, we are pleased to recommend the renewal of the joint appointment for Paul N. Courant as professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016.

Professor Courant was awarded a Ph.D. in economics from Princeton University in 1974. He joined the faculty at Michigan in 1973 in both the School of Public Policy and the Department of Economics in the College of Literature, Science, and the Arts. He was promoted to associate professor in 1978 and to professor in 1984. From 2000-2001 he was a faculty associate at the Institute for Social Research, and was the director of the Institute for Public Policy Studies, the forerunner to the Gerald A. Ford School of Public Policy. In 1979-80 he was a senior staff economist on the Council of Economic Advisors. From 1995-1997 he was chair of the Department of Economics. In 1997-2001 he was the associate provost for academic and budgetary affairs and in 2002 became provost and executive vice president for academic affairs, a post he completed in 2005. After serving as director of the Center for Local, State, and Urban Policy in the Gerald R. Ford School of Public Policy in 2006-2007, he was appointed university librarian and dean of libraries in 2008. In 2006, the Regents approved his joint appointment as professor of information, without tenure, in the School of Information.

In addition to his administrative work, Professor Courant has maintained an active record of scholarly publication. He has authored half a dozen books, and over seventy monographs and papers covering a broad range of topics in economics and public policy, including tax policy, local economic development, gender differences in pay, housing, radon, and public health, and relationships between economic growth and environmental policy. He has been engaged in research on the economics of libraries and scholarly publishing and communication. We believe
that Professor Courant will continue to contribute significantly to the mission of the School of Information in connecting information, technology and people in more valuable ways. We have an excellent cluster of faculty interested in information economics; Professor Courant is a stellar addition to that group and to the faculty as a whole.

Professor Courant has also been an active teacher, both through undergraduate and graduate courses as well as Ph.D. mentoring. He has taught 16 courses in economics and public policy. He co-authored (with Richard Lipsey and Christopher Ragan) the core book, *Economics*, which is now in its 12th edition. He has been on 56 doctoral committees, chairing 15 of them.

We respectfully recommend the renewal of the joint appointment for Paul N. Courant as professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016.

July 2011
I am pleased to recommend the reappointment of Robert J. Dolan as the Stephen M. Ross Professor of Business, Stephen M. Ross School of Business, effective September 1, 2011 through June 30, 2012.

The Stephen M. Ross Endowed Professorship in Real Estate was first established by the Regents in 1987 and is supported by a grant from Stephen Ross. In 2006, Mr. Ross indicated that he wished the chair to be renamed as the Stephen M. Ross Professorship in Business. This was approved by the Regents in August 2006. The purpose of the chair is to support a senior professor with outstanding research and teaching credentials in management.

Professor Dolan received his PhD from the University of Rochester in 1977 and began his professional career at the University of Chicago’s Booth School of Business in 1976, where he was promoted to associate professor in 1980. Professor Dolan later joined the marketing area at the Harvard Business School as associate professor, was promoted to professor, with tenure, in 1985, and became the Edward W. Carter Professor of Business Administration in 1990. His research on new product development and pricing policy has had great impact on both academics and practitioners. His teaching materials, distributed by Harvard Business School Publishing, have sold over 1.5 million copies. He is the author or co-author of eight books and numerous journal articles.

Professor Dolan served as dean of the Stephen M. Ross School of Business from 2001-2011 and held the title of Gilbert and Ruth Whitaker Professor of Business Administration from 2001-2006. Professor Dolan’s term as dean has been marked by programmatic innovation better preparing students for work managing global operations. The Ross school is widely regarded as one of the best business schools in the world. Professor Dolan’s record of accomplishment in research and management of the Ross school indicate that he exemplifies the expectations of this professorship.
I am pleased to recommend the reappointment of Robert J. Dolan as the Stephen M. Ross Professor of Business, Stephen M. Ross School of Business, effective September 1, 2011 through June 30, 2012.

ACTION REQUEST: Renewal of Joint Appointment for a Faculty Member

NAME: Barry J. Fishman

CURRENT TITLES: Associate Professor of Education, with tenure, School of Education; and Associate Professor of Information, without tenure, School of Information

TITLE BEING RENEWED: Associate Professor of Information, without tenure, School of Information

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

With the support of the deans of the School of Information and the School of Education, we are pleased to recommend the renewal of the joint appointment for Barry J. Fishman as associate professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016.

Professor Fishman earned his Ph.D. in 1996 from Northwestern University in the School of Education and Social Policy-Learning Sciences. He joined the University of Michigan School of Education in 1997 as an assistant professor, and was promoted to associate professor, with tenure, in 2004. In 2006 the Regents approved his joint appointment as associate professor of information, without tenure, in the School of Information.

Professor Fishman’s research is in the learning sciences and technology in education. He was awarded one of the Provost’s Teaching Innovation Prizes in 2010 for his work in using collaboration and communication technologies to transform large lectures into small seminars. He has written extensively about how to train teachers in technology, reducing one of the key barriers to adoption of technologies in schools. He developed “Knowledge Networks on the Web (KNOW),” a web-based system intended to create a self-sustaining community of teachers faced with learning new, complex curricula embodied in technology. It includes technology-rich curriculum materials with supporting materials to help teachers adapt it to their needs. In addition, the participants in KNOW have a chance to converse with each other to exchange hints and best practices on how to use this material. His more recent work has been funded by the National Science Foundation, the United States Department of Education, the National Institutes of Health, and the National Geographic Society Education Foundation.

Professor Fishman has published extensively, with 27 journal articles, 11 book chapters, and 20 entries in conference proceedings, plus 11 more white papers. He has been given keynote addresses, honorary addresses, and invitation addresses throughout the United States, Canada, Hong Kong, Singapore and South Korea. Professor Fishman serves on several national advisory panels and has contributed to the Michigan efforts in making wireless technology available to
students in Michigan and a statewide committee sponsored by Carl Levin recognizing excellence in use of technology in teaching.

Professor Fishman continues to be active in the School of Information. His research and courses in information technology and education are of interest to many of the School of Information students who take his courses in both the School of Information and the School of Education. We believe that Professor Fishman will continue to contribute significantly to the breadth of the School of Information in focusing on a critically important area that technology and information have the opportunity to revolutionize.

We respectfully recommend the renewal of the joint appointment for Barry J. Fishman as associate professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016.

July 2011
THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST:  Reappointment of an Academic Administrative Appointment

NAME:  Virginia B. Gordan

CURRENT TITLE:  Assistant Dean for International Affairs, Law School

TITLE BEING RENEWED:  Assistant Dean for International Affairs, Law School

EFFECTIVE DATES:  September 1, 2011 through August 31, 2014

The Law School respectfully requests that the Regents approve the reappointment of Virginia B. Gordan as assistant dean for international affairs, Law School, effective September 1, 2011 through August 31, 2014, subject to the conditions outlined in an appointment letter from the Law School. Her responsibilities will not include teaching obligations.

Dean Gordan received an A.B. degree from Brown University in 1972 and a J.D. degree from the University of Pennsylvania Law School in 1977. Before coming to the University of Michigan she practiced law in Philadelphia and Washington, D.C. In 1980-1981 she served as associate director of the Legal Research and Writing Program at the University of Virginia School of Law. She came to the University of Michigan Law School in 1981 as coordinator of academic programs. She was promoted to assistant dean in 1984.

Dean Gordan is responsible for all of the international affairs in the Law School. As such, she is the administrative head of the Law School’s Center for International & Comparative Law. The purpose of the Center is to foster a synergistic interrelationship between faculty and student endeavors, the Law School and other departments of the University, and academic and nonacademic programming. Dean Gordan is responsible for the counseling of our foreign graduate students and research scholars, the establishment of curricular and extracurricular programs for visiting international faculty and students interested in international matters, the creation and administration of externships and study abroad for our domestic students, and much of our foreign alumni relations. Over the past five years, the international program has expanded significantly, both in terms of numbers of students and numbers of faculty. Under Dean Gordan’s stewardship, the Law School has developed and strengthened its connections to law schools throughout the world.

Dean Gordan’s reappointment as assistant dean for international affairs, effective September 1, 2011 through August 31, 2014, appropriately recognizes her responsibilities and the exceptional skill and grace she has shown in discharging them.

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Reappointment of an Academic Administrative Appointment

NAME: Katherine B. Gottschalk

CURRENT TITLE: Assistant Dean for Financial Aid, Law School

TITLE BEING RENEWED: Assistant Dean for Financial Aid, Law School

EFFECTIVE DATES: September 1, 2011 through August 31, 2013

It is respectfully requested that the Regents approve the reappointment of Katherine B. Gottschalk as assistant dean for financial aid, Law School, effective September 1, 2011 through August 31, 2013, subject to the conditions outlined in an appointment letter from the Law School. In this position she will be responsible for the administration of financial aid to the students of the Law School. Her responsibilities will not include teaching obligations.

Ms. Gottschalk graduated from Wellesley College in 1982 with B.A. degrees in political science and art history.

Immediately after graduation, she was employed by a private firm. In 1984 she came to the Law School as a financial aid clerk. In 1986 she was appointed director of financial aid. She has been a committee member and chair of numerous committees and conferences of the Law School Admissions Conference, including chair of the Third Annual Financial Aid Conference in 1990 and chair of the Need Access Advisor Committee in 1994-1995. In March 2001, Ms. Gottschalk was appointed assistant dean for financial aid.

Ms. Gottschalk continues to have primary responsibility for the supervision of the Office of Financial Aid, which administers financial aid for 1,100 students. She participates in decisions to award aid, counsels students about problems of financial aid, and implements the Law School's financial aid policies. Ms. Gottschalk has proven to be a superb manager and administrator. Her office is one of the most respected in the Law School, and one of the most admired financial aid offices in the nation.

The reappointment of Ms. Gottschalk will recognize her fine work and ensure that the Law School's financial aid program will continue to provide the excellent service to which we have become accustomed in the last fifteen years. We recommend her reappointment as assistant dean for financial aid, Law School, with enthusiasm effective September 1, 2011 through August 31, 2013.

Action Request: Reappointment of an Academic Administrative Appointment

Name: Susan Marie Guindi

Current Title: Assistant Dean for Career Services, Law School

Title Being Renewed: Assistant Dean for Career Services, Law School

Effective Dates: September 1, 2011 through August 31, 2013

It is respectfully requested that the Regents approve the reappointment of Susan Marie Guindi as assistant dean for career services, Law School, effective September 1, 2011 through August 31, 2013, subject to the conditions outlined in an appointment letter from the Law School. In this position she will be responsible for the career services functions of the Law School. Her responsibilities will not include teaching obligations.

Ms. Guindi has earned two degrees from the University of Michigan – a B.A. degree with distinction in political science in 1985, and a J.D. degree magna cum laude in 1990. While in law school, she was a contributing editor of the Michigan Law Review.

After graduation from law school, Ms. Guindi clerked for Justices Dennis Archer and Conrad Mallett, Jr. of the Michigan Supreme Court. After her clerkships she practiced law in Washington D.C. She returned to the Law School in 1995 when she became associate director of the Office of Public Service. In 1998 she was named director of the Office of Career Services. In March 2001 she was named assistant dean for career services.

Ms. Guindi continues to have primary responsibility for the supervision of the Office of Career Services, including career counseling and education, the organization of informational programs, and management of the large on-campus recruiting program. The reappointment of Ms. Guindi will ensure that the Law School’s career services program will continue to provide essential services to students and the profession. We recommend her reappointment as assistant dean for career services, Law School, with enthusiasm, effective September 1, 2011 through August 31, 2013.

ACTION REQUEST: Approval of Reappointment to a Collegiate Professorship

NAME: James R. Hines, Jr.

CURRENT TITLES: Richard A. Musgrave Collegiate Professor of Economics, Professor of Economics, with tenure, College of Literature, Science, and the Arts, Professor of Business Economics, with tenure, Stephen M. Ross School of Business, L. Hart Wright Collegiate Professor of Law, and Professor of Law, with tenure, Law School

TITLE BEING RENEWED: Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of James R. Hines, Jr. as the Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

Richard A. Musgrave was a faculty member at the University of Michigan from 1948 to 1959. The Richard A. Musgrave Collegiate Professorship in Economics, College of Literature, Science, and the Arts, was established by the Regents in August 2006. A stipend funded from College resources accompanies this professorship.

Professor Hines’ general area of research is public finance and he has made numerous contributions across a broad array of topics. He is best known for his work on international taxation of corporate income and he is the leading expert on this topic in both the academic and policy arenas. He studies the spectrum of tax avoidance strategies by multinational corporations, which runs the gamut from accounting manipulations to long-term decisions about the location of production. His work in this area has resulted in a number of high-profile publications in the Journal of Public Finance, the Journal of Finance, the Journal of Financial Economics, and the American Economic Review Papers and Proceedings. The audience for his research is unusually broad and includes specialists in public finance and corporate finance in economics, law, and accounting. Professor Hines has become a frequent advisor to policy makers, including testimony presentations to Congress and providing policy advice to foreign governments and multinational organizations.

Professor Hines teaches high-level doctoral courses on the theory and practice of public policy, a law course on taxation, and a high-enrollment undergraduate course on public economics for
economics concentrators. He is extraordinarily effective as a teacher and is highly sought after as an advisor. Since 2000 no fewer than 29 students have completed their dissertations under his supervision. He is just as popular at the undergraduate level, earning rave reviews in courses with enrollments topping 150 students.

Professor Hines serves as a mentor to numerous assistant professors in economics. He has served on a tenure promotion review committee, a departmental senior search committee, numerous ad hoc committees, and was recently elected to serve on the Executive Committee. Besides other unit committees, he served on the Provost’s advisory committee on faculty promotions. He also has high-profile professional service. He is on the editorial board of most of the leading journals in his field, is co-editor of the Journal of Public Finance, the leading field journal, and was co-editor of the Journal of Economic Perspectives, a widely-read publication of the American Economics Association designed to bring frontier research to its wide membership.

We are very pleased to recommend the reappointment of James R. Hines, Jr. as the Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Dean and Executive Committee of the School of Public Health are pleased to recommend the reappointment of Howard Hu as Chair, Department of Environmental Health Sciences, and NSF International Department Chair of Environmental Health Sciences, School of Public Health, effective September 1, 2011 through August 31, 2014.

Dr. Hu received a Bachelor’s degree in biology from Brown University in 1976, a medical degree from Albert Einstein College of Medicine in 1982, a Master of Public Health in 1982, Master of Science in 1986, and Sc.D. in 1990, all from Harvard University. Dr. Hu joined the faculty at the Harvard Medical School in 1988 as an instructor, was promoted to assistant professor in 1990, and to associate professor in 1997. During this same period, he joined the Harvard School of Public Health as an assistant professor of occupational medicine in 1990, was promoted to associate professor in 1994, and to professor of occupational medicine and environmental health in 2002. He joined the University of Michigan in 2006 as professor and chair of environmental health sciences in the School of Public Health and was appointed as the NSF International Department Chair of Environmental Health Sciences in 2009. He also has an appointment as professor in the Department of Epidemiology and is a professor in the Department of Internal Medicine in the Medical School.

Dr. Hu is a nationally and internationally recognized scientist with a distinguished record of research, teaching and service. He has a distinguished background in medicine, environmental and occupational health, and epidemiology. He has made important contributions in environmental health sciences, notably in the areas of heavy metals toxicology (especially lead), human exposure assessment and risk analysis, biomarker development, x-ray fluorescence,
children's health, and environmental epidemiology. Dr. Hu has continued his research collaborations on metals through what has evolved into the Michigan-Harvard Metals Epidemiology Research Group, which is engaged in multiple NIH- and EPA-funded epidemiologic investigations of the contribution of exposure to metals (and other pollutants), genetics, and gene-environment interactions to the causation of chronic diseases in adults and impaired development in children. He has authored or co-authored over 270 scientific papers and book chapters and co-edited or co-authored 7 books.

Dr. Hu is highly respected by his colleagues, and has provided strong and effective leadership for the department. It is a pleasure to recommend the reappointment of Dr. Howard Hu as chair, Department of Environmental Health Sciences, and NSF International Department Chair of Environmental Health Sciences, School of Public Health, effective September 1, 2011 through August 31, 2014.

The University of Michigan Regents Communication

Approved by the Regents
July 21, 2011

ACTION REQUEST: Approval of Reappointment to a Collegiate Professorship

NAME: Magdalene Lampert

CURRENT TITLES: George Herbert Mead Collegiate Professor of Education and Professor of Education, with tenure, School of Education

TITLE BEING RENEWED: George Herbert Mead Collegiate Professor of Education, School of Education

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Executive Committee of the School of Education, I am pleased to recommend the reappointment of Magdalene Lampert as the George Herbert Mead Collegiate Professor of Education, School of Education, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

George Herbert Mead taught philosophy and psychology at the University of Michigan at a time when these two disciples were developing a new perspective on the study of learning and teaching. He is a major figure in the history of American philosophy, one of the founders of Pragmatism along with Peirce, James, Tufts, and Dewey. Through his teaching, writing, and posthumous publications, he has exercised a significant influence in 20th century social theory, among both philosophers and social scientists. The George Herbert Mead Collegiate Professorship in Education was established by the Regents in August 2006. A stipend funded from School resources will accompany this professorship.

Professor Lampert received her B.S. degree in 1969 from Chestnut Hill College. She earned a M.Ed. in 1971 from Temple University and a second M.Ed. in 1973 from Antioch New England Graduate School of Education. Her Ed.D. was awarded by Harvard University in 1981. From 1969 to 1972, Professor Lampert taught secondary mathematics and humanities in Pennsylvania and New Jersey. She served as assistant professor of education at Wheelock College and adjunct professor of teacher education at Lesley College before joining the faculty of the College of Education, Michigan State University in 1984 as an assistant professor. There, she was promoted to associate professor in 1986 and to professor in 1992. Professor Lampert joined the faculty of the University of Michigan in 1993.

Professor Lampert teaches teacher education and mathematics education, especially focusing on understanding and portraying the world of classroom practice to the academic community, providing images of practice that make the proposed reforms in mathematics education concrete, and experimenting with interactive multimedia tools for both analyzing and representing the work of teaching mathematics for understanding in school.

Professor Lampert is a member of the National Academy of Education, and her work has been broadly influential both nationally and internationally. Her book, Teaching Problems and Problems of Teaching, is considered a landmark study of the practice of teaching. Several of her journal articles are considered seminal in the field of education. Professor Lampert is also an outstanding teacher and highly sought after by students.
I am pleased to recommend the reappointment of Magdalene Lampert as the George Herbert Mead Collegiate Professor of Education, School of Education, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

July 2011
ACTION REQUEST:  Renewal of Joint Appointment for a Faculty Member

NAME:  Jessica D. Litman

CURRENT TITLES:  John F. Nickoll Professor of Law, Professor of Law, with tenure, Law School, and Professor of Information, without tenure, School of Information

TITLE BEING RENEWED:  Professor of Information, without tenure, School of Information

EFFECTIVE DATES:  September 1, 2011 through August 31, 2016

With the support of the deans of the School of Information and the Law School, we are pleased to recommend the renewal of the joint appointment for Jessica Litman as professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016.

Professor Litman earned her J.D. in 1983 at Columbia Law School. She joined the University of Michigan Law School as an assistant professor in 1984 was promoted to associate professor of law in 1987. In 1990 she moved to Wayne State and was appointed as a professor in 1991. Professor Litman spent 2004 as a visiting scholar at the School of Information at the University of Michigan. She returned the Law School faculty as a professor in September 2006 with a joint appointment as professor of information, without tenure, in the School of Information.

One of Professor Litman’s most significant contributions to date has been the book, Digital Copyright published in 2001 and revised in 2007. Her articulation of the legal issues of the Internet and other digital venues has gotten a great deal of press. The book is very well written and is excellently researched. She also coauthored the book, Trademark and Unfair Competition Law: Cases and Materials in 2007 whose supplements are revised annually to remain current.

