AWARDS ESTABLISHED
Research and Other Sponsored Activities
July 1, 2013 through April 30, 2014

The awards detailed in this list were established July 1, 2013 through April 30, 2014. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was established. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

	Number of Awards FY 2013	Number of Awards FY 2014	% Change	Value of Awards FY 2013	Value of Awards FY 2014	% Change

Total Awards Processed Fiscal Year to Date	2,423	2,596	7.1%	\$ 958,435,942	\$ 814,733,537	-15.0%
Research Awards	1,453	1,503	3.4%	\$ 809,789,691	\$ 653,579,172	-19.3%
Research Training	109	124	13.8%	\$ 42,040,758	\$ 45,463,241	8.1%
Other Sponsored Activity	861	969	12.5%	\$ 106,605,493	\$ 115,691,124	8.5%

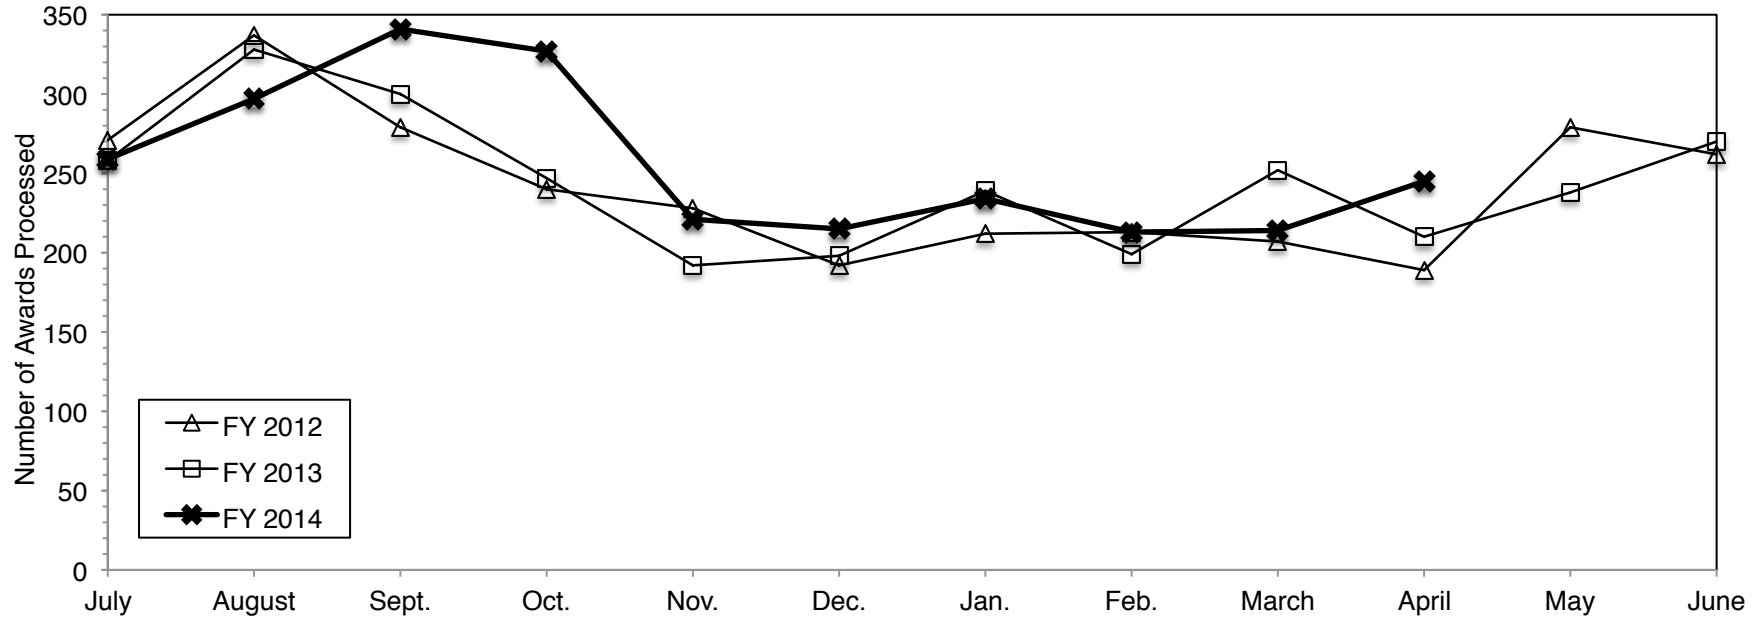

April FY2014 saw an increase in number of awards across all categories, as well as an increase in value of research awards and research training grants. April FY2014 also saw the highest number of awards for the month of April in the past three years. Similarly, the year-to-date total number of awards is the highest ever. While the number of awards increased in April and while there was small increase in total award dollars for the month, the year to date award totals for April are still behind the year-to-date total for the previous five fiscal years. Other sponsored activity saw a drop from April FY2013. This is primarily due to three large awards last year totaling \$4,315,143 not matched in April FY2014. Other sponsored activity year to date for April FY2014 remains up 8.5% from April FY2013.
