

**SUMMARY OF PERSONNEL ACTIONS  
REGENTS AGENDA  
OCTOBER 2014**

**ANN ARBOR CAMPUS – Recommendations for approval**

**1. New appointments and promotions for regular associate and full professor ranks, with tenure.**

- (1) Siegel, Jordan I., associate professor of strategy, with tenure, Stephen M. Ross School of Business, effective September 1, 2015.
- (2) Tsang, Leung, professor of electrical engineering and computer science, with tenure, College of Engineering, effective January 1, 2015.
- (3) Wilson, Camille M., associate professor of education, with tenure, School of Education, effective September 1, 2014.
- (4) Ye, Jieping, Ph.D., associate professor of computational science and bioinformatics, with tenure, Medical School, and associate professor of electrical engineering and computer science, without tenure, College of Engineering, effective January 1, 2015.

**2. New appointments and promotions for regular associate and full professor ranks, without tenure.**

- (1) Ryan, Andrew, associate professor of health management and policy, without tenure, School of Public Policy, effective January 1, 2015.

**3. Reappointments of regular instructional staff and selected academic and administrative staff.**

- (1) Rosa, Joseph, director, University of Michigan Museum of Art, effective July 1, 2015 through June 30, 2020 (also professor of architecture, with tenure, A. Alfred Taubman College of Architecture and Urban Planning.)
- (2) Winfield, Robert A., chief health officer, Office of the President, effective November 1, 2014 (also executive director of university health service, Office of the Vice President for Student Life.)

**4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.**

- (1) Auchus, Richard J., professor of pharmacology, without tenure, Medical School, effective October 1, 2014 (also professor of internal medicine, with tenure.)
- (2) Bagenstos, Samuel R., Frank G. Millard Professor of Law, Law School, effective October 1, 2014 through September 30, 2019 (also professor of law, with tenure.)

**SUMMARY OF PERSONNEL ACTIONS  
REGENTS AGENDA  
OCTOBER 2014**

**ANN ARBOR CAMPUS – Recommendations for approval**

**4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.**

- (3) Barr, Michael S., Roy F. and Jean Humphrey Proffitt Professor of Law, Law School, effective October 1, 2014 through September 30, 2019 (also professor of law, with tenure, Law School, and professor of public policy, without tenure, Gerald R. Ford School of Public Policy.)
- (4) Bernal-Mizrachi, Ernesto, M.D., associate professor of molecular and integrative physiology, without tenure, Medical School, effective October 1, 2014 (also Larry D. Soderquist Professor, and associate professor of internal medicine, with tenure.)
- (5) Cohen, Mark S., M.D., associate professor of pharmacology, without tenure, Medical School, effective October 1, 2014 (also associate professor of surgery, with tenure.)
- (6) Hafez, Khaled, M.B.B.ch., Ph.D., Valassis Professor of Urologic Oncology, Medical School, effective October 1, 2014 through August 31, 2019 (also clinical professor of urology.)
- (7) Harris, Lisa H., M.D., Ph.D., F. Wallace and Janet Jefferies Collegiate Professor of Reproductive Health, Medical School, effective October 1, 2014 through August 31, 2019 (also associate professor of obstetrics and gynecology, with tenure, Medical School, and associate professor of women's studies, without tenure, College of Literature, Science, and the Arts.)
- (8) Jeruss, Jacqueline S., M.D., Ph.D., associate professor of pathology, without tenure, Medical School, effective October 1, 2014 (also associate professor of surgery, with tenure, Medical School, and associate professor of biomedical engineering, without tenure, Medical School and College of Engineering.)
- (9) McKay, Timothy A., professor of education, without tenure, School of Education, effective September 1, 2014 (also Arthur F. Thurnau Professor, professor of physics, with tenure, and professor of astronomy, without tenure, College of Literature, Science, and the Arts.)
- (10) Parrish, Susan Scott, associate professor of environment, without tenure, College of Literature, Science, and the Arts, and School of Natural Resources and Environment, effective September 1, 2014 (also associate professor of English language and literature, with tenure, College of Literature, Science, and the Arts.)

**SUMMARY OF PERSONNEL ACTIONS  
REGENTS AGENDA  
OCTOBER 2014**

**ANN ARBOR CAMPUS – Recommendations for approval**

**4. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.**

- (11) Piskorowski, Wilhelm A., assistant dean for community-based dental education, School of Dentistry, effective November 1, 2014 through October 31, 2019 (also clinical associate professor of dentistry.)
- (12) Pottow, John A.E., John Philip Dawson Collegiate Professor of Law, Law School, effective October 1, 2014 through September 30, 2019 (also professor of law, with tenure.)
- (13) Ragsdale, Stephen W., Ph.D., David Ballou Collegiate Professor, Medical School, effective October 1, 2014 through August 31, 2019 (also professor of biological chemistry, with tenure.)
- (14) Schlanger, Margo, Henry M. Butzel Professor of Law, Law School, effective October 1, 2014 through September 30, 2019 (also professor of law, with tenure.)
- (15) Seeley, Randy J., Ph.D., professor of internal medicine, without tenure, Medical School, effective October 1, 2014 (also professor of surgery, with tenure.)
- (16) Shea, Lonnie D., William and Valerie Hall Department Chair of Biomedical Engineering, Department of Biomedical Engineering, College of Engineering and Medical School, effective October 1, 2014 through August 31, 2019 (also professor of biomedical engineering, with tenure.)
- (17) Toyama, Kentaro, W. K. Kellogg Professor of Community Information, School of Information, effective January 1, 2015 through December 31, 2019 (also associate professor of information, with tenure.)

**5. Establishing and renaming professorships and selected academic administrative positions.**

- (1) Change in name of an existing Endowed Collegiate Professorship to the J. Reid and Polly Anderson Professorship in Manufacturing, College of Engineering, effective October 1, 2014 (currently the J. Reid and Polly Anderson Professorship in Manufacturing Technology.)
- (2) Naming of an existing Unendowed Collegiate Professorship as the Theodore J. St. Antoine Collegiate Professorship, Law School, effective October 1, 2014.

**SUMMARY OF PERSONNEL ACTIONS  
REGENTS AGENDA  
OCTOBER 2014**

**ANN ARBOR CAMPUS – Recommendations for approval**

- 5. Establishing and renaming professorships and selected academic administrative positions.**
- (3) Change in name of an existing Unendowed Collegiate Professorship to the Michael D. Cohen Collegiate Professorship in Information, School of Information, effective January 1, 2015 (currently the Paul M. Fitts Collegiate Professorship in Human Computer Interaction.)
  - (4) Establishment of a Collegiate Professorship as the William W. Coon Collegiate Professorship in Surgical Oncology, Medical School, effective October 1, 2014.
  - (5) Change in name of an existing Unendowed Collegiate Professorship as the Daniel Kahneman Collegiate Professorship in Information, School of Information, effective January 1, 2015 (currently the William D. Hamilton Collegiate Professorship in Complex Systems.)
  - (6) Change in name of an existing Unendowed Collegiate Professorship to the Robert M. Warner Collegiate Professorship in Information, School of Information, effective January 1, 2015 (currently the Margaret Mann Collegiate Professorship in Information.)
  - (7) Change in name of an existing Collegiate Professorship to the Thomas H. Simpson Collegiate Professorship, Medical School, effective October 1, 2014 (currently the Thomas H. Simpson Collegiate Professorship II.)
  - (8) Change in name of an existing Collegiate Professorship to the Thomas H. Simpson Collegiate Professorship in Cancer Research, Medical School, effective October 1, 2014 (currently the Thomas H. Simpson Collegiate Professorship I.)

**FLINT CAMPUS – Recommendations for approval**

- 6. Joint or additional appointments or transfers of regular associate or full professors and selected academic and administrative staff.**
- (1) Hanashiro, Roy S., interim chair, Department of History, College of Arts and Sciences, effective September 1, 2014 through June 30, 2015 (also professor of history, with tenure.)

**COMMITTEE APPOINTMENTS**

- 7. Ann Arbor and Dearborn campuses.**

Recommendations for approval of new appointments  
and promotions for regular associate and full professor ranks,  
with tenure

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

**ACTION REQUEST:** Faculty Appointment Approval

**NAME:** Jordan I. Siegel

**TITLE:** Associate Professor of Strategy, Stephen M. Ross School of Business

**TENURE STATUS:** With Tenure

**EFFECTIVE DATE:** September 1, 2015

**APPOINTMENT PERIOD:** University Year

On the recommendation of the Dean of the Stephen M. Ross School of Business, we are pleased to recommend the appointment of Jordan I. Siegel as associate professor of strategy, with tenure, Stephen M. Ross School of Business, effective September 1, 2015.

**ACADEMIC DEGREES**

Professor Siegel completed his Ph.D. in strategy and international management at the Massachusetts Institute of Technology, Sloan School of Management in 2003. He completed both his M.A. and his B.A. in political science at Yale University in 1998.

**PROFESSIONAL RECORD**

Professor Siegel was an assistant professor of business administration (2003-2008) and is presently an associate professor of business administration at Harvard University.

**SUMMARY OF EVALUATION**

Professor Siegel is an outstanding scholar whose work meets the highest standards of quality and has made very important contributions to the global strategy literature. He has achieved prominence in his field by developing a creative and distinct body of work that examines how firms can exploit and adapt to institutional differences across countries. Professor Siegel's stream of research on the strategic implications of cultural differences across countries further suggests how firms can adapt to and exploit institutional differences in foreign markets.

Professor Siegel has earned a reputation as an outstanding scholar not only due to the creativity with which his studies are designed, but also due to the exceptional care and thoroughness of his empirical work. His unique, multi-method approach to strategy research allows him to "get close to the phenomenon" without sacrificing rigor, which gives his findings a heightened level of credibility and resonance. Professor Siegel is widely viewed in the field as "a scholar's scholar."

Professor Siegel's teaching record is exceptionally strong on multiple dimensions. He taught Global Strategic Management in Harvard Business School's (HBS) Executive MBA (EMBA) and daytime MBA Programs, and received consistently strong ratings in their demanding teaching environment.

He also made significant improvements to the curriculum of HBS' global strategic management course.

Professor Siegel is also innovative in his pedagogical approach. He has developed a novel twist of the case method that uses techniques from research in political science on deliberative democracy. The goal of his approach is to apply techniques from this literature to increase students' openness to different points of view and their willingness to publically change their position on central issues in a case over the course of a discussion.

Professor Siegel is very active on the service dimension having served as deputy coordinator of the HBS Strategy unit's doctoral program for several years. He informally advised the majority of the Strategy unit's doctoral students, and represented his unit on the HBS Doctoral Policy and Admissions Committee, which makes final admission decisions and sets policy for the doctoral program. Professor Siegel's commitment to PhD advising was recognized by the doctoral students at HBS, who honored him with the 2009 Wyss Award for Excellence in Mentorship. This award is given to only two faculty members in the school each year.

Professor Siegel also chaired HBS' Executive Program on Global Strategic Management, which enrolled approximately sixty senior managers each year. In this capacity, Professor Siegel designed the program and recruited colleagues to deliver sessions that he did not teach personally. In addition to these significant leadership roles, Professor Siegel coordinated the HBS International Seminar Series, organized the HBS International Research Conference, and served on various school-level and university-level committees. Professor Siegel's extensive involvement in service as a junior professor bodes very well for his potential leadership contributions as a senior member of the Strategy Group at the Ross School.

#### EXCERPTS FROM EXTERNAL REVIEWERS

Reviewer (A) "Jordan is an impressive scholar on many dimensions, but I would highlight two. First, Jordan's papers are connected to each in a more fundamental way than those of many comparable scholars I know. A second dimension...is that his best papers show a dogged determination get his facts right. ...I support your making a tenured offer to Jordan Siegel. You won't find better research from any strategy scholar of his vintage. ...I think he would be a good tenured appointment for a top business school."