Professor Litman has not only published a great deal, but has also been active in informing policy at the national level. She contributed testimony to hearings before the Senate Committee on the judiciary on people “squatting” on domain names, on intellectual property for a White House Task Force, and on home recordings for a house committee on the judiciary. She has given numerous talks and participated on panels on the broad issues of copyright, intellectual property and how it has all changed since the introduction of digital media.

Professor Litman is clearly engaged already with both students and faculty at the School of Information. She taught Intellectual Property and Information Law at the School of Information in Fall 2010. We believe that Professor Litman’s work on intellectual property in the digital age will continue to significantly contribute to the breadth of the School of Information. Having Professor Litman on the faculty of the School of Information is an obvious fit.
We respectfully recommend the renewal of the joint appointment for Jessica Litman as professor of information, without tenure, School of Information, effective September 1, 2011 through August 31, 2016.

ACTION REQUEST: Approval of Reappointment to a Collegiate Professorship

NAME: Kyle D. Logue

CURRENT TITLES: Wade H. McCree, Jr. Collegiate Professor of Law, and Professor of Law, with tenure, Law School

TITLE BEING RENEWED: Wade H. and Dores M. McCree Collegiate Professor of Law

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

The Law School respectfully requests that the Regents approve the reappointment of Kyle D. Logue as the Wade H. and Dores M. McCree Collegiate Professor of Law, Law School, effective September 1, 2011 through August 31, 2016.

The Wade H. McCree, Jr., Collegiate Professorship was established in the Law School in 1990 in honor of a former member of the faculty who came to the Law School after a distinguished career that included service as state judge, federal judge, and Solicitor General of the United States. In April 2011 the professorship was renamed as the Wade H. and Dores M. McCree Collegiate Professorship in Law. The Professorship is supported by gifts and pledges given by friends of Professor McCree toward the creation of this chair.

Kyle D. Logue received his Bachelor of Arts, with highest honors, in 1987 from Auburn University, College of Liberal Arts. He received his J.D. in 1990 from Yale Law School. He clerked for the Honorable Patrick E. Higginbotham in the U.S. Court of Appeals for the Fifth Circuit from 1990-1991. Kyle practiced law with the firm of Sutherland, Asbill & Brennan in Atlanta, Georgia from 1991-1993. He joined our faculty as an assistant professor in 1993 and was promoted through the ranks to professor in 1998.

Professor Logue is widely recognized as a tax and insurance law expert, one of the nation’s leading scholars in both of those fields. He is known for, among other things, bridging those fields. Themes of legal transitions (tax transition and otherwise), uncertainty, and the tax rules of insurance define his work. He has published widely. His publications have appeared in journal such as the Chicago Law Review, the Cornell Law Review, the Tax Law Review, the Virginia Law Review, and the Yale Law Journal. Professor Logue also teaches torts, in addition to tax, insurance, and other related courses. He has the deserved reputations as one of the school’s strongest teachers.
It is with great enthusiasm that we recommend the reappointment of Kyle D. Logue as the Wade H. and Dores M. McCree Collegiate Professor of Law, Law School, effective September 1, 2011 through August 31, 2016.

Philip J. Hanlon, Provost and Executive Vice President for Academic Affairs
ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: James E. Montie, M.D.

CURRENT TITLES: Professor of Urology, with tenure, and Valassis Professor of Urologic Oncology, Medical School

TITLE BEING RENEWED: Valassis Professor of Urologic Oncology, Medical School

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of David A. Bloom, M.D., the Jack Lapides Professor and Chair of Urology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the reappointment of James E. Montie, M.D. as the Valassis Professor of Urologic Oncology, Medical School, effective September 1, 2011 through August 31, 2016.

The Valassis Professorship in Urologic Oncology was established in 1996, though a trust created by George F. and Nancy P. Valassis of Deerfield Beach, Florida. Mr. Valassis was a 1952 graduate of the University of Michigan School of Business. He had a strong interest in the area of urologic cancer research, treatment, and diagnosis and desired to support the university’s efforts and research programs in this area.

Dr. Montie joined the faculty at the University of Michigan as professor of surgery, with tenure, in 1995. Under his direction, he brought full, independent departmental status to the Department of Urology in 2001. He held the position of chair of the Department of Urology from 2001-2007. Dr. Montie is a foremost expert in the field of urologic oncology. His clinical research has focused on developing new types of bladder replacement, investigating perioperative risks and complications of radical cystectomy, and improving surgical outcomes after radical prostatectomy. Dr. Montie established the Prostate Cancer Survivorship Clinic which will implement this holistic patient program. He is co-investigator in the Specialized Program of Research Excellence in prostate cancer as well as co-investigator of several NIH and NCI grants.
Dr. Montie is an outstanding and respected member of the Medical School faculty, and is known internationally for his work in urologic oncology. His contributions to the field of urologic oncology are significant. I am pleased, therefore, to recommend the reappointment of James E. Montie, M.D. as the Valassis Professor of Urologic Oncology, Medical School, effective September 1, 2011 through August 31, 2016.

July 2011
On the recommendation of Paul F. Hollenberg, Ph.D., the Maurice Seevers Collegiate Professor and Chair of Pharmacology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the reappointment of Yoichi Osawa, Ph.D. as the Warner-Lambert/Parke-Davis Professor of Medicine, Medical School, effective September 1, 2011 through August 31, 2016.

The Warner-Lambert/Parke-Davis Professorship in Medicine was made possible by an endowment from the Warner-Lambert Company in 1993. Funds generated by the initial endowment reached a sufficient level to permit the establishment of two additional professorships in 2006 to support Medical School investigators in scientific research in the fields of basic chemistry, molecular biology, biotechnology, genetics and/or human gene therapy.

Dr. Osawa joined the faculty at the University of Michigan in 1995 as an assistant professor of pharmacology. He rose through the ranks to professor in 2007. He is renowned for his novel and significant work in the field of biochemical pharmacology. Dr. Osawa is an expert on drug metabolism and has been studying the chemical mechanisms of inactivation of P450 enzymes by drugs, environmental toxins and other chemical substances that are foreign and harmful to living organisms. Throughout the past 15 years at the University of Michigan, he has continued to make significant contributions to the field of drug metabolism and gene regulation. Dr. Osawa’s research efforts continue to be very productive and have important biomedical applications, including increasing understanding of the mechanism of tissue damage in the aging process. His efforts have achieved significant national and international recognition.
Dr. Osawa has proven himself to be an outstanding professor and member of the faculty. He is an innovative and outstanding scientist, and a sincere, articulate, and well-respected teacher. I am pleased, therefore, to recommend the reappointment Yoichi Osawa, Ph.D. as the Warner-Lambert/Parke-Davis Professor of Medicine, Medical School, effective September 1, 2011 through August 31, 2016.

REGENTS COMMUNICATION

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: Jeffrey D. Punch, M.D.

CURRENT TITLES: Professor of Surgery, with tenure, and Jeremiah and Claire Turcotte Professor of Transplantation Surgery, Medical School

TITLE BEING RENEWED: Jeremiah and Claire Turcotte Professor of Transplantation Surgery, Medical School

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of Michael W. Mulholland, M.D., Ph.D., the Frederick A. Coller Distinguished Professor and Chair of the Department of Surgery, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the reappointment of Jeffrey D. Punch, M.D. as the Jeremiah and Claire Turcotte Professor of Transplantation Surgery, Medical School, effective September 1, 2011 through August 31, 2016.

The Jeremiah and Claire Turcotte Professorship of Transplantation Surgery was established in 2006 to recognize Dr. Jeremiah Turcotte’s many outstanding professional achievements. It is intended to support the research and clinical efforts of the director of the Organ Transplantation Program in the Department of Surgery.

Dr. Punch joined the faculty at the University of Michigan in 1992 as a lecturer in Surgery. He rose through the ranks to professor of surgery in 2009. He has been the director of the Living Related Liver Transplant Program since 1996, Chief of the Division of Transplantation since 2001, and director of the Transplant Center since 2002. Dr. Punch is nationally recognized as an accomplished academician in transplant research. His clinical research is aimed at improving clinical immunosuppression strategies, organ donation systems, and transplant program finances. In 2005, he received the American Liver Foundation Appreciation Award.
Dr. Punch is highly regarded by surgical residents as a great teacher, and by patients as a great clinician. He is well-respected by his colleagues for his commitment to national service, research, and exceptional leadership in transplantation. I am pleased, therefore, to recommend the reappointment of Jeffrey D. Punch, M.D. as the Jeremiah and Claire Turcotte Professor of Transplantation Surgery, Medical School, effective September 1, 2011 through August 31, 2016.

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: George J. Siedel, III

CURRENT TITLES: Arthur F. Thurnau Professor, Williamson Family Professor of Business Administration, and Professor of Law, History and Communication, with tenure, Stephen M. Ross School of Business

TITLE BEING RENEWED: Williamson Family Professor of Business Administration, Stephen M. Ross School of Business

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the reappointment of George Siedel as the Williamson Family Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Williamson Family Professorship was established in 1995 with generous gifts from the children of the late Warren P. Williamson, Jr. The professorship honors Mr. Williamson and recognizes his gratitude for the education he received at the University of Michigan. The professorship is dedicated to increasing knowledge and understanding of business theory and practice through instruction and research.

Professor Siedel received his B.A. degree in 1967 from the College of Wooster, and his J.D. degree from the University of Michigan in 1970. He has been a professor since 1984 and has served the School and the University with distinction, including as a University of Michigan Arthur F. Thurnau Professor and an associate dean.

Professor Siedel directed the School’s Minority Summer Institute for five years; he has served four terms on the school’s Executive Committee since 1981; he chaired the school’s Affirmative Action Committee for seven years; he was chair of the Dean Search Committee in 1990-91; and recently served on the Board of Directors of the William Davidson Institute and as chair of that Institute’s Director Search Committee. He has served as an ex-officio member of the school’s Executive Committee and as a highly regarded and valued member of the dean’s administrative leadership team. He exemplifies the spirit of the Williamson Professorship through his strong emphasis on and support of research and instruction.
Professor Siedel is a dedicated scholar who possesses the necessary academic rigor and principles, as well as the senior faculty leadership reputation, to honor the Williamson Family. We enthusiastically recommend his reappointment as the Williamson Family Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

REGENTS COMMUNICATION

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: Joel B. Slemrod

CURRENT TITLES: Paul W. McCracken Professor of Business Economics, Professor of Business Economics and Public Policy, with tenure, Stephen M. Ross School of Business, and Professor of Economics, with tenure, College of Literature, Science, and the Arts

TITLE BEING RENEWED: Paul W. McCracken Professor of Business Economics, Stephen M. Ross School of Business

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the reappointment of Joel Slemrod as the Paul W. McCracken Professor of Business Economics, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Paul W. McCracken Collegiate Professorship was established in 1986 to honor Professor McCracken on the occasion of his retirement and in recognition of his invaluable contributions as a world economist, scholar, teacher, and public servant. The professorship was created through the generosity of many friends, colleagues, and business organizations. Professor Slemrod was first appointed to the Paul W. McCracken Professorship in 1996.

Professor Slemrod is an internationally renowned scholar working in the areas of taxation, trade and investment. He is recognized as an outstanding researcher who has provided major contributions to the field of tax policy research, and serves as a consultant to, among others, Price Waterhouse, The World Bank, and the U.S. Department of Treasury. He is a prolific author publishing in top tier journals and is frequently called upon to present his research findings and to give testimony on taxation issues.

Within the Ross School of Business, Professor Slemrod is director of the Office of Tax Policy Research, has served as a member of the Executive Committee and as chair of the Business Economics area and the Dean’s Search Committee. He continues to teach and to serve as both committee member and chair of doctoral dissertation committees. Professor Slemrod is a nationally recognized authority on taxation and is frequently quoted in the media and consulted by corporate and government leadership.
Professor Slemrod has admirably honored the intent of the professorship and we enthusiastically recommend his reappointment as the Paul W. McCracken Professor of Business Economics, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the reappointment of Kathleen M. Sutcliffe as the Gilbert and Ruth Whitaker Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Whitaker Professorship was established in 2000 with gifts from friends and colleagues Gilbert and Ruth Whitaker. The professorship honors the Whitakers’ many years of service to the Business School and the University and is dedicated to increasing knowledge and understanding of business and economic theory and practice.

Professor Sutcliffe received her BS degree from the University of Alaska, her MN degree from the University of Washington and her PhD from the University of Texas in 1991. She joined the Ross School faculty in 1994 as an assistant professor after three years at the University of Minnesota. She was tenured in 2001, promoted to professor in 2005 and was first appointed to the Whitaker Professorship in 2006. Professor Sutcliffe also served as associate dean for faculty development and research from 2006-2010.

Professor Sutcliffe is internationally recognized as an intellectual leader in management and organizations through her sustained accumulation of research on organizational cognition, resilience and medical safety. She has demonstrated her commitment to service at the school and in the profession more broadly.

Professor Sutcliffe has served as core course coordinator in management and organizations for many years and for the past several years has chaired the School’s Doctoral Studies Committee while also serving as doctoral coordinator for the area. Her record of training and joint publications with doctoral students is excellent, and her students have been very well placed. She has taught the demanding core course in organizational behavioral for many years.
We enthusiastically recommend the reappointment of Kathleen M. Sutcliffe as the Gilbert and Ruth Whitaker Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: Jan Svejnar

CURRENT TITLES: Everett E. Berg Professor of Business Administration, Professor of Business Economics, Corporate Strategy and International Business, with tenure, Stephen M. Ross School of Business, Professor of Public Policy, with tenure, Gerald R. Ford School of Public Policy, and Professor of Economics, without tenure, College of Literature, Science, and the Arts

TITLE BEING RENEWED: Everett E. Berg Professor of Business Administration, Stephen M. Ross School of Business

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the reappointment of Jan Svejnar as the Everett E. Berg Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

Established in 1987 by Everett E. Berg (AB LS&A ’47; MBA ’48), this endowed professorship was created to recognize the preeminence of the Stephen M. Ross School of Business in developing future business leaders, and to invest in the quality of teachers and teaching in business education.

Professor Svejnar received his BS degree in industrial and labor relations from Cornell University in 1974, and his MA and PhD degrees in economics from Princeton University in 1976 and 1979, respectively. He joined the Ross School in 1996 as a professor, with tenure, and assumed leadership of the William Davidson Institute until 2004. He was first appointed to the Berg Professorship in 1996. Prior to that time, he has been at the University of Pittsburgh as Distinguished Service Professor of Economics and had also been the director of the Economics Institute at the Academy of Science of the Czech Republic in Prague.

Professor Svejnar is one of the leading scholars working on the economic problems of transitional economies. His academic work is considered to be innovative and, in some cases, path-breaking, and he has been almost uniquely influential in bringing serious economic analysis to bear on the problems of transitional economies. In addition, he has an extraordinary record as an institution builder, and is internationally recognized for his leadership of the Center for Economic Research and Graduate Education at Charles University, Prague and for his leadership during his tenure as director of the William Davidson Institute in the Stephen M. Ross School of Business. His academic excellence and institutional leadership bring enormous value to the Ross
School of Business, and his international reputation and relationships perfectly complement our developing global programs.

Professor Svejnar is an excellent scholar and an outstanding leader in the transition of socialist economies to market-based economies. As holder of the Everett Berg chair, he honors the intent of the chair to honor a nationally recognized senior professor in a programmatic area offering maximum strategic value to the Ross School. We enthusiastically recommend his reappointment as the Everett E. Berg Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

REGENTS COMMUNICATION

ACTION REQUEST: Reappointment of an Academic Administrative Appointment

NAME: Richard E. Vandenheuvel

CURRENT TITLE: Chair, Navy Officer Education Program

TITLE BEING RENEWED: Chair, Navy Officer Education Program

EFFECTIVE DATES: July 31, 2011 through December 31, 2012

I recommend that the Regents approve the reappointment of Captain Richard E. Vandenheuvel as chair, Navy Officer Education Program, effective July 31, 2011 through December 31, 2012. The United States Navy will pay his salary.

Captain Vandenheuvel received his Bachelor’s Degree in business administration from Central Michigan University, Mt. Pleasant, Michigan; a Master’s Degree in business administration from Embry Riddle Aeronautical University in Daytona Beach, Florida; and a Master’s Degree in military studies from the Naval War College in Newport, Rhode Island. He also completed a fellowship at Harvard University’s Weatherhead Center for International Affairs.

Captain Vandenheuvel came to the University of Michigan in August 2008 and has been a very valuable asset to the Navy Officer Education Program. He has demonstrated outstanding leadership, has greatly increased visibility and interest for the Naval Nuclear Power program with the Department of Nuclear Engineering, has collaborated with the College of Engineering Diversity Programs Office increasing awareness and cooperation, created an environment that focused on academic achievement, and has been an active member of the Council on Global Engagement. He has made outstanding efforts to increase the visibility of all the ROTC programs on campus and has increased outreach activities to improve relations with the University community. I believe that he will continue to enhance the University’s academic leadership and contribute both within the military sciences and across interdepartmental boundaries. The Military Officer Education Program Committee enthusiastically supports this recommendation.

ACTION REQUEST: Approval of Reappointment to a Collegiate Professorship

NAME: Janet A. Weiss

CURRENT TITLES: Dean, Horace H. Rackham School of Graduate Studies, Vice Provost for Academic Affairs-Graduate Studies, Office of the Provost and Executive Vice President for Academic Affairs, Mary C. Bromage Collegiate Professor of Organizational Behavior and Public Policy, Professor of Organizational Behavior and Public Policy, with tenure, Stephen M. Ross School of Business, and Professor of Public Policy, without tenure, Gerald R. Ford School of Public Policy

TITLE BEING RENEWED: Mary C. Bromage Collegiate Professor of Organizational Behavior and Public Policy, Stephen M. Ross School of Business

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the reappointment of Janet A. Weiss as the Mary C. Bromage Collegiate Professor of Organizational Behavior and Public Policy, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Mary C. Bromage Collegiate Professorship was established in 1996. The professorship honors the late Mary C. Bromage and is designed to increase knowledge and understanding of business theory and practice through instruction and research. Appointment to this professorship is reserved for senior faculty.

Dean Weiss received her BA degree from Yale University in 1973 and her PhD degree from Harvard University in 1977. She was promoted to professor in the Stephen M. Ross School of Business in 1991 and professor in the Gerald R. Ford School of Public Policy in 1995. From 1993 to 1997 she served as associate dean in the Stephen M. Ross School of Business. She is currently dean of the Horace H. Rackham School of Graduate Studies, vice provost for academic affairs-graduate studies, Office of the Provost, as well as executive vice president for academic affairs.

Dean Weiss is a strong faculty presence in our Schools and across campus. She is highly regarded by colleagues as a leader among her peers and, in particular, as a powerful advocate for the Ross School’s doctoral program and research agenda. She has served in a variety of administrative roles, including the Ross School of Business Ombudsperson and as a member of the Executive Committee.
We are very pleased to honor Dean Weiss for her outstanding record of achievements and the honor she brings to the memory of Mary C. Bromage as holder of the chair. We enthusiastically recommend her reappointment as the Mary C. Bromage Collegiate Professor of Organizational Behavior and Public Policy, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the reappointment of James D. Westphal as the Robert G. Rodkey Collegiate Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Robert G. Rodkey Collegiate Professorship in Business Administration fund was established in August 2006 in honor of Professor Robert G. Rodkey. The purpose of this fund is to help increase knowledge and understanding of business practices through instruction and research. Appointment to this professorship is reserved for a senior faculty member.

