

President Schlissel, members of the Board of Regents, and Executive Officers of the University, I am pleased and honored to submit the following report to you on behalf of the Central Student Government. Below is a brief update of our activities, operations, and goals as we continue to serve the students of this University.

Student Safety

Hydration Stations

- To better ensure that students are staying properly hydrated on Football Saturdays, we are working to establish free hydration stations in high-risk areas on the way to Michigan Stadium, including on Hill, Packard, and South State Streets.
- We have begun to communicate with the Athletic Department, Absopure Water Company, and Greek Life to properly plan for, and adequately fund, this initiative, so that it is up in time for the first home football game, on Saturday, September 3rd.

CSG Alcohol-Free Tailgate

- To provide students with an alcohol-free alternative on a Football Saturday, and thus to further enhance student safety, CSG will be hosting an alcohol-free tailgate on Saturday, September 17th, as Michigan Football takes on the University of Colorado at 3:30pm.
- Later games, such as those 3:30pm and beyond, pose greater risk to students. In the past, CSG has successfully sponsored similar events, most recently in 2013, when Michigan played a night game against Notre Dame.
- We have begun collaborating with the Athletic Department and Recreational Sports, and we look forward to onboarding additional UM departments and divisions, including Michigan Dining and Wolverine Wellness.

Summer Assembly

- This Summer Assembly has finished meeting for the summer. It met three times, and, in total, distributed \$28,292.80 to 22 registered student organizations, ranging from Sinaboro, a traditional Korean drumming group, to Blueprints for Pangea, which ships medical supplies to countries in need.
- Student organization funding will resume at the start of the Fall Semester.

Mental Health

- On behalf of the student body, which has grown increasingly passionate about, and vocal in its support for, student mental health and wellness, we would like to thank Provost Pollack and Vice President Harper for increasing the Counseling and Psychological Services' (CAPS) budget to provide for the addition of four professional staff members.

- CSG remains committed in its support for University- and student-led mental health initiatives, and we look forward to continuing our work in this area. With the help of CAPS and Student Life Research Associate staff members, we are currently working on drafting two surveys to gauge the mental health climate in classrooms and student access to relevant resources. We plan to disseminate them to the student body in September.

CSG: Diversity, Communication, and Transparency

- In the same spirit as the President's Diversity, Equity, and Inclusion (DEI) efforts, once every CSG Executive Team, Assembly, and Commission member is back for the year and in a role, we plan to assess our diversity as an organization and reflect on how we can more fully represent the entire student body.
- To better communicate with students, we are also in the process of revamping our website. When the year resumes in September, we also plan to reach out to first-year students by hosting interest meetings in Residence Halls on North Campus, the Hill, and Central Campus.

Respectfully submitted,

David Schafer
President, Central Student Government

University of Michigan-Dearborn Student Government

July 2016 Regents' Report

President Schlissel, members of the Board of Regents, and Executive Officers of the University, it is my pleasure and honor to submit the following report to you on behalf of the University of Michigan-Dearborn Student Government (SG). We truly appreciate this opportunity to inform you on all the initiatives Student Government is working on throughout the year.

Continued Commitments to Sexual Assault Prevention Utilizing the \$38,000 grant UM-Dearborn won in October 2015 to promote sexual assault awareness and prevention programming, we have committed to working with the Office of Student Engagement, Athletics Department, and Greek Life to promote Consent and Bystander Training on campus. The first Consent Training of the summer is scheduled for Thursday, July 14th at 5pm in Kochoff AB. Additionally, in collaboration with the Campus Video Network, the Sexual Assault and Public Safety committee within Student Government has been diligently creating the script for an awareness/informational video that takes viewers through their options within the University and local Police Department after a sexual assault. The sexual assault policy, which was released on July 1st, will be detailed and there will be information on who a student can report to, where the information travels after a report, who/what our resources are, our rights during an investigation, and possible outcomes. We will be asking to debut this video at the annual SOLID conference, a mandatory summer training for all student organization leaders at UM-Dearborn hosted by the Office of Student Engagement. Lastly, the University will initially be targeting Haven (an online training to help understand the critical issues of sexual assault, relationship violence, stalking, and sexual harassment) to incoming freshmen this Fall, gradually building the target populations throughout the year. Student Government will continue to help market and advocate for campus-wide online training for all students.

Engineering SI (Supplemental Instruction) Program Launch: Since Winter 2016, Student Government has worked with the Engineering Department to advocate for the creation of an SI program. We surveyed engineering majors during finals week and talked to several faculty members to discover which courses were in the most demand for supplemental instruction. The list of difficult courses were sent over to the Engineering department. I am excited to inform you that starting in the Fall, the Engineering SI program will be launching with 2 classes. I anticipate this program growing rapidly, and being tremendously helpful for the Engineering students at UM-Dearborn.

Thank you for taking the time to read this update regarding the work done by the UM-Dearborn Student Government, and thank you for your commitment to the University of Michigan System and its students.

Best Regards,

Fiana Arbab

President, UM-Dearborn Student Government
