

AWARDS ESTABLISHED
Research and Other Sponsored Activities
July 1, 2011 through February 29, 2012

**Received by the Regents
March 15, 2012**

The awards detailed in this list were established July 1, 2011 through February 29, 2012. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was established. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

Other Sponsored Activity	457	532	16.4%	\$ 73,972,802	\$ 50,422,174	-31.8%

The number of total awards processed in February increased dramatically from the previous February resulting in an increase in the dollar value of total awards for the month. As a result the year-to-date number totals have moved into positive territory for the first time since the end of the first quarter, with the year-to-date dollar values nearly equal to the previous fiscal year.
