

AWARDS ESTABLISHED  
Research and Other Sponsored Activities  
July 1, 2012 through June 30, 2013

**Received by the Regents  
July 18, 2013**

The awards detailed in this list were established July 1, 2012 through June 30, 2013. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was established. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

	Number of Awards FY 2012	Number of Awards FY 2013	% Change	Value of Awards FY 2012	Value of Awards FY 2013	% Change

Other Sponsored Activity	773	1,043	34.9%	\$ 69,914,619	\$ 121,148,501	73.3%

There was a dramatic decline in the total dollar value of awards processed in June 2013 when compared with June 2012. Overall there was nearly no growth in total awards processed in terms of number and dollar value at year-end. Research awards experienced a decline in both number and dollar value for the month of June as well year-end. There were 239 fewer research awards in FY 2013 compared with FY 2012 resulting in a decline of nearly \$54 million.