Professor Westphal received his B.A. degree in economics with highest honors in 1998 from the University of California, Davis. He received his M.S. degree in 1993 and his Ph.D. in 1996 from the J. L. Kellogg Graduate School of Management at Northwestern University. Professor Westphal was an assistant professor of management at the University of Texas at Austin from 1996-2001. In 2001 he was promoted to professor of management at the McCombs School of Business. From 2002-2006, he held the title of Ed and Molly Smith Chair in Business Administration also at the McCombs School. He joined the Stephen M. Ross School of Business in 2006 as professor of strategy, with tenure. Professor Westphal was first appointed to the Robert G. Rodkey Professorship in 2006.

Professor Westphal conducts research in the areas of strategic management and organizational theory, with a focus on social and psychological processes in corporate governance and strategic decision making. He received the Best Paper Award from the OMT Division of the Academy on four occasions (1994, 1996, 2006, and 2011). He received the University of Texas, College of Business Administration Award for Research Excellence in 2000-2001 and 2006-2007, and in 2002 he was selected as a highly cited author in the area of Economics and Business by the ISI Web of Science. In 2005-2006 he was a Harrington Faculty Fellow. Professor Westphal’s research has been referenced in Business Week, CNBC, The Economist, The Financial Times,
Professor Westphal has taught courses in strategic management and organizational behavior at the undergraduate, M.B.A. and Ph.D. levels. He serves on the editorial boards of top journals and has previously served as division chair of the Business Policy and Strategy (BPS) Division of the Academy of Management and as Representative-at-Large of the Organization and Management Theory (OMT) Division of the Academy. Professor Westphal currently serves as associate editor for *Strategic Management Journal*.

Professor Westphal has admirably honored the intent of the professorship and we enthusiastically recommend his reappointment as the Robert G. Rodkey Collegiate Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

July 2011
ACTION REQUEST: Approval of Reappointment to a Collegiate Professorship

NAME: Christina L.B. Whitman

CURRENT TITLES: Francis A. Allen Collegiate Professor of Law, Professor of Law, with tenure, Law School, Professor of Women’s Studies, without tenure, College of Literature, Science, and the Arts, and Vice Provost for Academic and Faculty Affairs, Office of the Provost and Executive Vice President for Academic Affairs

TITLE BEING RENEWED: Francis A. Allen Collegiate Professor of Law, Law School

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

The Law School respectfully requests that the Regents approve the reappointment of Christina L.B. Whitman as the Francis A. Allen Collegiate Professor of Law, Law School, effective September 1, 2011 through August 31, 2016.

The Francis A. Allen Collegiate Professorship was established in the Law School in 1990 in honor of a former dean and member of the Law School faculty who was a preeminent scholar in the field of criminal law and criminal procedure. The Professorship is supported by a gift from Joseph Parsons, a 1927 graduate of the Law School, to establish professorships in the Law School.

Professor Whitman earned each of her three degrees from the University of Michigan: her B.A. in English literature in 1968, her M.A. in Far Eastern languages and literatures in 1970, and her J.D. magna cum laude in 1974. Professor Whitman joined the Law School faculty in 1976, after the completion of her legal studies and a prestigious clerkship with Justice Lewis F. Powell, Jr. on the Supreme Court of the United States.

Professor Whitman’s scholarship, while varied, has focused on the field of constitutional torts, evaluating the success of and values underlying the scheme of legal liabilities imposed on governmental officers acting within the scope of their official responsibility. Most recently, Professor Whitman served for almost five years as the associate dean for academic affairs at the Law School. In innumerable ways, Professor Whitman is a dedicated member of the Law School and University communities.

Professor Whitman was a student and joined the Law School faculty during a period in which Francis Allen was a leading professor and mentor. It is particularly fitting that she be reappointed as the Francis A. Allen Collegiate Professor of Law. The reappointment of
Professor Whitman as the Francis A. Allen Collegiate Professor of Law, Law School, effective September 1, 2011 through August 31, 2016, appropriately honors Professor Whitman’s service to the School and her continued distinction as a scholar and teacher.

REGENTS COMMUNICATION

ACTION REQUEST: Approval of Reappointment to an Endowed Professorship

NAME: James O. Woolliscroft, M.D.

CURRENT TITLES: Dean, Professor of Internal Medicine, with tenure, Professor of Medical Education, without tenure, and Lyle C. Roll Professor of Medicine, Medical School

TITLE BEING RENEWED: Lyle C. Roll Professor of Medicine, Medical School

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

With the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the reappointment of James O. Woolliscroft, M.D. as the Lyle C. Roll Professor of Medicine, Medical School, effective September 1, 2011 through August 31, 2016.

The Lyle C. Roll Professorship was established in 1999, through a generous gift from the estate of Mrs. Marguerite S. Roll in memory of her husband. This professorship is intended to enhance humane patient care by means of the development of a broad range of support activities at the University of Michigan Medical School.

Dr. Woolliscroft joined the faculty at the University of Michigan in 1980. He has held several key administrative posts in the Medical School Administration; most notably as the dean of the Medical School since 2007. Dr. Woolliscroft previously served as the associate dean for graduate medical education from 1998-2002, and as the executive associate dean of the Medical School from 1999-2006. In his capacity as the Lyle C. Roll Professor, he is the director of the Lyle C. Roll Program for Humane Medical Practice. As such, he oversees a broad area of programs and services of the Medical School, including faculty assistance, fellowship grants, sponsored research studies, educational innovations and other activities.

The generous gift from the estate of Mrs. Roll supports numerous medical research and education efforts, as well as activities of the director of the Program for Humane Medical Practice. Dr. Woolliscroft’s commitment to medical education is evidenced through his receipt of the Association of American Medical Colleges GEA Merrell Flair Award in Medical Education in 2008, and his ongoing work through the University of Michigan and the Peking Union Medical College.
Dr. Woolliscroft continues to be a catalyst to important changes within the educational and clinical environment at the Medical School, which supports the intent of this professorship. I am pleased, therefore, to recommend the reappointment of James O. Woolliscroft, M.D. as the Lyle C. Roll Professor of Medicine, Medical School, effective September 1, 2011 through August 31, 2016.

July 2011
ACTION REQUEST: Reappointment of an Academic Administrative Appointment

NAME: Sarah C. Zearfoss

CURRENT TITLE: Assistant Dean and Admissions Officer, Law School

TITLE BEING RENEWED: Assistant Dean and Admissions Officer, Law School

EFFECTIVE DATES: September 1, 2011 through August 31, 2014

It is respectfully requested that the Regents approve the reappointment of Sarah C. Zearfoss as assistant dean and admissions officer, Law School, effective September 1, 2011 through August 31, 2014, subject to the conditions outlined in an appointment letter from the Law School. Her responsibilities will not include teaching obligations.

Ms. Zearfoss was awarded an A.B. degree cum laude in 1986 from Bryn Mawr College. In 1992 she received a J.D. degree magna cum laude from the University of Michigan Law School. In law school, she was editor-in-chief of the Michigan Journal of International Law. She received numerous honors, including the Henry M. Bates Memorial Scholarship, the highest award given to Michigan law students.

After graduation from law school, Ms. Zearfoss was a law clerk to the Honorable James L. Ryan of the United States Court of Appeals for the Sixth Circuit. She practiced law in Detroit, specializing in employment discrimination, for several years, and then returned to serve as a career law clerk to Judge Ryan. In 1999, Ms. Zearfoss joined the Office of Career Services at the Law School. She has served as attorney counselor and judicial clerkship advisor. For some years, Ms. Zearfoss has also served as a cooperating attorney for the American Civil Liberties Union and as area admissions representative and, until recently, as district admissions coordinator for Bryn Mawr College.

Ms. Zearfoss has already earned a reputation as an extremely effective counselor of students and representative of the Law School. In her Career Services Office position, she has earned the respect and admiration of faculty, students, and staff. She has already brought energy, vision and intelligence to the critical position of assistant dean of admissions.

The reappointment of Ms. Zearfoss ensures that the Law School admissions program will continue to be guided by a person of extraordinary abilities. We recommend her reappointment as assistant dean and admissions officer, Law School, with enthusiasm effective September 1, 2011 through August 31, 2014.

Recommendations for approval of joint or additional appointments
or transfers of regular associate or full professors and selected
academic administrative staff
The Dean and Executive Committee of the School of Dentistry are pleased to recommend the appointment of Stephen C. Bayne as the Marcus L. Ward Professor of Dentistry, School of Dentistry, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Marcus L. Ward Professorship in Dentistry was established in 1974 and provides a memorial to Marcus L. Ward, dean of the University of Michigan, School of Dentistry from 1916 to 1934 and an outstanding member of the faculty for forty-two years. This appointment recognizes outstanding intellectual leadership and nationally recognized achievement in research, teaching and service. The Marcus L. Ward Professorship was first granted in 1974 to Professor Albert G. Richards.

Professor Bayne received his BA in biology from Carleton College in 1968. In 1974 he received his MS and in 1978 his PhD in biological materials from Northwestern University. In 1977 Professor Bayne was appointed as an assistant professor in Restorative Dentistry and Orthopedic Surgery at the University of Mississippi and director of Scanning Electron Microscopy at Mississippi Medical Center. In 1984 he joined the University of North Carolina in Operative Dentistry Research and was section head of Biomaterials, Operative Dentistry. Professor Bayne was granted tenure in 1989 by the University of North Carolina, School of Dentistry and was a professor of operative dentistry from 1992 to 2005. In 2006, Professor Bayne joined the University of Michigan School of Dentistry as a professor, with tenure.

Professor Bayne is recognized internationally for his involvement in the long-term clinical research of restorative dental materials including studies exceeding 20 years. He has published over 124 articles, 50 chapters, 246 abstracts and one book. Professor Bayne has directed over fifty-one graduate and undergraduate courses. He is recognized for his leadership in major dental research forums. In 2011 he received the IADR Distinguished Scientist Award in Dental Materials and in 2010 the DMG-IADR Ryge-Mahler Award for Excellence in Clinical Research. He is a past president of the Academy of Dental Materials, the American Association for Dental
Research and the International Association for Dental Research and is passionate about accelerating research progress.

We are pleased to recommend the appointment of Stephen C. Bayne as the Marcus L. Ward Professor of Dentistry, School of Dentistry, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

July 2011
On the recommendation of the Dean and the Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Kim S. Cameron as associate dean for executive education, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

Kim S. Cameron was educated at Brigham Young University (BS, 1970; MS, 1971) and Yale University (MA, 1976; PhD 1978). He joined the faculty of the University of Michigan in 1984 with appointments as associate professor in both the Ross School of Business and the School of Education. In 1990, he was promoted to professor. From 1995 to 1998, Professor Cameron served as associate dean of the Marriott School of Management, Brigham Young University, and from 1998-2000, as dean of the Weatherhead School of Management, Case Western Reserve University. He returned to the University of Michigan as a professor of organizational behavior and human resource management, with tenure, in the fall of 2000 and was appointed professor of education, without tenure, in January 2001.

Professor Cameron has distinguished himself as a leader in the subject of organizations and how they work. He has received numerous awards and honors, and is the author of many books, articles, and book chapters. He has served as a consultant to private sector companies, government agencies, and educational institutions. He is a unique and invaluable resource to faculty and students. His distinguished career in organizational behavior, human resource management, and higher education is an invaluable asset to the Ross School of Business, the School of Education, and the University of Michigan.
We are pleased to recommend the appointment of Kim S. Cameron as associate dean for executive education, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

William H. Payne Collegiate Professor and Dean, School of Education

July 2011
I am pleased to recommend the appointment of Alison Davis-Blake as the Leon Festinger Collegiate Professor of Management, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2016.

Leon Festinger was an associate professor of psychology from 1948-1951 and is regarded as one of the most significant social psychologists of the twentieth century. The Leon Festinger Collegiate Professorship in Management was established by the Regents in June 2011. A stipend funded from college resources accompanies this professorship.

After earning a bachelor’s degree in economics from Brigham Young University in 1979, Professor Davis-Blake worked as an auditor in the New York City office of Touche Ross and Co. She earned her master’s degree in organizational behavior from Brigham Young University in 1982 and a doctorate in organizational behavior from Stanford University in 1986. She then joined Carnegie Mellon University as an assistant professor of industrial administration. From 1990 to 2006, she rose through the professorial ranks at the University of Texas to become the Eddy C. Scurlock Centennial Professor of Management and senior associate dean for academic affairs at the McCombs School of Business from 2003-2006. She also was an Eleanor T. Mosle Fellow beginning in 1995 and served as chair of the Department of Management from 2002-2003 and co-director of the executive master’s degree in human resource development leadership from 1995-2001. Professor Davis-Blake has served as dean of the University of Minnesota, Carlson School of Management from 2006-2011, where she is also the Investors in Leadership Distinguished Chair in Organizational Behavior.

Professor Davis-Blake’s research interests include the effects of outsourcing on organizations and employees, organizational promotion systems, and determinants and consequences of contingent worker use and organizational wage structures. Her teaching areas include organization theory, organizational behavior, strategic human resource management and managing human capital.
Her professional service includes editorial positions with the *Journal of Management*, *Academy of Management Review* and *Administrative Science Quarterly*.

I am pleased to recommend the appointment of Alison Davis-Blake as the Leon Festinger Collegiate Professor of Management, Stephen M. Ross School of Business, for a five-year renewable term, effective July 1, 2011 through June 30, 2016.

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Ran Duchin

CURRENT TITLE: Assistant Professor of Finance, Stephen M. Ross School of Business

ADDITIONAL TITLE: Sanford R. Robertson Assistant Professor of Business Administration, Stephen M. Ross School of Business

TERM: One Year, Non-Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2012

On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Ran Duchin as the Sanford R. Robertson Assistant Professor of Business Administration, Stephen M. Ross School of Business, for a one-year non-renewable term, effective September 1, 2011 through August 31, 2012.

The Sanford R. Robertson Assistant Professorship in Business Administration was approved at the July 1992 Regents meeting and was renamed the Sanford R. Robertson Assistant or Associate Professorship in August 1994. The purpose of the professorship is to encourage the most promising non-tenured teachers/scholars to pursue worthwhile projects and to evolve into truly distinguished senior members of the faculty. Appointments to the professorship are for one year.

Professor Duchin received a Bachelor of Arts degree and MBA from Hebrew University in Jerusalem, Israel in 2001 and 2003, respectively. After completion of his PhD in finance at the Marshall School of Business, University of Southern California in 2008, Professor Duchin joined the Ross School faculty as an assistant professor.

Professor Duchin’s research interests are in corporate finance and corporate governance. His recent work in corporate finance studies the connection between the organization form of the firm and its cash policy. He shows that diversified firms hold less cash when their investment opportunities are less correlated across divisions. His recent work in corporate governance studies the effectiveness of outside directors in different information settings. Using the exogenous impact of the Sarbanes-Oxley act of 2002, this work shows that increasing outside representation on the board of directors benefited firms with little information asymmetry and hurt firms with high information asymmetry.

Professor Duchin’s productivity has been very strong, with three publications in clear A-level journals and a fourth in a very good journal. He also has a revise-and-resubmit at a top journal. Professor Duchin’s work has received a number of awards, including the NTT Research Award, the 2010 Teva Award, and two Best Paper Awards at academic conferences. His research has
also received extensive media exposure. We believe that Professor Duchin is a very promising scholar and a deserving recipient of the Sanford Robertson Professorship.

We are pleased to honor Professor Duchin for his excellent record and to support his growth and development by appointing him as the Sanford R. Robertson Assistant Professor of Business Administration, Stephen M. Ross School of Business, for a one-year non-renewable term, effective September 1, 2011 through August 31, 2012.

July 2011
THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Kojo S. J. Elenitoba-Johnson, M.D.

CURRENT TITLE: Professor of Pathology, with tenure, Medical School

ADDITIONAL TITLE: Henry Clay Bryant Professor of Pathology, Medical School

EFFECTIVE DATES: July 1, 2011 through August 31, 2015

On the recommendation of Jay L. Hess, M.D., Ph.D, the Carol V. Weller Professor and Chair of the Department of Pathology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Kojo S. J. Elenitoba-Johnson, M.D. as the Henry Clay Bryant Professor of Pathology, Medical School, effective July 1, 2011 through August 31, 2015.

The Henry Clay Bryant Professorship in Pathology was established in 2011 by the estate of Henry Clay Bryant, M.D., Ph.D., and with funds from the Department of Pathology to support translational research. Dr. Bryant received his M.D. in 1940, and his Ph.D. in pathology in 1949 from the University of Michigan Medical School. He held several academic positions at the University of Michigan, and was primary owner and chief of pathology of the Physicians’ Clinical Laboratory of Ann Arbor, Michigan.

Kojo S. J. Elenitoba-Johnson received his M.D. in 1988 from the College of Medicine, University of Lagos, Nigeria. He completed his residency training at Brown University School of Medicine in 1995, and a fellowship in hematopathology at the National Cancer Institute in 1997. Dr. Elenitoba-Johnson then joined the faculty at the University of Utah Health Sciences Center in Salt Lake City, Utah in 1997 as an assistant professor. He rose through the ranks to associate professor at that institution in 2003. He was appointed as an associate professor, with tenure, at the University of Michigan in 2006, and was promoted to professor, with tenure, in 2009. Dr. Elenitoba-Johnson has also held the position of director of the Molecular Diagnostics Laboratory since 2009, is the director of the Molecular Genetic Pathology Fellowship Program, and is the director of the Division of Translational Research.

Dr. Elenitoba-Johnson’s research involves studying the biologic events underlying lymphoma pathogenesis and progression, and has received two R01 awards from the NIH for his research. He has received many honors for his work, including receipt of the Outstanding Investigator Award from the American Society of Investigative Pathology for 2012, and appointment to the scientific Advisory Board of the Lymphoma Research Foundation. Dr. Elenitoba-Johnson has published over 90 articles in national and international journals, and holds one patent.
Dr. Elenitoba-Johnson’s expertise as a clinician, leader and researcher, renders him as the ideal candidate for this professorship. I am pleased, therefore, to recommend Kojo S. J. Elenitoba-Johnson, M.D. as the Henry Clay Bryant Professor of Pathology, Medical School, effective July 1, 2011 through August 31, 2015.

Recommended by:

James O. Woolliscroft, M.D.
Dean, Medical School

July 2011

Recommendation endorsed by:

Ora Hirsch Pescovitz, M.D.
Executive Vice President for Medical Affairs

Philip J. Hanlon, Ph.D., Provost
and Executive Vice President for Academic Affairs
On the recommendation of the Dean and Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Fred M. Feinberg as the D. Maynard Phelps Collegiate Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The D. Maynard Phelps Collegiate Professorship in Business Administration was established in 1992 to honor Professor Emeritus D. Maynard Phelps. Professor Phelps enjoyed a distinguished 40 year career on the faculty of the Stephen M. Ross School of Business in the field of marketing.

Fred M. Feinberg received his S.D. degree in 1983 and his Ph.D. in 1989 from the Massachusetts Institute of Technology. He joined the Ross School in 1998 after spending his first four years at Duke (1989-1993) and his next five at Toronto. He was tenured at Toronto but gave that up to join us here. He has been a professor, with tenure, since 2007.

Professor Feinberg’s work lies primarily in two areas: dynamic models (advertising, uncertain search, optimal control) and choice theory (scanner data, variety seeking, context effects, and Bayesian methods). He is also engaged in ongoing collaborations at this institution on the interfaces between marketing models in both psychology and design engineering. He is well known and highly regarded not only for his theoretical prowess, but also for the technical proficiency of his work. His work on advertising and promotion is especially well known and frequently used as reading in Ph.D. seminars. He tackles important and interesting problems, bringing a high degree of intellectual curiosity and rigor to important issues.

Professor Feinberg is an excellent teacher. His overall ratings exceed the department and School average by a good margin. His continued success in teaching the challenging “Statistics for Managerial Decision-Making” attests to his skill in making technical topics comprehensible and relevant for practitioners. He also continues to be highly successful in the doctoral seminar in
marketing models which forms the core of what marketing Ph.D. students need to know when beginning their studies.

