SUMMARY OF PERSONNEL ACTIONS
REGENTS AGENDA
September 2016

ANN ARBOR CAMPUS – Recommendations for approval

1. New appointments and promotions for regular associate and full professor ranks, with tenure.

   (1) Corriere, Matthew R., M.D., Frankel Professor of Cardiovascular Surgery, effective September 1, 2016 through August 31, 2021, and associate professor of surgery, with tenure, Medical School, effective September 1, 2016.

   (2) Kaye, Keith S., M.D., professor of internal medicine, with tenure, Medical School, effective September 1, 2016.

   *(3) Marsh, Erica E., M.D., associate professor of obstetrics and gynecology, with tenure, Medical School, effective August 22, 2016.

   (4) Mattawa, Khaled A., promotion to professor of English language and literature, with tenure, College of Literature, Science, and the Arts, effective September 1, 2016 (currently associate professor of English language and literature, with tenure.)

   (5) Mezuk, Briana, associate professor of epidemiology, with tenure, School of Public Health, effective January 1, 2017.

   (6) Smrcka, Alan V., Ph.D., professor of pharmacology, with tenure, Medical School, effective September 1, 2016.

2. New appointments and promotions for regular associate and full professor ranks, without tenure.

   *(1) Landi, Enrico, professor of climate and space sciences and engineering, without tenure, College of Engineering, effective September 1, 2016.

3. Reappointments of regular instructional staff and selected academic and administrative staff.

   (1) Awkward, Michael, Gayl A. Jones Collegiate Professor of Afroamerican Literature and Culture, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of English language and literature, with tenure, and professor of Afroamerican and African studies, with tenure.)

* Interim Approval Granted
3. Reappointments of regular instructional staff and selected academic and administrative staff.

(2) Brater, Enoch, Kenneth T. Rowe Collegiate Professor of Dramatic Literature, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of English language and literature, with tenure, College of Literature, Science, and the Arts, and Professor of Theatre, without tenure, School of Music, Theatre & Dance.)

(3) Clarke, Roy, Marcellus L. Wiedenbeck Collegiate Professor of Physics, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of physics, with tenure.)

(4) French, Katherine L., J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of history, with tenure, and professor of women’s studies, without tenure.)

(5) Hartmann, Lee W., Leo Goldberg Collegiate Professor of Astronomy, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of astronomy, with tenure.)

(6) Hines, Jr., James R., Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of economics, with tenure, College of Literature, Science, and the Arts, L. Hart Wright Collegiate Professor of Law, professor of law, with tenure, and professor of business economics, without tenure, Stephen M. Ross School of Business.)

(7) Irvine, Judith T., Edward Sapir Collegiate Professor of Linguistics Anthropology, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of anthropology, with tenure.)

(8) Johnston, Lloyd D., Angus Campbell Collegiate Professor, UM Office of Research, effective September 1, 2016 through August 31, 2021 (also research professor, Survey Research Center, Institute for Social Research.)

(9) Kitayama, Shinobu, Robert B. Zajonc Collegiate Professor of Psychology, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of psychology, with tenure.)
3. Reappointments of regular instructional staff and selected academic and administrative staff.

(10) Kollman, Kenneth W., Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of political science, with tenure.)

(11) Lambropoulos, Vassilios, C. P. Cavafy Professor of Modern Greek Studies, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of Modern Greek Studies, with tenure, and professor of comparative literature, with tenure.)

(12) Lupia, Arthur, Hal R. Varian Collegiate Professor of Political Science, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of political science, with tenure.)

(13) Nadarajan, Gunalan, dean, Penny W. Stamps School of Art and Design, effective July 1, 2017 through June 30, 2022 (also professor of art and design, with tenure.)

(14) Nör, Jacques E., Donald A. Kerr Collegiate Professor of Dentistry, School of Dentistry, effective September 1, 2016 through August 31, 2021 (also professor of dentistry, with tenure, School of Dentistry, professor of otorhinolaryngology, without tenure, Medical School, and professor of biomedical engineering, without tenure, College of Engineering and Medical School.)

(15) Papalambros, Panos Y., chair, Division of Integrative Systems and Design, College of Engineering, effective September 1, 2016 through June 30, 2018 (also James B. Angell Distinguished University Professor of Engineering, Donald C. Graham Professor of Engineering, professor of mechanical engineering, with tenure, College of Engineering, professor of architecture, without tenure, A. Alfred Taubman College of Architecture and Urban Planning, and professor of art, Penny W. Stamps School of Art and Design.)

(16) Potter, David S., Francis W. Kelsey Collegiate Professor of Greek and Roman History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also Arthur F. Thurnau Professor, and professor of Greek and Latin, with tenure.)
ANN ARBOR CAMPUS – Recommendations for approval

3. Reappointments of regular instructional staff and selected academic and administrative staff.

(17) Sellers, Robert M., Charles D. Moody Collegiate Professor of Psychology, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also vice provost for equity, inclusion and academic affairs, Office of the Provost and Executive Vice President for Academic Affairs, professor of psychology, with tenure, College of Literature, Science, and the Arts, and professor of education, without tenure, School of Education.)

(18) Traub, Valerie J., Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also Adrienne Rich Distinguished University Professor of English and Women’s Studies, professor of English language and literature, with tenure, and professor of women’s studies, with tenure.)

(19) Yang, Victor C., Albert B. Prescott Professor of Pharmaceutics, College of Pharmacy, effective September 1, 2016 through December 31, 2016 (also professor of pharmaceutical sciences, with tenure.)

4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.

(1) Anupindi, Ravi M., Colonel William G. and Ann C. Svetlich Professor of Operations Research and Management, Stephen M. Ross School of Business, effective September 1, 2016 through December 31, 2021 (also professor of technology and operations, with tenure.)

(2) Blair, Sara B., Patricia S. Yaeger Collegiate Professor of English Language and Literature, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also vice provost for academic and faculty affairs, Office of the Vice Provost and Executive Vice President for Academic Affairs, and professor of English language and literature, with tenure, College of Literature, Science, and the Arts.)

(3) Davis, Gerald F., Gilbert and Ruth Whitaker Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2016 through August 31, 2021 (also professor of organizational behavior and human resources management, with tenure, Stephen M. Ross School of Business, and professor of sociology, without tenure, College of Literature, Science, and the Arts.)

* Interim Approval Granted
ANN ARBOR CAMPUS – Recommendations for approval

4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.

(4) Dinov, Ivaylo D., Ph.D., associate professor of computational medicine and bioinformatics, without tenure, Medical School, effective September 1, 2016 (also associate professor of nursing, with tenure, School of Nursing.)

(5) Dowd, Gregory E., Helen Hornbeck Tanner Collegiate Professor of American Culture and History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of American culture, with tenure, and professor of history, with tenure.)

(6) Edwards, Sean P., James Hayward Endowed Clinical Professor of Oral and Maxillofacial Surgery, School of Dentistry, effective September 1, 2016 through August 31, 2021 (also clinical associate professor of dentistry, School of Dentistry, and clinical associate professor of oral and maxillofacial surgery, Medical School.)

(7) Eniola-Adefeso, Omolola, associate professor of macromolecular science and engineering, without tenure, College of Engineering, effective September 1, 2016 (also associate professor of chemical engineering, with tenure, and associate professor of biomedical engineering, without tenure, College of Engineering and Medical School.)

(8) Fearon, Eric R., M.D., Ph.D., director, University of Michigan Comprehensive Cancer Center, effective September 1, 2016 (also Emanuel N. Maisel Professor of Oncology, professor of internal medicine, with tenure, professor of pathology, without tenure, and professor of human genetics, without tenure, Medical School.)

(9) Gerdes, David W., professor of astronomy, without tenure, College of Literature, Science, and the Arts, effective September 1, 2016 (also Arthur F. Thurnau Professor, and professor of physics, with tenure.)

(10) Gonzalez, Richard D., Amos N. Tversky Collegiate Professor of Psychology and Statistics, College of Literature, Science, and the Arts, effective September 1, 2016 (also professor of psychology, with tenure, professor of statistics, without tenure, College of Literature, Science, and the Arts, professor of marketing, without tenure, Stephen M. Ross School of Business, and professor of integrative systems and design, without tenure, College of Engineering.)

4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.

(11) Jarman, Holly, John G. Searle Assistant Professor of Health Management and Policy, School of Public Health, effective September 1, 2016 through August 31, 2019 (also assistant professor of health management and policy.)

(12) Jones, Andrew D., John G. Searle Assistant Professor of Nutritional Sciences, School of Public Health, effective September 1, 2016 through August 31, 2019 (also assistant professor of nutritional sciences.)

(13) Kang, Hyun Min, John G. Searle Assistant Professor of Biostatistics, School of Public Health, effective September 1, 2016 through August 31, 2019 (also assistant professor of biostatistics.)

(14) Kazerooni, Ella A., M.D., professor of internal medicine, without tenure, Medical School, effective September 1, 2016 (also professor of radiology, with tenure.)

(15) Krishnan, Mayuram S., associate dean for global initiatives and executive education, Stephen M. Ross School of Business, effective July 1, 2016 through June 30, 2019 (also Accenture Professor of Computer and Information Systems, and professor of technology and operations, with tenure.)

(16) Lange, Rebecca A., Alexander N. Halliday Collegiate Professor of Earth and Environmental Sciences, College of Literature, Science, and the Arts, effective September 1, 2016 (also professor of Earth and environmental sciences, with tenure.)

(17) Lattuca, Lisa R., professor of integrative systems and design, without tenure, College of Engineering, effective September 1, 2016 (also professor of education, with tenure, School of Education.)

(18) Lewis, Richard L., John R. Anderson Collegiate Professor of Psychology, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also professor of psychology, with tenure, and professor of linguistics, without tenure.)

(19) Lin, Jules, M.D., Mark B. Orringer, M.D. Research Professor of Thoracic Surgery, Medical School, effective September 1, 2016 through August 31, 2021 (also associate professor of surgery, with tenure.)

(20) Logue, Kyle D., Douglas A. Kahn Collegiate Professor, Law School, effective September 1, 2016 through August 31, 2021 (also professor of law, with tenure.)

4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.

(21) Moore, Bethany B., Ph.D., Galen B. Toews, M.D. Collegiate Professor of Pulmonary and Critical Care Medicine, Medical School, effective September 1, 2016 through August 31, 2021 (also professor of internal medicine, with tenure, and professor of microbiology and immunology, without tenure.)

(22) Murray, Susan, Sc.D., professor of internal medicine, without tenure, effective September 1, 2016 (also professor of biostatistics, with tenure, School of Public Health.)

(23) Narayan, Alison R. H., William R. Roush Assistant Professor, Department of Chemistry, College of Literature, Science, and the Arts, effective September 1, 2016 through May 31, 2016 (also assistant professor of chemistry.)

(24) Prosser, Lisa A., professor of health management and policy, without tenure, School of Public Health, effective September 1, 2016 (also professor of pediatrics and communicable diseases, with tenure, Medical School.)

(25) Reuter-Lorenz, Patricia A., Michael I. Posner Collegiate Professor of Psychology and Neuroscience, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also chair, Department of Psychology, and professor of psychology, with tenure.)

(26) Sender, Katherine, professor of women’s studies, without tenure, College of Literature, Science, and the Arts, effective September 1, 2016 (also professor of communication studies, with tenure.)

(27) Shih, Albert J., acting chair, Department of Integrative Systems and Design, College of Engineering, effective September 1, 2016 through December 31, 2016 (also professor of mechanical engineering, with tenure, professor of integrative systems and design, without tenure, College of Engineering, and professor of biomedical engineering, without tenure, College of Engineering and Medical School.)

(28) Squatriti, Paolo, professor of environment, without tenure, College of Literature, Science, and the Arts and School of Natural Resources and Environment, effective September 1, 2016 (also professor of history, and professor of romance languages and literatures, with tenure, College of Literature, Science, and the Arts.)

ANN ARBOR CAMPUS – Recommendations for approval

4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.

(29) Stefanopoulou, Anna G., William Clay Ford Professor of Manufacturing, College of Engineering, effective September 1, 2016 through August 31, 2021 (also professor of mechanical engineering, with tenure, and professor of electrical engineering and computer science, without tenure.)

(30) Stegemann, Jan P., professor of macromolecular science and engineering, without tenure, College of Engineering, effective September 1, 2016 (also professor of biomedical engineering, with tenure, College of Engineering and Medical School.)

(31) Stringer, Kathleen A., professor of internal medicine, without tenure, Medical School, effective September 1, 2016 (also professor of clinical and translational pharmacy, with tenure, College of Pharmacy.)

(32) Titiunik, Rocio, James Orin Murfin Professor of Political Science, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021 (also associate professor of political science, with tenure.)

(33) Westphal, James D., Donald C. Cook Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2016 through August 31, 2021 (also professor of strategy, with tenure.)

5. Establishing and renaming professorships and selected academic and administrative positions.

(1) Correction to holder requirement for the Borchardt and Glysson Collegiate Professorship, College of Engineering, effective September 1, 2016.

(2) Establishment of a Research Professorship as the Susan Crumpacker Brown Research Professorship in Depression, Medical School, effective September 1, 2016.

(3) Establishment of a Collegiate Professorship as the Collegiate Professorship in Geriatric and Palliative Medicine, Medical School, effective September 1, 2016.

(4) Establishment of an Endowed Professorship as the Professorship in Depression and Neurosciences, Medical School, effective September 1, 2016.

* Interim Approval Granted
ANN ARBOR CAMPUS – Recommendations for approval

5. Establishing and renaming professorships and selected academic and administrative positions.

(5) Establishment of an Endowed Professorship as the Robertson Emeritus Professorship in Musical Theatre, School of Music, Theatre & Dance, effective September 1, 2016.

(6) Establishment of a Collegiate Professorship as the Raymond W. Ruddon Collegiate Professorship in Cancer Biology and Pharmacology, Medical School, effective September 1, 2016.

6. Other personnel transactions for regular instructional staff and selected academic and administrative staff.

(1) Baylin, Ana, transfer of tenure and appointment to associate professor of nutritional sciences, with tenure, and associate professor of epidemiology, with tenure, School of Public Health, effective September 1, 2016 (currently associate professor of epidemiology, with tenure, and associate professor of environmental health sciences, without tenure.)

(2) Huss, Kathryn A., interim director, Museum of Art, effective October 1, 2016.

(3) Kunkel, Steven L., correction of title to Endowed Professorship in Pathology Research, Medical School, effective September 1, 2016 (currently Pathology Research Endowed Professor, also senior associate dean for research, and professor of pathology, with tenure.)

(4) Michels, Kallie Bila, interim vice president for global communications and strategic initiatives, Office of the Vice President for Global Communication and Strategic Initiatives, effective September 1, 2016 (also associate vice president for communications.)

DEARBORN CAMPUS – Recommendations for approval

7. Reappointments of regular instructional staff and selected academic and administrative staff.

(1) Bord, Donald J., interim chair, Department of Health and Human Services, College of Education, Health, and Human Services, effective September 1, 2016 through December 31, 2016 (also professor of physics, with tenure, College of Arts, Sciences, and Letters.)
DEARBORN CAMPUS – Recommendations for approval

7. Reappointments of regular instructional staff and selected academic and administrative staff.

   (2) Grosky, William, chair Department of Computer and Information Science, College of Engineering and Computer Science, effective September 1, 2016 through August 31, 2017 (also professor of computer and information science, with tenure.)

FLINT CAMPUS – Recommendations for approval

8. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.

   (1) Paroske, Marcus, chair, Department of Communication Studies, College of Arts and Sciences, effective September 1, 2016 through June 30, 2019 (also associate professor of communication, with tenure.)

   (3) Waters, Christine M., chair, Department of Art and History, College of Arts and Sciences, effective September 1, 2016 through June 30, 2019 (also professor of art, with tenure.)

COMMITTEE APPOINTMENTS
Recommendations for approval of new appointments and promotions for regular associate and full professor ranks, with tenure
THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Faculty Appointment Approval

NAME: Matthew R. Corriere, M.D.

TITLES: Frankel Professor of Cardiovascular Surgery, and Associate Professor of Surgery, Medical School

TENURE STATUS: With Tenure

APPOINTMENT PERIOD: 12 Months

EFFECTIVE DATE: September 1, 2016

On the recommendation of Michael W. Mulholland, M.D., Ph.D., the Frederick A. Coller Distinguished Professor and Chair of the Department of Surgery, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Matthew R. Corriere, M.D. as the Frankel Professor of Cardiovascular Surgery, effective September 1, 2016 through August 31, 2021, and associate professor of surgery, with tenure, Medical School, effective September 1, 2016.

Academic Degrees:
Dr. Corriere received his M.D. degree in 1999 from Mercer University School of Medicine in Macon, Georgia. In 2008, he was granted a master’s in health sciences research from Wake Forest University.

Professional Record:
Dr. Corriere completed a residency in surgery at Vanderbilt University from 1999 to 2006. He subsequently pursued a vascular surgery fellowship from 2007 to 2009 at Wake Forest University. In 2009, he was appointed as an assistant professor of surgery at Emory University and was appointed as an assistant professor of surgery at Wake Forest University in 2012. He was promoted to associate professor in 2015.

Summary of Evaluation:
Dr. Corriere is gaining national notoriety in the area of health services research. His research focus is on clinically oriented projects evaluating epidemiology, treatment outcomes, and costs associated with arterial and venous disease, risk stratification and adjustment, and decision making for procedural interventions. Dr. Corriere has 62 published articles and has authored ten book chapters.
Recent and Significant Publications

Dr. Corriere is a dedicated and excellent teacher of trainees at all levels. His teaching activities include didactic and clinical instruction, as well as mentoring of graduate and medical students, residents and fellows. He organized and maintains a weekly departmental conference, a vascular ultrasound conference, a clinical research conference and serves as the vascular and endovascular surgery fellowship director. Dr. Corriere established mock oral examinations for vascular surgery and general surgery. He is a faculty contributor for the Surgical Council on Resident Education Curriculum.

**External Reviewers:**

**Reviewer A:** “Overall, I cannot imagine a finer choice for Associate Professor at any institution. His academic trajectory is impressive, but his character is even more so.”

**Reviewer B:** “…I can predict without hesitation, he will emerge as an important leader in the field of vascular surgery in the future.”

**Reviewer C:** “His research dealing with patient shared decision making is clearly novel and will likely set the groundwork for a larger national and international reputation... He has begun to develop a national reputation and will be among the next generation of leaders in our discipline.”

**Reviewer D:** “His interest is in health services research, most recently focusing on patient preferences and their effect on decision-making for vascular conditions. He has ongoing funding
from the SVS Foundation and AMA to pursue this investigation, and has recently published seminal work on shared decision-making for peripheral artery disease...Matt’s expertise in this field will surely lead to many leadership opportunities as his career continues to flourish."

Reviewer E: "...he is well trained and has a keen scientific mind with multiple publications in premier vascular journals. His research is top-notch and nationally recognized in the area of health services research."

Reviewer F: "In the last decade, Matt has developed a national reputation as an expert in the epidemiology and treatment of arterial and venous disease and assessing treatment options from clinical, quality and value-based perspectives."

Reviewer G: "I think Matt is clearly a leader in vascular surgery, as well as in the area of health services research and will bring significant national presence to the University of Michigan. With his combination of outstanding research, teaching and clinical skills, he provides evidence that one can still be a modern triple threat."

Dr. Carriere’s service includes his role as director of clinical research in the Department of Vascular and Endovascular surgery at Wake Forest University. He is a member of the board for Scientific Reports, and an associate editor of the Year Book of Vascular Surgery. He serves on three committees for the Vascular and Endovascular Surgery Society and has served on the Department of Veterans Affairs Vascular Surgery Advisory Board and the Centers for Disease Control and Prevention Healthcare Infection Control Practices Advisory Committee.

Summary of Recommendation: Dr. Corriere has developed a national presence in vascular surgery and has made significant contributions in surgical education. I enthusiastically recommend the appointment of Matthew A. Corriere, M.D. as the Frankel Professor of Cardiovascular Surgery, effective September 1, 2016 through August 31, 2021, and associate professor of surgery, with tenure, Medical School, effective September 1, 2016.

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor and Chair of the Department of Internal Medicine, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Keith S. Kaye, M.D. as professor of internal medicine, with tenure, Medical School, effective September 1, 2016.

**Academic Degrees:**
Dr. Kaye received his M.D. degree from the University of Pennsylvania, Perelman School of Medicine, in 1994.

**Professional Record:**
Dr. Kaye completed an internal medicine residency from 1994-1997 at the Beth Israel Deaconess Medical Center in Boston. From 1997-2000, he pursued a fellowship in infectious diseases at that institution. During this period, he also attended the Harvard School of Public Health where he obtained a master’s in public health degree in 2000. He subsequently was appointed as an assistant professor at Duke University and was promoted to associate professor in 2005. In 2008, he joined the faculty of Wayne State University as a professor of medicine.

**Summary of Evaluation:**
Dr. Kaye’s research focuses on the area of antibiotic resistance, multi-resistance gram negative organisms, and epidemiology and nosocomial infections. He has a track record of sustained funding and is currently the principal investigator on a multi-million dollar, multi-center clinical trial that is studying treatment of extremely drug resistant gram-negative bacilli. Dr. Kaye has over 190 peer reviewed publications, 14 book chapters and numerous invited extramural presentations. He serves as the associate editor for both *Open Forum Infectious Diseases* and the *Infectious Diseases News* and sits on the editorial board of *Antimicrobial Agents and Chemotherapy*.

**Recent and Significant Publications**

Dr. Kaye’s mentoring runs the gamut from medical students, residents, fellows and public health students. While at Wayne State University, Dr. Kaye established a fellowship in infection prevention and hospital epidemiology. This program offers fellows a protected third year of fellowship for training in both infection control and antimicrobial stewardship. Graduates of this program have gone on to become leaders in infection prevention, antimicrobial stewardship and infectious diseases research. Additionally throughout his career, Dr. Kaye has been nominated for several teaching awards, most notably the Golden Apple for Excellence in Clinical Teaching from Duke Medical School in both 2005 and 2008.

External Reviewers:

**Reviewer A:** "Dr. Kaye’s career has been very productive and shows no sign of slowing down. To the contrary, he is growing at this mid-career point and it will be exciting to see what he is going to accomplish in the future and how it will better the fields of healthcare epidemiology, infectious diseases and public health and improve care of patients."

**Reviewer B:** "Last year, SHEA recognized Keith’s scholarly contributions with its most prestigious research award, the SHEA Mid-Career Scholarship Award... it is a highly competitive award and is clear indication of national/international recognition of research contributions.”

**Reviewer C:** "He remains one of a relatively small cadre of specialists in the field of Infectious Disease and hospital epidemiology whose scholarship and contribution to program development is focused upon hospital-acquired infections and other difficult-to-treat microbial afflictions to which vulnerable, older and complex patients remain so especially susceptible.”

**Reviewer D:** "He is an outstanding leader—recognized nationally and internationally—for his work most notably in infection prevention/infection control and surgical site infections in older adults, has been the recipient of numerous grants from a breadth of funding agencies, is widely
published in high impact journals, serves on editorial boards of many journals and publications, and held leadership positions in many professional societies. He has always been a mentor and many [junior] professionals in ID owe much to him for his kind assistance, open demeanor and genuine interest in seeing them succeed."

Reviewer E: "Keith is at the top of his field, as is amply demonstrated by his Vice Presidency of the Society for Healthcare and Epidemiology and his service as a Division Chair of the American Society for Microbiology. His substantial grant funding from NIH is also a testament to the high regard with which he is held."

Dr. Kaye currently serves as the vice president of quality and patient safety as well as the corporate medical director of infection control and antimicrobial stewardship at Wayne State University. He designs, implements and evaluates policies regarding prevention of hospital acquired infections. He is often sought out by other specialties regarding best practices and approaches to avoiding hospital acquired infections. Dr. Kaye also serves as the vice president of SHEA (Society for Healthcare and Epidemiology), and in 2018, he will assume the role of president of SHEA. Additionally, Dr. Kaye serves as a writing member of the Healthcare-Associate Infection Allied Task Force. Within this task force, he is the lead author on surgical site infection guidelines.

Summary of Recommendation:
Dr. Kaye is an outstanding physician-scientist who is well known for his work in the field of infection prevention/infection control. I am pleased to recommend the appointment of Keith S. Kaye, M.D. as professor of internal medicine, with tenure, Medical School, effective September 1, 2016.

Recommended by:

Marschall S. Runge, M.D., Ph.D.
Executive Vice President for Medical Affairs
Dean, Medical School

September 2016
ACTION REQUEST: Faculty Appointment Approval

NAME: Erica E. Marsh, M.D.

TITLE: Associate Professor of Obstetrics and Gynecology, Medical School

TENURE STATUS: With Tenure

APPOINTMENT PERIOD: 12 Months

EFFECTIVE DATE: August 22, 2016

On the recommendation of Timothy R.B. Johnson, M.D., the Bates Professor of and Chair of the Department of Obstetrics and Gynecology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Erica E. Marsh, M.D. as associate professor of obstetrics and gynecology, with tenure, Medical School, effective August 22, 2016.

Academic Degrees:
Dr. Marsh received her M.D. degree from Harvard Medical School in 2001 and a master’s of science in clinical investigation at Northwestern University in 2008.

Professional Record:
Dr. Marsh completed her residency in obstetrics and gynecology at Harvard University through Brigham and Women’s Hospital and Massachusetts General Hospital from 2001 to 2005. She then went on to complete her reproductive endocrinology and infertility fellowship at Northwestern University from 2005 to 2008. In 2008, she joined the faculty of the Feinberg School of Medicine, Northwestern University as an assistant professor.

Summary of Evaluation:
Dr. Marsh’s research is on health disparities within reproductive endocrinology and infertility, fibroid treatment and the pathogenesis of fibroid development. Her recent focus is on the role of obesity and metabolic dysregulation in the initiation and propagation of fibroid lesions and the ethnic disparities among women with fibroids. She has received funding from the National Institutes of Health, the Robert Wood Johnson Foundation and the Northwestern Memorial Foundation. She is the principal investigator for Northwestern’s portion of a $20 million grant funded by the Patient-Centered Research Institute (PCORI) to evaluate the effectiveness of different treatment strategies for women with uterine fibroids by building a national database tracking patients, treatments and outcomes. This project is a collaboration between PCORI and the Agency for Healthcare Research and Quality and combines the unique expertise and patient population of ten of the country’s most successful uterine fibroid programs. Dr. Marsh was selected as the 2015 recipient of the Ira and Ester Rosenwaks New Investigator Award from the American Society for Reproductive Medicine (ASRM). This award recognizes a member of ASRM who has made outstanding contributions to
clinical or basic research in reproductive sciences published within ten years after completing research or clinical training and initiating an independent career as an investigator. In 2013, she was the recipient of the Chicago Urban League STEM Innovator Award.

Recent and Significant Publications

Marsh EE, Shaw ND, Klingman KM, Tiamfook-Morgan TO, Yialamas MA, Sluss PM, Hall JE: Estrogen levels are higher across the menstrual cycle in African-American women compared with Caucasian women. *J Clin Endocrinol Metab* 96:3199-3206, 2011.