Reviewer (B) "I am strongly in support of such an appointment. I believe that Jordan is one of the two or three brightest strategy and international business scholars of his age cohort. He has developed a unique niche for himself within the broad field of the impact of institutions on business, and has been successful at publishing his research in some of the most competitive journals. He is a versatile instructor, having successfully taught in the MBA and executive-education classrooms. He is very much devoted to PhD education. I frequently hear from Harvard PhD students that he is the most accessible and useful advisor on campus. In sum, I think Jordan is an accomplished scholar with a strong and distinctive record. He is well-known in the field and has carved out a unique niche for himself. I strongly support his appointment as tenured Associate Professor at Michigan."

Reviewer (C) "Jordan Siegel is an extremely bright, creative, and productive [junior] scholar. If he were at my institution I would support his case for tenure without reservation. ...I would expect that he is a highly-ranked, and sought-after, instructor. His presentations are clear and well-thought out, and he is poised in the classroom. ...I have high regard for Jordan Siegel."

Reviewer (D) "Professor Siegel has made outstanding contributions to scholarship in strategy and international business, and clearly merits tenure. I have always found Professor Siegel to be very thoughtful and open-minded, and receptive to researchers using a variety of perspectives and methods. Overall, Professor Siegel has an outstanding record in terms of quality and quantity of journal publications. Professor Siegel is extremely well-regarded in the profession, as his three editorial review board memberships attest. He has also given back to the profession not only through his board memberships and extensive reviewing, but also through service to academic societies and at Harvard. This is a record that would merit tenure at any top business school in the world, including my own. Professor Siegel is one of the very top researchers in his area at his stage of career in the world today. He is also a very nice person, who would be a wonderful addition to any business school. I strongly support the appointment of Professor Siegel as Associate Professor with tenure."

Reviewer (E) "I believe that...his contributions are in the form of broadening – and also vastly improving upon the quality of – traditional IB scholarship. One of his contributions is simply broadening the empirical foci of IB research. Another of his contributions is to open new research areas and to ask fresh research questions in existing research areas. I believe these two sets of contributions are already sufficient to warrant tenure for Professor Siegel at a top business school in North America. I also believe that compared with vast majority of IB researchers Professor Siegel's

research is more careful in identifying causes and effects and in dealing with endogeneity issues and is more data-intensive. If it is up to me, I would attempt to recruit him to... In terms of his service contributions, I think they are substantial. ...he has done an excellent job."

SUMMARY

I enthusiastically recommend the appointment of Jordan I. Siegel as associate professor of strategy, with tenure, Stephen M. Ross School of Business, effective September 1, 2015.

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

ACTION REQUEST: Faculty Appointment Approval  
NAME: Leung Tsang  
TITLE: Professor of Electrical Engineering and Computer Science,  
College of Engineering  
TENURE STATUS: With Tenure  
EFFECTIVE DATE: January 1, 2015  
APPOINTMENT PERIOD: University Year

On the recommendation of the Executive Committee of the College of Engineering, I am pleased to recommend the appointment of Leung Tsang as professor of electrical engineering and computer science, with tenure, College of Engineering, effective January 1, 2015.

ACADEMIC DEGREES

Professor Tsang received his S.B., S.M. and Ph.D. degrees in electrical engineering from the Massachusetts Institute of Technology in 1971, 1973 and 1976, respectively.

PROFESSIONAL RECORD

Upon completion of his Ph.D., Professor Tsang accepted the position of research engineer with the Schlumberger-Doll Research Center. Between 1978 and 1980, he served as a lecturer and research associate at the Massachusetts Institute of Technology. In 1980, he was appointed as an assistant professor at the Texas A&M University and was promoted to associate professor, with tenure, in 1982. In 1983, he joined the faculty at the University of Washington as an associate professor and was promoted to professor in 1986. From 2001 to 2004, while on leave from Washington, Professor Tsang served as chair professor and assistant head at the City University of Hong Kong. Since returning to Washington, he has served as acting chair from 2006 to 2007 and chair from 2007 to 2011.

SUMMARY OF EVALUATION

Professor Tsang's area of expertise is applied electromagnetics and his focus of research is remote sensing of environment using space-borne radars and radiometers. His reputation and stature puts him among the top 10 academicians and scientists worldwide in his field of research. He is particularly adept at complex mathematical treatments of electromagnetic wave interactions with natural targets characterized by random volumes and surfaces. He has also been able to put his mathematical skills in computational electromagnetics to significantly speed up the solution of special problems related to complex circuits and interconnects. His in-depth

contributions over the past 35 years has laid the groundwork for analyses of radar and radiometer remote sensing data and development of new measurements and airborne and space-borne systems all aimed at monitoring the environment and the earth's processes including monitoring climate change, improving hydrological predictions, and managing water and agricultural resources. Professor Tsang's original contributions and pioneering discoveries have resulted in the more than 280 journals. His textbooks are widely used and considered the best in the theory of microwave remote sensing of the earth.

Professor Tsang has served as the president of the IEEE Geoscience and Remote Sensing Society from 2006 to 2007 and the editor-in-chief of the IEEE *Transactions on Geoscience and Remote Sensing* from 1996 to 2000 (and previously associate editor from 1987 to 1995 and 2001 to 2009). He has also served as a member of the editorial board and as a guest editor of *Proceedings of IEEE*.

## EXCERPTS FROM EXTERNAL REVIEWS

REVIEWER A: "I can summarize Prof. Tsang's academic contributions by saying that there is no other person who has contributed as much to the theory of passive microwave remote sensing during the past three decades as has he...Prof. Tsang's level of intellectual attainment is exceptional, and clearly seen in his record of over 280 peer-reviewed publications, along with several widely referenced texts. This record alone is a strong and accurate testament to the extent, acceptance, and impact on the community of his work...I can think of no better candidate

with the extensive experience, degree of international respect, or dedication to the academic profession for the position you seek than Prof. Tsang.”

REVIEWER B: “He is no doubt one of the top scientists in the field of the theory of microwave remote sensing, both active and passive...His ability to select important problems is demonstrated, on one hand, by the impressive number of citations and, on the other hand, by the awards he has received.”

REVIEWER C: “I believe that Professor Tsang is one of the best researchers, educators, and leaders in the field of remote sensing and electromagnetics. His addition to the University of Michigan will further strengthen the position of the Radiation Laboratory as the worldwide leading research and education center in electromagnetics and remote sensing.”

REVIEWER D: “Leung is an excellent researcher. He has been a leader in the field of scattering and propagation in random media for many years...I have great respect for his work...I believe that he is a first class researcher and would be a valuable asset on your faculty.”

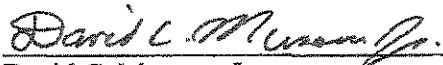

REVIEWER E: “Prof. Tsang has a long and outstanding experience as Scientist and leader...He is without any doubt qualified to hold efficiently and effectively a leading position at a major research university...Prof. Tsang is an outstanding scientist and teacher, there are not many of his quality around the world. It can be expected that he will be in the future even more productive, based on his experience and on the available support.”

#### SUMMARY OF RECOMMENDATION

Professor Tsang has a proven record of research excellence and a strong record of collegial interactions with peers. We are presented with a unique opportunity to hire a truly outstanding candidate whose research is in critical areas of current relevance to the Department of Electrical Engineering and Computer Science and the College of Engineering. I am pleased to recommend the appointment of Leung Tsang as professor of electrical engineering and computer science, with tenure, College of Engineering, effective January 1, 2015.

October 2014

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

Approved by the  
Regents  
October 16, 2014

ACTION REQUEST: Faculty Appointment Approval  
NAME: Camille M. Wilson  
TITLE: Associate Professor of Education, School of Education  
TENURE STATUS: With Tenure  
EFFECTIVE DATE: September 1, 2014  
APPOINTMENT PERIOD: University Year

On the recommendation of the Executive Committee of the School of Education, we are pleased to recommend the appointment of Camille M. Wilson as associate professor of education, with tenure, School of Education, effective September 1, 2014.

#### ACADEMIC DEGREES

Camille Wilson completed her bachelor of arts in political science at Whittier College in 1995. She received her master's of arts in education from the University of Michigan in 1996 and her doctorate in urban schooling from the University of California, Los Angeles in 2001.

#### PROFESSIONAL RECORD

Professor Wilson joined the faculty at the University of North Carolina at Greensboro in 2003 as an assistant professor and was promoted to associate professor, with tenure, in 2009. In 2012, she moved to Wayne State University, where she was appointed as an associate professor, with tenure.

#### SUMMARY OF EVALUATION

Professor Wilson is an expert in urban education whose research broadly focuses on issues of equity, social justice, and diversity. Specifically, she explores issues of school-family-community engagement and transformative educational leadership. She has especially been interested in the idea of "engagement" in and out of school settings, including school-family-community engagement, the importance of engagement to educational leadership, and educational leadership in high poverty contexts. Professor Wilson looks at the influences of demographic change, the needs and experiences of diverse groups and communities—including school communities, along with parents and families—and the out-of-school factors that impact them. Within these contexts, she also explores the ways that members of these school and family communities make meaning, form identities, enact agency and resistance, and are helped or hindered as they interact within educational systems. In her current research, she is conducting narrative inquiry with African American women who are educational activists in Detroit. The

goals of this scholarship are not only to inform the field about Detroit's educational challenges, but also to learn from the experiences of activists as they mobilize resources, build coalitions, and affect change.

Professor Wilson draws on a range of methods for her research. Within an agenda of research that uses qualitative methods to study different communities, she has incorporated case studies, narrative, and phenomenological research methods. Professor Wilson's uses of collaborative inquiry and qualitative evaluation methods have not only been instrumental for her to pursue her focus of study, but also have enabled her to contribute to scholarship on research methods.

Professor Wilson's scholarship has been influential and, because it addresses issues that affect not only scholarly communities, but also schools and families, her work has broad appeal. She has a strong publication record, including 13 peer-reviewed articles (of which she was first- or sole-author on 11) that have appeared in top-tier journals, such as *Teachers College Record*, *Educational Administration Quarterly*, *Journal of School Leadership, Equity and Excellence in Education*, *Educational Studies*, and *Teacher Education Quarterly*, among others. She has edited one book and has served as a guest editor for special issues of two journals. She has written 13 book chapters, four of which were peer reviewed. She currently has two articles under review, four in progress, and a forthcoming edited volume.

Professor Wilson has taught a broad range of courses pertaining to four major educational strands: (1) race, culture, and equity in school reform; (2) transformative educational leadership; (3) school-family-community relations; and (4) qualitative research. Issues of diversity and equity are central to every course that Professor Wilson teaches and her students commend her for the skill she demonstrates in creating "safe spaces" for difficult conversations regarding race. She is a careful and reflective teacher and her students often report that her teaching positively affects their perspectives, practice, scholarly development, and goals. Professor Wilson is also a skillful mentor and has served on 22 doctoral student committees, chaired six of those committees, and supervised a dissertation that won the 2013 dissertation research award from American Educational Research Association (AERA) Critical Educators for Social Justice Special Interest Group.

Finally, Professor Wilson has a strong record of national service. She has served on the editorial boards of the *Journal of School Leadership* and the *Journal of Research on Leadership Education*, as a reviewer for multiple journals, and on the board of directors for the Sociology of Education Association. She is an active member of the University Council for Educational Administration and the AERA, where she served on a range of association committees and has contributed to the organization of major conferences in her field. She also has engaged in a range of service activities at the university, school, and department levels.

#### EXCERPTS FROM EXTERNAL LETTERS

##### Reviewer (A)

"Dr. Wilson is producing breakthrough scholarship in the area of school-family-community engagement around issues of equity, achievement and diversity... she is quite comfortable and sophisticated in addressing theoretical and methodological questions and quite capable of testing key factual premises with empirically based research designs. Dr. Wilson is a nationally recognized voice on the study of school-based parental involvement, parental agency, advocacy, and activism, and the dynamic relationship between educational leadership and marginalized families. No one in her cohort has done more to force scholars to rethink the relationship between marginalized groups and school-family-community engagement."

##### Reviewer (B)

"I characterize Dr. Wilson's scholarship as having a high level of quality and an above average level of productivity...[f]or a scholar at her career stage, her work is widely respected and referenced by leading researchers."