Professor Feinberg has published in the best journals, had a large impact on his field and also broader impact on business, continued his excellent teaching, and provided excellent service to the school and the broader profession. This year alone, he was honored by the Ross School’s Ph.D. students as The Outstanding Teacher and by the Research Committee with the Contribution to the Research Environment Award. Therefore, we are pleased to recommend the appointment of Fred M. Feinberg as the D. Maynard Phelps Collegiate Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

July 2011
ACTION REQUEST: Faculty Appointment to an Endowed Professorship

NAME: Katherine L. French

CURRENT TITLE: Professor of History, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts

TERM: Five Years

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

The Dean and the Executive Committee of the College of Literature, Science, and the Arts are pleased to recommend the appointment of Katherine L. French as the J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts, effective September 1, 2011 through August 31, 2016.

The J. Frederick Hoffman Professorship in Medieval and Early Modern English History was established by the Regents in June 2011 as a result of a generous gift from Patricia Hoffman.

Katherine French received her Bachelor of Arts from Carleton College in 1984. She attended the University of Minnesota where she completed her Master of Arts in 1989 and Doctorate in 1993. Professor French began her teaching career as an assistant professor at the State University of New York, New Paltz in 1993 and was promoted through the ranks to professor in 2008. She joins our faculty on September 1, 2011.

Professor French’s research focuses on the late Middle Ages of British history and includes the history of women, gender, and the family, religion, and material culture. She is a very productive scholar who has written two books, edited a third, and co-edited a two-volume teaching anthology. She has also authored a long list of articles in prestigious journals, such as Gender and History, the Journal of Interdisciplinary History, and Sixteenth Century Journal. Professor French has received fellowships from the National Endowment for the Humanities, Harvard Divinity School, and the Institute for Advanced Study at Princeton University.

We are very pleased to recommend the appointment of Katherine L. French as the J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts, effective September 1, 2011 through August 31, 2016.

Action Request: Joint Appointment for a Faculty Member

Name: Larry M. Gant

Current Title: Professor of Social Work, with tenure, School of Social Work

Additional Title: Professor of Art and Design, without tenure, School of Art and Design

Effective Date: September 1, 2011

With the support of the Executive Committee of the School of Art and Design, and with the endorsement of the School of Social Work, we are pleased to recommend the joint appointment of Larry M. Gant as professor of art and design, without tenure, School of Art and Design, effective September 1, 2011.

Larry Gant joined the University of Michigan social work faculty in 1987 as an assistant professor, was promoted to associate professor in 1995, and to professor in 2007. Previously, he held research, administrative, and professional appointments in the field of social work.

Professor Gant has a strong interest in the role of the arts in the community and in the classroom. He has created and piloted a program in Beijing that uses visual and performing arts to access HIV/AIDS education. He is working to leverage the School of Social Work’s art collection as a teaching tool, and to restructure vacated library space into a dynamic creative work environment where visual arts will play a key role. Professor Gant has engaged with School of Art and Design faculty on issues of community engagement, utilizing the visual arts as a tool for social change, and developing visual literacy in students across campus. A courtesy appointment would formalize Professor Gant’s growing connection to the School.

We respectfully request approval of the joint appointment of Larry M. Gant as professor of art and design, without tenure, School of Art and Design, effective September 1, 2011.

ACTION REQUEST: Approval of Academic Administrative Appointment for a Faculty Member

NAME: Wallace J. Hopp

CURRENT TITLES: Keith E. and Valerie J. Alessi Professor of Business Administration, Professor of Operations and Management Science, with tenure, Stephen M. Ross School of Business, and Professor of Industrial and Operations Engineering, without tenure, College of Engineering

ADDITIONAL TITLE: Associate Dean for Faculty and Research, Stephen M. Ross School of Business

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

On the recommendation of the Dean and the Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Wallace J. Hopp as associate dean for faculty and research, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

Wallace Hopp received his B.S. in physics from Michigan State University in 1978 and his M.S. in technology and human affairs from Washington University in 1979. He then moved to the University of Michigan, where he was granted a second M.S. in industrial and operations engineering in 1982 and a Ph.D. in industrial and operations engineering in 1984. After receiving his Ph.D., Professor Hopp joined Northwestern University as an assistant professor. He was promoted to associate professor in 1990 and to professor in 1993. Professor Hopp returned to the University of Michigan Stephen M. Ross School of Business in 2007 as professor of operations and management science and was named the Herrick Professor of Manufacturing. He was appointed as the Keith E. and Valerie J. Alessi Professor of Business Administration in 2010.

Professor Hopp’s research contribution to the field of operations management is a framework of principles and models that are termed factory physics. In addition to having had a strong impact on the way production and operations management is taught in industrial engineering and business curricula, this framework has provided a rigorous scientific structure for research and practice related to lean manufacturing and supply chain management. His academic publications are many, varied and impactful. His early technical work broadened out over the years in many directions. He is well known for his work on applying queuing theory to manufacturing systems, including influential work on controlled Work in Progress systems (CONWIP) and his more recent work on assortment and supply chain management and workforce agility. He is currently expanding his research agenda to include issues of catastrophic failure in supply chains,
innovations and social networks, and human resource management. He has published widely in the academic literature and is past editor-in-chief of the journal Management Science. Professor Hopp is co-author of the text Factory Physics, which was named the Institute of Industrial Engineers (IIE) Book of the Year in 1998, and is author of Supply Chain Science. He has won a number of teaching and research awards, including being named a fellow of INFORMS, IIE, the Society of Manufacturing Engineers, the Manufacturing and Service Operations Management Society and the Production and Operations Management Society.

We are pleased to recommend the appointment of Wallace J. Hopp as associate dean for faculty and research, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Mohammed N. Islam, Sc.D.

CURRENT TITLE: Professor of Electrical Engineering and Computer Science, with tenure, College of Engineering

ADDITIONAL TITLE: Professor of Internal Medicine, without tenure, Medical School

EFFECTIVE DATE: July 1, 2011

On the recommendation of John M. Carethers, M.D., John G. Searle Professor and Chair of the Department of Internal Medicine, I am pleased to recommend the joint appointment of Mohammed N. Islam, Sc.D. as professor of internal medicine, without tenure, Medical School, effective July 1, 2011.

Dr. Islam received an M.S. degree in 1983, and a Sc.D. degree in 1985, both in electrical engineering, from the Massachusetts Institute of Technology. From 1985-1992, he was a research scientist in the Advanced Photonics Department at AT&T Bell Laboratories in Holmdel, New Jersey. He joined the faculty at the University of Michigan in 1992 as associate professor of electrical engineering and computer science, with tenure, and was promoted to professor in 1998.

In his role in the Department of Internal Medicine, Dr. Islam will conduct research with a focus on adapting engineering principles to biomedicine, particularly in the area of mid-infrared laser sources and their applications in cardiovascular disease.

Dr. Islam will contribute substantially to the research and educational programs in the Division of Cardiovascular Medicine. This partnership could lead to new applications of lasers and fiber-optics in cardiovascular medicine, as well as in other biomedical areas. I am very pleased, therefore, to recommend the joint appointment of Mohammed N. Islam, Sc.D. as professor of internal medicine, without tenure, Medical School, effective July 1, 2011.

July 2011
With the approval of the 2011 Research Faculty Awards Committee, I am pleased to recommend the appointment of Lloyd D. Johnston as the Angus Campbell Collegiate Research Professor, Office of the Vice President for Research, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Angus Campbell Collegiate Research Professorship was established in June 2011. This award is given to recognize exceptional scholarly achievement and impact on advancing knowledge in science, engineering, health, education, the arts, the humanities, or other academic field of study. In the opinion of the Awards Committee, Professor Johnston has clearly met this criterion. A stipend from the Office of the Vice President for Research accompanies this professorship.

Angus Campbell was the director of the Survey Research Center, the largest of the centers comprising the University of Michigan's Institute for Social Research, from 1948 to 1970, and then became director of the Institute for Social Research from 1970 to 1976. Professor Campbell retired as director of the Institute for Social Research in 1976 and passed away on December 14, 1980.

Professor Johnston received his B.A. in economics from Williams College in 1962; his M.B.A. in organizational behavior from Harvard University in 1965; his M.A. in psychology in 1971 and his Ph.D. in psychology in 1973, both from the University of Michigan. He came to the University of Michigan as an assistant study director in the Survey Research Center, Institute for Social Research, from 1966 to 1973 (pre-doctoral) and joined the faculty as an assistant research scientist in 1973. Professor Johnston was promoted to associate research scientist in 1975; to senior research scientist in 1978; and to research professor in 1998.
Professor Johnston is a member of the American Psychological Association, the American Public Health Association, the American Sociological Association and the Association for Psychological Science. He received the Regents’ Award for Distinguished Public Service in 1998; the Distinguished Research Scientist Award in 1998; and the Senior Research Scientist Lectureship Award in 1987.

In summary, Professor Johnston’s national and recognition as a leading researcher on substance abuse among youth and young adults, his exceptional scholarly achievements, and the impact of his research make him an outstanding candidate for this award. I am pleased to recommend the appointment of Lloyd D. Johnston as the Angus Campbell Collegiate Research Professor, Office of the Vice President for Research, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

Respectfully submitted:

Stephen R. Forrest
Vice President for Research

July 2011
The Lichter Professorship was established in 2009. It is intended to support the efforts of a faculty member in the Department of Radiation Oncology with expertise in medical physics. Dr. Lichter was chair of the Department of Radiation Oncology at this institution from 1984-1998 and served as dean of the University of Michigan Medical School during 1999-2006. He retired from active faculty service as dean emeritus and professor emeritus of radiation oncology in 2006.

Dr. Kessler received his Ph.D. in biophysics from the University of California, Berkeley in 1989. He was appointed as a research assistant at Lawrence Berkeley Laboratory from 1985-1989. Dr. Kessler joined the faculty at the University of Michigan in 1989 as an instructor, and was promoted to assistant professor in 1992. In 2005, he was appointed as clinical associate professor of radiation oncology.

Dr. Kessler is a world expert in image analysis, image registration, and treatment planning. He plays a vital role in the Department of Radiation Oncology’s transition from their current treatment planning system to a new system that will support clinical care and research. This new system will facilitate treatment based on not only standard clinical imaging, but using dynamic functional and metabolic imaging as well as biological data. Dr. Kessler is integral to the implementation of this new paradigm in radiation oncology.

Dr. Kessler has published over 50 articles and written one book. He has developed a 3-D treatment planning and treatment software program. He serves on national committees, and is referee for the Journal of Applied Clinical Medical Physics. Dr. Kessler is a member of numerous committees, including the American Society for Radiation Oncology. Institutionally,
he has served as a mentor for undergraduate and graduate students and has served on several hospital committees.

Dr. Kessler’s contributions to the department, and his role in the implementation of the Radiation Oncology clinical care system, reinforce the spirit of this professorship. I am pleased, therefore, to recommend the appointment of Marc L. Kessler, Ph.D. as the Allen S. Lichter, M.D. Professor of Radiation Oncology, Medical School, effective July 1, 2011 through August 31, 2015.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Kenneth W. Kollman

CURRENT TITLES: Director, International Institute, and Professor of Political Science, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Department of Political Science and with the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Kenneth W. Kollman as the Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

As a result of a generous gift from the estate of Frederick G. L. Huetwell in May 1995, the provost and the president awarded the College four endowed professorships. The primary objective of the professorships is to attract and honor distinguished senior faculty in the social sciences and humanities.

Kenneth Kollman received a Bachelor of Arts from the University of Notre Dame in 1988. He attended Northwestern University where he was awarded a Master of Arts in 1991 and a Doctorate in 1993. Professor Kollman began his teaching career as an assistant professor at Michigan in 1993 and research associate professor in 2001; he was promoted through the ranks to professor and research professor in 2004. He was also appointed as an associated faculty in the Center for the Study of Complex Systems (1994 to present). From 1999 to 2004, he was a research associate professor and associate director of the Center for Political Studies, Institute for Social Research. He has served as director of the European Union Center (2003-2005) and the Center for European Studies (2003-2005), as well as director of the Center for International and Comparative Studies and director of the Program in Florence. Since 2005 he has served as director of the Center for International and Comparative Studies in the International Institute and since 2008 as associate chair of the Department of Political Science.

Professor Kollman's research and teaching focus on political parties, elections, lobbying, federal systems, and complexity theory. His 2004 book, The Formation of National Party Systems: Federalism and Party Competition in Canada, Great Britain, India, and the United States (co-authored with P. Chhibber, Princeton University Press), was awarded the 2005 Leon Epstein Outstanding Book Award by the American Political Science Association. He has been principal investigator on five multi-year National Science Foundation grants.
We are very pleased to recommend the appointment of Kenneth W. Kollman as the Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

On the recommendation of the Dean and the Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of William N. Lanen as associate dean for global initiatives, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

Professor Lanen received his A.B. degree from the University of California at Berkeley in 1969, his M.S. from Purdue University in 1970 and his Ph.D. from the University of Pennsylvania, Wharton School of Business in 1983. He began his career as a lecturer then as an assistant professor at the University of Pennsylvania from 1982-1990, then joined the Ross School of Business faculty in 1990 as an assistant professor. He was promoted to associate professor, with tenure, in 1996 and to professor in 2003.

Professor Lanen is an expert in the areas of analytical and empirical managerial accounting research. In particular his scholarship is focused on understanding firms’ cost management decisions. His recent work seeks to better understand what are known as “sticky costs.” He has a strong reputation for quality field work and is known as an original and creative thinker making important contributions to the field. Professor Lanen was the winner of the 2006 Notable Contribution to Management Accounting Literature Award for the paper “Using Electronic Data Interchange (EDI) to Improve the Efficiency of Accounting Transactions.”

Professor Lanen’s teaching record is exemplary. He is indefatigable and the breadth of his teaching is unusual. He has taught core and elective material to Ross School undergraduates, MBA students, doctoral students, global MBA students, executive MBA students, and also has taught in our Executive Education programs worldwide. In 1996 he was awarded the School’s coveted peer-nominated Victor L. Bernard Teaching Leadership Award, and was also chosen by our Brazilian Global M.B.A. students as the Outstanding Teacher in 2002. Professor Lanen was also the Michael and Joan Sakkinen Accounting Scholar from 2002-2005.
Professor Lanen's service contributions are outstanding. He has served with distinction on a host of Ross School committees over the years and has worked extensively to enrich our interdisciplinary initiatives. Professor Lanen has also served as the area chair of accounting since 2007 and as a member of the Ross School's Executive Committee from 2008-2010.

We are pleased to recommend the appointment of William N. Lanen as associate dean for global initiatives, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

RECOMMENDATION ENDORSED BY:

Philip J. Hanlon, Provost and
Executive Vice President for Academic Affairs
ACTION REQUEST: Approval of an Academic Administrative Appointment for a Faculty Member

NAME: Nancy G. Love

CURRENT TITLES: Chair, Department of Civil and Environmental Engineering, and Professor of Civil and Environmental Engineering, with tenure, College of Engineering

ADDITIONAL TITLE: Associate Dean for Academic Programs and Initiatives, Horace H. Rackham School of Graduate Studies

EFFECTIVE DATES: September 1, 2011 through August 31, 2014

We are extremely pleased to recommend the appointment of Nancy G. Love as associate dean for academic programs and initiatives, Horace H. Rackham School of Graduate Studies, effective September 1, 2011 through August 31, 2014.

Nancy Love earned her Bachelor of Science degree and Master of Science degree in civil engineering from the University of Illinois at Urbana-Champaign in 1984 and 1986, respectively. She completed her Doctorate in environmental systems engineering at Clemson University in 1994. Professor Love joined the faculty of Virginia Polytechnic Institute and State University (Virginia Tech) as an assistant professor in the Department of Civil and Environmental Engineering. She was promoted to associate professor in 2000, and achieved the status of professor in 2005. In 2002 she was appointed as an adjunct professor in the Department of Biological Sciences also at Virginia Tech. Professor Love joined the faculty at the University of Michigan as professor (with tenure) and chair of the Department of Civil and Environmental Engineering in 2008. She has served as a faculty affiliate and member of the Executive Committee of the Graham Environmental Sustainability Institute and as a member of the Michigan Memorial Phoenix Energy Institute Biofuels Working Group since 2009.

Professor Love’s research centers on biological processes in environmental engineering and science with a focus on engineered wastewater treatment systems and environmental health applications. Specific interests cover a broad range of interdisciplinary topics, including: the impact of chemical stressors on biological processes and communities; nitrogen biochemical cycling in water and wastewater systems; the fate of pharmaceuticals and personal care products in wastewater, biosolids and animal agriculture wastes; and resource recovery from wastewater.

Professor Love’s achievements are significant in research, teaching and service. She was the inaugural recipient of the Paul L. Busch Award of Innovation in Applied Water Quality Research, and has received the Water Environment Foundation’s Harrison Prescott Eddy Medal. Selected publications by Professor Love include a textbook entitled Biological Wastewater Treatment, which she co-authored with C. P. L. Grady Jr., G. T. Daigger, and C. Filipe (3rd edition, 2011), as well as numerous peer-reviewed articles in scientific and professional journals including, among others:

Professor Love was elected president of the Board of Directors of the Association of Environmental Engineering and Science Professors in 2010-2011. She was awarded a Certification by Eminence, Board Certified Environmental Engineer (BCEE) designation by the American Academy of Environmental Engineers in May 2011, and was elected a fellow of the inaugural class of the Water Environment Federation in June 2011. At the University of Michigan, her administrative service includes membership on the College of Engineering ad hoc Committee on Graduate Student Excellence (Summer 2008), the Provost Office’s Classroom Emergency Training Video Planning Group (Fall 2008-2009), the College of Engineering Dean’s Advisory Committee on Faculty Diversity (Spring 2010-present) and the College of Engineering Alumni Awards Selection Committee (2011).

Professor Love has a proven record as an outstanding leader and scholar in the field of environmental biotechnology. As department chair, she has established a strong commitment to broader academic interests. Her experience as a superb researcher, outstanding educator, and strong leader has equipped her well to perform the duties of associate dean. We are confident that she will provide strong and effective encouragement and leadership for academic program development, interdisciplinary initiatives, and graduate education more generally. We are therefore pleased to recommend the appointment of Nancy G. Love as associate dean for academic programs and initiatives, Horace H. Rackham School of Graduate Studies, effective September 1, 2011 through August 31, 2014.

REGENTS COMMUNICATION

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Miriam H. Meisler, Ph.D.

CURRENT TITLE: Professor of Human Genetics, with tenure, Medical School

ADDITIONAL TITLE: Professor of Neurology, without tenure, Medical School

EFFECTIVE DATE: July 1, 2011

On the recommendation of David J. Fink, M.D., the Robert Brear Professor and Chair of the Department of Neurology, I am pleased to recommend the additional appointment of Miriam H. Meisler, Ph.D. as professor of neurology, without tenure, Medical School, effective July 1, 2011.

Dr. Meisler received the Ph.D. degree in physiological chemistry from Ohio State University and completed postdoctoral studies at the Roswell Park Cancer Institute. In 1977, she joined the faculty at the University of Michigan as associate professor of human genetics and was promoted to her current rank of professor in 1983. As a member of the University of Michigan faculty for more than 30 years, Dr. Meisler has used her studies of mouse genetics to make seminal contributions to understanding the relationship of genotype to phenotype in the pathogenesis of diseases of the nervous system. Dr. Meisler has long and distinguished service on NIH study sections and on the NIH Mouse Genome Advisory Committee, the External Advisory Committee for the Jackson Laboratories, and the Steering Committee of their Mouse Phenome Project. From 1997-1999, she served as president of the International Mammalian Genetics Society. She has been a member of the editorial board of Mammalian Genome for 15 years, and served for five years as the associate editor of Genomics.