Dr. Marsh’s teaching activities include didactic and clinical instruction, and mentoring of high school students, medical students, residents, and fellows. She has served as an Ara of Scholarly Concentration mentor for medical students, has taught third-year medical students in the clinic, and Ob/Gyn residents rotating through the reproductive endocrinology and infertility clinic. Dr. Marsh established the Northwestern Medicine Scholars Program in 2010. This program inspires underserved, high performing high school students to pursue careers in medicine and science. It partners medical students, residents, and faculty with public school students for a longitudinal four year program to launch them into a medical or scientific career. In 2016, Dr. Marsh received the American congress of Obstetricians and Gynecologist Mentor Award.

External Reviewers:

Reviewer A: “She has made significant original research contributions to the areas of uterine fibroids, endometriosis and female infertility....Of particular significance is Dr. Marsh’s work on the ethnic disparity of those suffering from uterine fibroids, a disease that is at least 3 times more common in women of color. Her unique combined community-basic science approach to study this phenomenon is really remarkable. It has already yielded important findings...”

Reviewer B: “Given Erica’s world class and extensive training, performance and accomplishments, I would consider her to be in the top 5% of her peer group....Dr. Marsh is a nationally recognized clinician scientist with great promise to be a national leader in our subspecialty.”

Reviewer C: “Her work has increasingly focused on uterine leiomyomata and she has, in addition to publishing her research, been a nationally sought-after speaker and educator on this topic and has presented her research at many prestigious national meetings.”
Reviewer D: "Leadership and service are a high priority for Dr. Marsh. Nationally, she serves as a Program Committee Member of the Society for Reproductive Investigation and as a Fellow for the American College of Obstetricians and Gynecologists. Dr. Marsh’s meritorious service through these committees and organizations reflect her commitment to her field and the high regard in which she is held. She is certainly a seasoned leader who knows how to develop and facilitate change."

Reviewer E: "...Dr. Marsh is an outstanding physician-scientist recognized nationally by her peers. She is an ultimate scholar: someone who can be relied on to get the job done! Her work has made an impact in the medical field as evidenced by her substantive publication record and service. She has developed innovative programs while at Northwestern which have helped to bring the institution to the forefront of reproductive medicine."

Dr. Marsh has been recognized for her service contributions to her specialty and also to her community. She serves on the 2016 program committee of the Society of Reproductive Investigation. She is a fellow of the American College of Obstetricians and Gynecologists and, in 2016, will also be inducted into the Alpha Omega Alpha Medical Honor Society. In 2015, she earned the American Society of Reproductive Medicine Star Award and was appointed to the board of the American Medical Association in 2013. She received the Martin Luther King, Jr. Humanitarian Award from Northwestern Memorial Hospital in 2013 and the Community Health Volunteer Specialist of the Year Award in 2012. She is an ad hoc reviewer for seven journals including PLOS One and the Journal of Women’s Health. Dr. Marsh is being recruited to be the division director of reproductive endocrinology and infertility in the Department of Obstetrics and Gynecology.

Summary of Recommendation:
Dr. Marsh is recognized by her peers as an expert in health disparities in reproductive endocrinology and infertility. She is a superior clinician, surgeon, and teacher who will be an asset to the University of Michigan Health System. I am pleased to recommend the appointment of Erica E. Marsh, M.D. as associate professor of obstetrics and gynecology, with tenure, Medical School, effective August 22, 2016.

INTERIM APPROVAL GRANTED

August 2016
ACTION REQUEST: Faculty Promotion Approval

NAME: Khaled A. Mattawa

CURRENT TITLE: Associate Professor of English Language and Literature, with tenure, College of Literature, Science, and the Arts

RECOMMENDED TITLE: Professor of English Language and Literature, with tenure, College of Literature, Science, and the Arts

EFFECTIVE DATE: September 1, 2016

It is recommended that Khaled A. Mattawa, associate professor of English language and literature, with tenure, College of Literature, Science, and the Arts, be promoted to professor of English language and literature, with tenure, College of Literature, Science, and the Arts, effective September 1, 2016.

Academic Degrees
Ph.D. 2009 Duke University
M.A. & M.F.A. 1994 Indiana University
B.A. & B.S. 1989 University of Tennessee at Chattanooga

Professional Record
2010 – present Associate Professor, Department of English Language and Literature, University of Michigan
2004 – 2010 Assistant Professor, Department of English Language and Literature, University of Michigan
2000 – 2003 Assistant Professor, Department of English, University of Texas

Summary of Evaluation
Teaching – Since 2010, Professor Mattawa has taught an impressive variety of introductory, intermediate, and advanced undergraduate courses. Along with first-year writing and gateway courses, such as “Introduction to Literary Studies,” and core courses in the undergraduate and graduate creative writing track, Professor Mattawa has devised inventive new courses that strengthen the international education area that the department is eager to promote. Students praise his subject expertise, passion, and generosity. He is also working with the department’s curriculum to make it more diverse and inclusive, particularly by introducing contemporary writing from North Africa and the Middle East.

Scholarship – Professor Mattawa is an internationally renowned poet, translator, and scholar whose work has focused on bringing the riches of the modern Arabic literary heritage before an English-speaking audience. A MacArthur Fellow and member of the Academy of American Poets, Professor Mattawa has won major awards for his own poetry and for his translations from the Arabic since his promotion to associate professor. His most recent book, a groundbreaking critical biography of Palestinian national poet Mahmoud Darwish, situates the life and work of one of the world’s most
significant living writers within the intricate contexts of Middle Eastern conflicts. Professor Mattawa deploys a range of theoretical concepts from both the American and Arabic literary critical traditions to think through, in original and deeply nuanced ways, the tensions found in individual poems between ethical and aesthetic commitments, nationalist and humanist identifications, and the poet’s simultaneous desires to resist and communicate with a dominant culture.

Significant and Recent Publications

Service – Professor Mattawa’s service at Michigan has been substantial. While clearly invested and effective in straightforward administrative tasks at the departmental level, he exhibits leadership contributions to all three of the disciplinary units in which he participates. He has served as an elected Executive Committee member for the Departments of English Language and Literature, American Culture, and Near Eastern Studies. At the same time, Professor Mattawa is a cultural leader within national and international networks. He recently concluded seven years of service at the Radius of Arab American Writers (RAWI), during which he organized two major international conferences. Professor Mattawa’s long and distinguished leadership activities with the Artistic Council of Culture Resource (an Egyptian-based non-governmental organization supporting artists throughout the Arab world) raised the organization’s budget eight-fold and gave him the confidence to start his own arts organization in Libya, for which he applied and won five major grants.

External Reviewers
Reviewer (A)
“Professor Mattawa seems to me one of the principal figures of the emerging generation of American poets, and has already published a formidable amount of poetry—work of range, ambition, originality and depth. He has also become our most gifted and prolific translator of contemporary Arabic poetry, introducing American readers to an important literary tradition which had previously been nearly unknown. He has garnered an impressive number of awards and honors, among them a Guggenheim Fellowship, a Hodder fellowship from Princeton, and a translation grant from the National Endowment for the Arts. To this array of accomplishments he also, in 2014, added a coveted MacArthur Fellowship, the so-called ‘genius award.’”

Reviewer (B)
“By any measure, Mr. Mattawa has amassed an exceptional list of credentials. My own greatest expertise is in contemporary American poetry and it’s clear to me that the four titles listed under ‘Books of Poetry’ on Mr. Mattawa’s c.v. are impressive. For those outside the field, it’s possible that the names of the three publishers represented do not radiate the immediate aura of Penguin or Norton or Random House, but I want to emphasize that all are highly desirable, highly regarded literary presses (with a special emphasis in poetry).”

Reviewer (C)
“Professor Mattawa’s accomplishments in creative writing and scholarship...are formidable and distinctive. His four books of poems are extraordinary in their depiction and revelation of an
American poet self who is, at once, an emigrant from an African and Arab country, cosmopolitan, and, within the work, aesthetically astute and experimental in his language. His nine volumes of translation from the Arabic are, simply, unparalleled in their achievement. ...[he] has almost single-handedly brought poetry written in Arabic into the American canon.”

Reviewer (D)
“This is creative and critical work of a very high caliber... He has a high international profile and is a clearly respected, indeed lauded, poet-scholar who has been recognized by a variety of prestigious institutions for the quality of his work. He is and will remain, I imagine, a deeply valued asset to any research institution which values both scholarship and research output.”

Reviewer (E)
“Professor Mattawa’s poetry...reveals a sensibility steeped in American culture and in the best traditions of American poetry. He writes as an American poet; and his ‘voice’ is all his own. One would never guess...that he had somehow acquired or adopted this distinctive style and voice. I don’t mean, of course, his mastery of English but his creation of himself as an American poet, and a superb one at that. Even more interesting is the way in which he draws on his original language, culture and traditions in his verse. They are never ‘exotic’ in his hands; they seem completely natural and apt.”

Reviewer (F)
“...I would characterize Professor Mattawa’s overall accomplishments in poetry and commentary to be outstanding. Professor Mattawa is one of a tiny handful of leading Arab American poets, including Fady Joudah and Naomi Shihab Nye. Among these poets, he is the only one to have won an award of the scale, visibility, and significance of the MacArthur Fellowship. Among them, he is the only person who is also a significant voice in criticism on the poetry.”

Summary of Recommendation
Professor Mattawa has established an international reputation as a major Arab-American humanist intellectual. His writing and public service records are highly distinguished. The Executive Committee of the College of Literature, Science, and the Arts and I recommend that Associate Professor Khaled A. Mattawa be promoted to the rank of professor of English language and literature, with tenure, College of Literature, Science, and the Arts.

September 2016
On the recommendation of the chair of the Department of Epidemiology, and with the endorsement of the Executive Committee of the School of Public Health, we are pleased to recommend the appointment of Briana Mezuk as associate professor of epidemiology, with tenure, School of Public Health, effective January 1, 2017.

**Academic Degrees**
Professor Mezuk received a Bachelor of Science in neuroscience and a Bachelor of Philosophy in history and philosophy of science from the University of Pittsburgh in 2002, and a PhD in mental health from Johns Hopkins University in 2007.

**Professional Record**
Professor Mezuk was a Robert Wood Johnson Health and Society Scholars Fellow at the University of Michigan School of Public Health from 2007 to 2009. She was appointed as an assistant professor at Virginia Commonwealth University in 2009 and was promoted to associate professor, with tenure, in 2015.

**Summary of Evaluation**
Professor Mezuk is a very active researcher, with a total of 74 publications. She has 32 papers dated 2014 or later. She has 31 papers as first author and 17 papers as last author. Her work is in the area of mental health and how that relates to psychosocial, cultural, biological and environmental factors, with particular focus on depression, suicide risk and disparities. Professor Mezuk has shown how health disparities impact the relationship between depression and diabetes. She has studied how genetics and the environment contribute to mental and physical health. She has published several key papers on the dynamic relationships between physical and mental health, and how these might be moderated or mediated by other factors. Professor Mezuk makes use of advanced statistical methods to untangle the complex relationships between psychosocial and physiological factors. She has published in many top journals in her field, such as the *American Journal of Public Health*, *Psychiatric Services*, *Schizophrenia Bulletin*, and *Social Sciences and Medicine*. Her research has been heavily cited by others. For example, her paper on depression and type-2 diabetes (Mezuk et al., *Diabetes Care*, 2008) has been cited over 700 times in Google Scholar. She has nine other first-authored papers that have been cited over 30 times. In 2015, her work received over 200 citations.
In terms of grant funding, Professor Mezuk obtained three significant external grants as the sole PI and has served on many grants as a co-investigator. She is the PI of a NIH K01 grant that will be completed in July 2016, and a large grant from the American Diabetes Association that is in its first year. She is actively pursuing external grant funding, and is the PI of one NIH R21 grant scored and resubmitted, and two other NIH grants (R21 and R01) that were scored and are under revision for resubmission this summer.

Professor Mezuk has extensive teaching experience at Virginia Commonwealth University. She taught courses titled “Epidemiology of Psychiatric and Substance Use Disorders” and “Applied Data Analysis in Public Health Lab.” Her teaching is excellent and she won the Outstanding Teacher Award in both 2011 and 2014. She has mentored 23 post-doctoral, pre-doctoral, and MPH/MS students. She was the primary mentor for one PhD student and is the primary mentor for two current PhD students. She received an Outstanding Mentor Award in 2016.

Professor Mezuk has performed excellent service at the international, national and the local level. These include refereeing numerous papers and reviewing grant applications, serving on university committees and serving the community. She has reviewed grants for the National Institutes of Health, the Veterans Health Administration, the Multiple Sclerosis Society, Diabetes UK, the Irish Health Research Board and the Netherlands Organization for Health Research and Development. Notable in her service to Virginia Commonwealth University has been membership of the Faculty Senate and chair of her division’s admissions committee.

Publications

Excerpts from External Reviewers

Reviewer (A): “She has been developing a line of research that has public health importance, is innovative, methodologically sophisticated and internationally recognized...I have every expectation that she will continue her development as an internationally respected, scientific leader.”
Reviewer (B): “Dr. Mezuk would be a highly valued faculty member at our institution given her exceptional publication record at this stage of her career, her sustained record of research funding and the outstanding ‘outcomes’ from her teaching and mentoring.”

Reviewer (C): “Dr. Mezuk is an energetic, creative, and productive scholar who has amassed an impressive body of scholarship and an international reputation in a short amount of time... My opinion is that her star will only continue to rise in the future, and she is already a highly respected thought leader in the fields of social and psychiatric epidemiology.”

Reviewer (D): “Dr. Mezuk has been very successful at obtaining intramural funding... I believe her body of work, success to this point, and overall program of research bode well for continued scholarly success in an academic career.”

Reviewer (E): “I am quite familiar with her scholarship in the area of diabetes and depression. I consider it to be among the very best work in the literature. Dr. Mezuk has clearly made substantial contributions with her independent scholarship, her teaching and mentoring, and her teaching. She has a strong publication record, excellent funding history and clear national recognition for her excellent work.”

Summary of Recommendation
Professor Mezuk is a well-respected researcher who will play a valuable role in teaching, research and service. We are pleased to recommend the appointment of Briana Mezuk as associate professor of epidemiology, with tenure, School of Public Health, effective January 1, 2017.

RECOMMENDED BY:                  RECOMMENDATION ENDORSED BY:

September 2016
On the recommendation of Lori L. Isom, Ph.D., the Maurice H. Seevers Professor and Chair of the Department of Pharmacology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Alan V. Smrcka, Ph.D. as professor of pharmacology, with tenure, Medical School, effective September 1, 2016.

Academic Degrees:
Dr. Smrcka received his Ph.D. degree in biochemistry from the University of Arizona in 1990.

Professional Record:
Dr. Smrcka completed a post-doctoral fellowship in the laboratory of Dr. Paul C. Sternweis at the University of Texas Southwestern Medical Center where he developed his interests in pharmacology and cell signaling. From 1990 to 1994, he was an instructor in the Department of Pharmacology at the University of Texas Southwestern Medical Center. In 1994, he was appointed as an assistant professor in the Department of Pharmacology at the University of Rochester School of Medicine and Dentistry in Rochester, New York. He was later appointed as assistant professor of pharmacology and physiology, and of oncology at that institution and was promoted to associate professor in 2000 and granted tenure in 2004. In 2007, Dr. Smrcka was promoted to professor of pharmacology and physiology, biochemistry and biophysics at the University of Rochester School of Medicine and Dentistry. In 2010, he was appointed as a professor in the Aab Cardiovascular Research Institute and in 2011, he was appointed as the Louis C. Lasagna Professor of Experimental Therapeutics.

Summary of Evaluation:
Dr. Smrcka developed the first small molecule inhibitors of Gβγ function which were initially published in Science in 2006. Since then, he has pursued their mechanism and applications and has made a number of significant contributions to the field of molecular pharmacology and the study of G protein-coupled receptors (GPCRs). The central focus of his research over the past 20 years has been to understand the mechanism by which G protein signaling regulates cancer, heart disease, and inflammation. Dr. Smrcka currently has over 80 publications in high quality,
peer-reviewed journals including Biochemistry, Journal of Biological Chemistry, Journal of Cell Physiology, Molecular Pharmacology, Proceedings of the National Academy of Sciences, Science, Science Signaling and Molecular Cell Biology. He has contributed to over 20 invited reviews and book chapters. His list of extramural invited seminar presentations speaks to both his national and international reputation.

Recent and Significant Publications

Dr. Smrcka has participated in and taught a variety of courses including medical pharmacology, principles of pharmacology, molecular pharmacology, molecular biology and genetics, mind brain behavior, neuropharmacology, signal transduction, integrated systems, and advanced topics in biological macromolecules to undergraduate students, graduate students and medical students. His teaching has consisted of classroom instruction, research instruction in the laboratory, and participation in graduate student dissertation committee meetings and graduate student seminars. At the University of Michigan, it is anticipated that Dr. Smrcka will teach in the areas of receptor pharmacology, signal transduction, cardiovascular and autonomic pharmacology, molecular pharmacology and translational pharmacology.

External Reviewers:

Reviewer A: “Alan has worked on G protein signaling and has explored a variety of cutting edge questions. His work on PLC’s, in particular on PLCε, and on G proteins, perhaps most importantly his studies on Gβγ, represent major discoveries related to G protein signaling….He is undoubtedly an internationally recognized leader in the GPCR/G protein signaling field, someone who is highly respected for his creativity, rigor and insights.”
Reviewer B: “Alan is very highly regarded as one of the leaders in the field of G protein signaling internationally. He has also generously contributed his time to the scientific community through service on NIH study sections, editorial boards and leadership roles in the American Society of Pharmacology and Experimental Therapeutics.”

Reviewer C: “...I would rank his scientific work as outstanding, showing consistently high quality and substantial innovation...He is very actively involved with the organization of the Great Lakes G Protein Coupled Receptor Retreat—an internationally recognized meeting in the field as well as chairing the Molecular Pharmacology Gordon Conference.”

Reviewer D: “...Alan Smrcka is an international leader in the field of signal transduction and his scientific accomplishments place him in the small group of top scientists in the field. He has been very productive over the last 25 years, being a leader in the field of phospholipases Cε and G-protein βγ-subunits, not only in basic science but also in translational research projects.”

Reviewer E: “Alan is also more than a great researcher; he is also actively involved in teaching and mentoring students...Several of his trainees have received extramural fellowships and have authored peer-reviewed publications in leading journals. He has established a highly interdisciplinary research environment....Alan has also trained several undergraduates and medical students in laboratory research, and their success at the bench is reflected in their co-authorship in strong peer-reviewed publications from his laboratory.”

Reviewer F: “A characteristic feature of Dr Smrcka’s work is that his approaches are always highly creative and original. His many breakthrough findings are documented in a large number of publications, almost exclusively published in high impact journals. Dr. Smrcka’s work has led to many exciting new insights into GPCR/G protein signaling pathways which have guided the work of numerous other investigators in this field.”

Dr. Smrcka has been an active participant on a number of committees at both the national and local levels. He is the chair-elect of the Molecular Pharmacology Division of the American Society of Pharmacology and Experimental Therapeutics, and a member of the Molecular Scientific Review Group at the American Heart Association. He is a standing member of three study sections of the National Institutes of Health: the Pharmacology study section, the Hypertension Microcirculation study section, and the Molecular and Integrative Signal Transduction (MIST) study section. He will be chair of the MIST study section beginning October 16, 2016. Dr. Smrcka has served as an ad hoc reviewer for many top tier scientific journals including *American Journal of Physiology, Biochemistry,* and the *Journal of Biological Chemistry.* Additionally, he has served on the editorial boards of the *Journal of Biological Chemistry, Cellular Signaling, Molecular Pharmacology,* and *Pharmacological Reviews.*

Summary of Recommendation:
Dr. Smrcka is a nationally and internationally recognized expert in G protein coupled receptors and molecular pharmacology with a focus on signal transduction, G protein activation, and G protein structure. He has made significant contributions to the field of molecular pharmacology and the understanding of the basic mechanisms underlying G protein coupled receptor signal transduction. He is a leader in this area and is recognized for his talents in
biochemistry, biophysics, molecular biology, molecular pharmacology, pharmacology and physiology. Dr. Smrcka’s research program will greatly complement the areas of investigation currently ongoing in the Department of Pharmacology, and elsewhere in the Medical School. I am pleased to recommend the appointment of Alan V. Smrcka, Ph.D. as professor of pharmacology, with tenure, Medical School, effective September 1, 2016.

ACTION REQUEST: Faculty Appointment Approval

NAME: Enrico Landi

TITLE: Professor of Climate and Space Sciences and Engineering, College of Engineering

TENURE STATUS: Without Tenure

EFFECTIVE DATE: September 1, 2016

APPOINTMENT PERIOD: University Year

On the recommendation of the Executive Committee of the College of Engineering, I am pleased to recommend the appointment of Enrico Landi as professor of climate and space sciences and engineering, without tenure, College of Engineering, effective September 1, 2016.

ACADEMIC DEGREES

Professor Landi received his physics degree and his Ph.D. in astronomy from the University of Florence, Italy in 1994 and 1998, respectively.

PROFESSIONAL RECORD

Between 1999 and 2000, Professor Landi completed a post-doctoral fellowship at the Max-Planck-Institute für Aeronomie, Katlenburg-Lindau, Germany. He was with ARTEP, Inc. at the Naval Research Laboratory, Washington, D.C., as a research physicist from 2000 to 2009 and as an astrophysicist from 2009 to 2010. Professor Landi was appointed as an associate research scientist at the University of Michigan in 2010 and was promoted to research scientist in 2014.

SUMMARY OF EVALUATION

Professor Landi is considered by his peers to be one of five top solar spectroscopic analysts in the world, having pioneered novel techniques to analyze the region where the solar atmosphere is heated to over one million degrees to accelerate the solar wind, which in turn dominates the space environment of the Earth and the planets. He is the author of over 180 publications in refereed journals (over 70 as first author). Professor Landi is uniformly praised for his contribution to the field of solar physics with his development of the influential CHIANTI code for spectroscopic diagnostics of the Sun and other astrophysical processes. The CHIANTI code is considered to be the standard reference for atomic data and is used throughout the world. He did not simply compile the database; Professor Landi performed many of the original atomic
physics calculations that determined the atomic database in CHIANTI. This code has served as the basis for his outstanding personal research on the solar atmosphere.

PUBLICATIONS

EXCERPTS FROM EXTERNAL REVIEWS

REVIEWER A: “Enrico is an established, very well respected and world-class scientist who has contributed immensely to our knowledge of atomic and spectral diagnostic analyses of solar radiative emissions.”

REVIEWER B: “He’s a superb mid-career scientist, widely respected, and working in top productive form. He is very well-positioned to reap the benefits of his unique expertise during the coming decade of coronal physics. I am happy to give this case my strongest support.”

REVIEWER C: “...he has a substantial record of collaboration with and mentorship of graduate students. ... He also has been able to secure a steady stream of funding from NASA and NSF, which should stand him in good stead in sustaining his own independent research program, which has already produced rich dividends for the world-class program in space physics at the University of Michigan.”

REVIEWER D: “Dr. Landi’s scholarly impact in the field of solar physics is testified by the thousands of citations of his numerous, high-quality publications. ... I consider Dr. Landi an outstanding research scientist and an inspiring teacher holding certain promises for future professional growth. These qualities will certainly benefit the institute that would host him.”

REVIEWER E: “...I believe I speak for many in the larger Solar Physics community when I report that Dr. Landi’s contributions are held in the highest regard. The CHAINTI [sic] software
is the gold standard in the analysis of EUV spectra. It has led directly or indirectly to much of the most exciting developments in Solar Physics.”

REVIEWER F: “I am confident that he will continue to make significant and influential contributions to our field.”

REVIEWER G: “He is certainly among the best 10% of scientists of his [cohort]... Anybody with similar qualifications would certainly be considered for a tenured position at [my institution].”

SUMMARY OF RECOMMENDATION

Professor Landi has a proven record of research excellence and a strong record of collegial interactions with peers. We are presented with a unique opportunity to hire a truly outstanding candidate whose research is in critical areas of current relevance to the Department of Climate and Space Sciences and Engineering. I am pleased to recommend the appointment of Enrico Landi as professor of climate and space sciences and engineering, without tenure, College of Engineering, effective September 1, 2016.

INTERIM APPROVAL
GRANTED
Recommendations for approval of reappointments

of regular instructional staff and selected academic and administrative staff
The University Of Michigan
Regents Communication

Action Request: Reappointment to an Unendowed Collegiate Professorship

Name: Michael Awkward

Current Titles: Gayl A. Jones Collegiate Professor of Afroamerican Literature and Culture, Professor of English Language and Literature, with tenure, and Professor of Afroamerican and African Studies, with tenure, College of Literature, Science, and the Arts

Title Being Renewed: Gayl A. Jones Collegiate Professor of Afroamerican Literature and Culture, College of Literature, Science, and the Arts

Term: Five Years, Renewable

Effective Dates: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Michael Awkward as the Gayl A. Jones Collegiate Professor of Afroamerican Literature and Culture, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Gayl A. Jones Collegiate Professorship in Afroamerican Literature and Culture was established in the Provost Office and was named in August 2006. Gayl A. Jones was a faculty member at the University of Michigan from 1976 to 1984. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

In the last five years, Professor Awkward has published Philadelphia Freedoms: Black American Trauma, Memory, and Culture after King (Temple University Press, 2013), an interdisciplinary study of trauma, race, and place begun over a decade earlier. He put this project aside to write books about rhythm and blues music and a controversial media-and American cultural-moment. Since completing this project, he has turned his attention to reworking a novel that he drafted in 2005, inspired by the suicide of the transcendentally talented singer and pianist Donny Hathaway, a paranoid schizophrenic who committed suicide in 1979 just hours after a recording session with his longtime friend and duet partner, Roberta Flack. The course that he taught during winter 2016 on Toni Morrison, which necessitates discussions of form, craft, and the challenge of rendering principles of black music in the form of the novel, has inspired him to again take up this long set-aside project and to begin to seek a publisher.
Professor Awkward has also been researching an interdisciplinary study of the representations of black male deaths beginning with the murder of Emmett Till. Since his reappointment as the Gayl A. Jones Collegiate Professor in 2011, he has been reading widely on such topics as trauma, visual culture, documentary film, civil rights and post-civil rights Black America, and masculinity. His current research plans are to draft a chapter of this book project. He will begin with the MOVE crisis in Philadelphia, and delve into the life and death of Birdie Africa, the child survivor of the city’s bombing of the group’s headquarters in 1985.

The larger subject inspired Professor Awkward to teach an undergraduate class in fall 2015, which he will teach a version of as a graduate course in fall 2016. Since 2013, Professor Awkward has taught a range of courses, from Freshman Composition to Masculinity in Rhythm and Blues music, and he has taught courses on Contemporary American autobiography, trauma and black American literature, and black American novels after Invisible Man, among other topics.

In the area of service, Professor Awkward has served on a college committee, on two hiring committees for the Department of English Language and Literature, and on English’s Executive Committee. He has worked and is currently working with a number of graduate students in the Departments of English and American Culture, who are in various stages of fulfillment of the requirements for their degrees. In addition, he recently served as interim director of graduate studies and as a member of the Graduate Admissions Committee.