"...Dr. Wilson's work consistently exhibits theoretical and methodological sophistication... Dr. Wilson takes great care to consider the practical implications of her research...[f]inally, taken as a whole these articles show a commitment to studying and advocating for marginalized populations in education."

Reviewer (C)

"...she has been extremely productive... in planning her research agenda, Dr. Wilson made a concerted effort to develop a strong line of research...[h]er contributions have been consistently cited and have had great impact."

Reviewer (D)

"The substance of Professor Wilson's work is significant and well-focused on important topics addressing race, African American parents, feminist theory, leadership, and family and school connections... Professor Wilson's work has been exemplary in informing the areas of sociology of education along with sociocultural, feminist, and critical race theory. Professor Wilson's scholarly work is well grounded theoretically, has strong coherence, and demonstrates her skill in doing critical qualitative empirical research, conceptual writing, and writing that applies research findings and theoretical connections to urban school related challenges...she is becoming one of the more respected scholars on parental engagement, leadership and diversity."

Reviewer (E)

"Dr. Wilson has a very active research agenda that appeals to many audiences (e.g., education researchers, practitioners, policymakers, and laypersons). It is very important to note that the venues that she has published are top-notch and have relatively low acceptance rates. This is an impressive aspect of her scholarship."

Reviewer (F)

"...Dr. Wilson is a very talented, interdisciplinary, and creative scholar who is able to bring together disparate fields and scholarly traditions in a cogent manner to address issues around equity, diversity, and social justice in schools and society, particularly as these relate to marginalized individuals and groups. Her incorporation of theoretical frameworks such as sociocultural, Critical Race Theory, and feminist theories into her methodological approach is impressive and aptly done."

Reviewer (G)

"Wilson provides an intellectual platform for the field to reimagine the influence of mothers' agency as they attempt to navigate the education marketplace. Professor Wilson is at the forefront of conceptualizing how African American and Latina mothers experiencing poverty negotiate the educational marketplace... Her ability to synthesize the sociological literature on families, school choice, and black feminist thought is impressive."

Reviewer (H)

"Although there is certainly a body of work on parental involvement in school, Dr. Wilson pushes this work in substantially new and important directions... Bottom line is that this is one of the most impressive dossiers that I have seen...Rarely did I see as worthy and balanced a dossier as Dr. Wilson's."

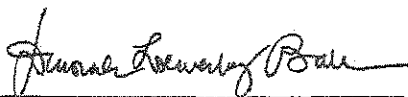

Reviewer (I)

"Dr. Wilson also adds distinguished service contributions that demonstrate her ability to forge important linkages between theory and practice between a variety of contingencies and stakeholders. This work has added to the corpus of care theories coming from the fields of moral development, feminist studies, and education..."

#### SUMMARY OF RECOMMENDATION

Professor Wilson is a preeminent scholar in the areas of school-family-community engagement and transformative educational leadership and would bring substantial strengths to our agenda in the School of Education. She has a robust program of research that is at the intersection of issues that are of considerable significance to not only education scholarly communities, but also schools and families. We are pleased to recommend the appointment of Camille M. Wilson as associate professor of education, with tenure, School of Education, effective September 1, 2014.

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

ACTION REQUEST: Faculty Appointment Approval

NAME: Jieping Ye, Ph.D.

TITLES: Associate Professor of Computational Science and Bioinformatics, Medical School, and Associate Professor of Electrical Engineering and Computer Science, College of Engineering

TENURE STATUS: With tenure (Computational Medicine and Bioinformatics)  
Without tenure (Electrical Engineering and Computer Science)

APPOINTMENT PERIOD: 12 Months

EFFECTIVE DATE: January 1, 2015

On the recommendation of Brian D. Athey, Ph.D., the Michael A. Savageau Collegiate Professor and Chair of the Department of Computational Medicine and Bioinformatics and with the concurrence of the Executive Committee of the Medical School and the College of Engineering, we are pleased to recommend the appointment of Jieping Ye, Ph.D. as associate professor of computational medicine and bioinformatics, with tenure, Medical School, and associate professor of electrical engineering and computer science, without tenure, College of Engineering, effective January 1, 2015.

Academic Degrees:

Dr. Ye received his Ph.D. in computer science in 2005 from the University of Minnesota.

Professional Record:

Dr. Ye was appointed as an assistant professor of computer science and engineering at Arizona State University in 2005 and promoted to associate professor, with tenure, in 2010.

Summary of Evaluation:

Dr. Ye's research focuses on machine learning, data mining, and biomedical informatics, with a concentration on the development of novel algorithms and tools for learning from large-scale, high dimensional complex and structural data. He is the principal investigator or co-principal investigator of two industry grant, three NIH grants, and a National Science Foundation grant. He has received numerous awards for his research, including the Research of the Year Award from Arizona State University and a National Science Foundation Career Award. Dr. Ye has published over 90 articles, and has written one book. He has developed four software programs and has been invited to present his research at 44 regional, national and international venues.

Recent and Significant Publications

Pong TK, Tseng P, Ji S, Ye J: Trace norm regulation: Reformulations, algorithms, and multi-task learning. *SIAM Journal on Optimization* 20:3465-3489, 2010.

Yuan L, Wang Y, Thompson P, Narayan V, Ye J: Multi-source feature learning for joint analysis of incomplete multiple heterogeneous neuroimaging data. *NeuroImage* 61:622-632, 2012.

Liu J, Musialski P, Wonka P, Ye J: Tensor completion for estimating missing values in visual data. *IEEE Transactions on Pattern Analysis and Machine Intelligence* 35:208-220, 2013.

Dr. Ye's teaching activities include didactic and laboratory instruction for graduate and undergraduate students. He has mentored one undergraduate student, eight medical students, seven post-doctoral fellows, and 14 Ph.D. students. Dr. Ye has served on more than 40 dissertation committees and has developed a software package for biomedical analysis, for which he instructs.

#### External Reviewers:

Reviewer A: "...Jieping has established himself as one of the very top data mining researchers, with multiple papers in the most competitive data mining related conferences...reflecting both conceptual breakthroughs and applied work....Several of his papers have received or been nominated for best paper awards....This prodigious output of high-quality work is a reflection of his strong mathematical (linear algebra, optimization) and algorithmic background, coupled with a keen sense of real-life application needs, particularly in the bioinformatics domain in which he has taken keen interest."

Reviewer B: "...Dr. Jieping Ye is a highly active and pioneering researcher in his research fields, an energetic organizer, and an outstanding teacher...His contributions in the field of machine learning, data mining and knowledge discovery have been world-wide recognized in the field. Given that the field is a rapidly evolving one with its importance increasingly pronounced in all areas of technology and engineering, talents like him will play [an] important role in the development of science and technology in the future."

Reviewer C: "Overall I find Dr. Ye to be an excellent scholar with a well-recognized, world-wide reputation and with an impressive research record. He has contributed and published a substantial body of innovative work which is often cited by his peers. His research program is excellent and it is expanding. Professor Ye's excellent research record, his stature in the research community and his graduate supervision qualify him for an appointment as tenured Associate Professor at the University of Michigan."

Reviewer D: "Jieping has actively served his research community by joining the technical committees and editorial boards for international conferences and journals...He currently serves on the editorial board of five journals...He has served as vice chair, area chair, and senior program committee member for most of the top conferences in the field...and also he will serve as Program Co-Chair for the 2015 SIAM International Conference on Data Mining."

Yuan L, Wang Y, Thompson P, Narayan V, Ye J: Multi-source feature learning for joint analysis of incomplete multiple heterogeneous neuroimaging data. *NeuroImage* 61:622-632, 2012.

Reviewer C: "Overall I find Dr. Ye to be an excellent scholar with a well-recognized, world-wide reputation and with an impressive research record. He has contributed and published a substantial body of innovative work which is often cited by his peers. His research program is excellent and it is expanding. Professor Ye's excellent research record, his stature in the research community and his graduate supervision qualify him for an appointment as tenured Associate Professor at the University of Michigan."

Reviewer D: "Jieping has actively served his research community by joining the technical committees and editorial boards for international conferences and journals...He currently serves on the editorial board of five journals...He has served as vice chair, area chair, and senior program committee member for most of the top conferences in the field...and also he will serve as Program Co-Chair for the 2015 SIAM International Conference on Data Mining."

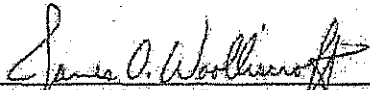

Reviewer E: "...Jieping's research accomplishments and professional and teaching records are phenomenal. Jieping is one of the foremost authorities in kernel methods, and sparse and multi-task data mining. He is clearly in the top bracket among those at this stage in their academic career."

Dr. Ye's service includes his role as associate editor for *Computational Statistics and Data Analysis*, *Neuroscience and Biomedical Engineering*, and the IEEE publications. Institutionally, he was the associate director of the Center for Evolutionary Medicine and Informatics for Big Data Informatics for the Biodesign Institute at Arizona State University and also on the Engineering Research Directors Committee for the Fulton School of Engineering at Arizona State University. He is a member of and been involved in conference organization activities for professional societies in his field including SIAM (Society for Industrial and Applied Mathematics) and ACM (Association for Computing Machinery).

Summary of Recommendation:

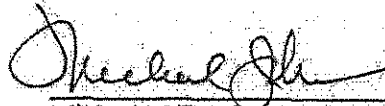

Dr. Ye is a renowned scientist who has developed an international reputation for innovative bioinformatics research. At the University of Michigan, he will be instrumental in creating the clinical informatics wing of the Department of Computational Medicine and Bioinformatics with the goal of bridging with clinical fields. We enthusiastically recommend the appointment of Jieping Ye, Ph.D. as associate professor of computational medicine and bioinformatics, with tenure, Medical School, and associate professor of electrical engineering and computer science, without tenure, College of Engineering, effective January 1, 2015.

October 16, 2014

ACTION REQUEST: Faculty Appointment Approval

NAME: Andrew Ryan, Ph.D.

TITLE: Associate Professor of Health Management and Policy,  
School of Public Health

TENURE STATUS: Without Tenure

EFFECTIVE DATE: January 1, 2015

APPOINTMENT PERIOD: University Year

On the recommendation of the chair of the Department of Health Management and Policy, and with the endorsement of the Executive Committee of the School of Public Health, we are pleased to recommend the appointment of Andrew Ryan, Ph.D. as associate professor of health management and policy, without tenure, School of Public Health, effective January 1, 2015.

Academic Degrees

Professor Ryan received a bachelor's and master's degree in economics from Boston University in 2001, and a Ph.D. in social policy from Brandeis University in 2008.

Professional Record

After two years as a post-doctoral fellow, lecturer and visiting scholar at Brandeis University, Professor Ryan joined the faculty of Weill Medical College, Cornell University as an assistant professor in 2009, and was promoted to associate professor, without tenure, in 2013.

Summary of Evaluation

Professor Ryan has made important contributions to 1) effects of pay-for-performance on health care quality; 2) pay-for-performance and disparities in care; 3) effects of public quality reporting and the relationship between process and outcome performance; 4) evaluation and development of estimators of health care outcome quality; and 5) evaluation of health care policies. His research has provided some of the first estimates of the effects of pay-for-performance on patient outcomes and costs and evaluations of the specific mechanisms through which these programs may provide quality. With respect to health disparities, his work found that health disparities in Massachusetts hospitals were the result of where patients received care. This work implied that incentivizing within-hospital disparity reduction would not be effective. He has also conducted work suggesting that process measures are not causally related to mortality, evaluated other indicators of performance, and evaluated various health care policies. In addition to a strong publication record, Professor Ryan has had significant success in obtaining external funding for his research.

Professor Ryan's past position at Cornell was not in a degree program context like that of the University of Michigan School of Public Health. However, he has played a significant role in mentoring junior researchers. He directed a course on "Study Design and Methods for Comparative Effectiveness Research," taught primarily to medical fellows at Weill Cornell Medical College. Over the last several years, he has worked on research projects with medical students, fellows, graduate students, and junior faculty. This work has resulted in several publications, grant proposals, and conference abstracts. He has also helped ten junior faculty members to develop career development awards.

