

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

ACTION REQUEST

Subject: Regental Action Under the State of Michigan Conflict of Interest Statute

Action Requested: Authorize Execution of Investment Agreements for the Michigan Biomedical Venture Fund for Decimal Code, Inc.

Preamble:

In April 2016, the Board of Regents approved the Michigan Biomedical Venture Fund ("MBVF") and its guidelines. The purpose of the Michigan Biomedical Venture Fund is to provide seed and pre-seed capital to biomedical start-up companies based on underlying technologies from the University of Michigan's College of Engineering and Medical School.

The proposed investment agreements (the "Agreements") fall under the State of Michigan Conflict of Interest Statute because the listed Interested Individual(s) is/are both an employee of the University of Michigan ("University") and a partial owner of Decimal Code, Inc. (the "Company"). The law permits such an Agreement provided it is disclosed to the Board of Regents ("Regents") of the University of Michigan and approved in advance by a 2/3 vote.

Background:

The Michigan Biomedical Venture Fund is seeking approval for financing agreements up to a total of no more than 10% of the fund's total assets under management (through one or more rounds of financing) under MBVF for the below-listed startup. It is understood that, upon approval of this item, MBVF will have no obligation to enter into the Agreements or proceed with any investment in the company.

The Company, founded in 2023 has developed a machine learning-based automated surgical and anesthesiology billing platform to reduce billing errors.

Interested Individual(s):

Michael Burns, Ph.D. – Clinical Assistant Professor, Department of Anesthesiology at Michigan Medicine

John Vandervest, M.S. - Data Architect Specialist, Department of Anesthesiology at Michigan Medicine

Pecuniary Interest:

The pecuniary interests of Michael Burns and John Vandervest arise from their relationship with the Company.

Parties to the Agreement:

The Regents of University of Michigan and Decimal Code, Inc.

Agreement Terms Include:

The Michigan Biomedical Venture Fund will execute applicable standard agreements for venture capital investing. The University will receive future equity in the Company, along with the right to purchase more equity.

No use of University services or facilities, nor any assignment of University employees, is obligated or contemplated under the Agreement. Standard disclaimers of warranties and indemnification apply, and the Agreement may be amended by consent of the parties. University procedures for approval of these changes will be followed and additional conflict of interest review will be done as appropriate.

Recommendations:

We believe state law requirements have been met with the disclosure of the pecuniary interest and formal appointment arrangements with the University of Michigan. Requirements, if any, that may be applicable by the supervisors or designated conflict managers under the Conflict of Interest Policy at the applicable school, college or administrative unit within the University must be analyzed and managed in addition to the foregoing approval process.

I recommend that the Board of Regents authorize execution of agreements between the University of Michigan and Decimal Code, Inc. as set forth above.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "David C. Miller", with a stylized flourish at the end.

Dr. David C. Miller  
Executive Vice President for Medical Affairs