We are very pleased to recommend the reappointment of Michael Awkward as the Gayl A. Jones Collegiate Professor of Afroamerican Literature and Culture, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

Action Request: Reappointment to a Collegiate Professorship

Name: Enoch Brater

Current Titles: Kenneth T. Rowe Collegiate Professor of Dramatic Literature, Professor of English Language and Literature, with tenure, College of Literature, Science, and the Arts, and Professor of Theatre, without tenure, School of Music, Theatre & Dance

Titles Being Renewed: Kenneth T. Rowe Collegiate Professor of Dramatic Literature, College of Literature, Science, and the Arts

Term: Five Years, Renewable

Effective Dates: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Enoch Brater as the Kenneth T. Rowe Collegiate Professor of Dramatic Literature, College of Literature, Science, and the Arts, for five-year renewable terms, effective September 1, 2016 through August 31, 2021.

The Kenneth T. Rowe Collegiate Professorship in Dramatic Literature was established by the Regents in July 2006. Kenneth T. Rowe was a faculty member at the University of Michigan from 1928 until his retirement in 1971. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Brater has continued to produce quality work at a remarkable rate. During the last five years, he has been able to consolidate, expand, and advance his primary focus on modern and contemporary theater and dramatic literature. His books, A Student Handbook to the Plays of Arthur Miller (Bloomsbury, 2013), Ten Ways of Thinking about Samuel Beckett: The Falsetto of Reason (Methuen Drama/Bloomsbury, 2011; New York, 2012), The Theatre: A Concise History (revised edition, Thames and Hudson, 2012); The Plays of Arthur Miller: Volume 6, (edited volume, Methuen, 2010); and Arthur Miller’s ‘Death of a Salesman:’ A Critical Edition (Methuen, 2010) have all been published in the last six years and illustrate the range and variety of his research.

Professor Brater’s work has centered on two central figures of the 20th century: Arthur Miller and Samuel Beckett. In addition to Ten Ways of Thinking about Samuel Beckett, a study that illuminates Beckett’s drama and prose from a number of complementary perspectives, his investigation of Beckett continues into the present. Two works-in-progress aim to synthesize...
and reflect the overarching structure of Beckett's achievement: Samuel Beckett, a book under contract with the University of Michigan Press, and a more comprehensive monograph called Beckett's Incurious Seeker: The Audience as Reader and Listener. Professor Brater's research and writing on Arthur Miller (UM '38) concern a different series of questions and approaches. Here he had unlimited access from the Miller Estate to make use of the author's private and unpublished papers. In so doing he has been able to establish what amounts to a variom edition of Death of a Salesman in a critical edition that has already become the sine qua non for any future productions of the play. This edition is part of a series of critical editions of the Miller plays that Professor Brater is supervising for Methuen/ Bloomsbury in the United Kingdom (he serves as series editor for this ongoing project). So far he has overseen the publication of eight additional Miller plays already in print, with several more in the pipeline.

Such an effort makes use of Professor Brater's editorial skills in a variety of ways, which has been apparent in the new series he developed for the same publisher called ENGAGE. This series aims to track and trace innovative patterns in the continuing exploration of just what constitutes drama in a wide and expansive theatrical tradition across the globe. For this series, Professor Brater has already supervised the publication of more than a dozen books, two of which have received international prizes for scholarly achievement. At the same time, he continues his work as series editor for the Major Modern Dramatists Series of the University of Michigan Press. During the past five years, Professor Brater has also pursued his work in a new dimension, as he continues his research on a project entitled Remaking the Stage: New American Drama for the 21st Century. This study brings together a number of young playwrights who base their current achievements on the masters of American drama who have come before them as they seek to find a new and authentic voice for our own century. The focus is on inclusiveness, highlighting ethnic, gender, and racial perspectives that have not been given the same stage presence before.

Professor Brater has worked vigorously to modify his classes to meet the needs of a new generation and demography of Michigan students. As the focus of his courses has always been on drama as performance and the challenge of writing for a performance arts medium, it has become more essential to rely on the new media experiences of his students. He accommodates this by making use of the vast holdings in the Asquith Collection in the Shapiro Library and by asking students to think of theater and drama in a highly mediatized way (televised, digitalized, filmed—even at times power-pointed!). Such an approach has been especially useful in the new courses he developed and has taught during the past five years. He has incorporated similar approaches on a graduate level, where a rich mixture of Rackham students has welcomed multimedia perspectives. These classes have been successful: the two classes taught during fall 2015 were rated in the upper quartile by a lively group of Michigan undergraduate students.

Professor Brater's service has been equally divided between undergraduate and graduate commitments. For the latter he twice served on the Graduate Admissions Committee, and has been a member of the Graduate Advisory Committee. He has chaired two dissertation committees; served on the Undergraduate Advisory Committee where one of the recent tasks has been to develop a proposal for a new English and Creative Writing major; and been one of the nominating colleagues for Thurnau professorships. Note, too, that in the earliest part of the past
five years, Professor Brater served as director of the Michigan Academic Year Program in Florence, run in coordination with Duke and Wisconsin Universities.

We are very pleased to recommend the reappointment of Enoch Brater as the Kenneth T. Rowe Collegiate Professor of Dramatic Literature, College of Literature, Science, and the Arts, for five-year renewable terms, effective September 1, 2016 through August 31, 2021.

Action Request: Reappointment to an Unendowed Collegiate Professorship

Name: Roy Clarke

Current Titles: Marcellus L. Wiedenbeck Collegiate Professor of Physics, and Professor of Physics, with tenure, College of Literature, Science, and the Arts

Title Being Renewed: Marcellus L. Wiedenbeck Collegiate Professor of Physics, College of Literature, Science, and the Arts

Term: Five Years, Renewable

Effective Dates: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Roy Clarke as the Marcellus L. Wiedenbeck Collegiate Professor of Physics, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Marcellus L. Wiedenbeck Collegiate Professorship in Physics was established in the Provost Office and was named in November 2011. Marcellus Wiedenbeck was a faculty member at the University of Michigan from 1946 until his retirement in 1986. He also served as an associate chair of the Department of Physics from 1978 to 1986. A stipend funded from college resources will accompany this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Clarke remains an outstanding educator and scientist. His research in the last five years has focused on the nature of epitaxial interfaces. These systems are a new frontier in condensed matter physics and are interesting because they have recently been found to exhibit novel "emergent" phenomena which are not present in the bulk constituents. Such phenomena include correlated electron effects such as novel metal-insulator transitions, magnetoresistance, and high-performance tunneling barriers. He has developed several new experiments, including upgrading the Zeeman Effect apparatus with new Fabry-Perot etalons, establishing a new beta radiation experiment, and pioneering a time of flight neutron experiment. He is also part of a multidisciplinary UM team funded by the Provost's Third Century Initiative that is developing global engagement experiences for students in different parts of the world. He leads the team that collaborates with academics in Gabon, providing a significant impact on the emergence of STEM training in the developing world. Professor Clarke's research group is currently funded by the National Science Foundation, the Department of Energy, the Air Force Office of Scientific Research, and the Michigan Economic Development Corporation.
Professor Clarke is a fellow of the American Physical Society (1991-present). He has been a visiting professor at the University of Canterbury, Christchurch, New Zealand, a visiting scientist at Argonne National Laboratory, and regularly gives invited talks and colloquia at conferences and universities worldwide. He also served as the chair of the Condensed Matter Physics Proposal Review Panel, Advanced Photon Source, Argonne National Laboratory (2013-2015).

Professor Clarke is an excellent instructor. He teaches the Physics Advanced Lab, which is the culmination of the concentrators’ degree program. During the last five years, he was awarded the 2011 Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring, and the 2014 Rackham Distinguished Graduate Mentor Award.

We are very pleased to recommend the reappointment of Roy Clarke as the Marcellus L. Wiedenbeck Collegiate Professor of Physics, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

REGENTS COMMUNICATION

ACTION REQUEST: Reappointment to an Endowed Professorship

NAME: Katherine L. French

CURRENT TITLES: J. Frederick Hoffman Professor of Medieval and Early Modern English History, Professor of History, with tenure, and Professor of Women’s Studies, without tenure, College of Literature, Science, and the Arts

TITLE BEING RENEWED: J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

The dean and the Executive Committee of the College of Literature, Science, and the Arts are pleased to recommend the reappointment of Katherine L. French as the J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

The J. Frederick Hoffman Professorship in Medieval and Early Modern English History was established by the Regents in June 2011 as a result of a generous gift from Patricia Hoffman. Appointments to this professorship may be up to five years and may be renewed.

Professor French enjoys a national reputation as the premiere American historian of late medieval England. Since her arrival at Michigan in 2011, she co-edited an essay collection that is highly recognized in her field, The Ties that Bind: Essays in Medieval British History in Honor of Barbara A. Hanawalt (with L. E. Mitchell and D. L. Biggs, Ashgate Press, 2011), and edited a second collection, Cultural History of the Home: Medieval Europe (Bloomsbury Academic Press, in press). Her peer-reviewed articles have appeared in many of the leading journals in her field, including Gender & History, The Journal of Social History, Journal of Women’s History, Clio, and Fragments: Interdisciplinary Approaches to the Study of Ancient and Medieval Pasts, along with two articles in peer-reviewed essay collections. Several of these essays stem from her ongoing research for her third major monograph on gender and material culture in medieval England, “Household Goods and Good Households: Material Culture after the Black Death in London,” for which she won a fellowship at Michigan’s Institute for the Humanities (2013-2014). Professor French also received funding from the Radcliffe Institute to design and co-organize a major conference, “A Thing of the Past: An Interdisciplinary Workshop on Material Evidence and the Rewriting of the English Middle Ages,” which was held at Michigan in 2015.
In the Department of History, Professor French occupies an important role as one of three medievalists. Her scholarship and teaching speaks to scholars well beyond her field: several of the department's modernist faculty, for example, have been excited to learn more about her work on material culture and her courses have helped reinvigorate the departmental curriculum in gender and women's history. Since her arrival at Michigan, Professor French has taught a wide range of courses, including a first-year seminar, the medieval and early modern survey courses (History 209 and 210), a number of new 300-level courses on medieval and Roman women's history, seminars on the Black Death and on the history of London, along with core graduate courses in pre-modern European history and European history of gender and women. She also stepped up to teach the 200-level core methods course for history majors, which is a challenging and time-consuming endeavor. Her highly successful teaching contributions have significantly widened the scope of offerings in medieval and European gender/women's history.

In terms of her service contributions, Professor French participated in the third year reviews and promotion panels for two colleagues, served on the Executive Committee of the Interdisciplinary Program in Greek and Roman History, and ran the Medieval and Early Modern Europe (MEMS) seminar. She was elected to a two-year term on the Department of History's Executive Committee (2014-2016). Professor French was also the Executive Committee's liaison to the search committee for the Manoogian Chair in Armenian History during 2015-2016.

We are very pleased to recommend the reappointment of Katherine L. French as the J. Frederick Hoffman Professor of Medieval and Early Modern English History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

September 2016
Reappointment to an Unendowed Collegiate Professorship

Lee W. Hartmann

Leo Goldberg Collegiate Professor of Astronomy, and Professor of Astronomy, with tenure, College of Literature, Science, and the Arts

Leo Goldberg Collegiate Professor of Astronomy, College of Literature, Science, and the Arts

Five Years, Renewable

September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Lee W. Hartmann as the Leo Goldberg Collegiate Professor of Astronomy, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Leo Goldberg Collegiate Professorship in Astronomy was established in the Provost Office and was named in July 2011. Leo Goldberg was a faculty member at the University of Michigan from 1942 to 1960. A stipend funded from college resources will accompany this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Hartmann has maintained a remarkably high level of productivity over the last five years publishing 50 refereed papers primarily in the area of star formation and young star clusters. He is an acknowledged expert (if not the expert) on the formation of young stars through accretion, and he was recently invited to write a review on the topic for *Annual Reviews of Astronomy and Astrophysics*, which is the number one impact journal in his field.

Professor Hartmann continues to be an outstanding teacher at all levels. He regularly teaches two of the departmental introductory courses and the graduate courses on the gaseous medium in astrophysics and on stars and star formation. He also works with undergraduate students on individual research projects and has taught in the senior level writing class. He has played an important role in revising and improving the courses which he has taught. Professor Hartmann is a major attraction for students in the graduate program, where he regularly has three students working for him. The national average for the field is 1.6 students per faculty member. His students have had remarkable success in completing their graduate work in a timely fashion (at or below the national average in years to completion of a Ph.D.) and in obtaining highly regarded post-doctoral fellowships. Since 2011, three students have obtained their Ph.D., with another
expected this year. He is regularly invited to give talks at major meetings (about two per year since 2011), and to colloquia at other institutions. Professor Hartmann has been able to maintain his external funding, even in the current challenging environment. He became a fellow of the American Association for the Advancement of Science in 2011.

Professor Hartmann is regularly sought out to serve on important advisory committees in the field, such as the Committee on Astrophysics and Astronomy for the National Academy of Sciences (2016-present) and a publications committee for the American Astronomical Society (2015-present), the primary professional society for which he has served or been elected to a number of positions (e.g., vice president, 2007-2010). He also serves on scientific review committees, often as panel chair. Within the department, he has been chairing the departmental computer committee since 2007 where he helped overcome a number of challenges. When his term on that committee came to an end in 2012, several members of the department approached the chair of the department and asked that he be reappointed, to which he agreed. He has been an effective member of multiple committees within the department and continues to serve the college as chair of the Advanced Research Computing Advisory Team.

We are very pleased to recommend the reappointment of Lee W. Hartmann as the Leo Goldberg Collegiate Professor of Astronomy, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Reappointment to an Unendowed Collegiate Professorship

NAME: James R. Hines, Jr.

CURRENT TITLES: Richard A. Musgrave Collegiate Professor of Economics, Professor of Economics, with tenure, College of Literature, Science, and the Arts, L. Hart Wright Collegiate Professor of Law, Professor of Law, with tenure, Law School, and Professor of Business Economics, without tenure, Stephen M. Ross School of Business

TITLE BEING RENEWED: Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of James R. Hines, Jr. as the Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Richard A. Musgrave Collegiate Professorship in Economics was established in the Provost Office and was named in August 2006. Richard A. Musgrave was a faculty member at the University of Michigan from 1948 to 1959. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Hines has a high scholarly profile and high level of productivity in the field of public economics. He has made numerous contributions to public finance across a broad array of topics. He is best known for his work on international taxation of corporate income, and he is a leading expert on this topic in both the academic and policy arenas. The topics of this research have been at the intersection of tax policy, foreign investment, and the financial structure of multinational corporations. His work has resulted in a number of high-profile publications in the Review of Economics and Statistics, the Journal of Urban Economics, the National Tax Journal, the Canadian Tax Journal, Public Finance Review, the Michigan Law Review, the Journal of Legal Analysis, and the American Economic Review Papers and Proceedings. The audience for this research has been unusually broad, i.e., specialists in public finance and corporate finance not only in economics but also in law and accounting. He has edited five books on the topic of international taxation. Not surprisingly, given the salience of these issues, Professor Hines has become a frequent advisor to policy makers, presenting Congressional testimony on numerous occasions and providing policy advice to foreign governments and multinational organizations.
Professor Hines plays important roles in the Department of Economics and the Law School as a teacher and an advisor. He teaches a demanding high-level doctoral course on the theory and practice of public finance, law courses on taxation and trusts and estates, as well as high enrollment undergraduate courses on public economics for economics concentrators. He is an extraordinarily effective teacher and a sought-after advisor. Since 2000, no fewer than 48 students have completed their dissertations under Professor Hines' supervision. He is just as popular at the undergraduate level, earning rave reviews in courses with enrollments topping 150 students.

Professor Hines serves as a mentor to numerous assistant professors in the Department of Economics. He recently served on a tenure and promotion committee, has headed the departmental senior search committee, served on numerous ad hoc review committees, and was recently elected to the departmental Executive Committee. At a higher level, Professor Hines has served on the provost's advisory committee on faculty promotions. Outside of the university, he has a high profile of professional service, including service on the editorial boards of most of the leading journals in his field, and for many years was a co-editor of the Journal of Economic Perspectives, a widely-read publication of the American Economics Association designed to bring frontier research to its wide membership.

We are very pleased to recommend the reappointment of James R. Hines, Jr. as the Richard A. Musgrave Collegiate Professor of Economics, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Reappointment to an Unendowed Collegiate Professorship

NAME: Judith T. Irvine

CURRENT TITLES: Edward Sapir Collegiate Professor of Linguistic Anthropology, and Professor of Anthropology, with tenure, College of Literature, Science, and the Arts

TITLE BEING RENEWED: Edward Sapir Collegiate Professor of Linguistic Anthropology, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Judith T. Irvine as the Edward Sapir Collegiate Professor of Linguistic Anthropology, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Edward Sapir Collegiate Professorship in Linguistic Anthropology was established in the Provost’s Office and was named in August 2006. Edward Sapir was a faculty member at the University of Michigan during the summer session in 1937 and was one of the founding figures of anthropology in the United States. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Irvine is one of the most influential scholars in her field. She is a major figure in anthropological theory and analysis, both within her subfield of linguistics and in sociocultural anthropology as a whole. Professor Irvine’s research has been at the forefront of linguistic anthropology since the 1970s and she has reshaped the field. She challenges cultural anthropologists to bring linguistics into their understandings of face-to-face political interaction even as she urges linguists to consider the political underpinnings of language diversity. Since 2011, Professor Irvine has published six papers, two book reviews, and has four essays that are forthcoming (three of which are currently in production). Several of her earlier papers have been reprinted, one of them in a Spanish translation. With her coauthor, Susan Gal, Professor Irvine continues to work on Making (a) Difference, a much-talked about book manuscript that will set the standard for all subsequent work on language ideologies and social differentiation. Amid this flurry of publications, Professor Irvine is doing new field research as well. In 2012, she began a collaborative project with fieldworkers in South Africa, supplemented by archival research.

In summer 2014, Professor Irvine held a Mellon Visiting Faculty Fellowship in Linguistics at the University of Cape Town, where she gave several presentations and advised graduate students and post-doctoral scholars. She is now planning an international workshop on language as social...
history, in collaboration with the University of Cape Town and the University of the Western Cape, to be held in South Africa in 2017.

Professor Irvine continues to advise doctoral students, several of whom defended during this period, and she works closely with visiting scholars from West Africa. Since 2011, two of her doctoral students have won National Science Foundation dissertation grants, one held a fellowship at the UM Institute for the Humanities, and another won a Charlotte Newcombe fellowship. Professor Irvine taught a summer course for the Linguistic Institute that was held at Michigan in 2013, and a short summer course in Paris in 2015.

Professor Irvine has done ample service for her department in recent years. She served on the Institutional Review Board, first as a full board member and then as core alternate until the end of academic year 2014-2015. She is active in the African Studies Center (ASC), sitting on the Executive Committee from the center’s inception in 2008 and serving continuously on the ASC’s “Heritage Initiative” steering committee. As testament to the excellence of her regional scholarship, Professor Irvine has been named to the editorial board of the UM Press’ new book series on Africa. She serves on the editorial boards of several leading academic journals, including *American Anthropologist*; reviews research proposals for national and international granting agencies; and serves on numerous dissertation and book prize committees. Professor Irvine is a founding board member of a new professional society, the International Association for Colonial and Postcolonial Linguistics.

We are very pleased to recommend the reappointment of Judith T. Irvine as the Edward Sapir Collegiate Professor of Linguistic Anthropology, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

September 2016
I am pleased to recommend the reappointment of Lloyd D. Johnston as the Angus Campbell Collegiate Research Professor, UM Office of Research, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

Professor Johnston received his B.A. in economics from Williams College in 1962; his M.B.A. in organizational behavior from Harvard University in 1965; his M.A. in psychology in 1971 and his Ph.D. in psychology in 1973, both from the University of Michigan. He came to the University of Michigan as an assistant study director in the Survey Research Center, Institute for Social Research, from 1966 to 1973 (pre-doctoral) and joined the faculty as an assistant research scientist in 1973. Professor Johnston was promoted to associate research scientist in 1975; to senior research scientist in 1978; and to research professor in 1998.

Professor Johnston is a member of the American Psychological Association, the American Public Health Association, the American Sociological Association and the Association for Psychological Science. He received the Regents’ Award for Distinguished Public Service in 1998; the Distinguished Research Scientist Award in 1998; and the Senior Research Scientist Lectureship Award in 1987.

Professor Johnston’s national and international recognition as a leading researcher on substance abuse among youth and young adults, his exceptional scholarly achievements, and the impact of his research warranted his initial appointment as the Angus Campbell Collegiate Research Professor. I am pleased to recommend the reappointment of Lloyd D. Johnston as the Angus Campbell Collegiate Research Professor, UM Office of Research, effective September 1, 2016 through August 31, 2021.

Respectfully submitted:

S. Jack Hu

Action Request: Reappointment to an Unendowed Collegiate Professorship

Name: Shinobu Kitayama

Current Titles: Robert B. Zajonc Collegiate Professor of Psychology, and Professor of Psychology, with tenure, College of Literature, Science, and the Arts

Title Being Renewed: Robert B. Zajonc Collegiate Professor of Psychology, College of Literature, Science, and the Arts

Term: Five Years, Renewable

Effective Dates: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Shinobu Kitayama as the Robert B. Zajonc Collegiate Professor of Psychology, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Robert B. Zajonc Collegiate Professorship in Psychology was established in the Provost’s Office and was named in September 1997. Robert B. Zajonc was a faculty member at the University of Michigan from 1955 until his retirement in 1994. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

Over the last five years, Professor Kitayama has devoted much of his research effort to two areas. First, he extended his work on cultural variation in self and all psychological processes that are linked to it by using cutting-edge neuroimaging methods, including functional magnetic resonance imaging (fMRI) and electroencephalography (EEG). He has published a series of empirical studies documenting the viability of this approach in the study of culture and psychology. Moreover, in recent years, he extended this work to the new territory of genetics and epigenetics, which in turn highlighted the ultimate significance of ecology in shaping cultural differences in psychological processes. Papers relevant to this work have been published in top journals including Science, Advances in Experimental Social Psychology, Proceedings of National Academy of Sciences, and Psychological Science. Moreover, the neuroscience approach to culture has been highlighted in two Annual Review articles he coauthored (2011 and 2012). Professor Kitayama is widely recognized as one of the founders of the newly emerging field of cultural neuroscience.

In his second line of work, Professor Kitayama has investigated how social and cultural factors might modulate health by using large-scale longitudinal survey projects in both the United States and Japan. He has played a pivotal role in the collection of both survey data and biomarkers in
Japan. Using these data sets, he has investigated several different topics. In one line of work, he investigated the cultural generality of the link between anger and biological health risk. This link is commonly assumed in the current literature and, in fact, Professor Kitayama finds clear evidence for it among Americans. However, he showed that this link is completely reversed such that anger is linked to improved health status among the Japanese. The papers reporting this and other related projects have been published in top journals, including *Psychological Science and Emotion*.

Professor Kitayama has actively engaged in education at both undergraduate and graduate levels. During 2010 and 2011, he taught Advanced Social Psychology (a lecture course designed to introduce first-year graduate students to the field of social psychology). Over the last few years, his teaching effort has focused on the development of a new undergraduate course on cultural psychology (taught in 2014 and 2015). This course, especially the version taught in 2015, was very well received. A number of students commented that it was one of the very best courses they had taken at UM. Further, in 2012, Professor Kitayama teamed up with a neuroscientist/geneticist in the Department of Psychiatry to teach a graduate seminar on “Genetics for Behavioral and Social Science Research.” This seminar was attended by a large number of graduate students and faculty across the department. Throughout this five-year period, he also taught an orientation seminar for first-year graduate students in the social psychology program. He has been the primary adviser for four graduate students, and he supervised two additional graduate students as well as numerous undergraduate students.

During the last five years, Professor Kitayama served as the Social Psychology area chair. While managing the area, he actively tried to recruit new faculty members, both junior and senior, with notable success. In 2012-2015, he served on the Rackham Executive Board. He also served as the director of the Culture and Cognition program until the program was terminated in 2014. Outside of the university, he served as editor-in-chief of *Personality and Social Psychology Bulletin*, one of the top empirical journals, and as an associate editor of the *Journal of Personality and Social Psychology*, the flagship journal of the field.

We are very pleased to recommend the reappointment of Shinobu Kitayama as the Robert B. Zajone Collegiate Professor of Psychology, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

September 2016
Reappointment to an Endowed Professorship

Kenneth W. Kollman

Frederick G. L. Huetwell Professor, and Professor of Political Science, with tenure, College of Literature, Science, and the Arts

Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts

Five Years, Renewable

September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Kenneth W. Kollman as the Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

As a result of a generous gift from the estate of Frederick G. L. Huetwell in May 1995, the provost and the president awarded the college four endowed professorships. The primary objective of the professorships is to attract and honor distinguished senior faculty in the social sciences and humanities. Appointments to this professorship may be up to five years and may be renewed.

Professor Kollman’s recent book, Perils of Centralization: Lessons from Church, State, and Corporation (Cambridge University Press, 2013), includes research on the European Union, the Roman Catholic Church, General Motors Corporation, and the United States government. Throughout his career, he has contributed to diverse fields: computational social science, comparative and American politics, European Union studies, comparative federalism, and comparative political parties and elections. Professor Kollman’s popular textbook, The American Political System (W. W. Norton, 2014), is now in its second edition and his Readings in American Politics: Analysis and Perspectives (W. W. Norton, 2014) is a reader for undergraduate students and is in its third edition. He also published Relevant or Obsolete? Area Studies in the American Academy, co-edited with W. Glover, (International Institute, 2012) along with four peer-reviewed articles, and six essays and op-eds. During this time period, Professor Kollman has received four National Science Foundation grants and two Andrew W. Mellon Foundation grants. He has been the principal investigator for a grant-funded project creating the world’s the largest repository of election data for comparative research on elections and political parties. He is poised to complete a research monograph (with J. Jackson) in 2016. He has also presented 12 invited lectures at academic conferences and at other universities.
Professor Kollman has taught large introductory courses for the Department of Political Science on four occasions, a graduate level senior seminar, the honors course for international studies on three occasions, and a medium-level course on Italy and European politics. He has served as chair of five Ph.D. dissertations and participated on the dissertation committees of four other Ph.D. students. He is currently serving on dissertation committees for at least six Ph.D. students.

Professor Kollman was the director of the International Institute (2011-2014) and is currently the director of the Center for Political Studies in the Institute for Social Research (2015-present). He has participated on numerous departmental, college, and institute committees. He directed the Italian summer program for UM (Florence 2011 and Rome 2015). In his broader service to the profession, Professor Kollman organized three professional conferences, and he co-founded and is a co-principal investigator of the Constituency-Level Election Archive (CLEA), which is the world’s largest repository of elections results data.

We are very pleased to recommend the reappointment of Kenneth W. Kollman as the Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

Martha E. Pollack  
Provost and Executive Vice President  
for Academic Affairs

September 2016
On the recommendation of the chair of the Department of Classical Studies and the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Vassilios Lambropoulos as the C. P. Cavafy Professor of Modern Greek Studies, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

As a result of a generous gift from the Foundation for Modern Greek Studies, the C. P. Cavafy Professor of Modern Greek Studies was established by the Regents in July 2001. This professorship is intended as a foundational element in the university’s commitment to Modern Greek studies, from elementary language sequence through advanced cultural studies. Appointments to this professorship may be up to five years and may be renewed.