Professor Ryan has served on several national panels and committees as a technical Expert Panel Member for "Value-Based Purchasing: Measuring Success," sponsored by the assistant secretary for planning and evaluation in the Department of Health and Human Services; as a technical expert panel member for "Hospital Value-Based Purchasing" sponsored by the Centers for Medicare and Medicaid Services; and as a member of the National Quality Forum's "Cost and Resource Use Standing Committee." He also serves as a peer-reviewer for numerous top journals.

#### Excerpts from External Reviewers

Reviewer (A): "Overall, it seems clear to me that Dr. Ryan merits this appointment. He has done a nice job of establishing a research program in an important area and seems on track for continued success. He seems to me to have a bright future."

Reviewer (B): "...he is a rising health policy research star. [He] has published a number of seminal articles, especially those evaluating the Medicare demonstrations of pay-for-performance of hospital quality, which have importantly influenced policy views and policy making. Not only was his research original and expertly done ... but his topic selections were impeccable. For a [junior] researcher, his output has been prolific, mostly in peer-reviewed journals. Clearly, he has achieved extraordinary peer recognition for his work."

Reviewer (C): "Dr. Ryan is also beginning to garner national recognition. He serves as an Associate Editor of BMC Health Services Research and a peer reviewer for numerous other journals. Dr. Ryan appears to be an accomplished researcher and teacher who will undoubtedly make important contributions in the future. I recommend him to you with enthusiasm for appointment at the rank of Associate Professor."

Reviewer (D): "...Professor Ryan has been particularly influential because of the methodological rigor he brings to his work. I would note as an aside that it is clear to me from a review of his sole and coauthored papers that the high analytical standards evident in Professor Ryan's work are his own, rather than those of a coauthor. Given his stage of career, he has already made notable contributions to the field and his trajectory points to an even brighter future."

Reviewer (E): "... Dr. Ryan has an extremely impressive record, actually one of the best I have seen at this stage of someone's career. I strongly recommend him for appointment as Associate Professor without tenure at the School of Public Health at the University of Michigan. Compared to comparable candidates at [my institution], his research record is at least as strong as

those who have recently received promotion to Associate Professor with tenure. He does high quality work, writes clearly and thoughtfully, and addresses important questions. I found all the articles I read well-done and very interesting.”

#### Publications

#### Summary of Recommendation

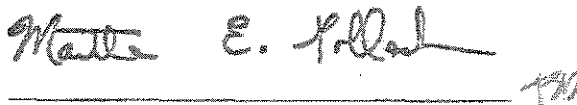

Professor Ryan is a well-respected researcher who will play a valuable role in teaching, research and service. We are pleased to recommend the appointment of Andrew Ryan, Ph.D. as associate professor of health management and policy, without tenure, School of Public Health, effective January 1, 2015.

October 16, 2014

ACTION REQUEST: Reappointment of an Academic Administrative  
Appointment for a Faculty Member

NAME: Joseph Rosa

CURRENT TITLES: Professor of Architecture, with tenure, A. Alfred Taubman  
College of Architecture and Urban Planning, and Director,  
University of Michigan Museum of Art

TITLE BEING RENEWED: Director, University of Michigan Museum of Art

EFFECTIVE DATES: July 1, 2015 through June 30, 2020

I am pleased to recommend the reappointment of Joseph Rosa as director, University of Michigan Museum of Art, for a second five-year term, effective July 1, 2015 through June 30, 2020. This recommendation follows an extensive reappointment review process.

Mr. Rosa received a Bachelor's of Architecture, with honors, from the Pratt Institute, a M.S. degree in architecture and urban design from Columbia University's Graduate School of Architecture, Planning, and Preservation, and was a Ph.D. candidate in the Department of Art History and Archaeology at Columbia University's Graduate School of Arts and Sciences. He has worked in the architectural firms of Gwathmey Siegel and Associates, Peter Eisenman, and Agrest & Candelonas. He was the John H. Bryan Curatorial Chair of Architecture and Design at the Art Institute of Chicago, the Helen Hilton Raiser Curator of Architecture and Design at the San Francisco Museum of Modern Art, the curator of architecture at the Heinz Architectural Center at the Carnegie Museum of Art in Pittsburgh, PA, the chief curator at the National Building Museum in Washington, DC, and the director of the Columbia University Architecture Galleries.

Joseph Rosa is the author of 16 books and his writings have appeared in *Praxis, Architectural Design, Assemblage, Casabella, The History of Photography Journal, Oculus, Architekur & Bauforum, and Progressive Architecture*. He has curated numerous exhibitions on contemporary architecture and design. He is a noted scholar on architect Albert Frey and architectural photographer Julius Shulman, and has been a visiting scholar at The Getty Center for the History of Art and the Humanities. Mr. Rosa is a recipient of grants from the National Endowment for the Arts and the Graham Foundation for Advanced Studies in the Fine Arts. He has also taught at Columbia University, California College of the Arts, Catholic University, the University of California Berkeley, Southern California Institute of Architecture, University of Illinois at Chicago, and the University of Chicago.

The reputation of the University of Michigan Museum of Art (UMMA) has flourished under Mr. Rosa's leadership. He expanded the visibility of UMMA's growing holdings of 20<sup>th</sup> and 21<sup>st</sup> century art, architecture and design by opening new gallery space in the museum. He has

encouraged growing numbers of faculty and students to use the museum's collections as an inspirational source for academic and scholarly discussions as well as high-quality research and teaching across disciplines. He has furthered a number of productive cross-campus collaborations, increased the amount of art and number of exhibits across campus, and has mounted an impressive slate of creative, ambitious, yet cost-effective exhibitions within the museum. A conscientious steward of museum finances, he has streamlined UMMA's operations and put its budget on a sustainable trajectory. Mr. Rosa has achieved considerable success in fundraising from individual donors, the National Endowment for the Humanities, and the Mellon Foundation, and has developed a growing community of museum supporters and friends. With enthusiasm, I recommend the reappointment of Joseph Rosa as director, University of Michigan Museum of Art, effective July 1, 2015 through June 30, 2020.

Respectfully submitted,

ACTION REQUEST: Reappointment of an Administrative Appointment

NAME: Robert A. Winfield

CURRENT TITLES: Executive Director of University Health Service, Office of the Vice President for Student Life, and Chief Health Officer, Office of the President

TITLE BEING RENEWED: Chief Health Officer, Office of the President

EFFECTIVE DATE: November 1, 2014

I am pleased to recommend the reappointment of Dr. Robert A. Winfield as chief health officer, Office of the President, effective November 1, 2014.

As chief health officer, Dr. Winfield will continue in a pivotal leadership role of promoting the health and wellness of the university community. He will advance public discussion to improve the health and well-being of faculty, staff and students, as well as dependents and retirees; act as spokesperson for the university on matters related to health and well-being; advocate for effective health programs, policies and practices; and work to raise awareness and understanding in the community of health-related concerns. He will engage with key university groups charged with promoting the health and well-being of the university community, such as the Michigan Healthy Community Advisory Committee in initiatives related to stress management and activity, and keeping well and at-risk individuals healthy. Dr. Winfield will continue to engage in communications statewide and nationally on the Smoke Free Initiative experience.

From 1974-79, Dr. Winfield was a faculty member in the Department of Internal Medicine. He has been associated with the University Health Service as a physician and administrator since 1980, and has served as its director since 1999.

Dr. Winfield has also been a leader in developing university policy on a number of health-related concerns, chairing the Mental Health Work Group (2001-03), the SARS Campus Planning Group (2003-05), and co-chairing the Infectious Hazards Planning Group and its successor, the All Hazards Planning Committee Group (2004-present). He has chaired the Integrated Disability Advisory Committee (2006-07) and has worked closely with human resources in the development of the Five-Year Plan for Health and Wellbeing of the (MHealthy) faculty and staff. Over this past year, Dr. Winfield implemented the University Smoke Free Initiative and developed the Return to Work program, led by human resources.

Dr. Winfield received his Bachelor of Science degree from the University of Michigan in 1967 and his Doctor of Medicine, with honors, from the University of Michigan's Medical School in 1971. He completed his training in Internal Medicine in 1974 at the University of Michigan.

Dr. Winfield's commitment to and experience in promoting the health and wellness of the university community makes him the perfect fit to continue serving in this important role. It is with great pleasure that I recommend the reappointment of Robert A. Winfield as chief health officer, Office of the President, effective November 1, 2014.

ACTION REQUEST: Additional Appointment for a Faculty Member  
NAME: Richard J. Auchus, M.D., Ph.D.  
CURRENT TITLE: Professor of Internal Medicine, with tenure, Medical School  
ADDITIONAL TITLE: Professor of Pharmacology, without tenure, Medical School  
EFFECTIVE DATE: October 1, 2014

On the recommendation of Lori L. Isom, Ph.D., Interim Chair of the Department of Pharmacology, I am pleased to recommend the additional appointment of Richard J. Auchus, M.D., Ph.D. as professor of pharmacology, without tenure, Medical School, effective October 1, 2014.

Dr. Auchus obtained a Ph.D. in pharmacology and an M.D. from Washington University in St. Louis in 1988. After his residency and fellowship, he joined the faculty of the University of Texas Southwestern Medical School. In 2011 he came to the University of Michigan as a professor of internal medicine.

Dr. Auchus's experience and training in cell biology, endocrinology, diabetes, drug metabolism, and pharmacology would contribute greatly to the Department of Pharmacology's teaching and research programs. He has developed collaborations with a number of pharmacology faculty in studies involving P450 enzymes, prostate cancer research and clinical pharmacology. With his expertise in drug design, discovery and new therapeutic strategies, Dr. Auchus will be able to participate in a number of departmental courses including Principles of Pharmacology, Cancer Biology, and Cancer Pharmacology, as well as the translational pharmacology courses and certificate program.

This appointment will formally recognize Dr. Auchus' contributions to the field of pharmacology, and facilitate collaborative efforts with other faculty members and trainees in his field. I enthusiastically recommend the additional appointment of Richard J. Auchus, M.D., Ph.D. as professor of pharmacology, without tenure, Medical School, effective October 1, 2014.

ACTION REQUEST: Additional Appointment to an Endowed Professorship  
NAME: Samuel R. Bagenstos  
CURRENT TITLE: Professor of Law, with tenure, Law School  
ADDITIONAL TITLE: Frank G. Millard Professor of Law, Law School  
TERM: Five Years, Renewable  
EFFECTIVE DATES: October 1, 2014 through September 30, 2019

The Law School is pleased to recommend the appointment of Samuel R. Bagenstos as the Frank G. Millard Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

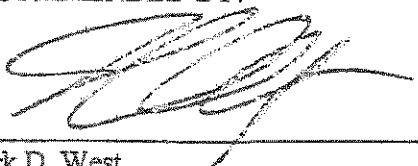

The Frank G. Millard Professorship was established in the Law School by the Regents in September 1991. It is named for Frank G. Millard, a graduate of the Law School who was involved in a wide variety of acts of public service. Frank Millard exemplified the public character of law as a profession. The professorship is supported by a gift from the estate of Dorothy E. Millard.

Professor Bagenstos has been a member of the Law School faculty since 2009. He received his B.A. from the University of North Carolina at Chapel Hill and his J.D. from Harvard Law School. While in law school, Professor Bagenstos served as articles office co-chair for the *Harvard Law Review*. Professor Bagenstos clerked for Judge Stephen Reinhardt on the Ninth Circuit and Justice Ruth Bader Ginsburg of the U.S. Supreme Court.

Professor Bagenstos is a nationally regarded expert in constitutional and civil rights litigation. From 2009 to 2011, he was a political appointee in the U.S. Department of Justice, where he served as the principal deputy assistant attorney general for Civil Rights, the number-two official in the Civil Rights Division. Professor Bagenstos has several published articles in law journals, as well as, two books: Law and the Contradictions of the Disability Rights Movement and Disability Rights Law: Cases and Materials. Professor Bagenstos frequently consults with civil rights organizations and remains an active appellate and Supreme Court litigator in civil rights and federalism cases.

