

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

ACTION REQUEST

Subject: University of Michigan Hospitals and Health Centers  
North Campus Research Complex Buildings 30, 35, 36 and 60, University Hospital, and  
University Hospital South  
Clinical Pathology Laboratories Relocation and Renovation

Action

Requested: Authorization to Issue the Project for Bids and Award Construction Contracts

Background:

At the December 2015 meeting, the Board of Regents approved the schematic design for the North Campus Research Complex (NCRC) Buildings 30, 35, 36 and 60, University Hospital, and University Hospital South Clinical Pathology Laboratories Relocation and Renovation project. The goals of the project are to enhance the clinical laboratory functions necessary to meet present and future growth in test volumes, improve operational efficiency, and reduce the expense of having laboratories in multiple locations. Pathology laboratories currently located within University Hospital, University Hospital South, Medical Science Unit I, North Ingalls Building, and leased space will be relocated to NCRC Buildings 30, 35, 36 and 60. The Michigan Medical Genetics Laboratory of the Department of Pediatrics will also be relocated to NCRC. The relocation will also provide faculty offices and space for resident training, and laboratories will be designed to provide flexibility to meet future education, research, and technology requirements. After the NCRC construction work is complete, laboratories at University Hospital and University Hospital South will be renovated to allow for increased throughput and the expansion of capacity for automated sample processing. In total, approximately 186,000 gross square feet of space will be renovated at NCRC, University Hospital and University Hospital South. The scope of this project includes the architectural, electrical, and mechanical work necessary to accomplish these improvements. There will be no impact on parking from this project. A Certificate of Need will be required from the State of Michigan Department of Community Health for this project.

The estimated cost of the project is \$160,000,000. Funding will be provided from Hospitals and Health Centers' resources. The construction cash flow may be provided, all or in part, by bond proceeds or increasing the commercial paper issuance under the commercial paper program, secured by a pledge of General Revenues, and authorized by the Board of Regents. The project is expected to provide an average of 118 on-site construction jobs. Construction is scheduled to be completed in the summer of 2019.

We recommend that the Board of Regents authorize issuing the University of Michigan Hospitals and Health Centers North Campus Research Complex Buildings 30, 35, 36 and 60, University Hospital and University Hospital South Clinical Pathology Laboratories Relocation and Renovation project for bids and awarding construction contracts providing that bids are within the approved budget.

Respectfully submitted,

Marschall S. Runge  
Executive Vice President for Medical Affairs and  
Dean, Medical School

Kevin P. Hegarty  
Executive Vice President and  
Chief Financial Officer