Professor Lambropoulos is a dynamic scholar who has maintained an active program of research and publication. In the past five years, he has published three articles in peer-reviewed journals and three chapters in edited volumes. He also has a book-length manuscript in progress, entitled Hubris in Modern Drama. Professor Lambropoulos is also a commentator and book reviewer in the popular press in Greece. Among these writings is “A fundamental poem against all foundations” in Avgi, a Greek daily newspaper (August 2014), and an essay entitled “Daniel Mendelsohn: Critical Reflections of a Man of Letters” in The Athens Review of Books (January 2015). An indication of his high profile in the field of Modern Greek studies is his invitation to give the Nicolas Christopher Memorial Lecture in Modern Greek Studies at Harvard University in April 2014. Other recent public lectures were presented at the London School of Economics (2014) and the 18th Catherine Pelican Memorial Lecture at the University of Missouri-St. Louis (2015).
Professor Lambropoulos is an inspiring teacher who continues to offer both undergraduate courses on modern Greek culture and graduate seminars in literary and social theory. Popular undergraduate courses include "Greek Myth in Film" and "Greek-American Culture." Professor Lambropoulos' graduate seminars -- for which he receives rave reviews (Q1 and Q2 scores in the upper quartile) -- have been on topics such as "Key Issues in Theory," "Radical Theory," and "Revolution as Tragedy and Farce."

Finally, Professor Lambropoulos has been an engaged citizen at the departmental level and to the wider university community and beyond. Starting with the latter category, he sits on the editorial board of half a dozen academic journals in North America and Europe. At the university level, he is a member of the Advisory Committee for the Center for European Studies, a member of the Steering Committee for the interdisciplinary faculty initiative known as Contexts for Classics, and is the academic advisor for the Hellenic Students Association. At the departmental level, Professor Lambropoulos has served on a promotion committee in Comparative Literature and on the Executive Committee for the Department of Classical Studies. His most important role in the Department of Classical Studies is his position as the director of the Program in Modern Greek. In this capacity, he organizes the curriculum, works with donor, and arranges numerous events during the academic year. One such event is the Pallas Lecture (this year on the subject of the rise of the far right party 'Golden Dawn' in Greece) and numerous film screenings as well as other cultural events. One recent event was a performance and panel discussion of dance traditions in modern Greece and China. Other initiatives undertaken by Professor Lambropoulos include coordination of the Bicentennial efforts, most notably by prompting the construction of a website (available as an app) cataloguing and explaining all things Greek on campus, including stone reliefs, sculptures, and architectural features of campus buildings. He is also revising the Modern Greek website which has been laborious, but necessary work.

We are very pleased to recommend the reappointment of Vassilios Lambropoulos as the C. P. Cavafy Professor of Modern Greek Studies, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

RECOMMENDATION ENDORSED BY: Martha E. Pollack Provost and Executive Vice President for Academic Affairs

September 2016
Reappointment to an Unendowed Collegiate Professorship

Arthur Lupia

Hal R. Varian Collegiate Professor of Political Science, College of Literature, Science, and the Arts

Hal R. Varian Collegiate Professor of Political Science, College of Literature, Science, and the Arts

Five Years, Renewable

September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Arthur Lupia as the Hal R. Varian Collegiate Professor of Political Science, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Hal R. Varian Collegiate Professorship in Political Science was established in the Provost's Office and was named in August 2006. Hal Varian was a faculty member at the University of Michigan from 1977 to 1996. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

In the past five years, Professor Lupia has reoriented his research in ways that allows it to serve larger and more diverse audiences inside and outside of the academy. This work has focused on clarifying the types of information to which people will pay attention and on conveying complex ideas in politicized environments. He has written more extensively on the topic of science communication - using insights from past and current research to clarify the dynamics of science learning and to articulate strategies for improving educational outcomes. Professor Lupia's book, *Uninformed: Why Citizens Know So Little About Politics and What We Can Do About It* (Oxford University Press, 2016), expands on the scientific knowledge base about what people do and do not know, and the conditions under which we can teach them to know more. The book has received many positive reviews and has been featured in publications as different as *Time Magazine* and *Science*. His current book project focuses on how changes in technology and its effects on the marketplace. He demonstrates how the Internet has changed the types of information that people want and how these changes are often at odds with the types of information that scientists produce. He has received support for this work as part of the inaugural class of Carnegie Fellows. Professor Lupia has also become the lead principal investigator of the National Science Foundation sponsored Empirical Implications of Theoretical Models (EITM) program. The main activity of this program is a series of month-long workshops on improving research design. Since taking over as the PI, he has spearheaded multiple curriculum innovations and has implemented more rigorous evaluative protocols to better assess learning outcomes. Professor Lupia has created and oversees an expansive outreach and scholarship program that seeks to draw women and members of underrepresented groups into this program.

Professor Lupia has continued to teach undergraduate courses in "American Politics" and "Political Strategy and Debate" as well as graduate courses in "Game Theory" and "Survey Research and Design."
In the last six years, he also designed an entirely new course entitled “Persuasive Politics,” which adopts a distinctive approach to teaching students about effective communication. It combines exposure to a dynamic interdisciplinary knowledge base with a range of immersive individual and group activities. He has taught the course eight times since January 2010 to over 1000 students, and it has been a big hit. Professor Lupia has won departmental and college teaching awards since he began teaching it regularly. The format is also being copied at other universities.

In the last five years, Professor Lupia’s engagement in service is greater than ever. He has served multiple terms on the departmental Executive Committee, and has led or participated in many other planning, promotion, hiring, tenure, and dissertation committees. Where his service life has really changed is at the national and international levels. Arising from his research on science communication, he now holds leadership positions at the National Academies of Science (NAS), Engineering and Medicine, the American Association for the Advancement of Science (AAAS), and the National Science Foundation (NSF). At the NAS, Professor Lupia was named chair of its Roundtable on the Communication and Use of Social and Behavioral Science. In this capacity, he has helped to organize and implement a range of activities to more effectively connect researchers and private and public sector stakeholders. He also serves on the NAS advisory board for the Behavioral and Social Sciences and Education. At AAAS, he has held every major leadership position in the Section on Social, Economic, and Political Sciences, including chair. He is now a senior adviser to the AAAS’s Leshner Leadership Institute which trains and supports new and mid-career scientists who are doing important work and want to engage the broader public more effectively. At the NSF, he is on the Advisory Board for the Social, Behavioral, and Economic Science directorate.

Professor Lupia has also held major leadership positions for both of the discipline’s major professional organizations serving as the president of the Midwest Political Science Association, and as treasurer and Executive Board member of the American Political Science Association (APSA). He led APSA’s task force on how to improve public engagement and has worked with a range of organizations to help individual scholars increase and maintain research integrity in environments where difficult questions are being asked. Professor Lupia co-created Data Access and Research Transparency (DA-RT), which has promulgated new guidelines for scholars to share critical information with one another. He also serves on the boards of two interdisciplinary projects that have similar objectives. Finally, Professor Lupia’s work for the Inter-American Development Bank (funded primarily by the United States government), began in the last year. He meets directly with President Juan Manuel Santos of Colombia and key members of his cabinet and staff. He helps them develop and evaluate strategies to communicate more effectively with many different constituents. These communications pertain to programs that improve health and that seek to help people out of poverty. He also advises the government on how to communicate about its peace negotiations.

We are very pleased to recommend the reappointment of Arthur Lupia as the Hal R. Varian Collegiate Professor of Political Science, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

September 2016
I am pleased to recommend the reappointment of Gunalan Nadarajan as dean, Penny W. Stamps School of Art and Design, for a five-year term, effective July 1, 2017 through June 30, 2022.

Since becoming dean of the Penny W. Stamps School of Art and Design, Gunalan Nadarajan has led improvements to academic quality in several areas. He worked with faculty to implement a new master of design degree, aligning the school with UM’s focus on addressing major societal issues. In this program, students work in interdisciplinary teams on global concerns, such as the design of 21st century healthcare systems. He increased emphasis on creative practice and research by providing incentives for creative work and professional development. Dean Nadarajan strengthened outreach with Detroit-based programs by formalizing community partnerships and making a new connection with a cultural journal that is documenting arts activities in the city. These collaborations provide meaningful curricular experiences for Stamps students and create a pathway for recruiting students from Detroit. Farther afield, the school has also continued its international outreach, both with visits and exhibits by faculty and students abroad and with targeted international recruitment.

Along with international and Southeast Michigan recruitment, the Stamps School, under Dean Nadarajan’s leadership, has demonstrated its dedication to equity and inclusion with active participation in strategic planning and new diversity programs, such as the Stamps in Color student organization and an exhibition titled, “Agents of Change.” Dean Nadarajan has also improved fiscal management with better funding allocations; reorganization of staff to make use of central services; and more efficient use of exhibition and studio space. He is also making sound progress toward meeting the school’s campaign goals.

Gunalan Nadarajan earned two undergraduate degrees, a B.A. degree in sociology and philosophy in 1990 and a B.S.S. degree in sociology, with honors, in 1991 from the National University of Singapore, Faculty of Arts and Social Sciences. He earned a Master of Arts degree in continental philosophy specializing in aesthetics from University of Warwick, UK in 1994, and a Master of Social Sciences degree in sociology/anthropology from the National University of Singapore in 1997.
In his scholarly research, curatorial work, teaching, professional consultancies, and creative research projects, Dean Nadarajan has made outstanding contributions in the interdisciplinary field of art, science, and technology. In 2004, he was elected as a fellow of the Royal Society of Arts, UK. He has published extensively and curated twenty international exhibitions in Singapore, Indonesia, Korea, Germany, Mexico, U.S., and New Zealand. He was artistic co-director of the Ogaki Biennale in Japan in 2006 and artistic director of the International Symposium on Electronic Art in Singapore in 2008. His published work, conference papers, and international lectures have embraced contemporary art; architecture; art history; robotic arts; critical theory; intersecting histories of art, science and technology; cyberculture; and most recently the changing role of arts and design research.

In his first term as dean, Gunalan Nadarajan has strengthened and broadened the work of the Stamps School. He has enhanced the school’s focus on creative research activity, has overseen the creation of a successful new degree in design that emphasizes major 21st century problems, has expanded the school’s external presence both in Southeast Michigan and throughout the world, and has worked diligently to create an inclusive and diverse climate. I am pleased that Professor Nadarajan has agreed to continue serving the Stamps School of Art and Design as dean and I recommend his reappointment with great enthusiasm.

Respectfully submitted,

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Reappointment to a Collegiate Professorship

NAME: Jacques E. Nör

CURRENT TITLES: Donald A. Kerr Collegiate Professor of Dentistry, Professor of Dentistry, with tenure, School of Dentistry, Professor of Otorhinolaryngology, without tenure, Medical School, and Professor of Biomedical Engineering, without tenure, College of Engineering and Medical School

TITLE BEING RENEWED: Donald A. Kerr Collegiate Professor of Dentistry, School of Dentistry

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

The dean and the Executive Committee of the School of Dentistry are pleased to recommend the reappointment of Jacques E. Nör as the Donald A. Kerr Collegiate Professor of Dentistry, School of Dentistry, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Donald A. Kerr Collegiate Professorship in Dentistry was established by the Board of Regents in October 1997 and provides a memorial to Donald A. Kerr, who played a key role in the development of the School of Dentistry during his forty years as a distinguished member of the dental faculty. Professor Kerr served as the chair of the Department of Oral Pathology and Periodontics from 1948 to 1963 when it was divided into two departments, Periodontics and Oral Pathology. He maintained the title of chair of the Department of Oral Pathology until he retired in 1997.

Professor Nör received his DDS from Brazilian Federal University in 1985. In 1994, he received his MS in pediatric dentistry and in 1999 his PhD in oral health sciences from the University of Michigan School of Dentistry. In 2001, he completed a post-doctoral fellowship in cancer cell biology from the University of Michigan Medical School. Professor Nör joined the faculty at the University of Michigan School of Dentistry in 1994 as a clinical instructor in the Department of Orthodontics and Pediatric Dentistry. In 1999, he joined the Department of Cariology, Restorative Sciences and Endodontics as an assistant professor. In 2015, Professor Nör became the chair of the Department of Cariology, Restorative Sciences and Endodontics. He is internationally recognized for his research in oral and head and neck cancer with a focus on tumor stem cells and angiogenesis. Professor Nör was honored in 2012 with a Distinguished Scientist Award by the International Association for Dental Research (IADR), as a fellow for the
American Association for the Advancement of Sciences, and was the 2013-14 President of the American Association for Dental Research.

We are pleased to recommend the reappointment of Jacques E. Nör as the Donald A. Kerr Collegiate Professor of Dentistry, School of Dentistry, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

September 2016
ACTION REQUEST: Reappointment of an Academic Administrative Appointment

NAME: Panos Y. Papalambros

CURRENT TITLES: James B. Angell Distinguished University Professor of Engineering, Donald C. Graham Professor of Engineering, Chair, Division of Integrative Systems and Design, Professor of Mechanical Engineering, with tenure, College of Engineering, Professor of Architecture, without tenure, A. Alfred Taubman College of Architecture and Urban Planning, and Professor of Art, without tenure, Penny W. Stamps School of Art and Design

TITLE BEING RENEWED: Chair, Division of Integrative Systems and Design, College of Engineering

EFFECTIVE DATES: September 1, 2016 through June 30, 2018

The dean of the College of Engineering is pleased to recommend the reappointment of Panos Y. Papalambros as chair, Division of Integrative Systems and Design, College of Engineering, effective September 1, 2016 through June 30, 2018.

Professor Papalambros attended the National Technical University of Athens and earned a diploma in mechanical and electrical engineering in 1974. He received his M.S. (1976) and his Ph.D. (1979) in mechanical engineering, both from Stanford University. He joined the faculty of the University of Michigan in 1979 as an assistant professor and was promoted to associate professor in 1985 and to professor in 1991. He served as chair of the Department of Mechanical Engineering from 1992-1998 and as interim chair from 2007-2008. He was appointed as chair of the Division of Integrative Systems and Design in 2013.

Professor Papalambros' research interests include design science and design optimization, with applications to sustainable design of products, automotive systems, design of complex engineered systems and architectural design. He has published over 340 articles in journals, conference proceedings and books. He is the founding editor-in-chief of the journal Design Science and is a past chief editor of the ASME Journal of Mechanical Design. Professor Papalambros is a fellow of the American Society of Mechanical Engineers (ASME) and the Society of Automotive Engineers (SAE) and the recipient of many awards including the ASME Joel and Ruth Spira Outstanding Design Educator Award (2007), the College of Engineering Stephen S. Attwood Award (2009), the ASEE Ralph Coats Roe Award (2014), and the ASME Robert Abbott Award (2014).
Professor Papalambros has demonstrated that he possesses the experience, ability, and commitment to fulfill the important responsibilities of a division chair in the College of Engineering. We are pleased to recommend the reappointment of Panos Y. Papalambros as chair, Division of Integrated Systems and Design, College of Engineering, effective September 1, 2016 through June 30, 2018.

ACTION REQUEST: Reappointment to an Unendowed Collegiate Professorship

NAME: David S. Potter

CURRENT TITLES: Arthur F. Thurnau Professor, Francis W. Kelsey Collegiate Professor of Greek and Roman History, and Professor of Greek and Latin, with tenure, Department of Classical Studies, College of Literature, Science, and the Arts

TITLE BEING RENEWED: Francis W. Kelsey Collegiate Professor of Greek and Roman History, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of David S. Potter as the Francis W. Kelsey Collegiate Professor of Greek and Roman History, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Francis W. Kelsey Collegiate Professorship in Greek and Roman History was established in the Provost Office and was named in July 2011. Francis W. Kelsey was a faculty member at the University of Michigan from 1889 until his death in 1927. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Potter continues to be a highly productive scholar who has published three books as well as sixteen articles and book chapters in the last five years. His most recent book, Theodora: Actress, Empress, Saint (Oxford University Press, 2015), was widely reviewed, including in the mainstream media in such venues as the New York Times Book Review and the New York Review of Books. Professor Potter has given eighteen lectures at universities and conferences around the world. He continues to make appearances on radio and television programs and has written articles on Roman history and the history of sport in mainstream newspapers and magazines. He has been quoted by Paul Krugman in the New York Times and by L. Wright in the New Yorker Magazine.

Professor Potter continues to teach popular lecture courses on key topics in the department’s subject area, including “War in Greek and Roman Civilization” and “Emperors of Rome.” Enrollments in both classes are high. He also regularly offers a spring term course on “Roman
Sports" which has a more modest enrollment. During fall 2015, Professor Potter stepped into a Department of History course entitled "Rome." Professor Potter continues to teach graduate courses on Latin inscriptions, Roman historiography, and the history of Latin literature. Finally, he offers a variety of 400 level courses on Latin literature to undergraduate students.

Professor Potter’s record of service to the department, university, and wider profession has continued to be outstanding. At the departmental level, he has directed countless Ph.D. dissertations, sat on numerous committees, and served as the director of the Interdepartmental Program in Greek and Roman History. He is sitting or has sat on numerous advisory boards across the university, including the Advisory Committee to the Secretary of the Regents, the Academic Performance Committee, and the Student Relations Advisory Committee. He is currently secretary of the Faculty Senate. Professor Potter’s service to the profession is no less exemplary, and includes service on numerous editorial boards as well as committees in the largest professional organization of Classical Studies, the American Philological Association (now known as the Society for Classical Studies).

We are very pleased to recommend the reappointment of David S. Potter as the Francis W. Kelsey Collegiate Professor of Greek and Roman History, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Reappointment to an Unendowed Collegiate Professorship

NAME: Robert M. Sellers

CURRENT TITLES: Vice Provost for Equity, Inclusion and Academic Affairs, Office of the Provost and Executive Vice Provost for Academic Affairs, Charles D. Moody Collegiate Professor of Psychology, Professor of Psychology, with tenure, College of Literature, Science, and the Arts, and Professor of Education, without tenure, School of Education

ADDITIONAL TITLE: Charles D. Moody Collegiate Professor of Psychology, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Robert M. Sellers as the Charles D. Moody Collegiate Professor of Psychology, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

The Charles D. Moody Collegiate Professorship in Psychology was established in the Provost’s Office and named in August 2011. Charles D. Moody was a faculty member at the University of Michigan from 1970 until his retirement in 1996. A stipend funded from college resources accompanies this professorship. Appointments to this professorship may be up to five years and may be renewed.

Professor Sellers continues to be research active. He has published eleven peer-reviewed research articles and a book chapter during the last five years. His articles appear in the top journals in developmental psychology, ethnic minority psychology, and educational psychology. He was awarded the Theodore Million Mid-Career Award in Personality Psychology from the American Psychological Association (APA) in 2011. With respect to external funding, Professor Sellers was the principal investigator for a National Science Foundation (NSF) grant on African American racial identity and racial coping, served as a co-principal investigator of a NSF-funded research center, the Center for the Study of Black Youth in Context (CSBYC), and served as a co-investigator on an NSF-funded grant on race and gender in context in stem. Together the grants generated almost $5 million in funding.

As a result of his administrative duties over the last five years, Professor Sellers only taught one formal class. Nonetheless, he has been actively involved in undergraduate and graduate education. Professor Sellers served as a guest lecturer on an annual basis in “Personality and Social Context Orientation” and in “Personality Methods.” He contributed a module of 3 lectures on psychological scale construction in a graduate course. He has also been actively mentoring undergraduate and graduate students through independent research projects. Since fall 2011, he served as a research advisor for 28 undergraduate students in his laboratory. He has also been dissertation chair for five Ph.D. students, master thesis advisor for two students, and he is currently working with two Ph.D. students. In addition, he has served as a committee member for ten dissertation committees.
Professor Sellers was honored with the American Psychological Association-Graduate Students Kenneth and Mamie Clark Award for his outstanding contribution to the professional development of ethnic minority graduate students.

In addition to serving as chair of the Department of Psychology (2011-2014), Professor Sellers stepped into the role of vice provost for equity, inclusion and academic affairs. At the university-level, he has served on several advisory boards and committees, including the Advisory Board on Intercollegiate Athletics, the Student-Athlete Academic Performance Committee, and Advisory Board for the LSA Theme Semester on Sport. The provost appointed him to chair a faculty, student, and staff committee on Diversity, Equity, and Inclusion issues at the University of Michigan. At the national level, Professor Sellers has served on several committees over the past five years, including serving on the NSF review panel for Social Psychology, National Collegiate Athletic Association Data Analysis Research Network, as well as several committees within the Society for the Psychological Study of Ethnic Minority Issues. He also served as past-president of the organization in 2011. In this capacity he founded and helped to coordinate the organizations’ 1st, 2nd, and 3rd biennial conferences. He is currently serving on the planning committee for the 4th conference to be held in July 2016. Professor Sellers has continued to serve as a founder and thus convener of the National Black Graduate Conference in Psychology that will celebrate its 22nd year in existence. The American Psychological Association presented him with their Distinguished Service Award for his many contributions to the field during his career.

We are very pleased to recommend the reappointment of Robert M. Sellers as the Charles D. Moody Collegiate Professor of Psychology, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2016.

TITLE BEING RENEWED: Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the reappointment of Valerie J. Traub as the Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

As a result of a generous gift from the estate of Frederick G. L. Huetwell in May 1995, the provost and the president awarded the college four endowed professorships. The primary objective of the professorships is to attract and honor distinguished senior faculty in the social sciences and humanities. Appointments to this professorship may be five years and may be renewed.

Since 2010, Professor Traub has brought to completion two book projects: Thinking Sex with the Early Moderns (University of Pennsylvania Press, 2015), which is a finalist for a 2016 Lambda Literary Award; and the collection, Oxford Handbook of Shakespeare and Embodiment (Oxford University Press, expected 2016). Concurrently, she has worked on an archival project, Mapping Embodiment in the Early Modern West: Anatomy, Cartography, and the Prehistory of Normality. Professor Traub has also published a number of journal articles and book chapters, some of them related to these projects, and some representing independent areas of inquiry. She has served as a co-principal investigator for a Social Sciences and Humanities Research Council of Canada (SSHRC) grant on early modern conversions, collaborating with colleagues in Canada, the U.S., the U.K., and Australia and New Zealand on various forms of transformation in the sixteenth and seventeenth centuries. During this time, she was elected as a trustee of the Shakespeare Association of America. Her scholarship has been recognized with a Guggenheim Fellowship (2018-2019), an American Council of Learned Societies (ACLS) Fellowship (2016-2017), and a Dibner Distinguished Fellowship in the History of Science at the Huntington Library (2013-2014). She has served as a Simon Visiting Fellow at the University of Manchester, U.K. (2014), and a Brooks Visiting Fellow at Queensland University in Australia (2011). Her work continues to be reprinted in a variety of venues.

Professor Traub has developed four new graduate seminars in the past five years. She taught “Having Sex and Knowing Sex in Early Modern England” on her own, and collaborated with a faculty member to offer “Feminist Methods in the Humanities and Social Sciences,” “Animal, Human, Women: Medieval, Early Modern, Postmodern,” and “The Cultural History of Cartography.” In support of scholarly
interests, collegial connections, and graduate teaching, Professor Traub has organized four conferences: “Metamorphosis, Transformation, and Conversion” for the Early Modern Conversions project; “The Luminous Mind: A Symposium in Honor of Patsy Yaeger” (co-organized); “Cultural History of Cartography” (co-organized); and “Lesbian and Queer Historiography.” In addition, she has collaborated with a faculty member at Brandeis University to organize two three-day “think tank” workshops on the topic of “Lesbian Studies,” first at Radcliffe College and then at UM.

Professor Traub has directed six dissertations during in the past five years and served on nine additional committees (one for a student at Michigan State University). She is currently chairing two prelim committees and serving on a third committee. Professor Traub taught the English honors thesis writing course in Fall 2015 for the first time and enjoyed translating her graduate pedagogy to the undergraduate realm. Seeking to diversify English department offerings around race, she has developed an intensive course on Shakespeare’s Othello, in both three-credit and one-credit versions. She also served as a Sweetland Writing Seminar fellow to gain further expertise in upper-level writing instruction.

Professor Traub’s service assignments have included stepping in as interim chair of the Department of Women’s Studies (2014-2015) and serving on the Executive Committees of the Departments of English Language and Literature and Women’s Studies as well as the Institute for Research on Women and Gender. She has chaired the Department of English’s Reading Committee (2016) for targeted hires and served on their Diversity Committee (2015-2016). She has spearheaded an effort to establish an ad hoc faculty advisory committee on Sexual Misconduct, and served on an English and Women’s Studies Tenure Review Panel, a Women’s Studies Promotion Review Panel, and an English and Women’s Studies Third Year Review Panel. In addition, she chaired the Department of English Graduate Admissions Committee and served on English and Women’s Studies Graduate Admissions Committees. Many of these activities have been in support of increasing diversity in the graduate and faculty bodies of both units. Professor Traub has provided mentorship to a number of colleagues, helping with both scholarly and professional matters. Her commitment to bringing her colleagues and students into conversations within early modern literary and cultural studies, gender studies, queer studies, and the history of sexuality; feminist and historical methods, as well as her important scholarly contributions continues to inspire and enrich us all.

We are very pleased to recommend the reappointment of Valerie J. Traub as the Frederick G. L. Huetwell Professor, College of Literature, Science, and the Arts, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Reappointment to a Collegiate Professorship

NAME: Victor C. Yang

CURRENT TITLES: Albert B. Prescott Professor of Pharmaceutics, and Professor of Pharmaceutical Sciences, with tenure, College of Pharmacy

TITLE BEING RENEWED: Albert B. Prescott Professor of Pharmaceutics, College of Pharmacy

EFFECTIVE DATES: September 1, 2016 through December 31, 2016

On behalf of the Executive Committee of the College of Pharmacy, we are pleased to recommend the reappointment of Victor C. Yang as the Albert B. Prescott Professor of Pharmaceutics, College of Pharmacy, effective September 1, 2016 through December 31, 2016.

The Albert B. Prescott Professorship is a university professorship designated for the College of Pharmacy in recognition of its first dean, Albert B. Prescott. We are delighted that the college continues to have the opportunity to recognize Dr. Prescott, who served the University of Michigan as an outstanding educator, scholar, and administrator from 1863 until 1905. A stipend funded from college resources will accompany this professorship.

Professor Yang received his B.S. in chemistry from TamKang University, Taiwan, in 1972, his M.S. in biochemistry from Texas Agricultural and Mining University in 1977, and his Ph.D. in biochemistry and biophysics from Brown University in 1983. He came to the University of Michigan in 1986 as assistant professor of pharmaceutics, following a two-year post-doctoral fellowship at the Massachusetts Institute of Technology. He was promoted to associate professor in 1991 and to professor in 1997. He was appointed as the Albert B. Prescott Professor of Pharmaceutics in 2000.

Professor Yang is an extraordinary scholar and educator, having received many honors and awards. He has a distinguished record of research and scholarly activity, with numerous publications and patents to his credit, and he is an outstanding mentor for graduate students and professional degree students, alike. Professor Yang is also an excellent citizen of the College of Pharmacy, having initiated a leadership role in forging relationships with educational institutions in China and other parts of Asia.
Professor Yang is a highly valued and gifted member of our faculty, who has distinguished himself as a teacher, scholar, and colleague. We are delighted to recognize his talents and achievements. We are pleased to recommend the reappointment of Victor C. Yang as the Albert B. Prescott Professor of Pharmaceutics, College of Pharmacy, effective September 1, 2016 through December 31, 2016.