We are pleased to recommend the appointment of Samuel R. Bagenstos as the Frank G. Millard Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

NAME: Michael S. Barr

CURRENT TITLES: Professor of Law, with tenure, Law School, and Professor of Public Policy, without tenure, Gerald R. Ford School of Public Policy

ADDITIONAL TITLE: Roy F. and Jean Humphrey Proffitt Professor of Law, Law School

TERM: Five Years, Renewable

EFFECTIVE DATES: October 1, 2014 through September 30, 2019

The Law School is pleased to recommend the appointment of Michael S. Barr as the Roy F. and Jean Humphrey Proffitt Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

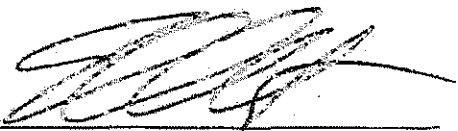

The Roy F. and Jean Humphrey Proffitt Professorship was established by the Regents in October 1989 with gifts from the Law School's Class of 1963 in honor of Professor Roy F. Proffitt, a long member of the Law School faculty and administration. Professor Proffitt and his wife Jean gave unstintingly of themselves to the Law School and its students.

Professor Barr has been a member of the Law School faculty since 2001. He received his B.A. from Yale College, his MPhil in International Relations from Magdalen College in Oxford, as a Rhodes Scholar, and his J.D. from Yale Law School. While attending law school, Professor Barr served as articles editor for the *Yale Law & Policy Review*. After graduation, Professor Barr clerked for Judge Pierre N. Leval, then of the Southern District of New York and Justice David H. Souter of the U.S. Supreme Court. Prior to joining the Michigan Law faculty, Professor Barr served as Treasury Secretary Robert E. Rubin's special assistant, as deputy assistant secretary of the treasury, as special advisor to President William J. Clinton, and as a special advisor and counselor on the policy planning staff at the State Department.

Professor Barr teaches courses in Financial Institutions, International Finance, Financial Derivatives, Transnational Law, Jurisdiction and Choice of Law, and co-founded the Law School's International Transactions Clinic. While on leave in 2009-2010 serving as the U.S. Department of the Treasury's Assistant Secretary for Financial Institutions, he was a key architect of the Dodd-Frank Wall Street Reform and Consumer Protection Act. Professor Barr's most recent books include No Slack: The Financial Lives of Low-Income Americans and Insufficient Funds.

We are pleased to recommend the appointment of Michael S. Barr as the Roy F. and Jean Humphrey Proffitt Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

ACTION REQUEST: Additional Appointment for a Faculty Member

NAME: Ernesto Bernal-Mizrachi, M.D.

CURRENT TITLES: Larry D. Soderquist Professor, and Associate Professor of Internal Medicine, with tenure, Medical School

ADDITIONAL TITLE: Associate Professor of Molecular and Integrative Physiology, without tenure, Medical School

EFFECTIVE DATE: October 1, 2014

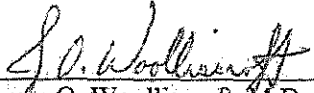

On the recommendation of Bishr Omary, M.D., Ph.D., the H. Marvin Pollard Professor and Chair of the Department of Molecular and Integrative Physiology, I am pleased to recommend the additional appointment of Ernesto Bernal-Mizrachi, M.D. as associate professor of molecular and integrative physiology, without tenure, Medical School, effective October 1, 2014.

Dr. Bernal-Mizrachi received his M.D. degree from the Universidad del Valle Medical School, Cali, Colombia in 1989. He completed two residencies in internal medicine, one at the Universidad del Valle and one at the University of Miami, followed by a fellowship in endocrinology at Washington University in St. Louis. He served on the faculty of Washington University from 1999 to 2009 and then came to the University of Michigan as an associate professor of internal medicine in 2009.

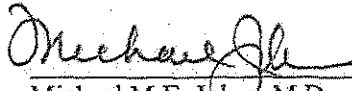

Dr. Bernal-Mizrachi has a distinguished research career, specializing in the exploration of pancreas development, mechanisms and disease. His endocrinology research interests are held in common with several of the faculty in the Department of Molecular and Integrative Physiology, making an additional appointment conducive to collaborative and synergetic relationships. In addition, he will contribute to the mentoring of graduate students and help teach some of the courses offered by the department.

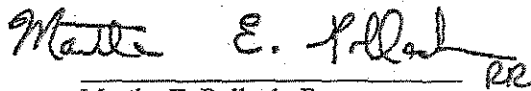

Dr. Bernal-Mizrachi is a highly regarded investigator who is recognized for his contributions to research in the field of diabetes and metabolism. I enthusiastically recommend the additional appointment of Ernesto Bernal-Mizrachi, M.D. as associate professor of molecular and integrative physiology, without tenure, Medical School, effective October 1, 2014.

NAME: Mark S. Cohen, M.D.  
CURRENT TITLE: Associate Professor of Surgery, with tenure, Medical School  
ADDITIONAL TITLE: Associate Professor of Pharmacology, without tenure, Medical School  
EFFECTIVE DATE: October 1, 2014

On the recommendation of Lori L. Isom, Ph.D., Interim Chair of the Department of Pharmacology, I am pleased to recommend the additional appointment of Mark S. Cohen, M.D. as associate professor of pharmacology, without tenure, Medical School, effective October 1, 2014.

Dr. Cohen obtained his M.D. degree from Washington University in 1998. He subsequently completed his residency in general surgery at the Barnes-Jewish Hospital in St. Louis. After holding faculty positions at the University of Kansas, he joined the faculty at the University of Michigan in 2012 as an associate professor of surgery. He is currently the director of endocrine surgery research in the Department of Surgery.

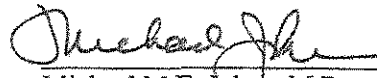

Dr. Cohen's experience and training in cancer pharmacology, pharmacogenetics, and drug discovery, will contribute greatly to the pharmacology teaching and research programs. He has developed research collaborations in studies involving HSP-90 breast cancer, and clinical pharmacology with several faculty in the Department of Pharmacology. In addition, he will be asked to teach in a number of courses including Principles of Pharmacology, Cancer Biology, and Cancer Pharmacology.

Dr. Cohen will be a valuable addition to the teaching and research programs in the Department of Pharmacology. I enthusiastically recommend the additional appointment of Mark S. Cohen, M.D. as associate professor of pharmacology, without tenure, Medical School, effective October 1, 2014.

ACTION REQUEST: Additional Appointment to an Endowed Professorship  
NAME: Khaled Hafez, M.B.B.Ch., Ph.D.  
CURRENT TITLE: Clinical Professor of Urology, Medical School  
ADDITIONAL TITLE: Valassis Professor of Urologic Oncology, Medical School  
EFFECTIVE DATES: October 1, 2014 through August 31, 2019

On the recommendation of David A. Bloom, M.D., the Jack Lapidus Professor and Chair of the Department of Urology, and the Executive Committee of the Medical School, I am pleased to recommend the appointment of Khaled Hafez, M.B.B.Ch., Ph.D. as the Valassis Professor of Urologic Oncology, Medical School, effective October 1, 2014 through August 31, 2019.

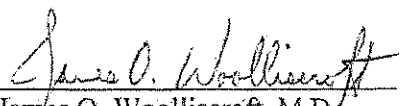

The Valassis Professorship in Urologic Oncology was established in February 1996 through a trust created by George F. and Nancy P. Valassis. Mr. Valassis was a 1952 graduate of the University of Michigan School of Business. He had a strong interest in the area of urologic cancer research, treatment, and diagnosis and desired to support the university's efforts and research programs in this area.

Khaled Hafez received his M.B.B.Ch. degree from Cairo University, Egypt, in 1988. He completed a Ph.D. in renal preservation and nephron sparing surgery from that institution and was appointed as an assistant professor at Cairo University in 1998. He joined the faculty at the University of Michigan in 2004 as a clinical assistant professor, and rose through the ranks to clinical professor in 2014. Dr. Hafez is also clinical assistant professor at the VA Hospital, and was named as chief of the Section of Urology from 2006-2013. He is also chief of General Surgery there.

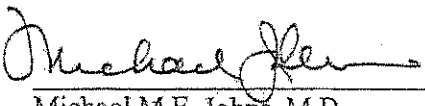

Dr. Hafez has become the epicenter for complex renal surgery at the Cardiovascular Center, due to the concomitant bypasses related to renal cell carcinomas with venacaval thrombi. He specializes in difficult bladder cancers, urinary diversions and has adapted his skills to using robots for renal sparing surgeries. Dr. Hafez has developed an international reputation as a uro-oncologic surgeon. He has published over 50 articles, and has presented his research in national and international venues. In 2012, he was awarded the prestigious University of Michigan Clinician of the Year Award. Dr. Hafez has also received the Compassionate Doctor Award, the Outstanding Achievement Award, and the Silver Cystoscopy Award from the Department of Urology. He is an energetic teacher, and great mentor, and serves as residency program director in his department. In 2013, Dr. Hafez was inducted into the League of Educational Excellence in the Medical School.

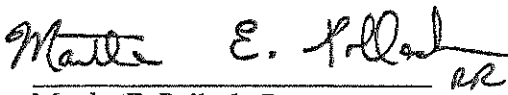

Dr. Hafez possesses rare clinical talents, and is conducting multiple clinical trials for adjuvant therapy in high risk localized renal cancer patients. He is a great leader in the field of urologic oncology. I am, pleased, therefore, to recommend the appointment of Khaled Hafez, M.B.B.Ch., Ph.D. as the Valassis Professor of Urologic Oncology, Medical School, effective October 1, 2014 through August 31, 2019.

ACTION REQUEST: Additional Appointment to a Collegiate Professorship

NAME: Lisa H. Harris, M.D., Ph.D.

CURRENT TITLES: Associate Professor of Obstetrics and Gynecology, with  
tenure, Medical School, and Associate Professor of Women's  
Studies, without tenure, College of Literature, Science, and  
the Arts

ADDITIONAL TITLE: F. Wallace and Janet Jeffries Collegiate Professor of  
Reproductive Health, Medical School

EFFECTIVE DATES: October 1, 2014 through August 31, 2019

On the recommendation of Timothy R.B. Johnson, M.D., the Arthur F. Thurnau Professor, the Bates Professor, Professor of Women's Studies, and Chair of the Department of Obstetrics and Gynecology, and the Executive Committee of the Medical School, I am pleased to recommend the appointment of Lisa H. Harris, M.D., Ph.D. as the F. Wallace and Janet Jeffries Collegiate Professor of Reproductive Health, Medical School, effective October 1, 2014 through August 31, 2019.

The F. Wallace and Janet Jeffries Collegiate Professorship in Reproductive Health was established in December 2008 to honor Dr. Jeffries, who received his M.D. degree from the University of Michigan in 1957, and Mrs. Janet Jeffries, who received her master's degree in public health nursing, also from the University of Michigan.

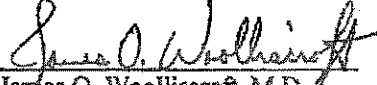

Lisa Harris received her M.D. degree from Harvard University in 1994, and completed a residency in obstetrics and gynecology at the University of California, San Francisco. She was a Robert Wood Johnson Clinical Scholar, and completed a Ph.D. in American culture at the University of Michigan in 2006. Dr. Harris then joined the faculty in 2000 as a lecturer, and rose through the ranks to associate professor of obstetrics and gynecology and of women's studies in 2013.

Dr. Harris has extensive involvement in educational activities institutionally, regionally, nationally and internationally. She serves as the family planning fellows clinical teacher at Planned Parenthood, and at the high risk Family Planning Clinic at the hospital. Dr. Harris directs several programs for undergraduate students in women's reproductive health, and teaches residents in abortion and family planning. She has mentored ob-gyn departments across the state and country to move miscarriage management into the ambulatory setting out of the operating room. Dr. Harris collaborated with the University of Ghana and Kwame Nkrumah University of Science and Technology to launch the first post-residency family planning fellowship program outside the United States. She is a core faculty member for the Ghana Faculty Training Conference and mentors the Ghanaian family planning fellows. Dr. Harris studies issues broadly across the continuum of women's reproduction, including fertility, contraception, miscarriage, and birth, always highlighting the social and political contributors to health and healthcare.

