

PROMOTION RECOMMENDATION
THE UNIVERSITY OF MICHIGAN
MEDICAL SCHOOL
DEPARTMENT OF OBSTETRICS AND GYNECOLOGY

Lindsay K. Admon, M.D., M.Sc., assistant professor of obstetrics and gynecology, Department of Obstetrics and Gynecology, Medical School, is recommended for promotion to associate professor of obstetrics and gynecology, with tenure, Department of Obstetrics and Gynecology, Medical School.

Academic Degrees:

M.Sc.	2018	University of Michigan, Ann Arbor, MI
M.D.	2012	University of Michigan, Ann Arbor, MI
B.A.	2008	Johns Hopkins University, Baltimore, MD

Professional Record:

2018-present	Assistant Professor, Department of Obstetrics and Gynecology, University of Michigan
2016-2018	Clinical Lecturer, Department of Obstetrics and Gynecology, University of Michigan

Summary of Evaluation:

Teaching: Dr. Admon is an active educator whose teaching activities include mentorship at multiple levels and clinical teaching and training. Learners include faculty members, post-doctoral fellows, medical students, and graduate and undergraduate students. She has also served on dissertation committees as a committee member. She gives ad hoc lectures to medical students and learners. In 2021, she was appointed as the associate director for pathway of excellence in health policy and economics at the Institute for Healthcare Policy and Innovation (IHPI). In this role, she has coordinated new seminars for the curriculum that reflect her expertise in health equity and provides mentorship to medical.

Research: Dr. Admon has conducted impactful research evaluating maternal outcomes and the influence of racial and economic disparities and inequities on the outcomes of maternal healthcare delivery. In fact, she is one of a handful of OBGYNs dedicated to health policy and her work has already had a meaningful impact in the field. Dr. Admon has had consistent and impressive grant funding. She is currently funded as a principal investigator an R01 and K08 through the Agency for Healthcare Research and Quality (AHRQ). Currently, she is the principal investigator of one the National Institutes of Health (NIH) R01 grants, to evaluate postpartum Medicaid eligibility extension through the Agency for Healthcare Research and Quality (AHRQ). Past funding sources include the NIH, the Department of Health and Human Services, society and foundation awards. She has authored 47 peer reviewed

manuscripts in high-impact journals such as *JAMA*, the *American Journal of Public Health*, and *Obstetrics & Gynecology*. Her work has attracted significant local, national, and international attention with more than 40 interviews or citations in the public press. She has been invited 13 occasions to present her work nationally. The AcademyHealth Annual Research Meeting awarded Dr. Admon with the Best Women's Health Abstract and the Best Medicaid, Coverage, and Access Abstract in 2022 and 2023 respectively.

PMID: 33206140; PMCID: PMC7675215.
- Daw JR, Winkelman TNA, Dalton VK, Kozhimannil KB, Admon LK, "Medicaid Expansion Improved Perinatal Insurance Continuity for Low-Income Women," *Health Aff (Millwood)*. 39(9): 1531-1539. 09/2020. PMID: 32897793.
- Kozhimannil KB, Interrante JD, Henning-Smith C, Admon LK, "Rural-Urban Differences in Severe Maternal Morbidity and Mortality in the US, 2007–15," *Health Aff (Millwood)*. 38(12): 2077-2085. 12/2019. PMID: 31794322.
- Admon LK, Winkelman TN, Zivin K, Terplan M, Mhyre JM, Dalton VK, "Racial and ethnic disparities in the incidence of severe maternal morbidity in the United States, 2012–2015," *Obstet Gynecol*. 132(5):1158-66. 11/2018. PMID: 30303912.

Service: Dr. Admon has an outstanding service record at the institutional and national levels. Nationally, she has been a member of the Women and Gender Health Interest Group Steering Committee. She has served as an ad hoc study section reviewer for the Center for Disease Control (CDC), AHRQ, NIH, and March of Dimes. In recognition of her research expertise, Dr. Admon has been invited to serve on several national organizations and federal agencies as a research consultant or advisory board member for an NIH/NICHD-funded project on community co-led maternal sepsis care practices, the American College of Obstetricians and Gynecologists, the CDC's Division of Reproductive Health, and the Medicaid and CHIP Payment and Access Commission, all focused on reducing maternal health disparities. Dr. Admon serves on the editorial board of *Obstetrics & Gynecology* and performs peer review services for several journals including *Maternal and Child Health*, the *American Journal of Obstetrics and Gynecology*, and *Annals of Internal Medicine*. Her peer review service for the journal of *Obstetrics & Gynecology* was recognized in 2021 through receipt of a Top 10% Reviewer award. Additionally, she was awarded several "Best of ARM" awards from the AcademyHealth Annual Research Meeting for best abstract for her