Recommendations for approval of joint or additional appointments
or transfers of regular associate or full professors and selected
academic and administrative staff
On the recommendation of the dean of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Ravi M. Anupindi as the Colonel William G. and Ann C. Svetlich Professor of Operations Research and Management, Stephen M. Ross School of Business, effective September 1, 2016 through December 31, 2021.

This Colonel William G. and Ann C. Svetlich Professorship was established in July 2016 with a generous gift of $5,000,000 from the late Colonel William G. Svetlich. The professorship is intended to be administered and directed by the dean to advance the teaching of operations research as it applies to business applications and using operations research and other research tools, including economic analysis, to improve operations management.

Professor Anupindi joined the Ross School in 2002 as an associate professor, with tenure, after having served for two years as an associate professor at the Stern School of Business, New York University, and seven years as an assistant professor at Northwestern University following completion of his PhD degree. Professor Anupindi was a Michael R. and Mary Kay Hallman Fellow from 2003 to 2011 and served as the faculty director of the Masters of Supply Chain Management program from 2006 to 2015. He currently holds the David B. Hermelin Professorship in Business Administration.

Professor Anupindi is a thought leader in the supply chain management area in operations and management science. He has consistently developed and taught excellent classes for our MBA students, and has taken a major leadership role by initiating the Ross School’s Master of Supply Chain Management program.

Professor Anupindi’s research has focused on the area of supply chain contracts, where he has contributed important insights regarding the performance of contracts typically implemented in
practice, as well as insights into how supply contracts can be better designed to improve supply chain performance.

Professor Anupindi has taught our core operations class very successfully and is co-author of a widely used textbook in operations. He has also developed and taught a very successful supply chain elective for the MBA program. Professor Anupindi has also taught very successfully in our executive education programs. Finally, he has developed several case studies, which he integrates into his classes.

Professor Anupindi serves on the editorial boards of *Operations Research*, *POMS*, and *Journal of M& SOM*. Locally, Professor Anupindi’s major service contribution has been his leadership role in envisioning and executing our Master of Supply Chain Management Program. He led the proposal for the program through the approval process, developed the curriculum for the program, and recruited an influential corporate advisory council for the program. He has also served as the program director as stated above. Professor Anupindi is clearly an outstanding citizen of his group, school and university.

We are pleased to recommend the appointment of Ravi M. Anupindi as the Colonel William G. and Ann C. Svetlich Professor of Operations Research and Management, Stephen M. Ross School of Business, effective September 1, 2016 through December 31, 2021.

ACTION REQUEST: Additional Appointment to an Unendowed Collegiate Professorship

NAME: Sara B. Blair

CURRENT TITLES: Vice Provost for Academic and Faculty Affairs, Office of the Provost and Executive Vice President for Academic Affairs, and Professor of English Language and Literature, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Patricia S. Yaeger Collegiate Professor of English Language and Literature, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Sara B. Blair as the Patricia S. Yaeger Collegiate Professor of English Language and Literature, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

This professorship was established in the Provost Office and was named as the Patricia S. Yaeger Collegiate Professorship in English Language and Literature in July 2016. Patricia S. Yaeger was a faculty member at the University of Michigan from 1990 until her death in 2014. A stipend from college resources will accompany this professorship. The appointment period may be up to five years and may be renewed.

Sara Blair received her Bachelor of Arts at the University of Virginia and completed her Doctorate at Stanford University in 1989. Professor Blair was appointed as an assistant professor at the University of Virginia (1989-1995) and was promoted to associate professor, with tenure, in 1995. She also served as the director of the Modern Studies Program (1989-1992). She joined the faculty at the University of Michigan as a visiting associate professor (1996-1997), was a visiting associate professor at the California Institute of Technology (1998-1999), and returned to Michigan as an associate professor, with tenure, in 1999. She was promoted to professor in 2007. Professor Blair has served as the associate dean of academic programs and initiatives at the Rackham Graduate School (2011-2014), director of graduate studies in the Department of English (2008-2011), director of the English Honors Program (2000-2005), and is the founder of and faculty director of The Visual Culture Workshop (2006-present). She is currently appointed as the vice provost for academic and faculty affairs (2014-present).

Professor Blair is a scholar of American modernist literature with special interests in how racialized geographies play out in the visual culture of the early twentieth century. Her earliest publications, including her well-received and influential first book, focus on canonical figures of literary modernism, including Henry James, Virginia Woolf, and Gertrude Stein. Her second book, Harlem Crossroads, marked a decisive turn towards photography and the African American experience in its focus on the phenomenon of the photo-text, a form which combines prose and photography in order to register and comment on human misery. In her third book, Trauma and Documentary Photography of the FSA (with E. Rosenberg), she experiments with the possibilities of a hybrid form herself, as she follows the work of depression-era Farm Security Administration photographers charged with documenting the lives of the poor, contextualizing and analyzing images of sweatshops, tenements, and soup kitchens to understood
how the most marginalized classes of Americans constructed meaning in their lives and how these images, in turn, became the basis of collective memory and historical documentation of this period.

A corroborating measure of the significance of Professor Blair's work may be gleaned from the awards and fellowships she has won, the venues in which her work has appeared, and the speaking invitations she has received. Since arriving at Michigan, Professor Blair has been awarded three major external research fellowships (Oxford University, the National Endowment for Humanities, and the American Council of Learned Societies), as well as two UM fellowships (Frankel Center for Judaic Studies and the College). An article on Yiddish modernism was honored with an essay prize from Modern Fiction Studies, one of the many top-flight journals which have published her work, along with the equally prestigious university presses of Cambridge, Princeton, and California. Professor Blair has presented at an average of two invited speaking engagements per year over the past sixteen years suggesting an exceptional measure of national and international visibility and esteem for the work, extending not only to professional organizations and peer institutions but also to museums, art centers, and libraries.

Professor Blair was honored with a University of Michigan Undergraduate Teaching Award in 2008, and a review of her teaching record and the letters of support from former students make it easy to understand why. She receives the top mark of five more often than any other faculty member in her graduate evaluations, and consistently ranks in or just under the highest quartile in the undergraduate forms. In nearly every one of her classes, one or more of the students proclaim that this was the best course they had ever had in the Department of English or at the university.

The deep commitment to collaborative research, student-centered pedagogy, and issues of social justice that we find in Professor Blair's scholarship and teaching extend to her distinguished leadership record as well. In English, she has served on the Executive Committee for seven years, Honors Program director for five years, and as director of graduate studies for three years. She found a variety of constructive ways to re-engage alumni with the department’s Ph.D. programs and made notable contributions in developing outreach strategies to broaden and diversify the Ph.D. applicant pool. These strategies have noticeably shifted the demographics of the department’s incoming classes. In her three years as associate dean for arts and humanities at the Rackham Graduate School, Professor Blair continued her efforts at the university level, working closely with other associate deans to develop programs and funding stewardship in support of diversity and inclusiveness in the graduate community.

We are very pleased to recommend the appointment of Sara B. Blair as the Patricia S. Yaeger Collegiate Professorship in English Language and Literature, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

September 2016
On the recommendation of the dean of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Gerald F. Davis as the Gilbert and Ruth Whitaker Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2016 through August 31, 2021.

The Whitaker Professorship was established in June 2000 with gifts from friends and colleagues of Gilbert and Ruth Whitaker. The professorship honors the Whitakers’ many years of service to the Business School and the University of Michigan, and is dedicated to increasing knowledge and understanding of business and economic theory and practice.

Gerald Davis earned his Bachelor of Science at the University of Michigan in 1984. He attended Stanford University where he received his Master of Arts in 1987 and Doctorate in 1990. Professor Davis began his teaching career as an assistant professor at Northwestern University in 1990. He was appointed as an associate professor at Columbia University in 1994 and a professor at the University of Michigan, Stephen M. Ross School of Business in 1998. He has held the Wilbur K. Pierpont Collegiate Professorship in Management since January 2006.

Professor Davis’ outstanding research in corporate governance and the transformation of large corporations is cutting edge in his field. Professor Davis’ research combines multiple theories – agency theory, interlock theory, network theory, and diffusion theory – in constructive and insightful ways, and makes important contributions to various areas of inquiry. The hallmarks of Professor Davis’ research are: a big and important question, integrative theory, sophisticated and multiple methods, striking findings, and a strong sense at the end that one has really learned
something. He publishes in top management journals and is nationally recognized for his work. He is considered by senior colleagues around the country to be at the top of the field of organizational research, noted for great accomplishments and continued promise for the future.

Professor Davis is also highly regarded as an excellent teacher. He is known in particular for his commanding classroom presence and challenging expectations. He is also known for his focus on, and dedication to, doctoral education. Notably, he has twice been recognized with a PhD teaching award.

We are pleased to recommend the reappointment of Gerald F. Davis as the Gilbert and Ruth Whitaker Professor of Business Administration, Stephen M. Ross School of Business, effective September 1, 2016 through August 31, 2021.

REGENTS COMMUNICATION

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Ivaylo D. Dinov, Ph.D.

CURRENT TITLE: Associate Professor of Nursing, with tenure, School of Nursing

ADDITIONAL TITLE: Associate Professor of Computational Medicine and Bioinformatics, without tenure, Medical School

EFFECTIVE DATE: September 1, 2016

On the recommendation of Brian D. Athey, Ph.D., the Michael A. Savageau Collegiate Professor and Chair of the Department of Computational Medicine and Bioinformatics, we are pleased to recommend the joint appointment of Ivaylo D. Dinov, Ph.D. as associate professor of computational medicine and bioinformatics, without tenure, Medical School, effective September 1, 2016.

Dr. Dinov received his Ph.D. in mathematics from Florida State University in 1998. Following a post-doctoral fellowship in neuroscience at the UCLA School of Medicine, Dr. Dinov was appointed as an assistant professor of statistics at UCLA in 2001, and was promoted to associate professor in 2008. In 2013, he was recruited to the University of Michigan School of Nursing as an associate professor.

Dr. Dinov is an expert in mathematical modeling, statistical analysis, computational processing, and scientific visualization of large datasets (Big Data). His applied research is focused on nursing informatics, multimodel biomedical image analysis, and distributed biomedical computing. Dr. Dinov holds several director appointments including director of the Integrative Biostatistics and Informatics Core, University of Michigan Nutrition Obesity Research Center (MNORC); director of the Biostatistics Core, University of Michigan Udall Center for Excellence in Parkinson’s Disease; and associate director, education and training, of the Michigan Institute for Data Science (MIDAS).
Dr. Dinov is having a broad and positive impact on Medical School and Nursing School sponsored research programs; and his work on the MIDAS Data Science Certificate Program will have a positive benefit to students and trainees in the bioinformatics graduate program and in several related educational and training venues. We are, therefore, pleased to recommend the joint appointment of Ivaylo D. Dinov, Ph.D. as associate professor of computational medicine and bioinformatics, without tenure, Medical School, effective September 1, 2016.

ACTION REQUEST: Additional Appointment to an Unendowed Collegiate Professorship

NAME: Gregory E. Dowd

CURRENT TITLES: Professor of American Culture, with tenure, and Professor of History, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Helen Hornbeck Tanner Collegiate Professor of American Culture and History, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Gregory E. Dowd as the Helen Hornbeck Tanner Collegiate Professor of American Culture and History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

This professorship was established in the Provost Office and was named as the Helen Hornbeck Tanner Collegiate Professorship in American Culture and History in July 2016. Helen Hornbeck Tanner was a teaching fellow (following her Master’s degree) and a lecturer in the 1960s. A stipend from college resources will accompany this professorship. The appointment period may be up to five years and may be renewed.

Gregory Dowd received his Bachelor of Arts from the University of Connecticut in 1978. He attended Princeton University where he completed his Master of Arts in 1982 and Doctorate in 1986. Professor Dowd began his instructional career at Princeton where he was appointed as a lecturer (1986-1987). He continued his career at the University of Notre Dame where he was appointed as an assistant professor in 1987 and promoted to associate professor, with tenure, (1993-2002). He also served there as associate dean for undergraduate studies (2001-2002). Professor Dowd joined the faculty at the University of Michigan as a professor in 2002 and as director of Native American Studies (2002-2005, 2006)

Professor Dowd is a scholar of the first rank, a bold and provocative thinker who is not afraid to take risks. At the time of his hire, when his second major study was about to appear in print, he was regarded as one of leading voices in the ongoing incorporation of Indian history and ethnohistory into the study of colonial America. Professor Dowd’s first book, A Spirited Resistance: The North American Indian Struggle for Unity, 1745-1815 (Johns Hopkins University Press, 1992), was self-consciously positioned to make a critical intervention in Native American historiography and it quickly earned recognition as a “must-read” for students and scholars in the field. External reviewers commenting at his initial hire described it as one of the most significant books written in American Indian and American colonial history during the 1990s. In 1993, it was named by the Gustavus Meyers Center for the Study of Human Rights in the United States as an “Outstanding Book on the Subject of Human Rights in the U.S.” It was also a History Book Club selection that year. Professor Dowd’s second book, War Under Heaven: The Conspiracy of Pontiac and the Indian Uprising of 1763 (Johns Hopkins, 2002), earned wide recognition as the definitive account of Indian people’s interactions with fluctuating systems of European empire that revealed a striking mastery of complex sources and contexts. War Under Heaven received an honorable mention from the Association of American Publishers’ Professional and Scholarly Division in 2003. His third monograph, Groundless: Rumors, Legends, and Hoaxes on the Early American Frontier (Johns Hopkins University Press, 2015), offers a stunningly imaginative interpretation of the power of
unverified tales that circulated in eastern North America during the British colonial and early U.S. national period, stories that concerned health, wealth, violence and subordination from the 1500s to 1850.

Professor Dowd has also published numerous peer-reviewed essays in major journals and article collections, leaving his mark on several significant topics. In addition to the University of Michigan’s Institute for the Humanities, he has held fellowships at Newberry Library and the Smithsonian’s National Museum of Natural History. Professor Dowd has also drawn upon his scholarly expertise on Great Lakes and Michigan Indian peoples for public scholarly activism on issues pertaining to Native American rights. As a member of the UM Advisory Committee on the Native American Graves Protection and Repatriation Act, he plays a crucial role in the fraught process of returning the remains of Native Americans to their communities. Professor Dowd has also provided professional testimony in deposition and authored an expert witness report for tribes in a treaty-rights case in Michigan.

Professor Dowd is a rigorous and successful teacher. He has made exceptional contributions to both undergraduate and graduate teaching: he invests enormous intellectual energy in his courses and demonstrates an impressive dedication to teaching even while serving in the most demanding of administrative positions. Courses that stand out include a new 300-level course in American Constitutional History that he co-designed and taught. In its first launch, it enrolled over 70 students and earned exceptionally high scores in student evaluations. His graduate teaching in Native American history stands out for his consistently top-notch Q1s and Q2s.

As noted above, Professor Dowd was hired into an administrative role as the director of Native American Studies (NAS). His leadership both mended fences with relevant groups and launched NAS onto a path of national prominence as an ethnic studies program. He developed and managed the 2008 Native American Key Words Symposium, an event that drew on the work of the strongest scholars in Native Studies throughout the country. One of his colleagues wrote, “…under Greg’s leadership NAS developed as a program focused on developing cutting edge scholarship and teaching within a unit focused on fostering a sense of inclusiveness. This is a Native Studies that is imagined as integral and vital to the study of American culture and history, rather than as a self-segregated Ethnic Studies unit. This inclusiveness also allowed NAS to expand the field of Native Studies at this university to reflect a broader transnational of Indigenous Studies/history. This is a hallmark of NAS at Michigan, and Greg’s leadership made that possible.” Professor Dowd’s success directing NAS made him a strong candidate for the directorship of American Culture, where he did an outstanding job for eight years.

We are very pleased to recommend the appointment of Gregory E. Dowd as the Helen Hornbeck Tanner Collegiate Professor of American Culture and History, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

September 2016
**THE UNIVERSITY OF MICHIGAN**
**REGENTS COMMUNICATION**

**ACTION REQUEST:** Additional Appointment to an Endowed Clinical Professorship

**NAME:** Sean P. Edwards

**CURRENT TITLES:** Clinical Associate Professor of Dentistry, School of Dentistry, and Clinical Associate Professor of Oral and Maxillofacial Surgery, Medical School

**ADDITIONAL TITLE:** James Hayward Endowed Clinical Professor of Oral and Maxillofacial Surgery, School of Dentistry

**TERM:** Five Years, Renewable

**EFFECTIVE DATES:** September 1, 2016 through August 31, 2021

The dean and the Executive Committee of the School of Dentistry are pleased to recommend the appointment of Sean P. Edwards as the James Hayward Endowed Clinical Professor of Oral and Maxillofacial Surgery, School of Dentistry, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The James Hayward Endowed Clinical Professorship in Oral and Maxillofacial Surgery was established in July 2016. Colleagues, alumni, and friends have contributed to the funding of the endowed professorship and the number of donors is a testament to the esteem with which Professor Hayward was held. James Hayward received his DDS from the University of Michigan in 1944 and his master's degree in oral surgery three years later. He was an assistant professor of dentistry while in private practice in Detroit. In 1952, Professor Hayward became the department chair and four years later, he became a professor of dentistry. He was the director of oral and maxillofacial surgery in the Department of Hospital Dentistry at the University of Michigan Hospital. Professor Hayward helped develop oral surgery training standards and published more than 175 journal articles, book chapters, and text books. He retired in 1982.

Sean P. Edwards received his DDS in 1998 from Dalhousie University and his MD in 2003 from the University of Michigan. In 2005, he completed his residency in Oral and Maxillofacial Surgery, and an internship in the Department of Surgery at the University of Michigan. In 2006, he completed a fellowship in pediatric craniofacial surgery at the University of Pittsburgh and in 2007, he completed a fellowship in head and neck oncologic and reconstructive surgery at the University of Michigan. In 2005, he received a certificate in microsurgery training from the University of Michigan and in 2013 a fellowship from the American College of Surgeons. Professor Edwards became a clinical assistant professor of dentistry, School of Dentistry and clinical assistant professor of oral and maxillofacial surgery, Medical School at the University of Michigan (2006-2012). He was promoted to clinical associate professor in 2012.
Professor Edwards is a highly skilled scientist with an excellent knowledge of dentofacial deformities, cleft lip and palate reconstruction and pediatric sleep apnea. His unique training in craniofacial surgery and pediatric oncology and reconstruction sets him apart as one of the most sought after oral surgeons in the world. He is lauded for his research in computer based surgical planning and is recognized globally having given over 100 invited research seminars and lectures.

He is the director of the Oral and Maxillofacial Surgery residency program, which is one of the most sought after programs in the nation. He is highly regarded as an outstanding educator and mentor receiving numerous awards including the Faculty Educator Development Award from the Oral and Maxillofacial Surgery Foundation and the American Association of Oral and Maxillofacial Surgeons. He has fifteen peer reviewed publications, eleven book chapters and is a reviewer for multiple significant journals in the field.

Professor Edwards is fair-minded, responsible, and highly effective in carrying out his service responsibilities. He has served as an abstract session chair of the Cleft and Craniofacial Surgery for the International Congress of Oral and Maxillofacial Surgery, as chair of an ethics committee for the American Cleft Palate Association, as a task force member for the American Cleft Palate Association Revitalization Task Force and as an education committee executive for the International Association of Oral and Maxillofacial Surgeons. At the school level, Professor Edwards has served on the Executive Committee, Mott Surgical Service Chiefs Consortium, and on faculty search committees.

We are pleased to recommend the appointment of Sean P. Edwards as the James Hayward Endowed Clinical Professor of Oral and Maxillofacial Surgery, School of Dentistry, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

Martha E. Pollack  
Provost and Executive Vice President for Academic Affairs
On the recommendation of the Executive Committee of the College of Engineering, I am pleased to recommend the additional appointment of Omolola Eniola-Adefeso as associate professor of macromolecular science and engineering, without tenure, College of Engineering, effective September 1, 2016.

Professor Eniola-Adefeso received her B.S. in chemical engineering in 1999 from the University of Maryland, Baltimore County. She received her M.S. and Ph.D. in chemical engineering from the University of Pennsylvania in 2000 and 2004, respectively. She completed a post-doctoral fellowship with the Baylor College of Medicine between 2004 and 2006. She joined the University of Michigan faculty as an assistant professor in 2006 and was promoted to associate professor in 2013.

The focus of Professor Eniola-Adefeso’s lab is on understanding the mechanisms of the recruitment, adhesion and migration of cells of the immune system in healthy and diseased states, and the use of acquired knowledge to inform the design of novel vascular-targeted imaging and drug therapies applicable in several serious human diseases. Specific areas of interest are kinetics of neutrophil receptor-ligand interaction, mechanotransduction and receptor expression patterns in endothelial cells, and vascular-targeted drug delivery via the design of multi-receptor targeted leukocyte mimetic polymeric drug carriers. Over the years, Professor Eniola-Adefeso’s work has contributed significantly to advance the field of targeted drug delivery. For example, her work was the first to present multi-receptor-targeted VTCs as a better system for targeting (find and specifically adhere to) the vascular wall than the single molecule-targeted systems ubiquitous in the literature – in a manner that fatefully mimic key steps in the in vivo leukocyte adhesion cascade. Publications from her lab were also the first to provide evidence that the size of a drug carrier matters in its capacity to optimally target the vessel wall in human blood flow due to red blood cell (RBC) dynamics that actively prescribe the distribution of any cellular or particulate component in blood flow.
With this additional appointment, Professor Eniola-Adefeso is ideally suited to assist the Macromolecular Science and Engineering Program by her active involvement with research and students. I am pleased to recommend the additional appointment of Omolola Eniola-Adefeso as associate professor of macromolecular science and engineering, without tenure, College of Engineering, effective September 1, 2016.

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Eric R. Fearon, M.D., Ph.D.

CURRENT TITLES: Emanuel N. Maisel Professor of Oncology, Professor of Internal Medicine, with tenure, Professor of Pathology, without tenure, and Professor of Human Genetics, without tenure, Medical School

ADDITIONAL TITLE: Director, University of Michigan Comprehensive Cancer Center

EFFECTIVE DATE: September 1, 2016

With the concurrence of the Medical School Executive Committee, I am pleased to recommend the appointment of Eric R. Fearon, M.D., Ph.D. as director, University of Michigan Comprehensive Cancer Center, effective September 1, 2016.

Dr. Fearon joined the faculty at the University of Michigan in 1995 as an associate professor and was promoted to professor in 2001. He has held numerous leadership positions, including as the associate director for basic research, and the deputy director of the University of Michigan Comprehensive Cancer Center and the chief of the Division of Molecular Medicine and Genetics in the Department of Internal Medicine. He is regarded as one of the world’s leading investigators in the molecular pathogenesis of human colon cancer.

Dr. Fearon is internationally recognized for his work in cancer biology and is an outstanding scientific leader at the University of Michigan. I am pleased to recommend the appointment of Eric R. Fearon, M.D., Ph.D. as director, University of Michigan Comprehensive Cancer Center, effective September 1, 2016.

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: David W. Gerdes

CURRENT TITLES: Arthur F. Thurnau Professor, and Professor of Physics, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Professor of Astronomy, without tenure, College of Literature, Science, and the Arts

EFFECTIVE DATE: September 1, 2016

On the recommendation of the Executive Committees of the Department of Astronomy and the College of Literature, Science, and the Arts, and with the endorsement of the Department of Physics, we are pleased to recommend the additional appointment of David W. Gerdes as professor of astronomy, without tenure, College of Literature, Science, and the Arts, effective September 1, 2016.

David Gerdes received his Doctorate from the University of Chicago in 1992. He joined the faculty at the University of Michigan as an assistant professor in 1998 and was promoted through the ranks to professor, with tenure, in 2008.

Over the past fifteen years, Professor Gerdes’ research has moved closer to Astronomy, from the photometric redshifts to cluster cosmology, and most recently to studies of the outer Solar System. He holds scientific and managerial leadership positions within the Dark Energy Survey (DES) collaboration, and along with several colleagues in the Department of Astronomy, he is part of the Dark Energy Spectroscopic Instrument (DESI) project that is scheduled to see first light in 2018. Given his research interests, existing ties with members of the department, and astronomy’s physical proximity to the Department of Physics, Professor Gerdes is poised to make a strong impact on the department.

Professor Gerdes is deeply engaged in the study of the trans-Neptunian Solar System, and currently co-lead the Transients and Moving Objects science working group within the Dark Energy Survey collaboration. To date, this work has resulted in the discovery of 36 new trans-Neptunian minor planets in less than 1% of the DES survey area. Professor Gerdes is the PI of a recently-awarded grant (NSF-AST 1515015, $95.9k) for this work. During the 2016-2017 academic year, this grant will support an astronomy graduate student who will work on dynamical modeling of the objects found through this search. This research truly “belongs” most naturally in the Department of Astronomy.
Professor Gerdes has served on a handful of astronomy students’ committees. He will likely work more closely with graduate students and become involved in graduate student recruiting. He is an excellent teacher who has won numerous teaching awards, including the LSA Excellence in Education Award, the University Undergraduate Teaching Award, the Provost’s Teaching Innovation Prize, and an Arthur F. Thurnau Professorship. Professor Gerdes has also been an active citizen serving on any number of department, college, and university committees.

We are very pleased to recommend the additional appointment of David W. Gerdes as professor of astronomy, without tenure, College of Literature, Science, and the Arts, effective September 1, 2016.

ACTION REQUEST: Additional Appointment to an Unendowed Collegiate Professorship

NAME: Richard D. Gonzalez

CURRENT TITLES: Professor of Psychology, with tenure, Professor of Statistics, without tenure, College of Literature, Science, and the Arts, Professor of Marketing, without tenure, Stephen M. Ross School of Business, and Professor of Integrative Systems and Design, without tenure, College of Engineering

ADDITIONAL TITLE: Amos N. Tversky Collegiate Professor of Psychology and Statistics, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Richard D. Gonzalez as the Amos N. Tversky Collegiate Professor of Psychology and Statistics, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

This professorship was established in the Provost Office and was named as the Amos N. Tversky Collegiate Professorship in Psychology and Statistics in July 2016. Amos N. Tversky was a lecturer at the University of Michigan during winter term 1965 and a visiting faculty member during fall terms 1968 and 1974. A stipend from college resources will accompany this professorship. The appointment period may be up to five years and may be renewed.

Richard Gonzalez earned his Bachelor of Arts from the University of California, Los Angeles in 1985 and his Doctorate from Stanford University in 1990. Professor Gonzalez began his instructional career as an assistant professor at the University of Washington in 1990 and was promoted to associate professor, with tenure, in 1996. Following a one-year appointment as a visiting associate professor at Princeton University (1996-1997), Professor Gonzalez joined the faculty at Michigan as an associate professor, with tenure, in 1997 and was promoted to professor in 2001. He holds joint appointments in the Department of Statistics (2001-present), the Ross School of Business (Marketing, 2001-present), and the College of Engineering (Integrative Systems and Design, 2015-present). Professor Gonzalez is also appointed as a research professor (Research Center for Group Dynamics, Institute for Social Research, 2004-present; and Center for Human Growth and Development, 2010-present).