Dr. Harris authored a book titled Challenging Conceptions: A Clinical and Cultural History of In Vitro Fertilization in the United States in 2013, which examines issues across the continuum of women's reproduction, including infertility, contraception, miscarriage and birth, highlighting social and political contributors to health and healthcare. She has published more than 30 peer-reviewed articles, and is the principal investigator of several industry sponsored clinical trials. Dr. Harris has received numerous awards for her research, including the Preserving Core Values in Science Award from the Association of Reproductive Health Professionals, and the Outstanding Researcher Award for her poster presentation at the Annual Meeting of the North American Forum on Family Planning. She serves as director of research for Planned Parenthood for mid and southern Michigan, and is a member of the advisory board of Abortion as a Health Disparity Project for Advancing New Standards in Reproductive Health.

Dr. Harris' work has been described as unique, transformative, and inspirational. She is one of the most distinguished thinkers in reproductive rights and reproductive justice in the United States. I am, pleased, therefore, to recommend the appointment of Lisa H. Harris, M.D., Ph.D. as the F. Wallace and Jane Jeffries Collegiate Professor of Reproductive Health, Medical School, effective October 1, 2014 through August 31, 2019.

ACTION REQUEST: Additional Appointment for a Faculty Member  
NAME: Jacqueline S. Jeruss, M.D., Ph.D.  
CURRENT TITLES: Associate Professor of Surgery, with tenure, Medical School, and Associate Professor of Biomedical Engineering, without tenure, Medical School and College of Engineering  
ADDITIONAL TITLE: Associate Professor of Pathology, without tenure, Medical School  
EFFECTIVE DATE: October 1, 2014

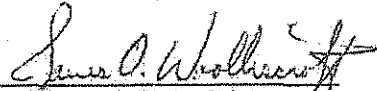

On the recommendation of Charles A. Parkos, M.D., Ph.D., the Carl Vernon Weller Professor and Chair of the Department of Pathology, I am pleased to recommend the additional appointment of Jacqueline S. Jeruss, M.D., Ph.D. as associate professor of pathology, without tenure, Medical School, effective October 1, 2014.

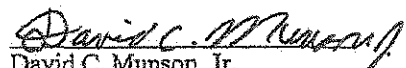

Dr. Jeruss received her M.D. degree in 1997 from the University of Vermont. She received a Ph.D. in interdepartmental biological sciences from Northwestern University in 2006. Dr. Jeruss completed a residency in general surgery at Northwestern Memorial Hospital from 1997 to 2005, and a fellowship in interdisciplinary breast cancer from 2005 to 2006. She was appointed as an assistant professor of surgery at Northwestern University in 2006 and promoted to associate professor in 2013. In September 2014, she joined the faculty of the University of Michigan as associate professor of surgery and associate professor of biomedical engineering.

Dr. Jeruss is a highly trained physician-scientist with an active surgical oncology practice and a well-established breast cancer research program. Her research interests overlap with those of several members of the pathology faculty, especially the breast cancer pathologists. She is a talented educator who has won a number of teaching awards at Northwestern University. It is anticipated that she will be a member of the Molecular and Cellular Pathology (MCP) graduate program and will have the opportunity to mentor the doctoral thesis research of MCP students. She will also teach MCP students enrolled in graduate level courses offered by the Department of Pathology.

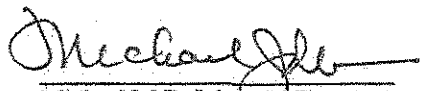

Dr. Jeruss is a well-respected surgeon, researcher and educator. I wholeheartedly recommend the additional appointment of Jacqueline S. Jeruss, M.D., Ph.D. as associate professor of pathology, without tenure, Medical School, effective October 1, 2014.

ACTION REQUEST: Joint Appointment for a Faculty Member

NAME: Timothy A. McKay

CURRENT TITLES: Arthur F. Thurnau Professor, Professor of Physics, with tenure,  
and Professor of Astronomy, without tenure, College of Literature,  
Science, and the Arts

ADDITIONAL TITLE: Professor of Education, without tenure, School of Education

EFFECTIVE DATE: September 1, 2014

With the approval of the Executive Committee of the School of Education, and with the endorsement of the College of Literature, Science, and the Arts, we are pleased to recommend the joint appointment of Timothy A. McKay as professor of education, without tenure, School of Education, effective September 1, 2014.

Timothy McKay received his doctorate from the University of Chicago in 1992 and joined the University of Michigan faculty as an assistant professor of physics in 1995. In 2001 he was promoted to associate professor of physics, with tenure. In 2007, he was promoted to professor of physics and professor of astronomy in the College of Literature, Science, and the Arts.

Professor McKay's scientific research focuses on fundamental questions of observational astrophysics and cosmology. He explores such questions as: What is the nature and distribution of dark and luminous matter in the Universe? What processes drive the formation and evolution of structure? How has the global expansion of the universe changed with time?

Professor McKay also works with a number of other University of Michigan physics faculty members on the Dark Energy Survey (DES). The DES team is constructing a large new camera for the 4m telescope at the Cerro Tololo Interamerican Observatory in Chile. DES optical observations will be used in conjunction with the South Pole Telescope (SPT) Sunyaev-Zeldovich imager to detect galaxy clusters at very high redshift over a 4000 square degree region of the southern sky. Observations began in 2012.

Professor McKay is heavily engaged in the teaching of physics and he maintains a parallel group of students involved in education activities. Since 2006, he has been teaching and developing a new "Physics for the Life Sciences" introductory sequence (Physics 135 and 235). Students have played an essential role in the development and teaching of this course and it has provided an excellent training ground for students interested in science education.

Professor McKay is known for his excellence in university physics teaching and for his mentoring of students in the Honors Program. In addition, he is known in the community for his

“Saturday Physics” workshops, originally intended for high school students in the community to bolster physics learning and to foster engagement in the sciences among young people (the workshops are now widely attended by children, families, and adults).

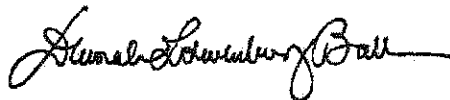

Over the last several years, Professor McKay has become interested in questions of student learning in both secondary and post-secondary settings. As a member of the Provost’s Academic Affairs Advisory Council, Professor McKay chaired a group of faculty members tasked with documenting what University of Michigan students learn from their many curricular, co-curricular, and extra-curricular experiences while at UM. That study spawned the Learning Analytics Task Force (LATF), which Professor McKay continues to lead. LATF has collected and analyzed reams of UM student data and is now sharing preliminary findings not only with members of the UM campus, but also throughout the Committee on Institutional Cooperation (CIC) and beyond.

Professor McKay’s deep interest in the teaching and learning of science—especially physics—and the expertise he brings to this work would contribute much to the School of Education. His joint appointment would foster closer collaboration between him and faculty members in the School of Education (many of whom already work with Professor McKay either on LATF or on the Third Century committee). In addition, Professor McKay could contribute important guidance and expertise to the School of Education’s nascent Center for Educational Design, Evaluation, and Research (CEDER).

We respectfully recommend the joint appointment of Timothy A. McKay as professor of education, without tenure, School of Education, effective September 1, 2014.

NAME: Susan Scott Parrish  
CURRENT TITLE: Associate Professor of English Language and Literature, with tenure,  
College of Literature, Science, and the Arts  
ADDITIONAL TITLE: Associate Professor of Environment, without tenure, College of Literature,  
Science, and the Arts, and School of Natural Resources and Environment  
EFFECTIVE DATE: September 1, 2014

On the recommendation of the Executive Committees of the Program in the Environment (PitE) and the College of Literature, Science, and the Arts, and with the endorsement of the Department of English Language and Literature and the School of Natural Resources and Environment, we are pleased to recommend the additional appointment of Susan Scott Parrish as associate professor of environment, without tenure, College of Literature, Science, and the Arts, and School of Natural Resources and Environment, effective September 1, 2014.

Susan Scott Parrish received her Doctorate from Stanford University in 1998 and joined the faculty at the University of Michigan as an assistant professor that same year. She was promoted to associate professor in 2005. Professor Parrish is an accomplished scholar of environmentally oriented literary criticism. Since 2000, she has taught a course on the history of thinking and writing about North American environments from the era of European contact up through the twentieth century. A few years into teaching this course, she began incorporating PitE students into the roster; at various points, the course has been a "meet together" or has been cross-listed between English and PitE. Professor Parrish will be a great aid as PitE moves forward to develop its environmental humanities curriculum.

We are very pleased to recommend the additional appointment of Susan Scott Parrish as associate professor of environment, without tenure, College of Literature, Science, and the Arts, and School of Natural Resources and Environment, effective September 1, 2014.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member

NAME: Wilhelm A. Piskorowski

CURRENT TITLES: Assistant Dean for Community-Based Dental Education, and Clinical Associate Professor of Dentistry, School of Dentistry

TITLE BEING RENEWED: Assistant Dean for Community-Based Dental Education, School of Dentistry

TERM: Five Years

EFFECTIVE DATES: November 1, 2014 through October 31, 2019

The Dean and the Executive Committee of the School of Dentistry are pleased to recommend the reappointment of Wilhelm A. Piskorowski as assistant dean for community-based dental education, School of Dentistry, for a five-year term, effective November 1, 2014 through October 31, 2019.

Professor Piskorowski earned his bachelor of biology from University of Detroit (1975) and doctor of dental surgery from Loyola University (1979). Professor Piskorowski has worked in private practice and in 2000 was appointed as an adjunct lecturer in cariology, restorative sciences and endodontics at the University of Michigan School of Dentistry. In 2005, Professor Piskorowski became a clinical assistant professor and in 2012 was promoted to clinical associate professor. In 2006, Professor Piskorowski became the director of outreach and community affairs, currently known as community-based dental education (CBDE) at the University of Michigan School of Dentistry and in 2012, he was appointed as assistant dean for Community-Based Dental Education, School of Dentistry.

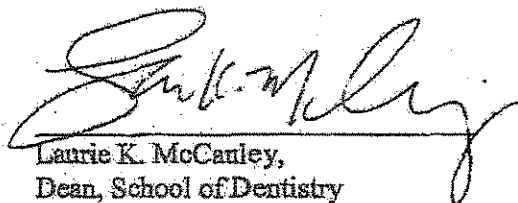

Professor Piskorowski's has significantly contributed to the growth of the CBDE program since his time as program director and this growth has continued since being appointed as assistant dean. He has mentored numerous undergraduate student research projects, including the development of service learning program named the "Wolverine Patriot Program" which provides care to homeless and disabled veterans. The Community Based Dental Education program meets the needs of an important trend in dental education by extending the clinical training experience and exposing students to oral health care needs of disadvantaged populations. Professor Piskorowski has formed partnerships with over thirty community clinics throughout the state of Michigan which provide a minimum of eight weeks of outreach experience, per student, in the fourth year of dental school.

Professor Piskorowski has incorporated his efforts in the program into his research and shares his experiences in publications and invited presentations at dental schools throughout the nation.

We are very pleased to recommend the reappointment of Wilhelm A. Piskorowski as assistant dean for community-based dental education, School of Dentistry, for a five-year term, effective November 1, 2014 through October 31, 2019.

ACTION REQUEST: Additional Appointment to a Collegiate Professorship

NAME: John A.E. Pottow

CURRENT TITLE: Professor of Law, with tenure, Law School

ADDITIONAL TITLE: John Philip Dawson Collegiate Professor of Law, Law School

TERM: Five Years; Renewable

EFFECTIVE DATES: October 1, 2014 through September 30, 2019

The Law School is pleased to recommend the appointment of John A.E. Pottow as the John Philip Dawson Collegiate Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

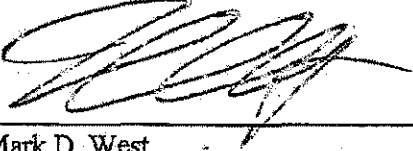

The John Philip Dawson Collegiate Professorship was established in the Law School by the Regents in May 1990 and is named for a former member of the Law School faculty who was an outstanding figure in the fields of restitution, contract law, and legal history. This professorship is supported by a gift from Joseph Parsons, J.D. 1927, to the Law School to establish professorships.