Over the past several years, Dr. Meisler has collaborated closely with faculty in the Department of Neurology, including publishing papers and serving as co-investigator on an NIH RC1 grant. As a professor of neurology, Dr. Meisler will continue to collaborate with researchers in neurology, to attend seminars on a regular basis, and to present her work to neurology faculty and researchers. The contributions of Dr. Meisler will help advance the Department of Neurology’s program in neurogenetics. I am very pleased, therefore, to recommend the additional appointment of Miriam H. Meisler, Ph.D. as professor of neurology, without tenure, Medical School, effective July 1, 2011.

ACTION REQUEST: Additional Appointment to a Collegiate Professorship

NAME: Jeffrey E. Mirel

CURRENT TITLES: David L. Angus Collegiate Professor of Education, Professor of Education, with tenure, School of Education, and Professor of History, without tenure, College of Literature, Science, and the Arts

TITLE BEING RENEWED: David L. Angus Collegiate Professor of Education, School of Education

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Executive Committee of the School of Education, we are pleased to recommend the reappointment of Jeffrey E. Mirel as the David L. Angus Collegiate Professor of Education, School of Education, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

Professor Angus was a nationally and internationally renowned historian of education and scholar of comparative education. He was the author of numerous articles and studies on the politics of education the history of curriculum. He was a prominent member of the School of Education faculty during his 33 years at the University of Michigan. His work was widely cited and his mentoring of students broadly acclaimed. The David L. Angus Collegiate Professorship in Education was established by the Regents in July 2006. A stipend funded from School resources will accompany this professorship.

Professor Mirel earned his B.A. degree from Ohio State University in 1970; an M.A. degree from Ohio State University in 1971 and an M.A. from the University of Michigan in 1982; he received his Ph.D. degree from the University of Michigan in 1984. He joined the faculty of Northern Illinois University in 1984 as an assistant professor, was promoted to associate professor in 1990, and to professor in 1995. In 1998, he moved to Emory University as professor and director of the Division of Educational Studies; he was also an associated faculty member in the Department of History. Professor Mirel joined the faculty of the University of Michigan in January 2001 and served as associate dean in the School of Education from 2002 to 2005.

Professor Mirel’s major areas of interest are the history and politics of urban education and the history of school reform, particularly high school curriculum reform. He is the author of The Rise and Fall of an Urban School System: Detroit 1907-81 which won the 1995 Outstanding Book Award of the American Educational Research Association and the 1995-96 Outstanding Book Award of the History of Education Society. His most recent book, co-authored with David Angus, is The Failed Promise of the American High School: 1890-1995 was published in 1999. He is currently working on the history of civic education.
We are pleased to recommend the reappointment of Jeffrey E. Mirel as the David L. Angus Collegiate Professor of Education, School of Education for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Jason D. Owen-Smith

CURRENT TITLES: Associate Professor of Sociology, with tenure, Associate Professor of Organizational Studies, with tenure, and Director, Program in Organizational Studies, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Barger Leadership Institute Professor of Organizational Studies, College of Literature, Science, and the Arts

TERM: Three Years

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

The Dean and the Executive Committee of the College of Literature, Science, and the Arts are pleased to recommend the appointment of Jason Owen-Smith as the Barger Leadership Institute Professor of Organizational Studies, College of Literature, Science, and the Arts, effective July 1, 2011 through June 30, 2014.

The Barger Leadership Institute Professorship in Organizational Studies was established by the Regents in June 2009 as a result of a generous gift from David Barger.

Jason Owen-Smith received his B.A. from the New College of Florida in 1995. He attended the University of Arizona where he completed his M.A. in 1997 and his Ph.D. in 2000. Professor Owen-Smith began his teaching career as an assistant professor at Michigan in 2002. He was promoted to associate professor, with tenure, in 2008. He has been director of Organizational Studies since 2010.

Professor Owen-Smith's work lies at the intersection of institutional change, network dynamics, innovation, high-technology industries, university research commercialization, and regional economic development. The numerous awards and grants that Professor Owen-Smith has received attest to his devotion to these fields.

We are very pleased to recommend the appointment of Jason Owen-Smith as the Barger Leadership Institute Professor of Organizational Studies, College of Literature, Science, and the Arts, effective July 1, 2011 through June 30, 2014.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Eric S. Rabkin

CURRENT TITLES: Arthur F. Thurnau Professor, and Professor of English Language and Literature, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Professor of Art and Design, without tenure, School of Art and Design

EFFECTIVE DATE: September 1, 2011

With the support of the Executive Committee of the School of Art and Design, and with the endorsement of the College of Literature, Science, and the Arts, we are pleased to recommend the joint appointment of Eric S. Rabkin as professor of art and design, without tenure, School of Art and Design, effective September 1, 2011.

Eric Rabkin joined the University of Michigan faculty in 1970 as an assistant professor of English language and literature, was promoted to associate professor in 1974, and to professor in 1977. In addition, he has held a number of administrative appointments at the college and university levels. He was named an Arthur F. Thurnau Professor in 1990.

Professor Rabkin’s research and teaching focus on topics of considerable interest to the School of Art and Design community, particularly his expertise in science fiction, fantasy, graphic novels, and the teaching of “practical English” to those in disciplines outside of writing programs. He has served as a graduate advisor to a number of the School’s MFA candidates, and has engaged with faculty in cross-campus forums and other settings. A courtesy appointment in the School of Art and Design would continue and expand his current relationship with the School and support instructional efforts to respond to both student interests in his areas of expertise and to incorporate writing instruction into the School’s curricula.

We respectfully request approval of the joint appointment of Eric S. Rabkin as professor of art and design, without tenure, School of Art and Design, effective September 1, 2011.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Amr S. Soliman, M.D., Ph.D.

CURRENT TITLE: Associate Professor of Epidemiology, with tenure, School of Public Health

ADDITIONAL TITLE: Associate Professor of Medical Education, without tenure, Medical School

EFFECTIVE DATE: July 1, 2011

On the recommendation of Larry D. Gruppen, Ph.D., the Josiah Macy Jr. Professor and Chair of the Department of Medical Education, I am pleased to recommend the joint appointment of Amr S. Soliman, M.D., Ph.D. as associate professor of medical education, without tenure, Medical School, effective July 1, 2011.

Dr. Soliman received the M.D. degree in 1981 from Cairo University and the Ph.D. in nutritional epidemiology from the University of Arizona in 1992. In 1993, he was appointed as a research associate at that institution. He was a visiting scientist at the M.D. Anderson Cancer Center at the University of Texas in 1995 and was appointed as an assistant professor of epidemiology there in 1999. He came to the University of Michigan as an assistant professor of epidemiology in the School of Public Health in 2003 and was promoted to associate professor, with tenure, in 2007.

Dr. Soliman’s research focuses on cancer epidemiology which includes early onset cancers, environmental risk factors of cancer, international cancer epidemiology, biomarkers in cancer epidemiology and population studies. He has an interest in training students for careers in research in special populations and patient education for vulnerable populations. He is currently collaborating with Dr. Patricia Mullan in the Department of Medical Education. This joint appointment will further advance the research relationship between the Medical School and School of Public Health, specifically in expanding training programs for medically underserved
populations. I am pleased, therefore to recommend the joint appointment of Amr S. Soliman, M.D., Ph.D. as associate professor of medical education, without tenure, Medical School, effective July 1, 2011.

Action Request: Additional Appointment for a Faculty Member

Name: Ronald G. Suny

Current Titles: Charles Tilly Collegiate Professor of Social and Political History, and Professor of History, with tenure, College of Literature, Science, and the Arts

Additional Title: Professor of Political Science, without tenure, College of Literature, Science, and the Arts

Term: Five Years, Renewable

Effective Dates: September 1, 2011 through August 31, 2016

On the recommendation of the Executive Committees of the Department of Political Science and the College of Literature, Science, and the Arts, and with the endorsement of the Department of History, we are pleased to recommend the additional appointment of Ronald G. Suny as professor of political science, without tenure, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

Ronald Suny received his Bachelor of Arts from Swarthmore College in 1962. He attended Columbia University where he earned his Master of Arts in 1965 and Doctorate in 1968. Professor Suny began his teaching career as an assistant professor at Oberlin College in 1968 and was promoted to associate professor, with tenure, in 1973. He joined our faculty as the Alex Manoogian Professor of Modern Armenian History in 1981 and then accepted an appointment as a professor at the University of Chicago in 1994. He returned to Michigan in 2005.

Professor Suny was appointed in the departments of Political Science and History at Chicago. He is one of the world’s leading experts on the politics and history of the Soviet Union and post-Soviet societies. He contributes to the Department of Political Science through his work and interaction with the faculty and graduate students at the International Institute and through his undergraduate courses on Soviet and post-Soviet politics, which attract a large number of political science majors.

We are very pleased to recommend the additional appointment of Ronald G. Suny as professor of political science, without tenure, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

July 2011
On the recommendation of the Dean and the Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Valerie Y. Suslow as associate dean for graduate programs, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

Valerie Suslow received her BA in economics from the University of California at Berkeley in 1979. In 1984 she received her PhD from Stanford University. She joined the Stephen M. Ross School of Business as an assistant professor in 1984 and was promoted to associate professor, with tenure, in 1992 and to professor in 2008. Professor Suslow served in an outstanding way as the academic director of the evening MBA program from 1995 to 1999 managing the group’s overall experience. She most recently served as associate dean for degree programs and the Louis and Myrtle Moskowitz Research Professor of Business and Law from 2007-2010.

In her prior role as associate dean for degree programs, Professor Suslow had primary responsibility for the School’s bachelors and masters degree programs. Her leadership in this role made a real difference.

Professor Suslow is a dedicated and conscientious researcher whose work has had a major impact. Her recent research, appearing in the leading academic journals, focuses on the operation of international cartels. Professor Suslow has a strong record of publications in prestigious journals and invited conference proceedings. She is a superb teacher demonstrating great skill in communicating technical concepts and the utmost attention to student concerns.

We are pleased to recommend the appointment of Valerie Y. Suslow as associate dean for graduate programs, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

ACTION REQUEST: Additional Appointment to a Research Professorship

NAME: Hitomi Tonomura

CURRENT TITLES: Professor of History, with tenure, and Professor of Women's Studies, without tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Richard Hudson Research Professor of History, College of Literature, Science, and the Arts

EFFECTIVE DATES: January 1, 2012 through May 31, 2012

On the recommendation of the Department of History and the Executive Committee of the College of Literature, Science, and the Arts, and with the endorsement of the Department of Women’s Studies, we are pleased to recommend the appointment of Hitomi Tonomura as the Richard Hudson Research Professor of History, College of Literature, Science, and the Arts, effective January 1, 2012 through May 31, 2012.

The Richard Hudson Research Professorship in History is a rotating professorship. Professor Von Eschen’s colleagues have recommended that she be awarded this chair, freeing her from teaching duties.

Professor Tonomura’s area of study includes premodern Japanese history, East Asian history, gender and sexuality, and premodern war and violence. She is currently examining the relationship between war, violence, and gender with a particular focus on the making of the samurai-style of masculinity and the gendered meaning of Japan’s warring age (15-16th c.).

This professorship will allow Professor Tonomura to complete her book manuscript entitled Writing About the Samurai: Manhood and Violence in Premodern Japan. This book is a sequel to a second book-in-progress entitled Women and the Military in Premodern Japan: Authority and Gender in the Samurai Age. She has a contract with the University of Hawai’i Press for both books.

We are very pleased to recommend the appointment of Hitomi Tonomura as the Richard Hudson Research Professor of History, College of Literature, Science, and the Arts, effective January 1, 2012 through May 31, 2012.

NAME: Michael W. Traugott

CURRENT TITLE: Professor of Communication Studies, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Professor of Political Science, without tenure, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2011 through August 31, 2016

On the recommendation of the Executive Committees of the Department of Political Science and the College of Literature, Science, and the Arts, and with the endorsement of the Department of Communication Studies, we are pleased to recommend the additional appointment of Michael W. Traugott as professor of political science, without tenure, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

Michael Traugott received his Bachelor of Arts in 1965 from Princeton University. He attended the University of Michigan where he earned his Master of Arts in 1967 and Doctorate in 1974. Professor Traugott began his teaching career as an instructor at the University of Essex in 1973 and joined our faculty as a lecturer in 1978. He was promoted to professor of communication studies in 1987 and appointed as a research professor in 1997. He was chair of Communication Studies from 1998 to 2004.

Professor Traugott is an influential and prolific scholar who conducts research at the intersection of political science and communication studies. He has had a long involvement in the Department of Political Science, regularly attending talks and events, and working with graduate students. He will be an outstanding resource for information and advice for political science students who do research on similar topics.

We are very pleased to recommend the additional appointment of Michael W. Traugott as professor of political science, without tenure, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2011 through August 31, 2016.

The Dean of the A. Alfred Taubman College of Architecture and Urban Planning is pleased to recommend the appointment of Jean Davison Wineman as associate dean for research, A. Alfred Taubman College of Architecture and Urban Planning, effective September 1, 2011 through August 31, 2014.

Professor Wineman received a Bachelor’s degree (with honors) in sociology and psychology from Wellesley College in 1971, a Master’s degree in urban planning in 1973 and a Doctor of Architecture degree in 1977, both from the University of Michigan. Since receiving her doctoral degree, she taught at the Georgia Institute of Technology where she was given tenure in 1982 and promoted to professor in 1999. While at Georgia Tech, she was named director of the Doctoral Program in Architecture in 1994, a position she held until her arrival in Michigan in 2000. In 2000, Professor Wineman was appointed associate dean for research and chair of the Doctoral Program in Architecture at Taubman College.

Professor Wineman has earned the respect of her colleagues for her leadership, research, and teaching. She will provide effective and broad guidance and leadership to the College’s faculty as well as to our academic and research programs and their future development. I am pleased to recommend her appointment as associate dean for research, A. Alfred Taubman College of Architecture and Urban Planning, effective September 1, 2011 through August 31, 2014.

On the recommendation of the Dean and the Executive Committee of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Lynn Perry Wooten as associate dean for undergraduate programs, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

Lynn Wooten earned her Bachelor of Science from North Carolina A&T State University in 1988 and her Master of Business Administration from Duke University, Fuqua School of Business in 1990. Professor Wooten earned her Ph.D. in business administration from the Ross School of Business in 1995 and joined the Ross School faculty in 1998 as a visiting professor and was appointed as assistant professor in 2000. In 2004, the school approved her request to move to the clinical track which was a better fit for her scholarly activity and professional interests. She was promoted to clinical associate professor in 2008. Prior to joining the faculty at Ross, she was an assistant professor at the University of Florida. She is currently the co-director of the Center for Positive Organizational Scholarship at the Ross School of Business.

Professor Wooten has been quite prolific in publishing to her chosen audience. She has been writing in three important research areas, managing in crisis situations, managing diversity and building positive organization routines. She has actively published several journal articles in these arenas and has also completed a book for Routledge Press. She has used this research as the basis of organizational interventions and executive development.

Professor Wooten is an excellent teacher at the undergraduate, graduate, and doctoral levels. She has consistently high teaching ratings and a deep commitment to the school in teaching courses that are both valuable to students and needed as electives by both the management and organizations area and the strategy area. She has also developed material and taught in a variety of executive audiences.

Professor Wooten has been very active in a variety of institutional, professional and civic forums. Within the school she has been a volunteer for many student related events (up close
week-end, comprehensive studies program, mentor for case competitions, etc.) Within the University she has conducted a variety of workshops on leadership development and diversity management. On a broader plane she was recently involved in an initiative to help the Michigan unemployed upgrade their skills through the LEARN project, a most worthy endeavor which also reflected well on the school as a whole. She has also been a reviewer for journals and is serving as a guest editor for a Special Issue.

We are pleased to recommend the appointment of Lynn Perry Wooten as associate dean for undergraduate programs, Stephen M. Ross School of Business, effective July 1, 2011 through June 30, 2014.

Establishing and renaming professorships and selected academic administrative positions.
ACTION REQUEST: Establishment of an Endowed Professorship

PROPOSED NAME: Charles B. de Nancrède Professorship in Surgery, Medical School

EFFECTIVE DATE: July 1, 2011

On the recommendation of Michael W. Mulholland, M.D., Ph.D., the Frederick A. Coller Distinguished Professor of Surgery and Chair of the Department of Surgery, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the establishment of the Charles B. G. de Nancrède Professorship in Surgery, Medical School, effective July 1, 2011.

This professorship is being established through an endowment fund from the Charles B. de Nancrède Memorial Fund. It is intended to recognize the service of an outstanding tenured faculty member in the Department of Surgery with superior achievement in education, clinical care and research. The appointment period of the Charles B. de Nancrède Professorship in Surgery may be up to five years, and the appointment may be renewed.

Dr. Charles B. de Nancrède was born in Philadelphia in 1847, where he received a classical and military education in private schools near the city. He attended the University of Pennsylvania undergraduate and medical schools and graduated in 1869. He authored and illustrated several editions of an anatomy crammer, Essentials of Anatomy and Manual for Practical Dissection. In 1889, Dr. de Nancrède came to Ann Arbor and the University of Michigan. Starting from almost nothing, he built the first Department of Surgery. During his time as head of Surgery from 1889-1917, he trained 46 men in the practice of surgery. Dr. de Nancrède retired in 1917, and passed away in Ann Arbor in 1921 at the age of 74.

This professorship will serve as a memorial to Dr. de Nancrède and his numerous contributions to the University of Michigan and to the medical community. I am very pleased, therefore, to recommend the establishment of the Charles B. de Nancrède Professorship in Surgery, Medical School, effective July 1, 2011.

Action Request: Approval to Name an Existing Collegiate Professorship

Proposed Name: Leo Goldberg Collegiate Professorship in Astronomy, College of Literature, Science, and the Arts

Effective Date: July 1, 2011

The College of Literature, Science, and the Arts seeks to name an existing collegiate professorship for Leo Goldberg, who was a faculty member at the University of Michigan from 1942 until he left Michigan to accept an appointment at Harvard University in 1960. A stipend funded from College resources will accompany this professorship.

Leo Goldberg was born in Brooklyn, New York in 1913, the son of Polish immigrants. He was awarded a scholarship to attend Harvard University where he received his Doctorate in 1938. Following a three-year appointment as a research fellow at Harvard, he came to Michigan in 1941 as an assistant in astronomy to work on military-related research at the McMath-Hulbert Observatory. Professor Goldberg was appointed as an assistant professor in 1945 and promoted through the ranks to professor in 1948. He was appointed chair of the Department of Astronomy and director of the Michigan observatories (1946-1960).

Professor Goldberg proved to be a remarkable organizer and administrator. He recruited new, first-rate staff, including Lawrence Aller, and revitalized the graduate program. Professor Goldberg was also responsible for the construction of the Curtis Schmidt telescope, a major research instrument at the time and still valuable today, now sited at Cerro Tololo in Chile. In addition, Professor Goldberg was responsible for the erection of the 85-foot radio telescope at Peach Mountain Observatory, which was one of the largest radio telescopes in the world at the time, and which has been used for many years to monitor radio galaxies. During his time at Michigan, Professor Goldberg also played a major role in the founding of the U.S. national optical observatories and the establishment of a national radio astronomy observatory.

Professor Goldberg returned to Harvard University, where he accepted an appointment as the Higgins Professor of Astronomy in 1960 and became director of the Harvard College Observatory (1966-1971). At Harvard, Professor Goldberg undertook three ambitious programs: the construction of orbiting satellites to observe the sun, the development of an astrophysical laboratory, and the construction of a new building to house these activities. Following his time at Harvard, Professor Goldberg became director of the Kitt Peak National Observatory (1971-1977).