Professor Gonzalez represents the highest caliber of researcher and methodologist in social psychology. His research area is judgment and decision making with a particular focus on choice under risk and uncertainty. His investigations have taken him into many different
domains in the laboratory and in the world examining commonalities in decision making. He has collaborated with some of the leading social psychologists and behaviorists studying decision making in multiple other fields. His research has touched the fields of business, medicine, design, and neuroscience. In each, Professor Gonzalez’s scientific contributions have focused on a deep understanding of the empirical findings and applications of novel quantitative techniques to uncover new findings. His National Science Foundation-funded work on the decision heuristics involved in innovative design has led to award-winning conference papers. This research has been formative in the new field of Design Science, and led to a new Ph.D. program at the University of Michigan. Professor Gonzalez’s productivity has been outstanding. He has published 85 peer reviewed journal articles and book chapters, as well as an outstanding textbook Data Analysis for Experimental Design (Guilford Press, 2009) in which he leads the reader through an intuitive and then rigorous exploration of modern statistical approaches.

The importance and value of Professor Gonzalez’s research has been recognized by his peers in recent years. He was elected as a fellow of the Association for Psychological Science, the American Psychological Association, and the Society of Experimental Social Psychology—all in 2009. He is also an elected member of the Society for Multivariate Experimental Psychology (2005). Professor Gonzalez was awarded a visiting professor scholarship to the University of Warsaw and was invited to be the Corona visiting chair of Universidad de los Andes in Bogotá, Columbia. He won the 2012 Outstanding Research Publication Award from the American Education Research Association and was awarded the Allen Edwards Lectureship at the University of Washington (2013). Locally, he received the Rackham Graduate School’s Distinguished Faculty Achievement Award (2011).

Professor Gonzalez’s record of teaching is similarly outstanding. His primary teaching responsibility is the first year, two-semester statistics sequence for psychology Ph.D. students. Historically, this was one of the most challenging courses for the department. Students either found the material too difficult or too easy, and it was challenging to find faculty to teach the course. Professor Gonzalez revamped the course and overnight it became the cornerstone of teaching excellence for the graduate program as well as for graduate students in various social science disciplines across campus. The goal of the two-semester course sequence is to provide the necessary tools and conceptual understanding about the analytic methods used in the social sciences and neuroscience so students can publish empirical articles in academic journals. Course ratings are high, especially when one recognizes that it is a large required course that most students approach with anxiety. Indeed, other faculty teaching these courses report much greater difficulty dealing with the wide distribution of student skills and interests. On a 5-point scale, Professor Gonzalez typically receives mean scores over 4.7, well above the mean evaluations of any other professor for these courses. The course is a huge success largely because of the immense efforts of Professor Gonzalez. Among a department of highly successful teachers, he stands out as one of the best.

Professor Gonzalez has also demonstrated real leadership in service. At the national level, he serves on a large number of editorial boards and has served as a departmental external reviewer for psychology departments around the country and in Brazil. Professor Gonzalez has served on numerous society committees and conference planning committees. Through these many venues, he has represented the highest values of the University of Michigan in research and teaching.
Locally, his service has been even more impressive. Professor Gonzalez currently serves as director for the Center for Human Growth and Development (CHGD) in addition to well over 30 committees at Michigan.

We are very pleased to recommend the appointment of Richard D. Gonzalez as the Amos N. Tversky Collegiate Professor of Psychology and Statistics, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Holly Jarman

CURRENT TITLE: Assistant Professor of Health Management and Policy, School of Public Health

ADDITIONAL TITLE: John G. Searle Assistant Professor of Health Management and Policy, School of Public Health

TERM: Three Years

EFFECTIVE DATES: September 1, 2016 through August 31, 2019

With the approval of the Executive Committee of the School of Public Health, I am pleased to recommend the appointment of Holly Jarman as the John G. Searle Assistant Professor of Health Management and Policy, School of Public Health, effective September 1, 2016 through August 31, 2019.

The John G. Searle Assistant Professorship in Health Management and Policy was established by the Regents in September 2008. Securities to support this professorship were contributed to the University by John G. Searle, then Chairman of the Board of G. D. Searle & Co. This award is for three years and is renewable.

Professor Jarman received a Ph.D. in political science from the London School of Economics and Political Science in 2009. From 2009-2012, she served as an assistant professor in the Departments of Political Science and Public Administration at State University of New York at Albany. She joined the University of Michigan faculty in 2012 as a research assistant professor in the Department of Health Management and Policy and she assumed a tenure track assistant professor position within the department in 2014.

Professor Jarman studies the effects of market regulation, particularly crossborder regulation and international trade and investment agreements, on health and social policies. Within this broad topic, her publications address questions related to the relationship between tobacco control regulation and the world trading system, the regulation of crossborder health markets in the European Union, crossborder collaborations to promote innovative public health and environmental regulation, and the impact of crossborder patient mobility on global health governance. Professor Jarman has published in the fields of public health, public policy and information science, and has worked in several policy roles including for the United Kingdom Department of Health. In recognition of her significant contributions to research literature in the field of health services, Professor Jarman was selected as the 2014 recipient of the John D.
Thompson Prize for Young Investigators by the Association of University Programs in Health Administration.

It is a pleasure to recommend the appointment of Holly Jarman as the John G. Searle Assistant Professor of Health Management and Policy, School of Public Health, effective September 1, 2016 through August 31, 2019.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Andrew D. Jones

CURRENT TITLE: Assistant Professor of Nutritional Sciences, School of Public Health

ADDITIONAL TITLE: John G. Searle Assistant Professor of Nutritional Sciences, School of Public Health

TERM: Three Years

EFFECTIVE DATES: September 1, 2016 through August 31, 2019

With the approval of the Executive Committee of the School of Public Health, I am pleased to recommend the appointment of Andrew Jones as the John G. Searle Assistant Professor of Nutritional Sciences, School of Public Health, effective September 1, 2016 through August 31, 2019.

The John G. Searle Assistant Professorship in Nutritional Sciences was established by the Regents in October 2015. Securities to support this professorship were contributed to the university by John G. Searle, then chairman of the Board of G. D. Searle & Co. This award is for three years and is renewable.

Professor Jones received a Ph.D. in international nutrition from Cornell University in 2011. From 2011-2013, he served as a research associate in the Division of Nutritional Sciences at Cornell University. He has also worked as a consultant for several institutions including the World Bank, the International Food Policy Research Institute, and UNICEF. Professor Jones joined the University of Michigan faculty as an assistant professor in 2013. He is also an affiliated faculty member of the University of Michigan Sustainable Food Systems Initiative and the Population Studies Center of the Institute for Social Research.

Professor Jones is a public health nutritionist interested in understanding the influence of food security on the nutritional status of women and young children in low-income settings. He examines the impact pathways of agriculture and food systems on the food and nutrition security of rural and peri-urban households. He also conducts research on the role of food security in shaping the co-occurrence of micronutrient deficiencies and overweight among women of childbearing age, and the consequences of this “double burden” on infant and childhood nutrition. In particular, he examines the influence of food security on maternal adiposity and iron deficiency during pregnancy and how these conditions shape infant growth and iron status through
inflammation-mediated pathways. He conducts his research in India, southern Africa, and the Andean region of South America.

It is a pleasure to recommend the appointment of Andrew Jones as the John G. Searle Assistant Professor of Nutritional Sciences, School of Public Health, effective September 1, 2016 through August 31, 2019.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Hyun Min Kang

CURRENT TITLE: Assistant Professor of Biostatistics, School of Public Health

ADDITIONAL TITLE: John G. Searle Assistant Professor of Biostatistics, School of Public Health

EFFECTIVE DATES: September 1, 2016 through August 31, 2019

With the approval of the Executive Committee of the School of Public Health, I am pleased to recommend the appointment of Hyun Min Kang as the John G. Searle Assistant Professor of Biostatistics, School of Public Health, effective September 1, 2016 through August 31, 2019.

The John G. Searle Assistant Professorship in Nutritional Sciences was established by the Regents in October 2015. Securities to support this professorship were contributed to the university by John G. Searle, then chairman of the Board of G. D. Searle & Co. This award is for three years and is renewable.

Professor Kang completed his Bachelors and Masters degrees in electrical engineering at Seoul National University, in 1998 and 2000, respectively. Prior to pursuing his doctoral studies, he worked as a research fellow at the Genome Research Center for Diabetes and Endocrine Disease in the Seoul National University Hospital. Professor Kang received his Ph.D. in computer science from the University of California, San Diego in 2009. Upon graduation, he joined the University of Michigan faculty as a research assistant professor, and in 2011, he became an assistant professor in the Department of Biostatistics.

Professor Kang’s research interests lie at the intersection of statistics, computer science, big data and genomics with a focus on developing and applying statistical methods and computational tools for large-scale genetic studies. His research aims to understand the etiology of complex diseases and traits, including type 2 diabetes, bipolar disorder, cardiovascular and kidney diseases. Professor Kang is actively engaged in collaboration with researchers throughout the school and has over 70 published manuscripts. He is also an excellent teacher and a great contributor to the life of the department.

It is a pleasure to recommend the appointment of Hyun Min Kang as the John G. Searle Assistant Professor of Biostatistics, School of Public Health, effective September 1, 2016 through August 31, 2019.

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Ella A. Kazerooni, M.D.

CURRENT TITLES: Professor of Radiology, with tenure, Medical School

ADDITIONAL TITLE: Professor of Internal Medicine, without tenure, Medical School

EFFECTIVE DATE: September 1, 2016

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor and Chair of the Department of Internal Medicine, I am pleased to recommend the additional appointment of Ella A. Kazerooni, M.D. as professor of internal medicine, without tenure, Medical School, effective September 1, 2016.

Dr. Kazerooni obtained her medical degree from the University of Michigan. After a diagnostic radiology residency here and a fellowship in thoracic imaging at Harvard Medical School, she joined the faculty at the University of Michigan in 1992 as a lecturer in the Department of Radiology and rose through the ranks to her current title of professor in 2003.

Dr. Kazerooni is an internationally recognized scientist in the area of advanced CT and MR applications. Her research focuses on the development and evaluation of advanced imaging technologies as applied to cardiothoracic diseases and screening, including lung cancer screening, interstitial lung disease, emphysema, lung transplantation, pulmonary vascular disease, and cardiovascular CT and MR. Her research and expertise have led to numerous collaborations with faculty in the Division of Pulmonary and Critical Care Medicine. This appointment will facilitate her role as a research mentor to fellows on the division’s T32 training grant. Additionally, Dr. Kazerooni is a vital member of the weekly multidisciplinary thoracic oncology and interstitial lung disease clinical conferences.

Dr. Kazerooni’s contributions to the research, teaching, and clinical missions of the Division of Pulmonary and Critical Care Medicine in the Department of Internal Medicine are substantial and ongoing. I am pleased, therefore, to recommend the additional appointment of Ella A. Kazerooni, M.D. as professor of internal medicine, without tenure, Medical School, effective September 1, 2016.

Recommended by:

Marschall S. Runge, M.D., Ph.D.
Executive Vice President for Medical Affairs
Dean, Medical School

September 2016
On the recommendation of the dean of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Mayuram S. Krishnan as associate dean for global initiatives and executive education, Stephen M. Ross School of Business, effective July 1, 2016 through June 30, 2019.

Professor Krishnan received his B.S. in 1984 and M.C.A. in 1987 from the University of Delhi in New Delhi, India and his M.S. in 1993 and Ph.D. in industrial administration in 1996 from Carnegie Mellon University. He joined the University of Michigan, Ross School of Business as a lecturer in 1996 and was appointed as an assistant professor in 1997, was promoted to associate professor, with tenure, in 2000, and to professor in 2004. Professor Krishnan was a Michael R. and Mary Kay Hallman Faculty Fellow from 2000-2010. He served as the area chair of the Business Information Technology area at the Ross School of Business from 2004-2011. He is currently the associate dean for global initiatives.

Professor Krishnan’s world-renowned scholarship converges at the intersection of innovation and information technology. His research articles have appeared in the leading journals in his field. He serves as a senior editor on the editorial boards of reputed academic journals including Management Science and Information Systems Research. In January 2000, the American Society for Quality (ASQ) selected him as one of the 21 voices of quality for the twenty first century. Not only is the quality and quantity of his scholarship substantial, but his scholarship has played a key role in helping to elevate the position with which the Ross School of Business is viewed in the Information Systems Research community. His most recent book, The New Age of Innovation: Driving Co-Created Value with Global Networks, (co-authored with C.K. Prahalad) has received wide acclaim throughout the world.
Professor Krishnan is an excellent teacher. Moreover, he has been a selfless mentor to doctoral students. This has contributed both to student success in the research arena, including publications and best paper awards, but also success in securing outstanding placements.

The associate dean for global initiatives and executive education is responsible for the Office of Global Initiatives (including the student experiences planned and implemented by that office), India Initiatives, developing and implementing a long-term strategy to position the Ross School as a business school with a truly global brand, and all aspects of non-degree executive education programs. Many of these executive education programs have international clients.

We are pleased to recommend the appointment of Mayuram S. Krishnan as associate dean for global initiatives and executive education, Stephen M. Ross School of Business, effective July 1, 2016 through June 30, 2019.

ACTION REQUEST: Additional Appointment to an Unendowed Collegiate Professorship

NAME: Rebecca A. Lange

CURRENT TITLE: Professor of Earth and Environmental Sciences, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Alexander N. Halliday Collegiate Professor of Earth and Environmental Sciences, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Rebecca A. Lange as the Alexander N. Halliday Collegiate Professor of Earth and Environmental Sciences, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

This professorship was established in the Provost Office and was named as the Alexander N. Halliday Collegiate Professorship in Earth and Environmental Sciences in July 2016. Alexander N. Halliday was a faculty member at Michigan from 1985 to 1996. A stipend from college resources will accompany this professorship. The appointment period may be up to five years and may be renewed.

Rebecca Lange attended the University of California, Berkeley where she earned her Bachelor of Arts in 1983 and Doctorate in 1989. Following a two-year appointment as a post-doctoral research associate at Princeton University (1989-1991), Professor Lange began her career as an assistant professor at the University of Michigan in 1991. She was promoted through the ranks to professor, with tenure, in 2004.

Professor Lange is a world-class experimental petrologist who embodies the very highest qualities of the professoriate. She is highly regarded in the experimental geochemistry community for her experimental creativity, innovation, and persistence. She is also widely recognized for making fundamental, lasting contributions in two research areas in her field—mineral physics and petrology. Professor Lange studies the properties and behavior of molten rock at high pressure and temperature and the mechanisms by which these melts are erupted to form new continental and oceanic crustal rock. She is probably best known for her experimental work determining the thermodynamic properties of minerals and liquid silicates, including their heat capacity, melt density, and viscosity. Many of Professor Lange’s papers on this topic are considered classics, and are widely cited and used within the geosciences. She has published over 65 research articles in leading journals over the course of her career. As both an experimentalist and an observationist, Professor Lange has made considerable and lasting contributions to our understanding of the eruptive cycle in subduction zones, from source to sink. These outstanding contributions have earned her the F.W. Clarke Medal from the Geochemical Society, election as a fellow of the Mineralogical Society of America and of the European Association of Geochemistry, and the honor of being selected as the Ingerson Lecturer of the Geochemical Society. She has continuously supported her work through external funds, including twenty National Science Foundation grants since 1993.

Professor Lange is a popular and talented educator. Her contributions to undergraduate education in the Earth sciences have been numerous, varied, and impactful. First and foremost, she is an outstanding and devoted instructor who has taught at all levels from non-major introductory courses to upper level courses in the department’s major and graduate courses, and she has done so at the very highest level. Professor
Lange is a recipient of both the Class of 1923 Memorial Teaching Award (1997) and the College of LSA Excellence in Education Award (2003). She also earned the department's 2013 Outstanding Teacher of the Year Award from students. They consistently praise her in their written evaluations of her courses. Professor Lange has a longstanding commitment to providing both major and non-major undergraduate students with field experiences. She also is an exemplary mentor and research advisor. She has a history of providing work-study and research opportunities for undergraduate students in her laboratory. Several of these students have attended national meetings to present their work and continued on to graduate school. Professor Lange was also a strong supporter of professional opportunities for majors, and assisted in establishing a chapter of the American Association of Petroleum Geologists in the department.

Finally, Professor Lange has been a generous and effective leader for the university and her scientific community. She has served the department, college, and university in numerous and varied capacities—on numerous committees including the Provost's Global Challenges Third Century Initiative, as an elected representative to the Senate Assembly, and most recently as co-chair of the NextProf Committee. It is, however, tenure as departmental chair that really stands out. She was the right leader at the right time for the department. Following a period of high turnover among the faculty, Professor Lange transformed the climate of the department with her optimism and transparent leadership. Her governance was inclusive and encouraged faculty discourse and participation. She was also a fantastically supportive leader who modified the culture and policies of the department to emphasize mentoring over evaluation. Her influence on the undergraduate program enrollment may be the most remarkable. During her four-year term as chair, the number of majors nearly tripled (from around sixty to just under 180 students), and the number of minors quadrupled (from twenty to over eighty). Though clearly a team effort, Professor Lange's leadership and vision played an instrumental role in this growth. Most importantly, she recognized early in her chairmanship the need to better articulate the intellectual breadth and societal relevance of our science to our students (and to others). She led two critical and successful charges—shepherding the department name change from Geological Sciences to Earth and Environmental Sciences, and leading the authorship of a departmental strategic plan that focused on the human impacts of Earth sciences and steered the faculty hiring in this direction. Finally, Professor Lange has a long history of serving her scientific community. She has done this in numerous ways, through participation on review panels and award committees, as an associate editor for American Mineralogist and the Journal of Geophysical Research-Solid Earth, and currently as the president of the Mineralogical Society of America. In the last several years, she has served on four Earth science departmental review committees at other universities, a testament to the high regard and respect that her community has for her.

We are very pleased to recommend the appointment of Rebecca A. Lange as the Alexander N. Halliday Collegiate Professor of Earth and Environmental Sciences, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

September 2016
On the recommendation of the Executive Committee of the College of Engineering, I am pleased to recommend the joint appointment of Lisa R. Lattuca as professor of integrative systems and design, without tenure, College of Engineering, effective September 1, 2016.

Professor Lattuca received her B.S. in marketing management and business management from Saint Peter’s College, Jersey City, NJ in 1981. She received her M.P.S. in communications from Cornell University in 1986. She received her Ph.D. in higher education from the University of Michigan in 1996. Between 1996 and 1998, Professor Lattuca served as an associate program officer for the Spencer Foundation in Chicago, IL. After serving as a visiting assistant professor from 1998 to 1999 at Loyola University, Professor Lattuca was appointed as an assistant professor in 1999. In 2002, she joined the Pennsylvania State University as an assistant professor and research associate. She was promoted to associate professor and senior research associate in 2006 and to professor and senior scientist in 2010. Professor Lattuca joined the University of Michigan as a professor, with tenure, in 2011.

Professor Lattuca studies curriculum, teaching, and learning in college and university settings. Her research focuses on how curricular, instructional, and organizational conditions shape students’ educational experiences and learning outcomes. With funding from the National Science Foundation, she is currently evaluating the impact of M-STEM Academies at the University of Michigan, which provide students majoring in engineering and the life and physical sciences with comprehensive academic and social programming designed to support their achievement and graduation in STEM fields. In addition, she is a member of a multi-institutional team developing research instruments and procedures for investigating the experiences of engineering undergraduates and faculty in “vertically integrated” project teams that involve intergenerational groups of students in team projects driven by faculty research. The instruments and procedures developed will be shared with members of a consortium of 20 U.S. colleges and universities, funded by the Helmsley Foundation, working to improve retention and graduation in STEM fields. Professor Lattuca is also well known for her work on interdisciplinarity, and is currently studying how various programmatic features, from faculty
beliefs to program and curricular arrangements, affect students’ learning in interdisciplinary programs in engineering and across academic fields.

With this joint appointment, Professor Lattuca is ideally suited to assist the Division of Integrative Systems and Design with her active involvement with research and students. I am pleased to recommend the joint appointment of Lisa R. Lattuca as professor of integrative systems and design, without tenure, College of Engineering, effective September 1, 2016.

ACTION REQUEST: 
Additional Appointment to an Unendowed Collegiate 
Professorship

NAME: 
Richard L. Lewis

CURRENT TITLES: 
Professor of Psychology, with tenure, and Professor of Linguistics, 
without tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: 
John R. Anderson Collegiate Professor of Psychology, Linguistics 
and Cognitive Science, College of Literature, Science, and the Arts

EFFECTIVE DATES: 
September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Richard L. Lewis as the John R. Anderson Collegiate Professor of Psychology, Linguistics and Cognitive Science, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

This professorship was established in the Provost Office and was named as the John R. Anderson Collegiate Professorship in Psychology, Linguistics and Cognitive Science in July 2016. John R. Anderson was a fellow and lecturer at Michigan from 1973 to 1976. A stipend from college resources will accompany this professorship. The appointment period may be up to five years and may be renewed.

Richard Lewis earned his Bachelor of Science at the University of Central Florida in 1987 and Doctorate at Carnegie Mellon University in 1993. Upon completion of a post-doctoral appointment at Princeton University, Professor Lewis began his teaching career as an assistant professor at The Ohio State University in 1995. He joined our faculty as an associate professor in 2000, was appointed as an associate professor, without tenure, in the College of Engineering (2001-2003), and as an associate professor, without tenure, in linguistics (2001-2007). He was promoted to professor, with tenure, in 2007.

Professor Lewis is a top-notch scholar and leading computational theoretician in psychological and cognitive science. His work is highly interdisciplinary, and he collaborates across many fields at Michigan, including computer science, linguistics, and cognitive science, and at other institutions (including Princeton University, the University of Birmingham, Air Force Research Laboratory, and University of Potsdam). He has published seminal theoretical and empirical work in language processing, and his models of working memory in language are now standard references in the field of psycholinguistics. With colleagues at Birmingham and Michigan, Professor Lewis has developed a major new theoretical approach to modeling human behavior—computational rationality—that is now finding application across a wide range of domains, including language, attention, choice, and intrinsic motivation, and serves to bridge a gap between principled normative analyses and mechanistic theories of cognitive architecture. This
approach draws on state-of-the-art techniques in machine learning, and yields models that Professor Lewis and his colleagues are testing empirically with eye-tracking and other methods. What makes him so unique is his ability to develop insightful theories of cognition that are computationally rigorous. Professor Lewis’ record speaks for itself. In the past five years, he has written 23 peer-reviewed articles and papers, including many in the top outlets in multiple fields. In just the last four years, his work has been cited over 2000 times, and he has eight papers with more than 100 citations (including one of the three most highly cited papers in Cognitive Science in the past ten years). Even his most recent work is cited regularly.

Professor Lewis has maintained a well-funded research program at Michigan over the last fourteen years, even when federal funding was hard to come by for social scientists. The relevance of his work is demonstrated in the broad range of funding sources that have supported his research, including the National Science Foundation, the National Aeronautics and Space Administration (NASA), and the Office of Naval Research.

Professor Lewis’ teaching is equally impressive. Over the last six years, student evaluations of him as an instructor have ranged in the upper quartile across undergraduate and graduate courses and between small seminars and large lectures. His dedication to high quality undergraduate teaching is especially impressive. He developed and taught the inaugural “Introduction to Cognitive Science” course for the new Cognitive Science major three times and his ratings were nearly perfect. He also has the reputation of being an outstanding mentor to doctoral and undergraduate students working in his lab, and many of his students have moved on to excellent faculty and post-doctoral positions.

Professor Lewis has also been an invaluable colleague to many across multiple units at Michigan. In his capacity as area chair to the Cognition and Cognitive Neuroscience program, he worked tirelessly to help usher the area through some major reorganizations. Last year he spearheaded important initiatives on funding for graduate students, recruitment efforts, and space. He also played a central role in the development of the new Cognitive Science Institute and undergraduate major.

We are very pleased to recommend the appointment of Richard L. Lewis as the John R. Anderson Collegiate Professor of Psychology, Linguistics and Cognitive Science, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Additional Appointment to a Research Professorship

NAME: Jules Lin, M.D.

CURRENT TITLE: Associate Professor of Surgery, with tenure, Medical School

ADDITIONAL TITLE: Mark B. Orringer, M.D. Research Professor of Thoracic Surgery, Medical School

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of Michael W. Mulholland, M.D., Ph.D., the Frederick A. Coller Distinguished Professor and Chair of the Department of Surgery, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Jules Lin, M.D. as the Mark B. Orringer, M.D. Research Professor of Thoracic Surgery, Medical School, effective September 1, 2016 through August 31, 2021.

The Mark B. Orringer, M.D. Research Professorship in Thoracic Surgery was established in July 2016 through gifts from colleagues and former trainees of Dr. Orringer and departmental funds. It is intended to support the academic research and clinical efforts of a faculty member in the Section of Thoracic Surgery in the Department of Surgery. The appointment period may be up to five years and may be renewed.

Dr. Lin received his M.D. degree from Harvard University in 1999. He completed a residency in surgery, a fellowship in surgical critical care, and a research fellowship in thoracic oncology at the University of Michigan. Dr. Lin completed a fellowship in cardiothoracic surgery at the University of Washington. He joined the faculty at the University of Michigan in 2008 as an assistant professor and was promoted to an associate professor, with tenure, in 2016.

Dr. Lin is recognized nationally for his roles as an educator and a clinician-scientist. He has taken the lead for developing care pathways for patients having complications following esophagectomy for cancer, standardizing care following this technically difficult operation. Dr. Lin is very active clinically, and is a major contributor to multidisciplinary care institutionally in the areas of end-stage lung disease and lung transplantation, thoracic oncology and robotic surgery for both pulmonary and foregut disease. He is the surgical director of the Lung Transplantation Program.
This professorship will allow Dr. Lin the ability to continue to pursue a number of clinical and scholarly activities within thoracic surgery, which fulfills the intent of this professorship. I am, therefore, pleased to recommend the appointment of Jules Lin, M.D. as the Mark B. Orringer, M.D. Research Professor of Thoracic Surgery, Medical School, effective September 1, 2016 through August 31, 2021.

September 2016
### Additional Appointment to a Collegiate Professorship

**NAME:** Kyle D. Logue  
**CURRENT TITLE:** Professor of Law, with tenure, Law School  
**ADDITIONAL TITLE:** Douglas A. Kahn Collegiate Professor, Law School  
**TERM:** Five Years, Renewable  
**EFFECTIVE DATES:** September 1, 2016 through August 31, 2021

The Law School is pleased to recommend the appointment of Kyle D. Logue as the Douglas A. Kahn Collegiate Professor, Law School, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The Douglas A. Kahn Collegiate Professorship was established by the Regents in July 2016 and is named for a member of the Law School faculty whose career has contributed significantly to tax law scholarship and has profoundly influenced the lives and prospects of his students, many of whom give chief credit to Professor Kahn for their own long and successful careers. Appointments to this professorship may be up to five years and may be renewed.

Professor Logue received his Bachelor of Arts, with highest honors, in 1987 from Auburn University, College of Liberal Arts. He received his J.D. in 1990 from Yale Law School. He clerked for the Honorable Patrick E. Higginbotham in the U.S. Court of Appeals for the Fifth Circuit from 1990-1991. Professor Logue practiced law with the firm of Sutherland, Asbill & Brennan in Atlanta, Georgia from 1991-1993. He joined the law school faculty as an assistant professor in 1993 and was promoted to professor in 1998.