Professor Pottow has been a member of the Law School faculty since 2003. He received his A.B. from Harvard College and his J.D. from Harvard Law School. While in law school, Professor Pottow served as treasurer of the *Harvard Law Review*. Professor Pottow clerked for the Rt. Hon. Beverley McLachlin, Chief Justice of Canada, and the Hon. Guido Calabresi, U.S. Court of Appeals for the Second Circuit.

Professor Pottow is a nationally recognized expert in the fields of bankruptcy and commercial law. His award-winning scholarship concentrates on the issues involved in the regulation of cross-border insolvencies as well as consumer financial distress. He has argued bankruptcy cases before the U.S. Supreme Court, including his successful pro bono representation of the respondent in *Executive Benefits Insurance Agency v. Arkison* (2014). In 2005, he was presented the L. Hart Wright Award for Excellence in Teaching.

We are pleased to recommend the appointment of John A.E. Pottow as the John Philip Dawson Collegiate Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

ACTION REQUEST: Approval of Appointment to a Collegiate Professorship

NAME: Stephen W. Ragsdale, Ph.D.

CURRENT TITLE: Professor of Biological Chemistry, with tenure,  
Medical School

ADDITIONAL TITLE: David Ballou Collegiate Professor, Medical School

EFFECTIVE DATES: October 1, 2014 through August 31, 2019

On the recommendation of David Engelke, Ph.D., Interim Chair of the Department of Biological Chemistry, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the appointment of Stephen W. Ragsdale, Ph.D. as the David Ballou Collegiate Professor, Medical School, effective October 1, 2014 through August 31, 2019.

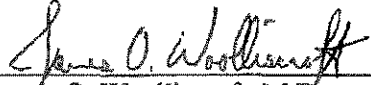

The David Ballou Collegiate Professorship was established in September 2014 to honor the legacy of Dr. Ballou whose research on flavins and biological oxidation mechanisms spanned over 40 years at the University of Michigan in the Department of Biological Chemistry.

Stephen W. Ragsdale received his Ph.D. degree in 1983 in biochemistry from the University of Georgia. He completed a fellowship at Case Western Reserve in 1987. Dr. Ragsdale was appointed as an assistant professor of chemistry at the University of Wisconsin, and was subsequently appointed as an associate professor, then professor at the University of Nebraska. He joined the faculty at the University of Michigan in 2007 as a professor of biological chemistry.

Dr. Ragsdale has greatly advanced our understanding of the structure and function of metalloenzymes. He has identified unusual and complex metal centers at the heart of these proteins and shown how they participate in catalysis. Dr. Ragsdale holds one patent and has been continuously funded by the NIH and the Department of Energy. He has published over 130 articles, and has been invited to present his research at national and international venues. Dr. Ragsdale has instructed and mentored junior scientists, Ph.D. candidates, and post-doctoral trainees who have gone on to productive careers in industry and government. He has received numerous awards for his research, including induction into the Michigan League of Research Excellence. Dr. Ragsdale is a member of many prestigious professional societies; the American Society of Microbiology and the American Association for the Advancement of Science. He has served as treasurer for the American Chemical Society, in the division of Biological Chemistry, and as chair of the American Association for the Advancement of Science. Dr. Ragsdale has served on several NIH study sections and National Science Foundation and Department of Energy review panels, as well as on the editorial board for the *Journal of Biological Chemistry*.

Dr. Ragsdale has established an outstanding record of scholarship and citizenship at the University of Michigan. He continues to make major contributions to the understanding of the mechanism of action of metalloenzymes. I am very pleased, therefore, to recommend the appointment of Stephen W. Ragsdale, Ph.D. as the David Ballou Collegiate Professor, Medical School, effective October 1, 2014 through August 31, 2019.

ACTION REQUEST: Additional Appointment to an Endowed Professorship  
NAME: Margo Schlanger  
CURRENT TITLE: Professor of Law, with tenure, Law School  
ADDITIONAL TITLE: Henry M. Butzel Professor of Law, Law School  
TERM: Five Years, Renewable  
EFFECTIVE DATES: October 1, 2014 through September 30, 2019

The Law School is pleased to recommend the appointment of Margo Schlanger as the Henry M. Butzel Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

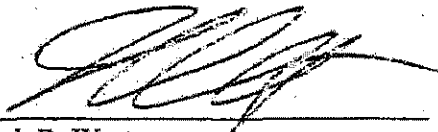

Henry M. Butzel was an 1892 graduate of the Law School who served as a Justice of the Supreme Court of Michigan for over twenty-five years. The professorship was established in 1964 with funds which Justice Butzel left in trust to assure continued support for "the purposes for which I labored in my lifetime."

Professor Schlanger has been a member of the Law School faculty since 2009. She received her B.A. from Yale College and her J.D. from Yale Law School. While in law school, Professor Schlanger served as book reviews editor of the *Yale Law Journal*. Professor Schlanger clerked for Justice Ruth Bader Ginsburg of the U.S. Supreme Court.

Professor Schlanger is nationally renowned for her scholarly and policy work in the fields of civil rights and remedies for the violations thereof, with special emphasis on prison rights litigation. From 2010 to 2011, she served as the presidentially appointed officer for Civil Rights and Civil Liberties at the U.S. Department of Homeland Security. She has worked as an advisor on the development of proposed national standards implementing the Prison Rape Elimination Act, and testified before the Prison Rape Elimination Commission. She has also served as the reporter for the American Bar Association's revision of its Standards Governing the Legal Treatment of Prisoners. She is a prolific writer; her work appears frequently in both scholarly publications and the popular press.

We are pleased to recommend the appointment of Margo Schlanger as the Henry M. Butzel Professor of Law, Law School, for a five-year renewable term, effective October 1, 2014 through September 30, 2019.

ACTION REQUEST: Additional Appointment for a Faculty Member  
NAME: Randy J. Seeley, Ph.D.  
CURRENT TITLE: Professor of Surgery, with tenure, Medical School  
ADDITIONAL TITLE: Professor of Internal Medicine, without tenure, Medical School  
EFFECTIVE DATE: October 1, 2014

On the recommendation of John M. Carethers, M.D., the John G. Searle Professor and Chair of the Department of Internal Medicine, I am pleased to recommend the additional appointment of Randy J. Seeley, Ph.D. as professor of internal medicine, without tenure, Medical School, effective October 1, 2014.

Dr. Seeley received his Ph.D. degree in psychology from the University of Pennsylvania in 1993. After a fellowship at the University of Washington, he was appointed as a research assistant professor at that institution. In 1997, he joined the faculty at the University of Cincinnati as an associate professor of psychiatry and was promoted to professor in 2003. He was appointed as a professor of surgery at the University of Michigan in July of 2014.

Dr. Seeley's research has focused on the actions of various hormones released into the peripheral and CNS circulatory systems that impact on the ability to regulate food intake, body weight, and the regulation of circulating fuels. In particular, he has focused on the numerous hypothalamic and G.I. peptides and their associated receptors that influence energy intake as well as peripheral metabolic processes. His areas of research make close collaboration with the Division of Metabolism, Endocrinology, and Diabetes (MEND) in the Department of Internal Medicine a natural fit. He will be an integral member of both the Diabetes Research Center and the Nutrition and Obesity Research Center, both of which reside in MEND.

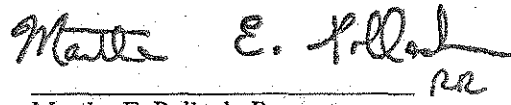

Dr. Seeley is an internationally recognized investigator in the study of obesity. This appointment will formally recognize his contributions to the field of metabolism, endocrinology, and diabetes and will facilitate collaborations with other faculty members and trainees in his field. I, therefore, wholeheartedly recommend the additional appointment of Randy J. Seeley, Ph.D. as professor of internal medicine, without tenure, Medical School, effective October 1, 2014.

ACTION REQUEST: Additional Appointment to an Endowed Department Chair

NAME: Lonnie D. Shea

CURRENT TITLES: Chair, Department of Biomedical Engineering, and  
Professor of Biomedical Engineering, with tenure, College  
of Engineering and Medical School

ADDITIONAL TITLE: William and Valerie Hall Department Chair of Biomedical  
Engineering, Department of Biomedical Engineering,  
College of Engineering and Medical School

EFFECTIVE DATES: October 1, 2014 through August 31, 2019

We are pleased to recommend the appointment of Lonnie D. Shea as the William and Valerie Hall Department Chair of Biomedical Engineering, Department of Biomedical Engineering, College of Engineering and Medical School, effective October 1, 2014 through August 31, 2019.

The William and Valerie Hall Department Chair in Biomedical Engineering was established in September 2014 and is funded by gifts from William K. and Valerie W. Hall.

Professor Shea received his B.S. and M.S. degrees in chemical engineering from Case Western Reserve University in 1992 and 1993, respectively. He received his Ph.D. in chemical engineering and scientific computing from the University of Michigan in 1997. Following graduation, Professor Shea remained at Michigan to complete a post-doctoral research fellowship between 1997 and 1999. He was appointed as an assistant professor at Northwestern University in 1999 and was promoted through the ranks to professor, with tenure, in 2008. Since 2008, he has also served as the director for the Biotechnology Training Program. He joined the faculty at the University of Michigan as chair of the Department of Biomedical Engineering and professor of biomedical engineering in September 2014.

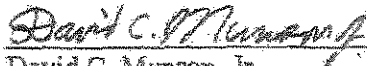

Professor Shea's achievements are significant in research, teaching and service. He is an internationally recognized researcher at the interface of regenerative medicine, drug and gene delivery, and immune tolerance, whose focus is controlling the local microenvironment for directing tissue growth or regeneration.

Professor Shea's academic achievements fully merit his appointment to this endowed department chair. I am pleased to recommend the appointment of Lonnie D. Shea as the William and Valerie Hall Department Chair of Biomedical Engineering, Department of Biomedical Engineering, College of Engineering and Medical School, effective October 1, 2014 through August 31, 2019.

ACTION REQUEST: Additional Appointment to an Endowed Professorship

NAME: Kentaro Toyama

CURRENT TITLE: Associate Professor of Information, with tenure, School of Information

ADDITIONAL TITLE: W. K. Kellogg Professor of Community Information, School of Information

TERM: Five Years, Renewable

EFFECTIVE DATES: January 1, 2015 through December 31, 2019

With approval of the faculty at the School of Information, we are pleased to recommend the appointment of Kentaro Toyama as the W. K. Kellogg Professor of Community Information, School of Information, for a five-year renewable term, effective January 1, 2015 through December 31, 2019.

The W. K. Kellogg Professorship in Community Information was established by the Regents in February 2008. The W.K. Kellogg Foundation provided major financial support during the transformation and re-chartering of the School of Information.

Professor Toyama received his B.A. from Harvard University in 1991 and his Ph.D. in 1998 from Yale University in computer science. Professor Toyama was a member of the research staff at Microsoft Research from 1998-2004. From 2004-2009, he was the co-founder and assistant managing director at Microsoft Research India. Since 2010, Professor Toyama has been a senior researcher in the School of Information at the University of California, Berkeley. Professor Toyama joins the faculty at the University of Michigan School of Information in January 2015.

Professor Toyama's research embodies an orientation to using information technology to change the world that is central to the School of Information's mission. This orientation is best reflected through his leadership of and contributions to an emerging field called Information and Communication Technology for Development (ICTD, also referred to as ICT4D). Stated briefly, ICTD research has the goal of applying information technology to meet the needs of underserved populations, particularly in the domains of economic and social development. Professor Toyama's interest in ICTD took off in 2004 when he co-founded Microsoft Research India in Bangalore. During his five-year residency in Bangalore, Professor Toyama initiated work on two key research questions. First, he wondered how novel computing technologies could be applied to meet the needs of the world's poorer communities. Second, he wanted to know how technologies in use impact these communities. To address the feasibility and impact of information technology to meet the needs of poorer communities, Professor Toyama and his colleagues engaged in a program of over fifty projects to develop, deploy and evaluate systems. These projects included an invention to allow multiple students to simultaneously interact with a single computer and the use of locally-produced digital

videos to improve dissemination of agricultural innovations. The first instance went on to become a Microsoft product and the second instance became the basis for a non-profit serving over ten thousand villages with \$40 million in support from the Indian government and the Gates Foundation. Overall, Professor Toyama has authored or co-authored 97 refereed publications and his work has been cited more than nine thousand times. It is significant to note that before turning to ICTD research, Professor Toyama was a leader in computer vision. He received the 2002 David Marr prize for the best paper in computer vision and patents from this work were incorporated in the Microsoft Kinect technology.