themes (2021, 2022, and 2023). Regionally, Dr. Admon is a member of the Michigan Health and Hospital Association's Health Equity Task Force. Institutionally, she is the associate director of Health Policy and Economics Pathway of Excellence and serves on the Senate Advisory Committee on University Affairs (SACUA) and as SACUA's liaison to the health system's Medical Affairs Advisory Committee. She also performs service at the department level by examining residents and serving on residency interview committees. Dr. Admon's commitment to DEI is clear through her research program and service roles.

Dr. Admon maintains an active clinical practice as a laborist in the Birth Center where she provides full-scope maternity care including surgery and emergency care. She is a member Division of Women's Health and has worked to mentor her colleagues to become more research and scholarship-oriented.

External Reviewers:

Reviewer A: "In addition to serving as an outstanding editorial board member at the Green Journal, Dr. Admon is a prolific researcher. She has published several manuscripts with our journal, which only accepts ~8% of submitted papers. Her research portfolio intersects with Medicaid policy, health disparities (racial and urban/rural), mental health, and severe maternal morbidity and mortality (SMM). These critical issues must be addressed to improve reproductive health for all people in the United States. Dr. Admon's research tackles these problems pragmatically and with methodologic rigor. Her research takes the difficult, but much-needed leap, from problem definition to solution-driven interventions."

Reviewer B: "Given her expertise, she has been asked to be an advisory board member for the National Institute on Minority Health and Health Disparities, a study section member for NIH and AHRQ, a member of the Editorial Board for Obstetrics and Gynecology, and a reviewer for multiple journals. She also has mentored numerous individuals at all levels of training. Presently, she is the Associate Director for the Health Policy and Economics Pathway of Excellence at the University of Michigan Medical School."

Reviewer C: "Her work has been presented at major national meetings – NIH, Academy Health, as well as many others and was named 'Best of ARM' in 2022 and 2023 for her research areas at AcademyHealth Annual Research Meeting. In addition, to the impact and quantity of her publications, she has significant research funding as PI of [an] RO1 on maternal and child health and postpartum Medicaid eligibility extensions and as the recipient of a K08 on the impact of insurance disruptions on maternal and child health outcomes. Dr. Admon has built an impressive career as a junior faculty member at the University of Michigan."

Reviewer D: “She has already published 40 peer-reviewed articles and has others in the pipe line....Compared with her peers, she is outstanding and I would estimate is in the top 5% of general ob-gyn academicians at her stage of career.”

Reviewer E: “She has also mentored several trainees in this area, most resulting in publications and national presentations. She is a good ambassador for the UM system as a national voice for improvements in Women’s Health Care and has been working at a national level to better define where we are so we can target improvements. Her recent publication in Obstetrics and Gynecology looking at state-level data is an important example of work she is doing that will help affect change.”

Reviewer F: “Lastly, Dr. Admon has been a valuable contributor to academic obstetrics and gynecology. She has served as a peer reviewer for numerous journals, she serves on an editorial board, and she has served on numerous grant review panels and study sections. She has participated in a number of advisory boards. Dr. Admon has served as an invited speaker at several regional and national and participated in an impressive number of media engagements to promote her work and women’s health. Finally, she has been the recipient of numerous awards from professional societies recognizing her scholarly potential.”

Summary of Recommendation:

Dr. Admon is a national expert in maternal health services research and maternal health policy recognized expert in reproductive health services research and Medicaid policy. She is widely recognized as a leader in the field of maternal health services research and is highly regarded by all who work with her as an innovative and collaborative scientist and exceptional mentor. She is an outstanding educator, clinician, and scholar. I am pleased to recommend Lindsay K. Admon, M.D., M.Sc. for promotion to associate professor of obstetrics and gynecology, with tenure, Department of Obstetrics and Gynecology, Medical School.