Professor Logue is widely recognized as a tax and insurance law expert, one of the nation’s leading scholars in both of those fields. He is known for, among other things, bridging those fields. Themes of legal transitions (tax transition and otherwise), uncertainty, and the tax rules of insurance define his work. He has published widely. His publications have appeared in journal such as the *Chicago Law Review*, the *Cornell Law Review*, the *Tax Law Review*, the *Virginia Law Review*, and the *Yale Law Journal*. Professor Logue also teaches torts, in addition to tax, insurance, and other related courses. He has the deserved reputations as one of the school’s strongest teachers.

We are pleased to recommend the appointment of Kyle D. Logue as the Douglas A. Kahn Collegiate Professor, Law School, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Additional Appointment to a Collegiate Professorship

NAME: Bethany B. Moore, Ph.D.

CURRENT TITLE: Professor of Internal Medicine, with tenure, and Professor of Microbiology and Immunology, without tenure, Medical School

ADDITIONAL TITLE: Galen B. Toews, M.D. Collegiate Professor of Pulmonary and Critical Care Medicine, Medical School

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor and Chair of the Department of Internal Medicine, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Bethany B. Moore, Ph.D. as the Galen B. Toews, M.D. Collegiate Professor of Pulmonary and Critical Care Medicine, Medical School, effective September 1, 2016 through August 31, 2021.

The Galen B. Toews, M.D. Collegiate Professorship in Pulmonary and Critical Care Medicine was established in July 2015 through gifts from friends and colleagues of Dr. Toews. It is intended to support the research efforts of a faculty member within the Division of Critical Care Medicine in the Department of Internal Medicine. Dr. Toews was a pioneering lung researcher who passed away in October 2011. This professorship has an appointment period of up to five years and may be renewed.

Bethany B. Moore received her Ph.D. degree in immunology from the University of Texas in 1992. She completed a fellowship in immunoglobulin VDJ rearrangement at that institution, and a fellowship at Stanford University in invariant chain gene regulation and T cell energy and autoimmunity. Dr. Moore was appointed as a research investigator at the University of Michigan in 1997. She was jointly appointed in the Department of Microbiology and Immunology in 2009. She rose through the ranks to professor in 2011. Dr. Moore began collaborating with Dr. Toews to study chemokine regulation of pulmonary fibrosis in 1999. This association resulted in 13 NIH grants and 41 co-authored publications.

Dr. Moore is an internationally recognized expert in the pathogenesis of pulmonary fibrosis. Her laboratory was the first to describe the profibrotic effects of CCR2 signaling in murine models and to identify that CCR2 signaling in lung epithelial cells could limit prostaglandin E2 (PGE2) production. Dr. Moore has conducted multi-center translational studies in her laboratory, examining plasma proteomics and leukocyte phenotypes of biomarkers of IPF disease progression. She has received continuous funding from the NIH for her research as well as...
numerous awards, including the Career Investigator Award in 2005 from the American Lung Association of Michigan and the American Thoracic Society Recognition Award for Scientific Accomplishment in 2014.

Dr. Moore has mentored Ph.D. students, post-doctoral fellows and has served on 40 Ph.D. dissertation committees. She developed and has taught the Microbiology 415 Virology course since 2005, and is the director of the Graduate Program in Immunology. Dr. Moore has published more than 130 peer-reviewed articles, is a permanent member of the Lung Injury Remodeling and Repair Study Section for the NIH, and is the associate editor of the American Journal of Physiology: Lung Cellular and Molecular Physiology.

Dr. Moore’s collaboration with Dr. Toews spanned 12 years and she continues this important field of research as well as his legacy. She is a fitting candidate for this professorship. I am, therefore, pleased to recommend the appointment of Bethany B. Moore, Ph.D. as the Galen B. Toews, M.D. Collegiate Professor of Pulmonary and Critical Care Medicine, Medical School, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Susan Murray, Sc.D.

CURRENT TITLE: Professor of Biostatistics, with tenure, School of Public Health

ADDITIONAL TITLE: Professor of Internal Medicine, without tenure, Medical School

EFFECTIVE DATE: September 1, 2016

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor, and Chair of the Department of Internal Medicine, we are pleased to recommend the joint appointment of Susan Murray, Sc.D. as professor of internal medicine, without tenure, Medical School, effective September 1, 2016.

Dr. Murray received her doctorate in statistics from Harvard University in 1994. After completing two years of postdoctoral research training there, she was recruited to the University of Michigan as an assistant professor of biostatistics in the School of Public Health. She was promoted to associate professor in 2002 and achieved the rank of professor in 2015.

Dr. Murray is recognized internationally for her expertise in survival analysis and analysis of recurrent events. She has focused a large proportion of her effort toward applying these methodologies to pulmonary diseases. One of her most significant contributions is the development of the nationally implemented Lung Allocation Score for lung transplantation. Because of her expertise in developing statistical methodologies for clinical trials and her interest in pulmonary diseases, she has numerous collaborations with faculty in the Division of Pulmonary and Critical Care Medicine that have resulted in her participation as co-investigator on at least 14 grants with pulmonary faculty. In recognition of her contributions to the research and teaching missions of the Division of Pulmonary and Critical Care Medicine in the Department of Internal Medicine, we are pleased to recommend the joint appointment of Susan Murray, Sc.D. as professor of internal medicine, without tenure, Medical School, effective September 1, 2016.

September 2016
REQUEST: Additional Appointment to an Endowed Professorship

NAME: Alison R. H. Narayan

CURRENT TITLE: Assistant Professor of Chemistry, College of Literature, Science, and the Arts

ADDITIONAL TITLE: William R. Roush Assistant Professor, Department of Chemistry, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through May 31, 2016

On the recommendation of the Executive Committees of the Department of Chemistry and the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Alison R. H. Narayan as the William R. Roush Assistant Professor, Department of Chemistry, College of Literature, Science, and the Arts, effective September 1, 2016 through May 31, 2016.

The William R. Roush Assistant Professorships were established in July 2011 and January 2014 as a result of a one-time gift to the Department of Chemistry with the purpose of supporting the William R. Roush Junior Faculty Career Development Award.

After obtaining her Bachelor of Science from the University of Michigan in 2006, Alison Narayan received her Doctorate at the University of California, Berkeley in 2011. She had been appointed as a UM Life Sciences Research Foundation Postdoctoral Fellow since 2011 and joined the Department of Chemistry as an assistant professor and the Life Sciences Institute as a research assistant professor in September 2015. She is an accomplished scientist with an expertise in biocatalysis and organic synthesis as demonstrated by her outstanding track record in the synthesis of complex medicinally important molecules.

As a graduate student, Professor Narayan made several major discoveries including the development of transition-metal catalyzed reactions and the utility of these transformations for the synthesis of pharmaceutically promising molecules. Her studies were widely recognized, generating four important first-authored papers and many additional co-authored publications, resulting in her receipt of various accolades, including an Amgen Graduate Fellowship, a Roche Excellence in Chemistry Graduate Fellowship, and the opportunity to represent the U. S. as a delegate to the Lindau Meeting of Nobel Laureates.

Professor Narayan has continued to publish high-impact papers throughout her early career, including a co-first-authored paper in Nature Chemistry, an editorial article in Science, and many co-authored papers. Her work spans the field from synthetic organic chemistry to molecular biology and enzymology. With her past training, under the direction of Richmond Sarpong (a
leader in the field of complex molecule synthesis) and David Sherman (who is a pioneer in natural product discovery and biosynthetic pathway elucidation), Professor Narayan has received high-caliber, uniquely diverse training that positions her to be a major innovator in the fields of biocatalytic synthesis and drug discovery.

Since beginning her appointment in fall 2015, Professor Narayan has exceeded the very high expectations of junior faculty. She quickly built a group of dedicated researchers (currently eight permanent members) and made significant findings in the lab that will be published in the next calendar year. The impact of her research program continues to have an expanding footprint as she has established productive collaborations across the UM campus. Recently, Professor Narayan was selected as one of the American Chemical Society's “Talented 12,” which highlights the most outstanding path-paving chemical scientists of her cohort. This designation is awarded based not only on her outstanding track record, but also because she is recognized as an innovator and future leader in the field. The independent support that will be provided by this award will allow her to significantly expand her highly creative research program, laying the groundwork for future R01-level support from the National Institutes of Health and other funding agencies.

We are very pleased to recommend the appointment of Alison R. H. Narayan as the William R. Roush Assistant Professor, Department of Chemistry, College of Literature, Science, and the Arts, effective September 1, 2016 through May 31, 2016.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Lisa A. Prosser

CURRENT TITLE: Professor of Pediatrics and Communicable Diseases, with tenure, Medical School

ADDITIONAL TITLE: Professor of Health Management and Policy, without tenure, School of Public Health

EFFECTIVE DATE: September 1, 2016

On the recommendation of the dean and Executive Committee of the School of Public Health, and with the endorsement of the Medical School, we are pleased to recommend the joint appointment of Lisa A. Prosser as professor of health management and policy, without tenure, School of Public Health, effective September 1, 2016.

Professor Prosser received her M.S. in 1992 from Massachusetts Institute of Technology and her Ph.D. in 2000 from Harvard University. She was appointed as an instructor at Harvard in 2000 and was promoted to the rank of assistant professor in 2001. She joined the faculty at the University of Michigan as a research associate professor in the Department of Pediatrics and Communicable Diseases in 2008 and was appointed as associate professor, without tenure, in 2010. In 2013, Professor Prosser was granted tenure, and in 2016 she was promoted to professor of pediatrics and communicable diseases. From 2010 to 2016, she was jointly appointed as a research associate professor in the Department of Health Management and Policy.

Professor Prosser’s diverse set of teaching activities reflects her commitment to providing formal training opportunities in health decision sciences and cost-effectiveness analysis as well as to support interdisciplinary research. She led an effort to formalize a new cognate in the doctoral program in health services organization and delivery at the School of Public Health. Professor Prosser is an internationally established investigator who is considered an authority in the field of medical decision-making and whose work has had direct influence on defining health policy. Her research has provided direct guidance to national policy recommendations for vaccination and newborn screening and has developed new methods for performing cost-effectiveness analysis for child health interventions. Her current focuses on vaccine economics, newborn screening, and the methodology of valuing family spillover effects of illness.
Professor Prosser has been an integral and crucial contributor to the teaching, doctoral education and doctoral mentoring in the Department of Health Management and Policy (HMP). She has also been a valuable research collaborator with many HMP faculty. We are pleased to recommend the joint appointment of Lisa A. Prosser as professor of health management and policy, without tenure, School of Public Health, effective September 1, 2016.

ACTION REQUEST: Additional Appointment to an Unendowed Collegiate Professorship

NAME: Patricia A. Reuter-Lorenz

CURRENT TITLES: Chair, Department of Psychology, and Professor of Psychology, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Michael I. Posner Collegiate Professor of Psychology and Neuroscience, College of Literature, Science, and the Arts

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

With the endorsement of the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Patricia A. Reuter-Lorenz as the Michael I. Posner Collegiate Professor of Psychology and Neuroscience, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

This professorship was established in the Provost Office and was named as the Michael I. Posner Collegiate Professorship in Psychology and Neuroscience in July 2016. Michael I. Posner was a teaching fellow at Michigan from 1960 to 1961 and a research associate in 1964. A stipend from college resources will accompany this professorship. The appointment period may be up to five years and may be renewed.

Patricia Rentuer-Lorenz earned her Bachelor of Arts from the State University of New York in 1979. She attended the University of Toronto where she completed a Master of Arts in 1981 and Doctorate in 1987. Following a two-year post-doctoral fellowship at Dartmouth College, she was appointed there as an adjunct assistant professor (1989-1991) and a research assistant professor in the Program in Cognitive Neuroscience (1988-1991). Professor Reuter-Lorenz joined our faculty as an assistant professor in 1992 and was promoted through the ranks to professor, with tenure, in 2002. She is also a faculty associate in the Survey Research Center (2012-present), Institute for Social Research, and is serving a five-year term as the chair of the Department of Psychology (2015-present).

Professor Reuter-Lorenz's early scholarship spans two fields: psychological science and cognitive neuroscience. The objectives of psychological science are to characterize – empirically and theoretically – the basic mental processes that enable people to think, feel, and act intelligently. Cognitive neuroscience is a relatively new interdisciplinary field that endeavors to integrate scientific knowledge about the human mind and brain. Its official advent occurred in 1994 when a small group of forward-looking investigators, including Professor Reuter-Lorenz, established the Cognitive Neuroscience Society. Building on these foundations, she has made significant scientific contributions to our knowledge about basic mental processes and their underlying physical substrates. Focusing on a third topic of research during the past fifteen years, Professor Reuter-Lorenz has become one of the world's most renowned investigators of cognitive aging and its substrates in the human brain. The empirical discoveries and theoretical hypotheses yielded by her studies about the mental and physical aspects of the aging process have opened new vistas on the changes people go through as they grow older.

Professor Reuter-Lorenz's record of productivity is quite impressive. She has single- and co-authored nearly 100 journal articles, multiple encyclopedia articles, and almost 20 book chapters, as well as co-editing two books. Her conference posters and meeting presentations number in the many dozens. Currently, there are also several additional articles and book chapters listed on her CV in various stages of
preparation. Most impressive about this voluminous publication record is that she has published in virtually all of the most prestigious journals available to her. In essence, the list of journals constitutes a “who’s who” of high impact journals for the types of fields that she has covered. Professor Reuter-Lorenz has received collaborative sponsored research grants from multiple federal and private funding agencies. Her current grant project, “Working Memory Training, Neural Correlates, and Aging,” is funded by the National Institute on Aging (NIA) through 2016. The NIA also supported three projects in which she has been involved as either the PI, co-PI, or co-investigator from 1995 through 2010. In addition, substantial support for Professor Reuter-Lorenz and her research team has come from the National Institutes of Health (NIH), U.S. Department of Education, National Aeronautics and Space Administration, and the McDonnell-Pew Program in Cognitive Neuroscience.

Since promotion to professor in 2002, Professor Reuter-Lorenz has received a number of prestigious honors: fellow of the Association for Psychological Science (2009), fellow of the Society of Experimental Psychologists (2012), election to the governing board of the Psychonomic Society (2014-2019), and receipt of the Justine and Yves Sergent Award for International Accomplishments in Cognitive Neuroscience (2010), among others. All of these testify to the high respect that her professional colleagues have for her scientific contributions.

Professor Reuter-Lorenz has also had outstanding success in her instructional activities at Michigan. Her achievements include teaching well-received undergraduate courses and graduate seminars, astutely mentoring under-graduate lab apprentices through the Undergraduate Research Opportunities Program, supervising doctoral students’ research, and mentoring post-doctoral fellows. She has been a prime mover in training post-nomination doctoral fellows and junior faculty members through international workshops and conferences on cognitive neuroscience and cognitive aging. She has received awards in recognition of her superlative mentoring activities; i.e., the 2007 Outstanding Mentor Award from the Undergraduate Research Opportunities Program and the 2009 Outstanding Mentor Award from the American Psychological Association, Division 20.

Professor Reuter-Lorenz has made outstanding achievements in administration. In addition to serving as chair of her department, she served as chair of the Cognition and Cognitive Neuroscience Area of the Department of Psychology and has been elected repeatedly to the departmental Executive Committee. She has served as a board member, associate editor, and/or chief editor of the most prestigious journals in her field, and has participated on grant-proposal review committees for the National Science Foundation (NSF) and the NIH, among others. Internationally, she has participated on the external review committee for the Institute of Psychology at the University of Zurich, presidential commission on Gerontology for the Max Planck Institute, co-director of the International Max Planck Research School on the LIFE course, and advisory board member of the Max Planck Institute for Human Development.

We are very pleased to recommend the appointment of Patricia A. Reuter-Lorenz as the Michael I. Posner Collegiate Professor of Psychology and Neuroscience, College of Literature, Science, and the Arts, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Katherine Sender

CURRENT TITLE: Professor of Communication Studies, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: Professor of Women’s Studies, without tenure, College of Literature, Science, and the Arts

EFFECTIVE DATE: September 1, 2016

With the approval of the Executive Committees of the Department of Women’s Studies and the College of Literature, Science, and the Arts, and with the endorsement of the Department of Communication Studies, we are pleased to recommend the additional appointment of Katherine Sender as professor of women’s studies, without tenure, College of Literature, Science, and the Arts, effective September 1, 2016.

Katherine Sender completed her Doctorate at the University of Massachusetts, Amherst in 2001 and began her teaching career as an assistant professor at the University of the Arts (2000-2001). She was appointed as an assistant professor (2002-2008) at the Annenberg School for Communication, University of Pennsylvania and promoted to associate professor (2008-2011). She was appointed as a professor in the School of Social Sciences: Media, Film, and Television at the University of Auckland (2012-2015). She joined the faculty at Michigan as a professor in 2015.

Professor Sender’s research area is communication and media studies with a focus on the intersections with women’s, gender, and sexuality studies. Her second book, The Makeover: Reality Television and Reflexive Audiences (New York University Press, 2012), looked at gender, race, and class in audiences’ perceptions of makeover reality TV shows. She has also published peer-reviewed articles that consider gay, lesbian, bisexual, transgender, and queer representations on U.S. television, which is also the topic of two of documentaries distributed by the Media Education Foundation. Currently, she is guest co-editing a special issue of Feminist Media Studies on feminist approaches to audience research in an era of digital television (2017). Professor Sender will be invited to participate in faculty meetings and have the opportunity to offer courses that are listed as meet-togethers in the Department of Women’s Studies.

We are very pleased to recommend the additional appointment of Katherine Sender as professor of women’s studies, without tenure, College of Literature, Science, and the Arts, effective September 1, 2016.

RECOMMENDED BY:

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Albert J. Shih

CURRENT TITLES: Professor of Mechanical Engineering, with tenure, Professor of Integrative Systems and Design, without tenure, College of Engineering, and Professor of Biomedical Engineering, without tenure, College of Engineering and Medical School

ADDITIONAL TITLE: Acting Chair, Division of Integrative Systems and Design, College of Engineering

EFFECTIVE DATES: September 1, 2016 through December 31, 2016

The dean of the College of Engineering is pleased to recommend the appointment of Albert J. Shih as acting chair, Division of Integrative Systems and Design (ISD), College of Engineering, effective September 1, 2016 through December 31, 2016.

Professor Shih received his B.S. and M.S. degrees in mechanical engineering from the National Cheng Kung University, Tainan, Taiwan in 1984 and 1986, respectively. He received his Ph.D. in 1991 from Purdue University. Between 1991 and 1998, Professor Shih worked as a senior engineer and technical specialist for Cummins, Inc., Columbus, Indiana. In 1998, he was appointed as an associate professor at North Carolina State University, Raleigh, NC. Professor Shih joined the faculty at the University of Michigan as an associate professor, with tenure, in 2003. He was promoted to professor in 2006. Since 2013, Professor Shih has served as the associate chair for the Division of Integrative Systems and Design.

Professor Shih’s research area is design and manufacturing. He is a pioneer in biomedical manufacturing, the application of manufacturing technologies to advance the safety, quality, efficiency and speed of healthcare service and biomedical science. He has nine U.S. patents, has co-authored a textbook in machining and machine tools, and authored or co-authored over 180 archival journal papers, and 100 conference papers in manufacturing and biomedical sciences. Professor Shih is the chair of the Scientific Committee of the North American Manufacturing Research Institution of the Society of Manufacturing Engineers (NAMRI/SME). He is the recipient of many awards including the Fulbright Scholar, ASME Milton Shaw Manufacturing Research Medal, Society of Automotive Engineers Ralph R. Teetor Educational Award, and Best Paper awards in the ASME International Manufacturing Science and Engineering Conference (MSEC), the North American Manufacturing Research Conference (NAMRC), the International Conference on Frontiers of Design and Manufacturing (ICFDM) and several other manufacturing and healthcare conferences. Professor Shih is a fellow of both the ASME and SME and an associate member of CIRP.
Professor Shih has demonstrated that he possesses the experience, ability, and commitment to fulfill the important responsibilities of a division chair in the College of Engineering. We are pleased to recommend the appointment of Albert J. Shih as acting chair, Division of Integrated Systems and Design, College of Engineering, effective September 1, 2016 through December 31, 2016.

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Paolo Squatriti

CURRENT TITLES: Professor of History, with tenure, and Professor of Romance Languages and Literatures, with tenure, College of Literature Science, and the Arts

ADDITIONAL TITLE: Professor of Environment, without tenure, College of Literature, Science, and the Arts, and School of Natural Resources and Environment

EFFECTIVE DATES: September 1, 2016

On the recommendation of the executive committees of the Program in the Environment and the College of Literature, Science, and the Arts, and with the endorsement of the Departments of History and Romance Languages and Literatures, we are pleased to recommend the additional appointment of Paolo Squatriti as professor of environment, without tenure, College of Literature, Science, and the Arts, and School of Natural Resources and Environment, effective September 1, 2016.

Paolo Squatriti received his Doctorate from the University of Virginia in 1990. Professor Squatriti joined the faculty at Michigan as a visiting assistant professor (1994-1998) and was appointed as an assistant professor in 1998. He was promoted to associate professor through the ranks to professor in 2013. Professor Squatriti is a cutting edge historian who contributes to the redefining of the field of environmental history. His work has a broad geographic scope and touches on a range of disciplines (from environmental sciences to archaeological and archival research). He is highly regarded in his field.

The Program in the Environment (PitE) is building a dedicated pool of faculty to call upon for teaching and advising so that it can offer students a consistent and coherent sequence of courses. Professor Squatriti’s teaching is excellent and he has presented courses both in literature and in environmental history. His appointment will add important strength to PitE’s teaching program.

We are very pleased to recommend the additional appointment of Paolo Squatriti as professor of environment, without tenure, College of Literature, Science, and the Arts, and School of Natural Resources and Environment, effective September 1, 2016.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Anna G. Stefanopoulou

CURRENT TITLES: Professor of Mechanical Engineering, with tenure, and Professor of Electrical Engineering and Computer Science, without tenure, College of Engineering

ADDITIONAL TITLE: William Clay Ford Professor of Manufacturing, College of Engineering

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

The dean and the Executive Committee of the College of Engineering are pleased to recommend the appointment of Anna G. Stefanopoulou as the William Clay Ford Professor of Manufacturing, College of Engineering, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

The William Clay Ford Professorship was established in October 1989 by a grant from the Ford Motor Company to provide funds for research and educational initiatives in expanding the presence of manufacturing-related research and course work in business and engineering. The professorship was renamed in November 1995.

Professor Stefanopoulou received a Diploma in naval architecture and marine engineering from the National Technical University of Athens in 1991. She received M.S. degrees in naval architecture and marine engineering, and electrical engineering and computer science from the University of Michigan in 1992 and 1994, respectively. She remained at the University of Michigan to earn her Ph.D. in electrical engineering and computer science in 1996. Between 1995 and 1997, Professor Stefanopoulou served as a technical specialist for the Ford Motor Company. She was appointed as an assistant professor at the University of California, Santa Barbara in 1998. She joined the faculty at the University of Michigan as an associate professor in 2000 and was promoted to professor in 2006. Since 2009, she has served as the director of the Automotive Research Center.

Professor Stefanopoulou is an ASME fellow (07) and an IEEE fellow (09), an elected member of the executive committee of the ASME Dynamics Systems and Control Division (DSCD), the founding chair of the ASME DSCD Energy Systems Technical Committee and a member of a U.S. National Academies committee on the 2025 US. Light Duty Vehicle Fuel Economy Standards. She was an elected member of the IEEE Control Systems Society (CSS) Board of
Governors, the chair of the Transportation Committee in ASME, DSCD, member of the SAE Dynamic System Modeling Standards Committee and served as an associate editor of journals and member of multiple award committees in the IEEE and ASME societies. Professor Stefanopoulou has been recognized with several awards including a 2012 College of Engineering Research Award, the 2009 ASME Gustus L. Larson Memorial Award, a 2008 University of Michigan Faculty Recognition Award, the 2005 Outstanding Young Investigator by the ASME DSC division, a 2005 Henry Russel Award, a 2002 Ralph Teetor SAE Educational Award, a 1997 NSF CAREER Award and selected in 2002 as one of the world’s most promising innovators from the MIT Technology Review. Professor Stefanopoulou has co-authored a book on Control of Fuel Cell Power Systems, 20 U.S. patents, five best paper awards and more than 250 publications on estimation and control of internal combustion engines and electrochemical processes such as fuel cells and batteries.

Professor Stefanopoulou’s academic achievements fully merit her appointment. We are pleased to recommend the appointment of Anna G. Stefanopoulou as the William Clay Ford Professor of Manufacturing, College of Engineering, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

College of Engineering

RECOMMENDATION ENDORSED BY:  

Martha E. Pollack  
Provost and Executive Vice President for Academic Affairs

September 2016
On the recommendation of the Executive Committee of the College of Engineering, I am pleased to recommend the additional appointment of Jan P. Stegemann as professor of macromolecular science and engineering, without tenure, College of Engineering, effective September 1, 2016.

Professor Stegemann received his B.S. and M.S. degrees in chemical engineering from the University of Toronto in 1989 and 1992, respectively. He received his Ph.D. in biomedical engineering and completed a post-doctoral fellowship from the Georgia Institute of Technology in 2002. Immediately following his post-doctoral fellowship, Professor Stegemann was appointed as an assistant professor at the Rensselaer Polytechnic Institute, Troy, N.Y. He joined the University of Michigan faculty as an associate professor in 2008 and was promoted to professor in 2014.

Professor Stegemann’s Cell-Matrix Interactions and Tissue Engineering laboratory focuses on the use of extracellular environments to control cell function and promote tissue regeneration. His work involves characterizing how cells interact with the 3D environment that surrounds them in native tissues, including the extracellular matrix, soluble biochemicals, and mechanical forces. This knowledge is then applied to create composite materials using proteins and polysaccharides to direct cell function, and to deliver cells for therapeutic purposes. Current application areas are in developing materials and techniques for the study of cellular mechanobiology, and applying materials for cell-based therapies to promote the regeneration of bone and blood vessels.
With this additional appointment, Professor Stegemann is ideally suited to assist the Macromolecular Science and Engineering Program by his active involvement with research and students. I am pleased to recommend the additional appointment of Jan P. Stegemann as professor of macromolecular science and engineering, without tenure, College of Engineering, effective September 1, 2016.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Kathleen A. Stringer, Pharm.D.

CURRENT TITLE: Professor of Clinical and Translational Pharmacy, with tenure, College of Pharmacy

ADDITIONAL TITLE: Professor of Internal Medicine, without tenure, Medical School

EFFECTIVE DATE: September 1, 2016

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor, and Chair of the Department of Internal Medicine, we are pleased to recommend the joint appointment of Kathleen A. Stringer, Pharm.D. as professor of internal medicine, without tenure, Medical School, effective September 1, 2016.

Dr. Stringer obtained her Pharm.D. from the University of Michigan College of Pharmacy in 1985. Following a residency in clinical pharmacology and a fellowship in cardiovascular research, Dr. Stringer joined the faculty at the University of Colorado Health Sciences Center as an assistant professor of pharmacy in 1988 and was promoted to associate professor in 1997. In 2007, she was recruited to the University of Michigan as an associate professor in the College of Pharmacy and was promoted to professor in 2012.