Professor Goldberg produced fundamental contributions to atomic spectroscopy and its use to understand the outer layers of the sun, especially using data from orbiting satellites. In recognition of his scientific research and his contributions to the community, he was named a member of the U.S. National Academy of Sciences in 1958. In 1973 Professor Goldberg received the Distinguished Service Medal from the National Aeronautics and Space

Professor Goldberg was president of both the American Astronomical Society (1964-1966) and the International Astronomical Union (1973-1976). He was chair of the Astronomy Missions Board of the National Aeronautics and Space Administration (1967-1970) and last served as Martin-Marietta Chair of Space History at the Smithsonian Institution’s National Air and Space Museum. Leo Goldberg passed away in Tucson, Arizona in 1987.

A distinguished faculty member will be nominated to receive this honor. The initial term of appointment will be for five years with the possibility of renewal.

ACTION REQUEST: Approval to Name an Existing Collegiate Professorship

PROPOSED NAME: Francis W. Kelsey Collegiate Professorship in Greek and Roman History, College of Literature, Science, and the Arts

EFFECTIVE DATE: July 1, 2011

The College of Literature, Science, and the Arts seeks to name an existing collegiate professorship for Francis W. Kelsey who was a faculty member at the University of Michigan from 1889 until his death in 1927. A stipend funded from College resources will accompany this professorship.

Francis Willey Kelsey was born in Ogden, New York in May of 1858. He received his Doctorate from the University of Rochester in 1886 and joined the faculty as a professor at Lake Forest College. He was appointed as professor of Latin at the University of Michigan in 1889 and in 1890 he succeeded his honored predecessor, Professor Henry S. Frieze, as head of the Department of Latin.

By all accounts, Professor Kelsey was an extraordinary individual. He was an enthusiastic teacher, meticulous researcher, and savvy entrepreneur who continually immersed himself in visionary projects, ranging from the archaeological to the humanitarian. Professor Kelsey authored numerous books and articles in scholarly and popular journals. His textbooks were nationally known and his scholarly work on the antiquities of Pompeii had an even wider audience.

Professor Kelsey was instrumental in forming the core of the Kelsey Museum’s numerous holdings and in developing the study of archaeology at the University of Michigan. He organized several expeditions to the Near East from 1919 to 1926. His passion for collecting antiquities led to the establishment of the museum that bears his name. Through tireless fundraising and donations by prominent friends, Professor Kelsey spent the next thirty years building a remarkable collection ranging from pottery and terracotta figurines to painted stucco and inscribed Latin tombstones to coins and Egyptian tomb sets to objects of Roman daily life. During the 1920s Professor Kelsey also purchased the ancient papyri that now form the basis for the University of Michigan’s world famous papyrological collection. He served as president of the American Philological Association (1906-1907) and president of the Archaeological Institute of American (1907-1912).

Professor Kelsey was also a deeply committed humanitarian. He aided in the work of the Near East Relief Committee after the Armenian Massacre and was secretary in the state of Michigan for the Belgian Relief Committee, whose mission was to improve the lives of Belgian children left impoverished in the wake of World War I.
Professor Kelsey was gifted with a keen appreciation of the beautiful in literature and music, and he served for many years as president of the University Musical Society (UMS). In 1936 the Department of Music erected a bronze tablet in their building in honor of his contribution to the UMS. The Michigan Humanistic Series, which he founded in 1904, is the forerunner of the University of Michigan Press, and the University’s distinguished history of publication in Classical Studies.

A distinguished faculty member will be nominated to receive this honor. The initial term of appointment will be for five years with the possibility of renewal.

July 2011
ACTION REQUEST: Establishment of an Endowed Professorship

PROPOSED NAME: William R. Roush Assistant Professorship, Department of Chemistry, College of Literature, Science, and the Arts

EFFECTIVE DATE: July 1, 2011

With the endorsement of the Executive Committee of the Department of Chemistry, we are pleased to recommend the establishment of the William R. Roush Assistant Professorship, Department of Chemistry, College of Literature, Science, and the Arts, effective July 1, 2011.

William R. Roush as donor has caused to provide the Department of Chemistry with a generous gift to establish the W. R. Roush Department Fund for the purpose of supporting the William R. Roush Junior Faculty Career Development Award. This award will be for three years and will consist of a single allocation of $50,000 in research funding for each awardee. The awardee will also hold the title of William R. Roush Assistant Professor during that time. The William R. Roush Junior Faculty Career Development Award will be made every other year from the proceeds of the quasi-endowment and may be altered over time if the proceeds change. Each award will be made by decision of the chair of the Department of Chemistry with advice from Chemistry’s Executive Committee.

In recognition of this gift, we recommend that the Regents formally establish the William R. Roush Assistant Professorship, Department of Chemistry, College of Literature, Science, and the Arts, effective July 1, 2011.

ACTION REQUEST

SUBJECT: Interim Appointment Approval During August

ACTION REQUESTED: Authorization for approving necessary appointments during August

EFFECTIVE DATES: August 1, 2011 through August 31, 2011

During the month of August, when the Regents are in recess, it is requested that the Regents authorize the President or the Provost and Executive Vice President for Academic Affairs to make such interim appointments and/or changes as may become necessary to complete the staffing for the Fall term. All such appointments will be reported to the Regents at the September meeting.

July 2011
ACTION REQUEST: Faculty Appointment to a Distinguished University Professorship

NAME: Richard Janko

CURRENT TITLES: Gerald F. Else Collegiate Professor of Classical Studies, and Professor of Classical Studies, with tenure, College of Literature, Science, and the Arts

RECOMMENDED TITLES: Gerald F. Else Distinguished University Professor of Classical Studies, and Professor of Classical Studies, with tenure, College of Literature, Science, and the Arts

TERM: Period of Active Service

EFFECTIVE DATE: September 1, 2011

We are pleased to recommend to the Board of Regents the appointment of Professor Richard Janko as the Gerald F. Else Distinguished University Professor of Classical Studies, effective September 1, 2011.

The first Distinguished University Professorships were created in 1947 by the Board of Regents to recognize members of the faculty for exceptional achievement and reputation in their appointive fields of scholarly interest and for their superior teaching skills. Each professorship is named in honor of an eminent individual – preferably one associated with the University – in the scholar’s same general field of interest. Appointment to a Distinguished University Professorship continues to be one of the most prestigious honors conferred by the University upon a member of its faculty.

Professor Janko received his undergraduate and graduate degrees in classics from the University of Cambridge, namely a B.A. in 1976 and M.A. and Ph.D. in 1980, and held a research fellowship at Trinity College, Cambridge, in 1979–82. In 1978–79 he taught as a lecturer at the University of St. Andrews. He came to the U.S. as an assistant professor of classics at Columbia University in 1982, where he became associate professor in 1985. In 1987 he moved to UCLA, where he served as professor of classics until 1994. He was professor of Greek at University College London from 1995 until 2002. He has also been a visiting professor at the Scuola Normale in Pisa, Italy. Professor Janko arrived at the University of Michigan in 2002 as chair of the Department of Classical Studies, in which capacity he served until 2007. He was appointed Gerald F. Else Collegiate Professor of Classical Studies in 2005.

Professor Janko is one of the leading figures in the study of ancient Greek literature and thought, to which he has made major contributions in several different respects. His first book, *Homer, Hesiod and the Hymns* (1982), used a statistical analysis of language to resolve the difficult problem of the dating of the various early Greek epic poems. He then wrote *Aristotle on Comedy* (1984), in which he advanced the controversial argument that a summary of the lost second book of Aristotle’s *Poetics* about comedy in fact survives in a medieval manuscript in Paris. He also published a translation and commentary on the *Poetics* that is widely used by students. Meanwhile, he brought out Volume IV of the Cambridge Commentary on Homer’s *Iliad* (1992), in which he showed how the artistry of Homer’s epic transcends his skills as an oral, unlettered poet; this volume has been praised as the best in its series. In addition, he secured major funding from the National Endowment for the Humanities to bring out the lost works on aesthetics of Vergil’s teacher, the poet and philosopher Philodemus. The manuscripts of these works...
were buried by the eruption of Vesuvius and can only now be read with new technology. Thus far he has published Philodemus: On Poems Book 1 (2000), and Philodemus: On Poems Books 3–4, with the Fragments of Aristotle’s On Poets (2010), which contains many new pieces of Aristotle’s lost dialogue. He has also authored over sixty articles on a wide variety of topics in Greek poetry and history of ideas, from Sappho to Socrates and from comedy to catharsis. Finally, he oversaw the publication of a major archaeological site in Greece where as a student he had taken part in the excavations; it was left unpublished upon the death of its excavator, W. D. Taylor (Ayios Stephanos: Excavations at a Bronze Age and Medieval Settlement in Southern Laconia, 2008). Analysis of the pottery and stratigraphy of the site does much to clarify the chronology of the Minoan and Mycenean civilizations.

His scholarship has brought him honors. He was awarded a John Simon Guggenheim Fellowship in 1986–87, a Fellowship at the National Humanities Center in 1990, a Leverhulme Research Fellowship in 1997–98 and a semester as a member of the Institute for Advanced Study in 2000. His book Philodemus: On Poems Book 1 won the Goodwin Award for Merit from the American Philological Association (2001), its only prize for scholarly excellence. He was elected to the American Academy of Arts and Sciences in 2006 and to the American Philosophical Society in 2009. Finally, he served as Henry Russell Lecturer in the University of Michigan in 2010–11.

As he assumes the Distinguished University Professorship, Professor Janko wishes to be named the Gerald F. Else Distinguished University Professor of Classical Studies.

Gerald F. Else (1908–1982) was a distinguished American classicist who was professor of Greek and Latin at the University of Michigan from 1957 until his retirement in 1977. He began his career at Harvard and chaired the Classics Department at the University of Iowa. He served as chair of our Department of Classical Studies from 1957 to 1968. During that time he founded the Center for Coordination of Ancient and Modern Studies, seeking to unite the humanities and to show how the study of the ancient world is relevant to modern literature and modern concerns. An annual lecture in his name continues to promote these goals. His greatest achievement was a meticulous and monumental interpretation of Aristotle’s Poetics, which appeared in 1957. He also published The Origin and Early Form of Greek Tragedy in 1965. He was president of the American Philological Association in 1964, and served on President Lyndon B. Johnson’s National Council in the Humanities.

The appointment of Professor Richard Janko as the Gerald F. Else Distinguished University Professor of Classical Studies, effective September 1, 2011, recognizes his broad and outstanding scholarly achievements, his commitment to excellence in education for his students, and his extensive contributions to the University of Michigan and far beyond. We are delighted to make this recommendation.

July 2011
ACTION REQUEST: Faculty Appointment to a Distinguished University Professorship

NAME: Gordon L. Kane

CURRENT TITLES: Victor F. Weisskopf Collegiate Professor of Physics, Professor of Physics, with tenure, College of Literature, Science, and the Arts, and Professor of Art and Design, without tenure, School of Art and Design

RECOMMENDED TITLES: Victor F. Weisskopf Distinguished University Professor of Physics, Professor of Physics, with tenure, College of Literature, Science, and the Arts, and Professor of Art and Design, without tenure, School of Art and Design

TERM: Period of Active Service

EFFECTIVE DATE: September 1, 2011

We are pleased to recommend to the Board of Regents the appointment of Professor Gordon L. Kane as the Victor F. Weisskopf Distinguished University Professor of Physics, effective September 1, 2011.

The first Distinguished University Professorships were created in 1947 by the Board of Regents to recognize members of the faculty for exceptional achievement and reputation in their appointive fields of scholarly interest and for their superior teaching skills. Each professorship is named in honor of an eminent individual—preferably one associated with the University—in the scholar’s same general field of interest. Appointment to a Distinguished University Professorship continues to be one of the most prestigious honors conferred by the University upon a member of its faculty.

Professor Kane received his PhD at the University of Illinois in 1963, and was a postdoctoral fellow at Johns Hopkins University. He joined the University of Michigan in 1965 and has been here since, being promoted to associate professor in 1969 and to professor in 1975. He became the Victor F. Weisskopf Collegiate Professor of Physics in 2002. In 1979 he was a visiting professor at the Stanford Linear Accelerator Center, in 1986 a scientific associate at CERN in Switzerland, and in 2007 a member, Institute for Advanced Study, Princeton.

Professor Kane is internationally recognized as a major scientific leader in a remarkably broad range of areas including theoretical and phenomenological particle physics, and cosmology. His impact on educational and service activities for the department, the scientific community and the general public are very impressive. Professor Kane is a world leader in developing or extending theories for physics beyond the Standard Models of particle physics and of cosmology, emphasizing tests and utilizing clues from data. He has proposed innovative ideas in every one of the major frontier areas. He led the international study in 1982 that pointed to the Superconducting Supercollider as the kind of facility needed to study and test ideas; finally that was not built, but was then replaced by the European Large Hadron Collider (LHC) that has now begun to take data. He has proposed many tests of the supersymmetric extension of the Standard Models that is the best candidate for solving many of the main fundamental problems today. He is one of the leading international figures on how the LHC should focus its efforts—for example, he has organized several important workshops and studies on LHC physics, including a very successful workshop here recently on LHC physics goals, organized another here this past January on LHC and dark matter, was invited to organize one on these topics at the new Kavli Center in Beijing, and he recently co-
edited a book “Perspectives on LHC Physics.” He and Professor Homer Neal proposed a major international meeting on the first year of LHC physics that took place December 2010. In recent years he has been at the forefront in the rapidly developing area relating string theory and experimental phenomena, and he led the recently successful effort to have this string phenomenology activity receive a new kind of University network funding from the National Science Foundation.

He has published 200 research papers in these and related areas, and been invited to give about 230 talks and lectures at national and international meetings and schools (not counting many seminars and colloquia at all top universities and laboratories worldwide). There are over 14,000 citations to his papers, with a very high average of 71 citations per paper, and a third of his papers have over 50 citations each, a remarkable citation record. His h index is 57 (an h index of 45 or higher is typical for Members of the National Academy of Sciences and Nobel Prize winners). He has written or co-authored or edited ten physics books, two of which are for any curious person in the general public. One of these and a second of his books were Scientific American book club selections, and a recent compilation of the top eleven Scientific American particle physics articles of the decade included two of his. A chapter from one book was included in an anthology, with other chapters by Galileo, Newton, Einstein, Hawking, Maxwell, Heisenberg, and Weinberg. He has been Delphasus Lecturer, University of California at Santa Cruz; Distinguished Visiting Speaker at the University of California Davis; Dozer Lecturer at Ben-Gurion University, and Lewiner Lecturer at the Technion in Tel-Aviv, and an American Physical Society Centennial Speaker.

He has developed an internationally known course in the now established “Standard Model of particle physics” that can explain it to physics students from all areas, and to theorists and experimenters, rather than focusing on one audience. This course is valuable to the department, allowing it to be one of the few that can offer all students an understandable course in the Standard Model, the synthesis of centuries of trying to understand the physical world, and helping us attract top graduate students to our department. He has authored several fine review articles that make frontier research in a number of areas accessible to younger generations of upcoming researchers everywhere and thereby played a large role in strengthening research worldwide in physics beyond the Standard Model. He has mentored a number of PhD students and postdocs, a dozen of whom are now on the faculties of research universities, and is often a resource for PhD students in other areas of theory and experiment in the department and elsewhere. He has served on 45 PhD dissertation committees since 1989.

He is director of the Michigan Center for Theoretical Physics (MCTP). The MCTP has over 90 full members from the faculty of the University, from 15 LSA Units and several Engineering Units, with as many more associate members. MCTP has brought over 2500 scientists from around the world to participate in its workshops and meetings here.

Professor Kane has been elected a fellow of the American Physical Society, a fellow of the American Association for the Advancement of Science, and a fellow of the British Institute of Physics, and a Guggenheim Fellow. He has served on many governmental advisory panels, most recently as chair of the theoretical physics subpanel on the three year Committee of Visitors of the Physical and Mathematical Sciences Division of the National Science Foundation, the highest evaluation panel the NSF has. He has served on the international advisory committees of over 40 national and international meetings.

Professor Kane is PI on a longstanding Department of Energy grant with his particle theory and cosmology colleagues that currently has a base budget of $827,000 a year, large for theoretical scientists who do not build equipment. He has had major research funding continuously since 1966.

He has served the University in many ways over the years, ranging from membership on the Finance Committee that reviewed and advised policies for the vice president for financial affairs, and on the
Budget Priorities Committee that advised the provost, both in the late 1980s and early 1990s. He has had a broader intellectual impact on the University. When Lee Bollinger was selected as president of the University, SACUA chose 12 faculty members across all fields, one of whom was Professor Kane, and asked them to prepare a volume of essays on *the Future of the Research University*, to be handed to President Bollinger on arrival. He has acknowledgements in publications in psychology and evolutionary biology, has been a doctoral committee member in the history of science and in social psychology, and has been appointed an associate of the Institute for the Humanities (1991-1992) and an adjunct professor in the School of Art and Design (just renewed for a second five-year term). He was an active senior fellow of the Michigan Society of Fellows. A few years ago for the evolution semester of LSA a symposium was organized on “Origins,” from the Big Bang to human evolution, and Professor Kane was asked to give the widely praised summary talk, showing an impressive understanding of the many areas involved, and integrating them.

The appointment of Professor Gordon Kane as the Victor F. Weisskopf Distinguished University Professor of Physics, effective September 1, 2011, recognizes his extensive and outstanding scholarly achievements, his commitment to excellence in education for his students, and his extensive contributions to the University of Michigan and far beyond. We are delighted to make this recommendation.

July 2011
ACTION REQUEST: Faculty Appointment to a Distinguished University Professorship

NAME: Miriam H. Meisler

CURRENT TITLE: Professor of Human Genetics, with tenure, Medical School

RECOMMENDED TITLES: Myron Levine Distinguished University Professor of Human Genetics, and Professor of Human Genetics, with tenure, Medical School

TERM: Period of Active Service

EFFECTIVE DATE: September 1, 2011

We are pleased to recommend to the Board of Regents the appointment of Professor Miriam H. Meisler as the Myron Levine Distinguished University Professor of Human Genetics, effective September 1, 2011.

The first Distinguished University Professorships were created in 1947 by the Board of Regents to recognize members of the faculty for exceptional achievement and reputation in their appointive fields of scholarly interest and for their superior teaching skills. Each professorship is named in honor of an eminent individual—preferably one associated with the University—in the scholar’s same general field of interest. Appointment to a Distinguished University Professorship continues to be one of the most prestigious honors conferred by the University upon a member of its faculty.

Professor Meisler earned a Ph.D. in physiological chemistry from The Ohio State University in 1968. She served as a postdoctoral fellow in the Roswell Park Cancer Institution in Buffalo, New York from 1969-73, working with Dr. Kenneth Paigen. She served as assistant professor of biochemistry in the School of Medicine, SUNY-Buffalo from 1973-1977. She came to the University of Michigan in 1977 as associate professor of human genetics in the Medical School and was promoted to professor in 1983.

In her research, Professor Meisler has used mouse models to identify disease genes and characterize their mechanism of action. Her laboratory carried out positional cloning of several mouse mutants that revealed new connections between gene function and neurological disease. She pioneered the use of strain differences to identify modifier genes that influence the severity of genetic disease. Extrapolating from her observations in mutant mice, Professor Meisler discovered that human mutations in the sodium channel gene SCNa are a major cause of inherited epilepsy, and that mutations of the FIG4 gene result in the human neuropathy Charcot-Marie-Tooth disease. More than 30 trainees from around the world have worked with her on these research projects, which have been continuously funded by the NIH since 1975.

Professor Meisler is active in national professional associations and advisory committees, and served as the first president of the International Mammalian Genome Society from 1995 to 1997 and on the Program Committee of the American Society for Human Genetics from 2007 to 2009. She was a member of the editorial board of Mammalian Genome from 1992-2009, associate editor of Genomics from 1995-2000, and a member of the editorial board of Genome Research from 2003-2009.

