

AWARDS PROCESSED
Research and Other Sponsored Activities
September 1, 2005 through September 30, 2005

The awards detailed in this list were processed from September 1, 2005 through September 30, 2005. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified, as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was received. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.

Other Sponsored Activity	161	119	(26.1%)	\$33,197,930	\$17,831,351	(46.3%)

There continues to be some softness in FY 2006 awards when compared with FY 2005. Some of the decline in award value is caused by a \$40 million award received in FY 2005. However this past month includes the receipt of \$17.5 million and \$14.1 million awards.