Dr. Stringer’s research is focused on critical care therapeutics and biomarker discovery in order to study the pathogenesis of pulmonary diseases and sepsis. Much of her work includes collaboration with faculty members in the Division of Pulmonary and Critical Care Medicine, Department of Internal Medicine, in the Medical School. In particular, she uses metabolomics and pharmacometabolomics to study COPD, asthma, sepsis, and other pulmonary diseases. She recently received support from the National Institutes of Health to study carnitine pharmacometabolomics in sepsis. Her colleagues affirm that Dr. Stringer brings a systems pharmacology approach to clinically challenging problems in pulmonary diseases.

In recognition of her contributions to the Medical School, particularly her active collaborations with the Division of Pulmonary and Critical Care Medicine in the Department of Internal Medicine, we are pleased to recommend the joint appointment of Kathleen A. Stringer, Pharm.D. as professor of internal medicine, without tenure, Medical School, effective September 1, 2016.

Martha E. Pollack
Provost and Executive Vice President for Academic Affairs
ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Rocio Titiunik

CURRENT TITLE: Associate Professor of Political Science, with tenure, College of Literature, Science, and the Arts

ADDITIONAL TITLE: James Orin Murfin Professor of Political Science, College of Literature, Science, and the Arts

TERM: Five Years, Renewable

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of the chair of the Department of Political Science and the Executive Committee of the College of Literature, Science, and the Arts, we are pleased to recommend the appointment of Rocio Titiunik as the James Orin Murfin Professor of Political Science, College of Literature, Science, and the Arts, for a five-year term, effective September 1, 2016 through August 31, 2021.

The James Orin Murfin Professorship of Political Science was established in 1940 by a generous gift from John W. Anderson, class of 1890. The professorship is unencumbered by special conditions and has been awarded in the recent past to distinguished members of the political science faculty in order to lighten their teaching loads and free time for research and writing. Appointments to this professorship may be five years and may be renewed.

Rocio Titiunik received her Doctorate in agricultural and resource economics from the University of California-Berkeley in 2009. Following a one-year post-doctoral fellowship at Michigan, she joined the Michigan faculty as an assistant professor in 2010 and was promoted to associate professor, with tenure, in September 2016.

Professor Titiunik’s research focuses on quantitative social science and political methodology, with emphasis on the development and application of experimental and non-experimental methods to the study of political behavior and institutions. She is particularly interested in the possibilities for causal inference in the study of political institutions. Her substantive research interests lie in American and comparative politics, including topics such as incumbency advantage, minority representation and turnout, legislative behavior, and party systems. Professor Titiunik’s work appears in various journals in social sciences and statistics, including the American Political Science Review, American Journal of Political Science, Journal of Politics, Econometrica, Journal of the American Statistical Association, and...
Professor Titiunik just received the very prestigious Emerging Scholar Award from the Society of Political Methodology.

Professor Titiunik is known for her crisp thinking, for her fair but unvarnished intellectual views, and for her non-dogmatic approach to her work and to the work of others. She is the “go-to” person on the subject of regression discontinuity. In the department, many people turn to her for methodological advice because they admire the tremendous practicality and generosity of this advice. She makes the work of her fellow faculty members and of graduate students better every day. Professor Titiunik is a top creator of tools. She is clearly a leader in the causal inference movement, but her startling lack of dogmatism means that the faculty can imagine her going on to new approaches. They see intellectual growth throughout her brief career and they believe her to be spectacularly poised for more growth. It is completely plausible that the thing she is known for now will become just a small part of a long career of creative intellectual successes.

In her tenure review last year, the faculty returned repeatedly to Professor Titiunik’s strong teaching record. She does an especially good job with the second course in the 600-level graduate quantitative methods sequence. Students rely heavily on her methodological guidance.

We are very pleased to recommend the appointment of Rocio Titiunik as the James Orin Murfin Professor of Political Science, College of Literature, Science, and the Arts, for a five-year term, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: James D. Westphal

CURRENT TITLES: Robert G. Rodkey Collegiate Professor of Business Administration, and Professor of Strategy, with tenure, Stephen M. Ross School of Business

RECOMMENDED TITLES: Donald C. Cook Professor of Business Administration, and Professor of Strategy, with tenure, Stephen M. Ross School of Business

EFFECTIVE DATES: September 1, 2016 through August 31, 2021

On the recommendation of the dean of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of James D. Westphal as the Donald C. Cook Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

This endowed professorship was established in 1976 with gifts from Donald C. Cook (AB '32; MBA '35; HHLLD Law '66) and American Electric Power Company to honor Mr. Cook on the occasion of his retirement as chairman and president of American Electric Power. Originally designated as a professorship in business economics, the professorship was approved more broadly for business administration by the Regents in 1983, with the purpose of advancing business theory and practice in all business disciplines.

Professor Westphal received his BA degree in economics with highest honors in 1988 from the University of California, Davis. He received his MS degree in 1993 and his PhD in 1996 from the J. L. Kellogg Graduate School of Management at Northwestern University. Professor Westphal was an assistant professor of management at the University of Texas at Austin from 1996-2001. In 2001, he was promoted to professor of management at the McCombs School of Business. From 2002-2006, he held the title of Ed and Molly Smith Chair in Business Administration also at the McCombs School. He joined the Stephen M. Ross School of Business in 2006 as a professor of strategy, with tenure. Professor Westphal currently holds the Robert G. Rodkey Professorship and serves as the area chair of the strategy area.

Professor Westphal conducts research in the areas of strategic management and organizational theory, with a focus on social and psychological processes in corporate governance and strategic decision making. He received the Best Paper Award from the OMT Division of the Academy on four occasions (1994, 1996, 2006, and 2011). He received the University of Texas, College of Business Administration Award for Research Excellence in 2000-2001 and 2006-2007, and in
2002 he was selected as a highly cited author in the area of Economics and Business by the *ISI Web of Science*. From 2005-2006, he was a Harrington Faculty Fellow. Professor Westphal’s research has been referenced in *Business Week*, *CNBC*, *The Economist*, *The Financial Times*, *Fortune*, *Harpers*, *National Public Radio*, *The New York Times*, *The New Yorker*, *The Wall Street Journal*, and *The Washington Post*.

Professor Westphal has taught courses in strategic management and organizational behavior at the undergraduate, MBA and PhD levels. He serves on the editorial boards of top journals and has previously served as division chair of the Business Policy and Strategy (BPS) Division of the Academy of Management and as Representative-at-Large of the Organization and Management Theory (OMT) Division of the Academy. Professor Westphal currently serves as associate editor for the *Strategic Management Journal*.

We enthusiastically recommend the appointment of James D. Westphal as the Donald C. Cook Professor of Business Administration, Stephen M. Ross School of Business, for a five-year renewable term, effective September 1, 2016 through August 31, 2021.

ACTION REQUEST: Establishment of a Research Professorship

PROPOSED NAME: Susan Crumpacker Brown Research Professorship in Depression, Medical School

TERM: Five Years, Renewable

EFFECTIVE DATE: September 1, 2016

On the recommendation of Gregory W. Dalack, M.D., the Associate Professor and Chair of the Department of Psychiatry, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the establishment of the Susan Crumpacker Brown Research Professorship in Depression, Medical School, effective September 1, 2016.

This professorship is being established through a commitment of an expendable gift from Susan Crumpacker Brown for five years. The annual commitment can be extended if the benefactor wishes to renew support for additional years. The appointment period may be up to five years and may be renewed if additional funding is secured. The holder of this professorship will be a senior member of the Department of Psychiatry and the University of Michigan Depression Center.

Susan Crumpacker Brown is a 1963 graduate of the University of Michigan, and together with her husband Robert Brown, also a 1963 graduate, has served as a volunteer leader for dozens of areas across the University, including the Victors for Michigan Depression Center Campaign Council. Their dedication earned them the 2009 David B. Hermelin Award for Fundraising Volunteer Leadership and the inaugural University of Michigan Health System Outstanding Volunteer Award in 2015. Ms. Crumpacker Brown is a strong advocate for reducing stigma and increasing access to care for people with depression and other mental health conditions. She was the driving force for establishing the Kalamazoo Collaborative Care Project; a collaboration between the University of Michigan Depression Center and the Kalamazoo community with a shared purpose to improve access to mental health care for adults. She has been instrumental in shining a light on the disease of depression and erasing the stigma that causes so many people with mental illness to suffer in silence.

Ms. Crumpacker Brown continues her philanthropic efforts to improve access to mental and behavioral health care through this professorship. I am pleased, therefore, to recommend the establishment of the Susan Crumpacker Brown Research Professorship in Depression, Medical School, effective September 1, 2016.

ACTION REQUEST: Establishment of a Collegiate Professorship

PROPOSED NAME: Collegiate Professorship in Geriatric and Palliative Medicine, Medical School

TERM: Five Years, Renewable

EFFECTIVE DATE: September 1, 2016

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor and Chair of the Department of Internal Medicine, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the establishment of the Collegiate Professorship in Geriatric and Palliative Medicine, Medical School, effective September 1, 2016.

This professorship is being established through departmental funds and from a split from the Fra Loomis-Taylor endowment, which was an estate gift specified to be used to assist independent living for elderly patients. The holder of this professorship will be a faculty member in the Department of Internal Medicine, in the Division of Geriatric and Palliative Medicine. The appointment period may be up to five years and may be renewed.

Fra Loomis-Taylor received a B.A. degree from the University of Michigan in 1931. She worked for the FBI during World War II in San Francisco. After leaving that service, she worked as an office manager for a California plumbing contractor until her retirement in 1973. Ms. Loomis joined Volunteers in Service to America (VISTA) and worked in several capacities in New Mexico, including as County Judge in Estancia. In 1987, she married Dr. Jim Taylor of Oklahoma City. Ms. Loomis-Taylor died July 6, 2001. She contributed greatly to the world through her service and her gifts.

This professorship will continue research and clinical endeavors within the Division of Geriatric and Palliative Medicine to benefit the elderly. I am pleased, therefore, to recommend the establishment of the Collegiate Professorship in Geriatric and Palliative Medicine, Medical School, effective September 1, 2016.

Professorship in Depression and Neurosciences, Medical School

Five Years, Renewable

September 1, 2016

On the recommendation of Gregory M. Dalack, M.D., Associate Professor and Chair of the Department of Psychiatry, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the establishment of the Professorship in Depression and Neurosciences, Medical School, effective September 1, 2016.

This professorship is being established through a generous gift from an anonymous donor. The holder of this professorship will be a senior faculty member in the Department of Psychiatry and the Depression Center and should be a recognized leader in efforts to better understand the neurophysiological, psychological, cultural and genetic and epigenetic factors important in mood disorders and to produce better treatments for patients suffering from disease. The appointment period may be up to five years and may be renewed.

This professorship will promote research, teaching and clinical care in the field of psychiatry. I am pleased, therefore, to recommend the establishment of the Professorship Depression and Neurosciences, Medical School, effective September 1, 2016.

ACTION REQUEST: Establishment of an Endowed Professorship

PROPOSED NAME: Robertson Emeritus Professorship in Musical Theatre, School of Music, Theatre & Dance

TERM: One Month to Five Years, Renewable

EFFECTIVE DATE: September 1, 2016

With the support of the School of Music, Theatre & Dance, we are pleased to recommend the establishment of the Robertson Emeritus Professorship in Musical Theatre, School of Music, Theatre & Dance, effective September 1, 2016.

The School of Music, Theatre & Dance is the recipient of a generous gift of $1,590,000 from Sanford R. and Jeanne Robertson to establish the Robertson Emeritus Professorship in Musical Theatre. These resources will be used to attract dedicated emeriti professors to teach musical theatre courses. The dean of the School of Music, Theatre & Dance is responsible for ensuring that the fund is used for its intended purpose.

Appointments to the Robertson Emeritus Professorship in Musical Theatre will be made by the dean of the School of Music, Theatre & Dance upon the recommendation of the chair of the Department of Musical Theatre, with the approval of the school’s Executive Committee, and in accordance with university and school policy and practices. Appointment terms for incumbents will be for a one-month to five-year renewable term.

In recognition of this significant gift from Sanford R. and Jeanne Robertson, we recommend that the Regents formally establish the Robertson Emeritus Professorship in Musical Theatre, School of Music, Theatre & Dance, effective September 1, 2016.

ACTION REQUEST: Establishment of a Collegiate Professorship

PROPOSED NAME: Raymond W. Ruddon Collegiate Professorship in Cancer Biology and Pharmacology, Medical School

TERM: Five Years, Renewable

EFFECTIVE DATE: September 1, 2016

On the recommendation of Lori L. Isom, Ph.D., the Maurice H. Seevers Professor and Chair of the Department of Pharmacology, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the establishment of the Raymond W. Ruddon Collegiate Professorship in Cancer Biology and Pharmacology, Medical School, effective September 1, 2016.

This professorship is being established from generous gifts from various donors, including family, friends and colleagues of Dr. Ruddon, and Department of Pharmacology funds. The holder of this professorship will be a tenured faculty member in the Department of Pharmacology whose research focuses on cancer biology and pharmacology. The appointment period may be up to five years and may be renewed.

Raymond W. Ruddon received his B.S. degree from the University of Detroit in 1958. He received his Ph.D. degree in 1964, and his M.D. degree in 1967 from the University of Michigan. He joined the faculty here as an instructor of pharmacology in 1964, and rose through the ranks to professor in 1974. Dr. Ruddon resigned in 1976 to join the National Cancer Institute, but returned in 1981 as a professor and chair of the Department of Pharmacology. From 1986-1990, he was an associate director for basic science research at the University of Michigan Comprehensive Cancer Center. From 1988-1990, he also held the title of Maurice H. Seevers Professor of Pharmacology. In 1990, Dr. Ruddon joined the faculty at the University of Nebraska, and in 1997 became the corporate director for science and technology at Johnson and Johnson. Dr. Ruddon again returned to the University of Michigan in 2004 as a professor of pharmacology and the senior associate dean for research and graduate studies.

Dr. Ruddon’s research interest focused on the biosynthesis, assembly, folding and secretion of glycoprotein hormones. His laboratory was the first to demonstrate the folding pathway of a human protein inside an intact cell. He has authored more than 100 scientific papers and five books, including the widely used oncology text, Cancer Biology. He was editor of the chemotherapy chapters of the ninth edition of the pharmacology textbook, Goodman and Gilman’s The Pharmacological Basis of Therapeutics.
This professorship will recognize the career and contributions of Dr. Ruddon. I am pleased, therefore, to recommend the establishment of the Raymond W. Ruddon Collegiate Professorship in Cancer Biology and Pharmacology, Medical School, effective September 1, 2016.

Provost and Executive Vice President for Academic Affairs
Recommendations for approval of other personnel transactions for regular instructional staff and selected academic and administrative staff
On the recommendation of the dean and Executive Committee of the School of Public Health, we are pleased to recommend the transfer of tenure and appointment of Ana Baylin from associate professor of epidemiology, with tenure, and associate professor of environmental health sciences, without tenure, to associate professor of nutritional sciences, with tenure, and associate professor of epidemiology, with tenure, School of Public Health, effective September 1, 2016.

Professor Baylin received both her M.S. in epidemiology and Dr.P.H. in nutritional epidemiology from the Harvard School of Public Health in 1999 and 2002, respectively. She received her M.P.H. in 1994 from the National School of Public Health in Madrid, Spain, and her M.D. from the University of Alcala de Henares also in Madrid, Spain. Following a post-doctoral research fellowship at Harvard School of Public Health from 2003-2006, she served as an assistant professor at Brown University from 2006-2009. She joined the University of Michigan faculty as an assistant professor in 2009 and was promoted to associate professor, with tenure, in 2012.

Professor Baylin is an outstanding researcher and a dedicated teacher. Her productivity has provided research and training opportunities to numerous students. She is interested in the emerging burden of chronic disease in developing countries, in particular, cardiovascular disease, obesity, and metabolic syndrome, which have started to exceed those in developed countries. She is also currently developing interventions to prevent cardiometabolic risk at the work site level. Professor Baylin is a member of the American Heart Association and American Society for Nutrition. She is also a member of the Society of Epidemiologic Research which is the professional home of our nation’s best research epidemiologists.
We are pleased to recommend the transfer of tenure and appointment of Ana Baylin from associate professor of epidemiology, with tenure, and associate professor of environmental health sciences, without tenure, to associate professor of nutritional sciences, with tenure, and associate professor of epidemiology, with tenure, School of Public Health, effective September 1, 2016.

September 2016
I am pleased to recommend for Regental approval the appointment of Kathryn A. Huss as interim director, Museum of Art, effective October 1, 2016 until a permanent director is appointed.

Ms. Huss received her B.A. degree in business from Ohio University and has over 35 years of non-profit management experience. As deputy director and chief administrative officer, she has led the day-to-day administrative functions of the Museum of Art since 2006. This includes financial management, budgetary development and oversight, human resources, facilities and security operations as well as detailed oversight of the building expansion and renovation. She has served as a member of the museum’s senior management team since 2010, working closely with the director in all areas of managing the museum. Ms. Huss has been a member of the museum’s staff since 1997.

Kathryn A. Huss has extensive leadership experience in museum administration at the University of Michigan Museum of Art. I am confident that she will be an excellent interim director of the Museum of Art, and I am grateful that she is willing to assume this new responsibility during this period of transition. I am pleased to recommend this appointment, effective October 1, 2016.

Respectfully submitted,

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Correction to Previously Submitted Regents Communication

NAME: Steven L. Kunkel, Ph.D.

DATE: September 1, 2016

In the April 1997 Regents Communication requesting that Steven L. Kunkel, Ph.D. be appointed as the Pathology Research Endowed Professor, Medical School, effective June 1, 1997 through May 31, 2002, the title is incorrect. The correction follows.

ADDITIONAL TITLE: Endowed Professorship in Pathology Research, Medical School

We respectfully request this correction of title for Dr. Kunkel’s appointment.

Recommended by:

Marschall S. Runge, M.D., Ph.D.
Executive Vice President for Medical Affairs
Dean, Medical School

Recommendation endorsed by:

for Academic Affairs

September 1, 2016
I am pleased to recommend the appointment of Kallie Bila Michels as interim vice president for
global communications and strategic initiatives, Office of the Vice President for Global
Communications and Strategic Initiatives effective September 1, 2016. She will continue in this
role until such time as a new vice president for global communications and strategic initiatives is
installed.

As interim vice president, Ms. Michels will oversee all aspects of both internal and external
communications for the university, including communication policy, media relations, advertising
and marketing, and creative editorial and design services. She will provide leadership on
communication strategy for the university and will counsel the president and executive officers
regarding communication issues.

Ms. Michels earned her B.A. in applied arts from Central Michigan University in 1985 and her
M.A. in advertising from Michigan State University in 1993.

Ms. Michels joined the University of Michigan in 1988 as an information officer in the Office of
Planning and Marketing for UM Hospitals and Health Centers. She held a number of positions
in the UM health system and in 2000, was appointed as the director of public relations for the
Health System. In 2008, she was appointed as the associate vice president in the Office of the
Vice President for Communications. Ms. Michels has developed and implemented
communication strategy for university initiatives and priorities. She has worked closely with the
president, executive officers and other university leaders in developing messaging and planning
media opportunities related to critical institutional issues. In 2011, she served as the interim vice
president for communications in the Office of the Vice President for Communications. She took
on an additional role in 2013-14 as the interim chief communications officer for the health
system.
It is with distinct pleasure that I recommend the appointment of Kallie Bila Michels as interim vice president for global communications and strategic initiatives, Office of the Vice President for Global Communications and Strategic Initiatives, effective September 1, 2016.

Respectfully submitted,

Recommendations for approval of reappointments of regular instructional staff and selected academic and administrative staff
THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST: Reappointment of an Academic Administrative Appointment

NAME: Donald J. Bord

CURRENT TITLES: Interim Chair, Department of Health and Human Services, and Professor of Physics, with tenure, College of Arts, Sciences, and Letters

TITLE BEING RENEWED: Interim Chair, Department of Health and Human Services, College of Education, Health, and Human Services

EFFECTIVE DATES: September 1, 2016 through December 31, 2016

On the recommendation of the dean of the College of Education, Health, and Human Services, and the provost and vice chancellor for academic affairs, I am pleased to recommend the reappointment of Donald J. Bord as interim chair, Department of Health and Human Services, College of Education, Health, and Human Services, effective September 1, 2016 through December 31, 2016.

Professor Bord received a B.A. in physics in 1970 from Hamilton College, a M.Sc. in physics in 1972 from Clarkson University, and a Ph.D. in astrophysics in 1976 from Dartmouth College, respectively.

He was appointed associate professor of physics at the University of Michigan-Dearborn in 1984 and promoted to his current rank in 1992. His research specialty involves using spectroscopic techniques to assess heavy and rare-earth element abundances in stars whose compositions are markedly different from the sun’s and carrying out ab initio quantum mechanical computations of energy levels and transition probabilities for lanthanide and actinide elements for use in producing synthetic stellar spectra. Professor Bord has published more than 40 peer reviewed articles in top-tier astronomy journals including The Astrophysical Journal, Astronomy and Astrophysics, The Astronomical Journal, and The Monthly Notices of the Royal Astronomical Society. Professor Bord has provided curricular leadership in the development of the campus' astronomy minor program and, as the PI for a grant from the NSF, oversaw the design and construction of the campus’ observatory, including the installation and commissioning of its 0.4-m telescope.

During his more than 30 years on campus, Professor Bord has served in a variety of administrative roles of increasing responsibility beginning as physics discipline chair (1986-89; 2000-05) and advancing to chair of the Natural Sciences Department (1990-93; 2011-14), associate dean of the College of Arts, Sciences, and Letters (CASL: 1994; 2005-07), interim dean of CASL (1999), interim provost and vice chancellor for academic affairs (2008-09), and associate provost (2009-11). Professor Bord has served as a project manager for Natural Sciences for three major construction initiatives (CW [$7M, 1992], SLRC [$9M, 2006], and SB
[$65M, ongoing]), and as chair of numerous high-level committees, including search committees for the dean of CASL, the dean of the College of Education, Health, and Human Services, and the vice chancellor for Business Affairs; the CASL Curriculum Committee; and the university Business Affairs Advisory Committee. In 2003, he was the inaugural recipient of the University of Michigan’s Jackie Lawson Memorial Faculty Governance Award for his work on the University Senate Assembly (UM-D representative), and the Senate Advisory Committee on University Affairs (Vice-Chair). Professor Bord has served as the interim chair of the Department of Health and Human Services, College of Education, Health, and Human Services since January 2016.

I am pleased to recommend the reappointment of Donald J. Bord as interim chair, Department of Health and Human Services, College of Education, Health, and Human Services, effective September 1, 2016 through December 31, 2016.

ACTION REQUEST:  Reappointment of an Academic Administrative Appointment

NAME:  William Grosky

CURRENT TITLES:  Chair, Department of Computer and Information Science, and Professor of Computer and Information Science, with tenure, College of Engineering and Computer Science

TITLE BEING RENEWED:  Chair, Department of Computer and Information Science, College of Engineering and Computer Science

TERM:  One Year

EFFECTIVE DATES:  September 1, 2016 through August 31, 2017

With the support of the Executive Committee and the dean of the College of Engineering and Computer Science, and with the endorsement of the provost and vice chancellor for academic affairs, I am pleased to recommend the reappointment of William Grosky as chair, Department of Computer and Information Science, College of Engineering and Computer Science, for a one-year term, effective September 1, 2016 through August 31, 2017.

William Grosky received a BS in mathematics from the Massachusetts Institute of Technology in 1965, followed by a MS in applied mathematics from Brown University and a Ph.D. in engineering and applied science from Yale in 1968 and 1971, respectively. During his 42 years in academia, 25 of them at Wayne State University, he rose steadily through the professorial ranks, and from 1995 through 2000 he served as interim chair of the Computer Science Department at Wayne State. He has served on many university, college, and department committees and directed nearly 40 masters and doctoral thesis projects.

Professor Grosky’s appointment as chair of the department was previously extended to permit the new dean to fully participate in the review process. A review committee has recommended a one-year terminal appointment to begin the search process for a new CIS chair.

I am pleased to recommend the reappointment of William Grosky as chair, Department of Computer and Information Science, College of Engineering and Computer Science, for a one-year term, effective September 1, 2016 through August 31, 2017.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Marcus Paroske

CURRENT TITLES: Chair, Department of Communication and Visual Sciences, and Associate Professor of Communication, with tenure, College of Arts and Sciences

RECOMMENDED TITLES: Chair, Department of Communication Studies, and Associate Professor of Communication, with tenure, College of Arts and Sciences

EFFECTIVE DATES: September 1, 2016 through June 30, 2019

The dean and the Executive Committee of the College of Arts and Sciences at the University of Michigan-Flint, with the endorsement of the Department of Communication Studies, are pleased to recommend the appointment of Marcus Paroske as chair, Department of Communication Studies, College of Arts and Sciences, effective September 1, 2016 through June 30, 2019.

Professor Paroske received his B.A. degree from Regis University in 1997, his M.A. degree from Colorado State University in 1999, and an M.A. degree and his Ph.D. from the University of Pittsburgh in 2005 and 2006, respectively. He joined the faculty at the University of Michigan-Flint as an assistant professor in 2007 and was promoted to associate professor, with tenure, in 2013.

Since joining the faculty at the University of Michigan-Flint, Professor Paroske served as the director of communication and most recently the chair of the Department of Communication and Visual Arts since July 2014. He served as a member of the Communication Program Assessment Sub-Committee and the Department Handbook and By-Laws Committee in the college. At the university level, he served as a member of the Strategic Planning Steering Committee and as the faculty fellow of the American Democracy Project in 2007-08 and 2012-13.
Professor Paroske is an effective leader. We are pleased to recommend the appointment of Marcus Paroske as chair, Department of Communication Studies, College of Arts and Sciences, effective September 1, 2016 through June 30, 2019.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Christine M. Waters

CURRENT TITLE: Professor of Art, with tenure, College of Arts and Sciences

ADDITIONAL TITLE: Chair, Department of Art and Art History, College of Arts and Sciences

EFFECTIVE DATES: September 1, 2016 through June 30, 2019

The dean and Executive Committee of the College of Arts and Sciences, with the endorsement of the Department of Art and Art History, are pleased to recommend the appointment of Christine M. Waters as chair, Department of Art and Art History, College of Arts and Sciences, effective September 1, 2016 through June 30, 2019.

Professor Waters received her M.A. and M.F.A. degrees from the University of Wisconsin-Madison in 1975 and 1977, respectively. She joined the faculty at the University of Michigan-Flint in 1987 as a visiting professor, was appointed as an assistant professor in 1988, was promoted to associate professor, with tenure, in 1994, and to professor in 2009. She served as the interim associate dean from 1997 through 2000, the associate dean from 2000 through 2005, and the interim dean from January through May 2007 for the College of Arts and Sciences. She served as the acting associate provost and dean of Graduate Programs from 2007-2008 and 2009-2010, the chair of the Department of Communication and Visual Arts from 2010-2011, and most recently served as the associate provost and dean of undergraduate studies from 2011-2016.

Professor Waters has also served on and led key committees including the Academic Affairs Advisory Committee, the Chancellor's Advisory Committee on Budget and Strategic Planning, Higher Learning Commission Self-Study Committee, Space Committee, Student Success Center Committee, and dozens of other committees too numerous to mention.

Professor Waters will be an effective leader. We are pleased to recommend Christine M. Waters as chair, Department of Art and Art History, College of Arts and Sciences, effective September 1, 2016 through June 30, 2019.
