

THE UNIVERSITY OF MICHIGAN
REGENTS COMMUNICATION

ACTION REQUEST

Subject: University of Michigan Hospitals and Health Centers
University Hospital
Interventional Radiology Equipment Replacement

Action Requested: Approval to Proceed with Project

Background:

This project will replace an existing interventional radiology unit originally installed in 2003. The affected rooms on Level B1 of University Hospital will be updated to meet current code and guidelines required for the planned procedures within this room. The scope of this project includes the architectural, electrical, and mechanical work necessary to accomplish these improvements. There will be no impact on parking from this project.

The estimated cost of the project is \$3,500,000. Funding will be provided from Hospitals and Health Centers' resources. The construction cash flow may be provided, all or in part, by bond proceeds or increasing the commercial paper issuance under the commercial paper program, secured by a pledge of General Revenues, and authorized by the Board of Regents. The architectural firm of Integrated Design Solutions will design the project. The project is expected to provide an average of four on-site construction jobs. Construction is scheduled to be completed in the spring of 2017.

We recommend that the Board of Regents approve the University of Michigan Hospitals and Health Centers University Hospital Interventional Radiology Equipment Replacement project as described, authorize commissioning the architectural firm of Integrated Design Solutions for its design, and authorize issuing the project for bids and awarding construction contracts providing that bids are within the approved budget.

Respectfully submitted,

Marschall S. Runge
Executive Vice President for Medical Affairs and
Dean, Medical School

Kevin P. Hegarty
Executive Vice President and
Chief Financial Officer