Among her many awards and honors are a Basil O’Connor Award from the March of Dimes (1974), an Eleanor Roosevelt Cancer Fellowship (1988), a University of Michigan Distinguished Faculty Achievement Award (1993), a Sarah Goddard Power Award, University of Michigan (1995), selection as a fellow of the American Association for the Advancement of Science (2001), service as a senior fellow
of the Michigan Society of Fellows (2002-05), and recipient of the University of Michigan's Distinguished Faculty Lectureship Award in Biomedical Research (2006).

Professor Meisler has assumed multiple leadership roles at the University of Michigan, including acting chair of the Department of Human Genetics (1986-87), director of the Center for Genome Research (1993-95), director of graduate studies in Human Genetics (1985-1999), associate director of the NIH Training Program in Genome Sciences (1996-2001), interim associate dean for research at the Medical School (2006-08), and director of the NIH Pre-doctoral Training Program in Genetics (2000-present).

As she assumes the Distinguished University Professorship, Professor Meisler wishes to be named the Myron Levine Distinguished University Professor of Human Genetics.

Myron Levine is a professor emeritus in the University of Michigan’s Department of Human Genetics. He was a member of the first generation of molecular biologists who established the basic mechanisms of gene regulation and expression, working first on bacteriophage and later on viruses. Professor Levine’s work contributed to basic knowledge as well as the development of vectors with promise of future therapeutic application in the near term. Professor Levine directed the graduate research of David Botstein, an important leader in the field of genomics, and the postdoctoral training of Nobel Laureate Hamilton Smith. He was one of the three founders of the University of Michigan’s graduate program in Cellular and Molecular Biology in the 1970s, in recognition of which he is honored with a named lecture each fall. Professor Levine continues to serve a valuable role as a scientific and academic advisor.

The appointment of Professor Miriam H. Meisler as the Myron Levine Distinguished University Professor of Human Genetics, effective September 1, 2011, recognizes her extensive and outstanding scholarly achievements, her commitment to excellence in education for her students, and her extensive contributions to the University of Michigan and beyond. We are delighted to make this recommendation.

Distinguished University Professorships

RECOMMENDATION ENDORSED BY:

Phillip Hanlon
Provost and Executive Vice President
for Academic Affairs

July 2011
We are pleased to recommend to the Board of Regents the appointment of Professor Terry E. Robinson as the Elliot S. Valenstein Distinguished University Professor of Psychology and Neuroscience, effective September 1, 2011.

The first Distinguished University Professorships were created in 1947 by the Board of Regents to recognize members of the faculty for exceptional achievement and reputation in their appointive fields of scholarly interest and for their superior teaching skills. Each professorship is named in honor of an eminent individual—preferably one associated with the University—in the scholar’s same general field of interest. Appointment to a Distinguished University Professorship continues to be one of the most prestigious honors conferred by the University upon a member of its faculty.

Professor Robinson received his undergraduate and graduate degrees in Canada, including a M.A. in biological psychology from the University of Saskatchewan in 1974 and a Ph.D. from the University of Western Ontario in London in 1978. After one year of postdoctoral training at the University of California (Irvine) he joined the faculty of the University of Michigan in 1978, as an assistant professor in the Department of Psychology. Professor Robinson remained at the University of Michigan throughout his career and was promoted to associate professor in 1984, to professor in 1989, and as the Elliot S. Valenstein Collegiate Professor of Behavioral Neuroscience in 2001. He has also been active in the interdepartmental Neuroscience Graduate Program throughout his time at Michigan.

Professor Robinson is known internationally for his research concerning the persistent behavioral and neurobiological consequences of repeated exposure to drugs of abuse, and the implications of these for addiction and relapse. He has published extensively on the effects of amphetamine and cocaine on brain neurotransmitter systems and behavior, and especially on psychomotor sensitization, withdrawal, and neurotoxicity, as well as on the neuroadaptive processes that mediate recovery of function following damage to dopamine systems. For example, he published seminal papers showing that repeated treatment with amphetamine, cocaine or morphine produces very long-lasting (months to years) changes in subsequent drug-induced behavior, as well as associated alterations in a number of neurobiological systems, especially mesolimbic dopaminergic systems. These neuroadaptations include not only neurochemical alterations, but structural changes in the morphology of dendrites on cells in brain reward systems, suggesting that exposure to psychomotor stimulants may permanently alter patterns of synaptic connectivity in neural systems involved in mediating basic motivational processes, thereby altering a
number of reward-related processes. He has also shown that environmental (nonpharmacological) factors modulate the development and expression of drug-induced changes in behavior, and described neurobiological mechanisms by which environmental context gates drug responsiveness, including the ability to modulate gene expression. With his colleague, Professor Kent Berridge, he has published influential theoretical articles on how these drug-induced changes in brain and behavior may contribute to the development of addiction. Indeed, their original 1993 article proposing an “Incentive-Sensitization Theory of Addiction” has been cited over 2,650 times, and is the most cited paper in the field. His current research focuses on individual differences in the extent to which reward-related cues, including drug cues, come to control behavior and how this may contribute to susceptibility to addiction. Professor Robinson is considered to be among the leading experts in the world on the psychology and neurobiology of addiction.

For his research, Professor Robinson has received numerous awards. His research has been continually funded by the National Institutes of Health (NIH) throughout his career, and he has been awarded a NIH Research Career Development Award, a National Institute of Drug Abuse Senior Scientist Award, and for the last 10 years his research was supported by a NIDA MERIT award. In 2006 he was listed on the Institute for Scientific Information’s ISIHighlyCited.com as one of the highest cited (top 0.5%) scientists in the world in the field of neuroscience. He has published over 200 articles, and collectively, these have been cited in other publications approximately 17,000 times. Professor Robinson is a fellow of the American Association for the Advancement of Science and the American Psychological Society, a member of the American College of Neuropsychopharmacology, has served as chair of the Gordon Research Conference on Catecholamines, and has received the Literature, Science & Arts College Excellence in Research Award and the Outstanding Faculty Service Recognition Award from the UM Neuroscience Program. In 2010 he received the D.O. Hebb Distinguished Scientific Contribution Award from the American Psychological Association. He has given many invited lectures throughout the world, including a Presidential Special Lecture at the Society for Neuroscience Annual Meeting.

Professor Robinson’s professional service at the local level has involved appointments on numerous departmental committees, including service on the Executive Committees of both the Department of Psychology and the Neuroscience Graduate Program, and he is presently on the Steering Committee for the Undergraduate Concentration in Neuroscience. He served as the director of the Neuroscience Graduate Program (1988-1989), as chair of the Biopsychology Area in the Department of Psychology (1990-1996; 2007-2008) and has been director of the NIDA Training Program in Neuroscience since 1995. He has also served on the J.S.A. College Nominating Committee, the English Composition Board Policy Committee, the UM Alcohol and Other Drugs Policy Committee, the Advisory Committee to the Dean of the Medical School on the Directorship of MHRI, the UM Substance Abuse Research Center Executive Committee, the Provost’s and Dean’s Committee on the UM Neuroscience Initiative, the University Committee on the Use and Care of Animals (UCUCA), and the Search Advisory Committee for the Dean of Rackham and Vice Provost of Graduate Studies. He has also served on a number of national committees, including the Society for Neuroscience (SfN) Program Committee, the SfN Committee on Committees, chair of the Jacob P. Waletzky Memorial Award Committee (SfN) and the AAAS Electorate Nominating Committee of the Section on Psychology. Professor Robinson has also served on over 20 NIH grant review committees throughout his career, and on a number of scientific advisory committees at other institutions. Finally, he has served as a reviewer for many professional journals and he was editor-in-chief of the journal, Behavioural Brain Research, which publishes articles in all areas of behavioral neuroscience, from 1996 to 2010.

Professor Robinson has been active in both undergraduate and graduate education. For example, he developed an upper-level undergraduate course on “Drugs of Abuse, Brain and Behavior” a number of years ago and it has grown into a very popular class with an enrollment between 200-250 students. Despite students consistently rating it as one of the most challenging classes in the Department (it has an
average grade of B-) Professor Robinson has consistently maintained high instructor ratings and students frequently comment on how much they learned and how Professor Robinson is able to make complex material accessible. Early on, Professor Robinson was also instrumental in establishing the undergraduate concentration in “Brain, Behavior & Cognitive Sciences (BBCS),” which has grown into one of the most popular concentration programs in the physical or natural sciences. Professor Robinson has been very active in training graduate students in both the Biopsychology Graduate Program and the Neuroscience Graduate Program. In addition to mentoring his own students he has served as PI on a training grant from NIDA since 1995, which has supported graduate students in neuroscience, psychology, medicinal chemistry and pharmacology. He has mentored numerous graduate and postdoctoral students over the years, many of whom have gone on to independent research careers around the world, including those with positions at the University of Rome, the University of Sussex, the University of Montreal, the University of Washington, the University of Minnesota and here at the University of Michigan. One of his graduate students (Anna Samaha) won the Rackham Distinguished Dissertation Award, and then went on to win the national award for best dissertation in psychology, the James McKeen Cattell Dissertation Award from the New York Academy of Sciences, in 2005.

As he assumes the Distinguished University Professorship, Professor Robinson wishes it to be named the Elliot S. Valenstein Distinguished University Professor of Psychology and Neuroscience.

Elliot S. Valenstein is a long-time member of the faculty at the University of Michigan, and he is currently professor emeritus of psychology and neuroscience. He served for many years as chair of the Biopsychology Program. Professor Valenstein is one of the leading figures in the history of the field of inquiry that used to be called “physiological psychology,” and is now called behavioral neuroscience or biopsychology. Professor Valenstein’s laboratory research and scholarly activities on the biological factors that influence emotion, motivation and reward, the contribution of hormones to behavior, and the history of somatic treatments of mental illness, include many of the seminal studies in the field. He is the author of more than 160 scientific articles, and seven books. His books have been read by students and scientists around the world and have had a major influence on thinking about the social and cultural impact of research on brain and behavior.

The appointment of Professor Terry E. Robinson as the Elliot S. Valenstein Distinguished University Professor of Psychology and Neuroscience, effective September 1, 2011, recognizes his extensive and outstanding scholarly achievements, his commitment to excellence in education for his students, and his extensive contributions to the University of Michigan and far beyond. We are delighted to make this recommendation.

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Professional Administrative Appointment for a Faculty Member

NAME: Robert W. Lash, M.D.

CURRENT TITLES: Clinical Professor of Internal Medicine, Medical School, and Associate Chief of Staff, Office of Clinical Affairs, University of Michigan Hospitals and Health Centers

ADDITIONAL TITLE: Chief of Staff for Clinical Affairs, Office of Clinical Affairs, University of Michigan Hospitals and Health Centers

TERM: Three Years

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

In accordance with the Medical Staff Bylaws, Article II, the Executive Committee on Clinical Affairs in its capacity as nominating committee, submitted a ballot to all active medical staff for selection of chief of staff for clinical affairs for the term of July 1, 2011 through June 30, 2014. The vote of the medical staff at large resulted in the selection of Robert W. Lash, M.D.

It is recommended by the Executive Board of the University of Michigan Hospitals and Health Centers that the Board of Regents approve the appointment of Robert W. Lash, M.D. as chief of staff for clinical affairs for the term beginning July 1, 2011 through June 30, 2014.

ACTION REQUEST: Change in Academic Administrative Title

NAME: Tiya A. Miles

CURRENT TITLES: Director, Center for Afroamerican and African Studies, Associate Professor of Afroamerican and African Studies, with tenure, Associate Professor of American Culture, with tenure, and Associate Professor of History, with tenure, College of Literature, Science, and the Arts

RECOMMENDED TITLES: Chair, Department of Afroamerican and African Studies, Professor of Afroamerican and African Studies, with tenure, Professor of American Culture, with tenure, and Professor of History, with tenure, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2011 through June 30, 2013

The Dean and the Executive Committee of the College of Literature, Science, and the Arts are pleased to recommend the change in title for Tiya A. Miles from director, Center for Afroamerican and African Studies, to chair, Department of Afroamerican and African Studies, College of Literature, Science, and the Arts, effective September 1, 2011 through June 30, 2013.

The request by the College of Literature, Science, and the Arts to reorganize the Center for Afroamerican and African Studies into a department, effective September 1, 2011, was approved by the Regents in February 2011.

Tiya Miles received her Bachelor of Arts from Harvard University in 1992, Master of Arts from Emory University in 1995, and Doctorate from the University of Minnesota in 2000. Professor Miles began her teaching career as an assistant professor at the University of California, Berkeley in 2000 and joined our faculty as an assistant professor in 2003. She was promoted to associate professor, with tenure, in 2007, and to professor effective September 1, 2011. Professor Miles was appointed director of the Center for Afroamerican and African Studies in July 2011.

We are very pleased to recommend the change in title for Tiya A. Miles from director, Center for Afroamerican and African Studies, to chair, Department of Afroamerican and African Studies, College of Literature, Science, and the Arts, effective September 1, 2011 through June 30, 2013.

Arthur F. Thurnau Professor, Professor of History, and Dean
College of Literature, Science, and the Arts

July 2011

Recommendation endorsed by:

Philip J. Hanlon, Provost and Executive Vice President for Academic Affairs
On the recommendations of the director of the Jean and Samuel Frankel Center for Judaic Studies and the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Benjamin Pollock as the Louis and Helen Padnos Visiting Professor of Judaic Studies, College of Literature, Science, and the Arts, for winter term 2012, effective January 1, 2012 through May 31, 2012.

As a result of a generous gift from Stuart and Barbara Padnos and the Louis and Helen Padnos Foundation, the Louis and Helen Padnos Visiting Professorship in Judaic Studies was established in September 1988. This professorship enables the Center for Judaic Studies to invite distinguished scholars to the Ann Arbor campus each year.

Benjamin Pollock received his Bachelor of Arts from the University of California, Berkeley in 1993. He attended the Hebrew University of Jerusalem where he completed his Master of Arts in 1998 and Doctorate in 2006. Professor Pollock began his teaching career as an assistant professor of religious studies at Michigan State University in 2006.

A scholar of modern Jewish thought, Professor Pollock’s book, *Franz Rosenzweig and the Systematic Task of Philosophy* (Cambridge University Press, 2006) was awarded the Salo W. Baron Book Prize for Outstanding First Book in Jewish Studies. He is rapidly gaining attention as a brilliant scholar of his generation. He co-edited a volume entitled *The Philosopher as Witness: Fackenheim and Responses to the Holocaust* (with M. Morgan, SUNY Press, 2008) and he is working on a study of Rosenzweig’s conversion and conversations with Christian thinkers in the World War I era. He is part of an expanding group of scholars who devote attention to the intersection of Jewish philosophy and general philosophy in Germany prior to the rise of Hitler.

As the Padnos Visiting Professor, he will bring a much needed East Central European emphasis to Jewish history. Professor Pollock will offer two courses that will be listed in both history and Judaic studies. The undergraduate lecture course will be the first semester of a year-long survey of modern Jewish history and the undergraduate seminar will be entitled “Paths to Emancipation.”
We are very pleased to recommend the appointment of Benjamin Pollock as the Louis and Helen Padnos Visiting Professor of Judaic Studies, College of Literature, Science, and the Arts, for winter term 2012, effective January 1, 2012 through May 31, 2012.

Arthur F. Thurnau
Professor, Professor of History, and Dean
College of Literature, Science, and the Arts

July 2011

Recommendation endorsed by:

Philip J. Hanlon
Provost and Executive Vice President for
Academic Affairs
Reappointment and Change in Title
Douglas L. Strong
Director and Chief Executive Officer,
University of Michigan Hospitals and Health Centers
Chief Executive Officer,
University of Michigan Hospitals and Health Centers
Five Years
August 1, 2011 through July 31, 2016

It is a pleasure to recommend the reappointment of Douglas L. Strong as chief executive officer, University of Michigan Hospitals and Health Centers, effective August 1, 2011 through July 31, 2016. His new title is a change from the previous title of director and chief executive officer, University of Michigan Hospitals and Health Centers.

Mr. Strong earned a BA cum laude from Franklin & Marshall College, and both an MA in history and MBA from the Wharton School of Business, University of Pennsylvania. He began his professional career at University of Pennsylvania School of Medicine in 1977, serving in several positions and ultimately as the director of resource planning and analysis. He was the associate dean for planning and operations at Saint Louis University School of Medicine (1989-92) before serving as associate dean for administration and finance at State University of New York at Stony Brook School of Medicine (1992-96). From 1996-98 he served as the associate dean and chief financial officer at the University of Chicago Biological Sciences Division and Pritzker School of Medicine. Mr. Strong came to the University of Michigan in 1998 to become the Health System’s first associate vice president for finance and strategy. During his tenure as associate vice president, he also served as the chief financial officer for the Hospitals and Health Centers (HHC). He has served as the director and CEO of the Hospitals and Health Centers since August 2006.

Over the past five years as director and chief executive officer, Mr. Strong has demonstrated outstanding leadership and strategic vision in guiding the $2.1B hospitals and health centers. His balanced approach has resulted in ongoing financial stability and national recognition for high quality patient care service. The hospitals have consistently been recognized by U.S. News and World Report for their excellence and recently were named as one of Leapfrog’s Top Hospitals (one of only three national health systems to achieve both honors). Under his leadership, the hospitals and health centers have reached all-time high scores for patient satisfaction measures. In addition, with the executive vice president for medical affairs, dean of the Medical School and
other top Health System leaders he has helped to further the integration of the components of the mission and the units of the Health System. The HHC has continued its growth with the opening of the Cardiovascular Center, Brehm Tower and the soon-to-open C.S. Mott Children’s Hospital and Von Voigtlander Women’s Hospital, in addition to the implementation of major information technology systems such as the online order entry system. Mr. Strong is also active on numerous state and national committees and is currently chair of the Michigan Health and Hospital Association Board of Trustees.

We therefore recommend, with enthusiasm, the reappointment of Douglas L. Strong and a change in his title to chief executive officer, University of Michigan Hospitals and Health Centers, effective August 1, 2011 through July 31, 2016.

REGENTS COMMUNICATION

ACTION REQUEST: Reappointment of an Academic Administrative Appointment

NAME: Lee A. Freeman

CURRENT TITLES: Associate Dean of Administration, and Associate Professor of Management Information Systems, with tenure, College of Business

TITLE BEING RENEWED: Associate Dean of Administration, College of Business

EFFECTIVE DATES: September 1, 2011 through December 31, 2014

On the recommendation of the Dean of the College of Business, and the Provost and Vice-Chancellor for Academic Affairs, I am pleased to recommend the reappointment of Lee A. Freeman as associate dean of administration, College of Business, effective September 1, 2011 through December 31, 2014.

Lee A. Freeman received his Bachelor of Business Administration degree in Near Eastern languages and civilizations from the University of Chicago in 1993; a Master of Business Administration from Indiana University in 1997; a Master of Science degree from Indiana University in 1999; and a Ph.D. in management information systems from Indiana University in 2000. Professor Freeman joined the faculty of the College of Business (formerly the School of Management), University of Michigan-Dearborn, in 2000.

Professor Freeman is a scholar who has consistently excelled in his research activities. He has published in top-tier journals including Communications of the ACM and Management Information Systems Quarterly. He is an experienced teacher, having taught a wide variety of undergraduate and graduate level courses in management information systems. Professor Freeman has provided strong and effective leadership to the College of Business, serving as director of the Distance Learning Program since 2005. He has established himself as an expert in the fields of online instructional design and pedagogy. Benefiting from his leadership and expertise, the College of Business has achieved significant recognition for its online education capabilities and offers two online graduate degree programs to a growing enrollment of over 600 students from 28 states and 14 countries.

I am pleased to recommend the reappointment of Lee A. Freeman as associate dean of administration, College of Business, effective September 1, 2011 through December 31, 2014.

ACTION REQUEST: Reappointment of an Academic Administrative Appointment of a Faculty Member

NAME: Ben Q. Li

CURRENT TITLES: Professor of Mechanical Engineering, with tenure, and Chair, Department of Mechanical Engineering, College of Engineering and Computer Science

TITLE BEING RENEWED: Chair, Department of Mechanical Engineering, College of Engineering and Computer Science

EFFECTIVE DATES: September 1, 2011 through August 31, 2014

The Dean and the Executive Committee of the College of Engineering and Computer Science, with the endorsement of the Provost and Vice Chancellor for Academic Affairs, are pleased to recommend the reappointment of Ben Q. Li as chair, Department of Mechanical Engineering, College of Engineering and Computer Science, effective September 1, 2011 through August 31, 2014.

Professor Li received a B.S. in engineering in 1982 from the Central-South University of Technology in China; an M.S. in engineering in 1984 from the Colorado School of Mines in Golden, Colorado; and a Ph.D. in engineering in 1989 from the University of California, Berkeley.

Prior to his appointment at the University of Michigan-Dearborn, Professor Li was a tenured professor of thermal-fluids science at the School of Mechanical and Materials Engineering, Washington State University, Pullman. His research interests center on the computational study of multiscale and multiphysical phenomena in thermal fluids, materials processing, and manufacturing processes. Professor Li is an internationally recognized leader in the area of magnetohydrodynamics in magnetically and/or electrically levitated droplets and magnetically assisted materials processing systems.

Professor Li’s leadership will continue to strengthen and broaden the teaching, research, and scholarly activities of the College of Engineering and Computer Science at the University of Michigan-Dearborn. We are pleased to recommend the reappointment of Ben Q. Li as chair, Department of Mechanical Engineering, College of Engineering and Computer Science, effective September 1, 2011 through August 31, 2014.

NAME: Keshav S. Varde

CURRENT TITLES: Associate Dean and Professor of Mechanical Engineering, with tenure, College of Engineering and Computer Science

TITLE BEING RENEWED: Associate Dean, College of Engineering and Computer Science

EFFECTIVE DATES: September 1, 2011 through August 31, 2014

The Dean and the Executive Committee of the College of Engineering and Computer Science, with the endorsement of the Provost and Vice Chancellor for Academic Affairs, are pleased to recommend the reappointment of Keshav S. Varde as associate dean, College of Engineering and Computer Science, effective September 1, 2011 through August 31, 2014.

Professor Varde earned a bachelor’s degree in mechanical engineering from the University of Poona, India, and a master’s degree from the University of Bombay, India. In 1971, he received a Ph.D. in mechanical and aerospace sciences from the University of Rochester, New York.

Professor Varde has been a member of the faculty of the University of Michigan-Dearborn since 1974 and a professor of mechanical engineering since 1983. He is an excellent teacher and researcher. His research and educational projects have been funded by the National Science Foundation, the U.S. Department of Transportation, and various industries. He has also served on numerous departmental, college, and campus faculty committees.

Professor Varde has an excellent publication record. He has published extensively in national and international journals and has given research work presentations at numerous technical conferences. He is also an active reviewer of periodicals and research proposals. Professor Varde has been a consultant to many industrial groups and research laboratories.

We are very pleased to recommend the reappointment of Keshav S. Varde as associate dean, College of Engineering and Computer Science, effective September 1, 2011 through August 31, 2014.

ACTION REQUEST: Approval of an Academic Administrative Appointment

NAME: Donald J. Bord

CURRENT TITLE: Professor of Physics and Astronomy, with tenure, College of Arts, Sciences, and Letters

ADDITIONAL TITLE: Chair, Department of Natural Sciences, College of Arts, Sciences, and Letters

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

On the recommendation of the Department of Natural Sciences, the Dean of the College of Arts, Sciences, and Letters, and the Provost and Vice Chancellor for Academic Affairs I am pleased to recommend the appointment of Donald J. Bord as chair, Department of Natural Sciences, College of Arts, Sciences, and Letters, effective July 1, 2011 through June 30, 2014.

Professor Bord received a Bachelor of Arts degree in physics from Hamilton College, a Master of Science degree in physics from Clarkson College and a Ph.D. in astrophysics from Dartmouth College. Professor Bord joined the faculty of the College of Arts, Sciences, and Letters in 1984 as an associate professor. He was promoted to professor in 1992. Professor Bord has served several times as chair of the physics discipline and chair of the Department of Natural Sciences, as well as associate dean of the College of Arts, Sciences, and Letters. He was interim dean of the College of Arts, Sciences, and Letters in 1999. Professor Bord has been involved in faculty governance issues and was elected to serve on the U-M Senate Assembly and the Senate Advisory Committee on University Affairs. Most recently, Professor Bord served as interim provost from July 2008 through June 2009 and as associate provost from July 2009 through June 2011.

Professor Bord will provide strong and effective leadership for the Department of Natural Sciences at the University of Michigan-Dearborn. I am pleased to recommend the appointment of Donald J. Bord as chair, Department of Natural Sciences, College of Arts, Sciences, and Letters, effective July 1, 2011 through June 30, 2014.

ACTION REQUEST: Approval of an Academic Administrative Appointment

NAME: Martin J. Hershock

CURRENT TITLE: Associate Professor of History, with tenure, College of Arts, Sciences, and Letters

ADDITIONAL TITLE: Associate Provost, Office of the Provost

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

I am pleased to recommend the appointment of Martin J. Hershock as associate provost, Office of the Provost, University of Michigan-Dearborn, effective July 1, 2011 through June 30, 2014.

Professor Hershock received the A.B in 1985 from University of Michigan-Dearborn and the M.A. and Ph.D. in history in 1988 and 1996, from Wayne State University and the University of Michigan, Ann Arbor, respectively. He has taught at Hobart and William Smith Colleges, Henry Ford Community College, Oakland University and Wayne State University. In 1999, he was appointed as assistant professor of history in the Department of Social Sciences, and promoted to associate professor, with tenure, in September 2005.

He is a specialist in nineteenth-century American history, and is the author of The Paradox of Progress: Economic Change, Individual Enterprise, and Political Culture in Michigan, 1837-1878 (Athens: Ohio University Press, 2003) which received the 2004 Award for Merit from the Michigan Historical Society. A challenging teacher, students nonetheless flock to his classes and rate his teaching as near perfect. In 2003, he received the Distinguished Teaching Award.

Professor Hershock has served on the CASL Faculty Board of Advisors, the Social Sciences Executive Committee, and has been a part of the distance learning faculty. He has also been history discipline chair, chair of the Department of Social Sciences and CASL faculty secretary. Recently he has been serving as historical consultant on the Teaching American History Grant, awarded by the US Department of Education to the Plymouth-Canton and Inkster School Districts, and as a humanities scholar for the NEH’s Division of Education’s Landmarks of American History Workshops for Teachers at the Henry Ford.

I am pleased to recommend the appointment of Martin J. Hershock as associate provost, Office of the Provost, University of Michigan-Dearborn, effective July 1, 2011 through June 30, 2014.

On the recommendation of the Dean of the College of Arts, Sciences, and Letters, and the Provost and Vice Chancellor for Academic Affairs, I am pleased to recommend the appointment of Georgina S. Hickey as chair, Department of Social Sciences, College of Arts, Sciences, and Letters, for a three-year term, effective July 1, 2011 through June 30, 2014.

Professor Hickey received a B.A. in history and sociology from Indiana University and an M.A. and Ph.D. in history from University of Michigan-Ann Arbor in 1991 and 1995, respectively.

Professor Hickey has been a member of the faculty of the College of Arts, Sciences, and Letters since 2001 and was promoted to associate professor of history, with tenure, in 2004. Her current research examines organized attempts to alter social, cultural, structural, and spatial aspects of the urban environment in order to afford women greater autonomy in public space during the 20th century. Her most recent publications include “The Geography of Pornography: Neighborhoods, Feminism, and Battles against ‘Dirty Bookstores’ in Minneapolis”, in Frontiers (Spring 2011) and “From Civility to Self Defense: Modern Advice to Women on the Privileges and Dangers of Public Space”, Women’s Studies Quarterly (Spring/Summer 2011). Professor Hickey has served as acting department chair in Fall 2011 and as director of the Women in Learning and Leadership program since 2009.

I am pleased to recommend the appointment of Georgina S. Hickey as chair, Department of Social Sciences, College of Arts, Sciences, and Letters, for a three-year term, effective July 1, 2011 through June 30, 2014.

NAME: Jonathan Smith

CURRENT TITLE: Professor of English Language and Literature, with tenure, College of Arts, Sciences, and Letters

ADDITIONAL TITLE: Chair, Department of Literature, Philosophy, and the Arts, College of Arts, Sciences, and Letters

EFFECTIVE DATES: August 1, 2011 through June 30, 2014

On the recommendation of the Dean of the College of Arts, Sciences, and Letters, and the Provost and Vice Chancellor for academic affairs, I am pleased to recommend the appointment of Jonathan Smith as chair, Department of Literature, Philosophy, and the Arts, College of Arts, Sciences, and Letters, effective August 1, 2011 through June 30, 2014.

Professor Smith received a B.A. in 1984 from Rice University and an M.A., M. Phil., and Ph.D. in English from Columbia University in 1985, 1988, and 1990, respectively.

Professor Smith has been a member of the faculty of the College of Arts, Sciences, and Letters since 1991. He was promoted to associate professor of English language and literature, with tenure, in 1997 and to professor in 2005. He specializes in 19th-century British literature and culture, literature and science, and science and technology studies. He is the author of *Fact and Feeling: Baconian Science and the Nineteenth-Century Literary Imagination* and *Charles Darwin and Victorian Visual Culture*, as well as numerous articles on Victorian literature and science. He was honored with the Distinguished Faculty Research Award in 2008. Professor Smith has served as the associate dean of the College of Arts, Sciences, and Letters and as the director of UM-D's Science and Technology Studies Program.

I am pleased to recommend the appointment of Jonathan Smith as chair, Department of Literature, Philosophy, and the Arts, College of Arts, Sciences, and Letters, effective August 1, 2011 through June 30, 2014.

ACTION REQUEST: Approval of Extension of Leave for a Faculty Member

NAME: Ghassan T. Kridli

CURRENT TITLE: Associate Professor of Industrial and Manufacturing Systems Engineering, with tenure, College of Engineering and Computer Science

TYPE OF LEAVE: Extension of a One-Year Leave

DATES OF CURRENT LEAVE: September 1, 2010 through June 30, 2011

TIME EXTENSION REQUESTED: July 1, 2011 through June 30, 2012

It is recommended that Ghassan T. Kridli be granted an extension of leave of absence for the fiscal year 2011–2012, effective July 1, 2011 through June 30, 2012.

Professor Kridli joined UM-Dearborn in 1997 as an assistant professor in the Department of Industrial and Manufacturing Systems Engineering. He was granted promotion to associate professor of industrial and manufacturing systems engineering, with tenure, in 2003. He requested a leave of absence in September 2009 to take an off-campus teaching assignment for Texas A&M University at Qatar as a visiting associate professor of mechanical engineering. While on this assignment, he was awarded two major research grants from the Qatar National Research Fund for a total of $2.1 million. In order to participate fully in this unique research opportunity, he would like to continue his leave through June 2012.

I request approval of this extension of leave of absence for Professor Ghassan T. Kridli, effective July 1, 2011 through June 30, 2012.

The Dean and the Executive Committee of the College of Arts and Sciences, with the endorsement of the Department of Computer Science, Engineering and Physics, are pleased to recommend the reappointment of Christopher A. Pearson as chair, Department of Computer Science, Engineering and Physics, College of Arts and Sciences, effective July 1, 2011 through December 31, 2011.

Professor Pearson received his Bachelor of Arts degree from Hamline University in St. Paul, Minnesota in 1989 and his Ph.D. from the University of Minnesota in 1995. He joined the faculty at the University of Michigan-Flint as an assistant professor in 1998 and was promoted to associate professor, with tenure, in 2004.

Since joining the faculty at the University of Michigan-Flint, Professor Pearson has served on the CAS Executive Committee, continues to develop and refine laboratory curriculum for both general physics and advanced laboratory courses, coordinates presentations by physics students to prospective undergraduate students, and presents Materials Science of Food for Super Science Friday at the University of Michigan-Flint.

Professor Pearson will be an effective leader. We are pleased to recommend Christopher A. Pearson as chair, Department of Computer Science, Engineering and Physics, College of Arts and Sciences, effective July 1, 2011 through December 31, 2011.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Ricardo Alfaro

CURRENT TITLE: Professor of Mathematics, with tenure, College of Arts and Sciences

ADDITIONAL TITLE: Associate Dean, College of Arts and Sciences

TERM: Two Years

EFFECTIVE DATES: July 1, 2011 through June 30, 2013

The Dean and Executive Committee of the College of Arts and Sciences are pleased to recommend the appointment of Ricardo Alfaro as associate dean, College of Arts and Sciences, effective July 1, 2011 through June 30, 2013.

Professor Alfaro received his B.S. degree from the Universidad Católica del Perú in 1983, and his M.S. degree and Ph.D. from the University of Cincinnati in 1986 and 1989, respectively. He joined the faculty at the University of Michigan-Flint in 1989 as a visiting assistant professor, was appointed as an assistant professor in 1990, was promoted to associate professor, with tenure in 1995, and to professor in 2005.

Since joining the faculty at the University of Michigan-Flint, Professor Alfaro served as senior faculty advisor to the chancellor from September 2003 through August 2004. He was a member of the UM-Flint Housing Committee, chair of the Enhancement Management Task Force, co-chair of the Director of Admissions Search Committee, a member of the Budget Priorities and Chancellor’s Advisory Committee, a member of the College of Arts and Sciences Executive Committee and a member of the College of Arts and Sciences Academic Standards Meeting.

We respectfully request the appointment of Ricardo Alfaro as associate dean, College of Arts and Sciences, effective July 1, 2011 through June 30, 2013.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Robert W. Barnett

CURRENT TITLES: Professor of English, with tenure, and Associate Dean, College of Arts and Sciences

RECOMMENDED TITLES: Interim Dean, School of Education and Human Services, and Professor of English, with tenure, College of Arts and Sciences

TERM: Two Years

EFFECTIVE DATES: July 1, 2011 through June 30, 2013

We are pleased to recommend the appointment of Robert W. Barnett as interim dean, School of Education and Human Services, University of Michigan-Flint, effective July 1, 2011 through June 30, 2013.

Professor Barnett received his B.A. degree from Alma College in 1986, his M.A. degree from Central Michigan University in 1990, and his Ph.D. from the University of Nevada, Reno in 1994. He joined the faculty at the University of Michigan-Flint in 1994 as an assistant professor, and was promoted to associate professor, with tenure, in 2002, and to professor in 2005. He was appointed as associate dean, College of Arts and Sciences in 2005.

Since joining the faculty at the University of Michigan-Flint, Professor Barnett has served as associate dean since 2005 and has served on the College of Arts and Sciences Academic Standards Committee, Curriculum Committee, and Student Research Committee. He also served on the Thompson Center for Learning and Teaching Advisory Board, the Academic Affairs Advisory Committee, the LEO Bargaining Team, and the Enrollment and Retention Task Force for the Strategic Planning Committee.

We respectfully request the appointment of Robert W. Barnett as interim dean, School of Education and Human Services, University of Michigan-Flint, effective July 1, 2011 through June 30, 2013.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Jamile T. Lawand

CURRENT TITLE: Associate Professor of Foreign Languages, with tenure, College of Arts and Sciences

ADDITIONAL TITLE: Chair, Department of Foreign Languages, College of Arts and Sciences

TERM: Three Years

EFFECTIVE DATES: August 1, 2011 through July 31, 2014

The Dean and Executive Committee of the College of Arts and Sciences, with the endorsement of the Department of Foreign Languages, are pleased to recommend the appointment of Jamile T. Lawand as chair, Department of Foreign Languages, College of Arts and Sciences, effective August 1, 2011 through July 31, 2014.

Professor Lawand received her M.A. equivalent in 1985 from the University of Seville, Spain and her Ph.D. in 1992 from the University of Michigan. She joined the faculty at the University of Michigan-Flint in 1995 as assistant professor, was promoted to associate professor, with tenure, in 2000.

Since joining the faculty at the University of Michigan-Flint, Professor Lawand has served on the Summer Interim II Committee, CAS Academic Standards Committee, director of the “Middle Eastern” Studies Program, CAS Nominating Committee, CAS Executive Committee, and the CAS General Education Assessment Task Force.

Professor Lawand will be an effective leader. I am pleased to recommend her appointment as chair, Department of Foreign Languages, College of Arts and Sciences, effective August 1, 2011 through July 31, 2014.

ACADEMIC ADMINISTRATIVE APPOINTMENT FOR A FACULTY MEMBER

NAME: Heather L. Seipke

CURRENT TITLE: Associate Professor of Communication, with tenure, College of Arts and Sciences

ADDITIONAL TITLE: Chair, Department of Communication and Visual Arts, College of Arts and Sciences

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

The Dean and Executive Committee of the College of Arts and Sciences, with the endorsement of the Department of Communication and Visual Arts, are pleased to recommend the appointment of Heather L. Seipke as chair, Department of Communication and Visual Arts, College of Arts and Sciences, effective July 1, 2011 through June 30, 2014.

Professor Seipke received her B.A., M.A., and Ph.D. degrees from Wayne State University in 1998, 2000, and 2002 respectively. She joined the faculty at the University of Michigan-Flint in 2003 as an assistant professor and was promoted to associate professor, with tenure, in 2009.

Since joining the faculty at the University of Michigan-Flint, Professor Seipke has served on the College of Arts and Sciences Academic Standards Committee, LEO Major Review Committee, Academic Assessment Committee and the American Democracy Project Committee.

Professor Seipke will be an effective leader. We are pleased to recommend the appointment of Heather L. Seipke as chair, Department of Communication and Visual Arts, College of Arts and Sciences, effective July 1, 2011 through June 30, 2014.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Christine M. Waters

CURRENT TITLE: Professor of Art, with tenure, College of Arts and Sciences

ADDITIONAL TITLE: Associate Provost and Dean of Undergraduate Studies, Office of the Provost and Vice Chancellor for Academic Affairs

TERM: Three Years

EFFECTIVE DATES: July 1, 2011 through June 30, 2014

We are pleased to recommend the appointment of Christine M. Waters as associate provost and dean of undergraduate studies, Office of the Provost and Vice Chancellor for Academic Affairs, University of Michigan-Flint, effective July 1, 2011 through June 30, 2014.

Professor Waters received her B.S. degree and two M.A. degrees from the University of Wisconsin-Madison in 1973, 1975 and 1977, respectively. She joined the faculty at the University of Michigan-Flint as a visiting assistant professor in 1987, was appointed as an assistant professor in 1988, was promoted to associate professor, with tenure, in 1994, and to professor in 2009. She served as interim associate dean from 1997 through 2000, associate dean from 2000 through 2005, and dean from January 1 through May 10, 2007, for the College of Arts and Sciences. She served as acting associate provost from September 1, 2007 through August 17, 2008. Most recently she served as professor of art, with tenure, College of Arts and Sciences.

Since joining the faculty at the University of Michigan-Flint, Professor Waters has served as chair of the Department of Communication and Visual Arts, interim director of the Women’s and Gender Studies, chair of the Department of Music and Art, Executive Committee member and on several other committees for the College of Arts and Sciences. She has served on the University Higher Learning Commission Self-Study Committee, Budget Priorities and Chancellor’s Advisory Committee, Space Committee, chair of Governing Faculty, Bargaining Team University Member for LEO Negotiations, several search committees, and many other committees too numerous to mention.

We are pleased to recommend the appointment of Christine M. Waters as associate provost and dean of undergraduate studies, Office of the Provost and Vice Chancellor for Academic Affairs, University of Michigan-Flint, effective July 1, 2011 through June 30, 2014.