We are pleased to recommend the appointment of Kentaro Toyama as the W. K. Kellogg Professor of Community Information, School of Information, for five-year renewable term, effective January 1, 2015 through December 31, 2019.

ACTION REQUEST: Change in Name of an Existing Endowed Professorship

CURRENT TITLE: J. Reid and Polly Anderson Professorship in Manufacturing  
Technology, College of Engineering

RECOMMENDED TITLE: J. Reid and Polly Anderson Professorship in  
Manufacturing, College of Engineering

EFFECTIVE DATE: October 1, 2014

We recommend that the title of the J. Reid and Polly Anderson Professorship in Manufacturing Technology be changed to the J. Reid and Polly Anderson Professorship in Manufacturing, College of Engineering, effective October 1, 2014.

The J. Reid and Polly Anderson Professorship was established in September 1985 to assist a distinguished faculty member to further educational work and, in particular contribute to the strength of the United States in new technologies and the ability to manufacture products resulting from them in this country. Although the current title of the professorship is seemingly appropriate, in practice "Manufacturing Technology" generally refers to community college or trade school programs in manufacturing. Thus, broadening the title will more accurately reflect the level of scholarship that the professorship supports at the University of Michigan.

We are pleased to recommend that the title of the J. Reid and Polly Anderson Professorship in Manufacturing Technology be changed to the J. Reid and Polly Anderson Professorship in Manufacturing, College of Engineering, effective October 1, 2014.

ACTION REQUEST: Approval to Name an Existing Unendowed Collegiate  
Professorship

PROPOSED NAME: Theodore J. St. Antoine Collegiate Professorship, Law School

EFFECTIVE DATE: October 1, 2014

The Law School is pleased to recommend the naming of the Theodore J. St. Antoine Collegiate Professorship, Law School, effective October 1, 2014.

This professorship was established through the Provost Office. The appointment period may be up to five years and may be renewed.

Professor St. Antoine received his A.B. from Fordham College and his J.D. from Michigan Law School in 1954. While at Michigan Law, he served as editor-in-chief of the *Michigan Law Review*. Before joining the University of Michigan Law School faculty in 1965, he served in the Army Judge Advocate General Corps and did post-graduate study in law and economics on a Fulbright grant at the London School of Economics. He was promoted to professor in 1969 and served as dean of the Law School from 1971 to 1978. He was appointed as the James E. and Sarah A. Degan Professor of Law in 1981.

Professor St. Antoine is one of the preeminent scholars in the field of labor and industrial relations. He is co-author of one of the most successful and respected labor law casebooks, Labor Relations Law: Cases and Materials. Professor St. Antoine has had a career of extraordinary service to the Law School, the profession, the state, and the nation. His colleagues have called upon him repeatedly to take on the most delicate of administrative tasks, among them chairing two dean search committees. Most important, Professor St. Antoine has been an enormously influential and popular teacher to decades of law students.

Professor St. Antoine's legacy to the law community and the University of Michigan will be recognized through this professorship. The Law School is pleased to recommend the naming of the Theodore J. St. Antoine Collegiate Professorship, Law School, effective October 1, 2014.

CURRENT TITLE: Paul M. Fitts Collegiate Professorship in Human Computer Interaction, School of Information

RECOMMENDED TITLE: Michael D. Cohen Collegiate Professorship in Information, School of Information

EFFECTIVE DATE: January 1, 2015

We recommend that the title of the Paul M. Fitts Collegiate Professorship in Human Computer Interaction be changed to the Michael D. Cohen Collegiate Professorship in Information, School of Information, effective January 1, 2015.

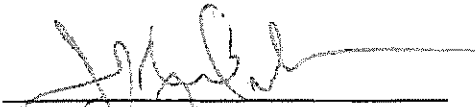

This professorship was established through the Provost's Office. Michael D. Cohen was educated at Stanford University where he received his B.A. in 1966 in history with honors in the social sciences. In 1972, he received his Ph.D. in social science from the University of California, Irvine. The naming of this professorship is to recognize Professor Michael D. Cohen as a distinguished scholar at the School of Information.

Professor Cohen was one of the faculty members who launched the School of Information in 1996; in the 1970s he was one of the first faculty members in the Gerald R. Ford School of Public Policy (then the Institute of Public Policy Studies). He was a scholar of information flows, routines and organizations, with publications that have been cited nearly 20,000 times to date. He was a beloved teacher and mentor to decades of students and faculty. The School of Information named its faculty service award after Professor Cohen at the time of his retirement.

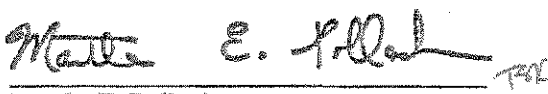

Professor Cohen joined the University of Michigan faculty in 1973 and remained at Michigan until his retirement in June 2012.

We are pleased to recommend that the title of the Paul M. Fitts Collegiate Professorship in Human Computer Interaction be changed to the Michael D. Cohen Collegiate Professorship in Information, School of Information, effective January 1, 2015.

ACTION REQUEST: Establishment of a Collegiate Professorship

PROPOSED NAME: William W. Coon Collegiate Professorship in  
Surgical Oncology, Medical School

EFFECTIVE DATE: October 1, 2014

On the recommendation of Michael W. Mulholland, M.D., the Frederick A. Collier Distinguished Professor and Chair of the Department of Surgery, and with the concurrence of the Executive Committee of the Medical School, I am pleased to recommend the establishment of the William W. Coon Collegiate Professorship in Surgical Oncology, Medical School, effective October 1, 2014.

This professorship is being established through a generous gift from Mrs. Jane Coon, and gifts from friends and colleagues of Dr. Coon. The holder will be a tenured member of the Department of Surgery, in the Division of Surgical Oncology. The appointment period may be up to five years and may be renewed.

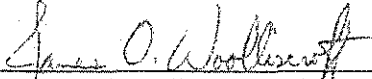

William Coon received his M.D. degree from Johns Hopkins in 1949, and came to the University of Michigan for an internship and residency in surgery. His residency was interrupted when he served for two years as chief of surgery at the U.S. Army Hospital in Augsburg, Germany. Dr. Coon returned to the University of Michigan to complete his surgical residency and joined the faculty in 1956. In 1967, he was promoted to professor. Dr. Coon became professor emeritus in 1996 after 40 years on the faculty. He also served as assistant director of the Clinical Research Unit from 1962 to 1997 and as chair of the Medical School's Institutional Review Board for 25 years.

Dr. Coon's research interests included studies of thromboembolism and anticoagulation; amino acid, protein, corticosteroid and vitamin metabolism and indications for splenectomy, especially in patients with lymphomas. His final publication summarized extant information on the surgical aspects of splenic disease and lymphomas. Dr. Coon's commitment to education was recognized in the Department of Surgery by residents who established the William W. Coon Award for Excellence in Resident Teaching which is awarded annually. He also received a Distinguished Service Award from the University of Michigan Medical Center Alumni Society in 1997. Dr. Coon passed away on October 5, 2000.

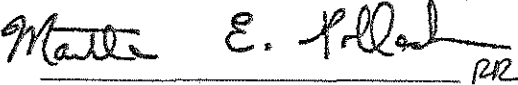

Dr. Coon spent the last 20 years of his career caring for patients with cancer, specifically those with breast cancer and melanoma. This professorship will honor his commitment and continue his research in surgical oncology. I am pleased, therefore, to recommend the establishment of the William W. Coon Collegiate Professorship in Surgical Oncology, Medical School, effective October 1, 2014.

ACTION REQUEST: Approval to Rename an Existing Unendowed Collegiate Professorship

CURRENT TITLE: William D. Hamilton Collegiate Professorship in Complex Systems, School of Information

RECOMMENDED TITLE: Daniel Kahneman Collegiate Professorship in Information, School of Information

EFFECTIVE DATE: January 1, 2015

We recommend that the title of the William D. Hamilton Collegiate Professorship in Complex Systems be changed to the Daniel Kahneman Collegiate Professorship in Information, School of Information, effective January 1, 2015.

This professorship was established through the Provost's Office. The renaming of this professorship is to recognize Professor Daniel Kahneman as a distinguished scholar at the School of Information.

Daniel Kahneman is a psychologist who was awarded the Nobel Prize in Economics in 2002. His contributions to human understanding of human behavior are many, important, and time after time seminal. He is particularly known for his work on the psychology of judgment and decision-making, behavioral economics and hedonic psychology. At age 77 he published a new, major book (Thinking Fast and Slow), that presented many of his findings to non-specialist audiences, and which became a *New York Times* bestseller.

Professor Kahneman spent 1965-66 as a visiting scientist in the University of Michigan Department of Psychology. In his Nobel Prize autobiography, he wrote that "my first experience of truly successful research came...when I was on sabbatical leave at the University of Michigan." Working with a Michigan doctoral student, he completed a set of experimental studies leading to four articles, two published in *Science*.

We are pleased to recommend that the title of the William D. Hamilton Collegiate Professorship in Complex Systems be changed to the Daniel Kahneman Collegiate Professorship in Information, School of Information, effective January 1, 2015.

ACTION REQUEST: Approval to Rename an Existing Unendowed Collegiate Professorship

CURRENT TITLE: Margaret Mann Collegiate Professorship in Information, School of Information

RECOMMENDED TITLE: Robert M. Warner Collegiate Professorship in Information, School of Information

EFFECTIVE DATE: January 1, 2015

We recommend that the title of the Margaret Mann Collegiate Professorship in Information be changed to the Robert M. Warner Collegiate Professorship in Information, School of Information, effective January 1, 2015.

This professorship was established through the Provost's Office. The renaming of this professorship is to recognize Professor Robert M. Warner as a distinguished scholar at the School of Information.

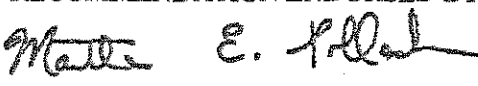

Robert Warner received his Ph.D. in American history in 1958 from the University of Michigan. He was the third director of the University of Michigan Bentley Historical Library (then the Michigan Historical Collections). He served as the sixth Archivist of the United States from 1980 to 1985, during which time he led the successful effort to transform the archives into an independent agency. He then returned to the University of Michigan as a faculty member in the School of Information (then the School of Information and Library Studies) and the Department of History. He served as dean of the School of Information from 1985 to 1992, and was named as university historian in 1992. During his career he also served as interim director of the University of Michigan Library, the president of the Society of American Archivists (SAA), the Historical Society of Michigan, and the Second European Conference on Archives, and on the boards of the SAA, the American Historical Association, and the American Library Association. Professor Warner was a Distinguished Fellow of the SAA.

We are pleased to recommend that the title of the Margaret Mann Collegiate Professorship in Information be changed to the Robert M. Warner Collegiate Professorship in Information, School of Information, effective January 1, 2015.

ACTION REQUEST: Academic Administrative Appointment for a Faculty Member  
NAME: Roy S. Hanashiro  
CURRENT TITLE: Professor of History, with tenure, College of Arts and Sciences  
ADDITIONAL TITLE: Interim Chair, Department of History, College of Arts and Sciences  
EFFECTIVE DATES: September 1, 2014 through June 30, 2015

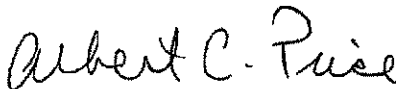

The Dean and the Executive Committee of the College of Arts and Sciences at the University of Michigan-Flint, with the endorsement of the Department of History, is pleased to recommend the appointment of Roy S. Hanashiro as interim chair, Department of History, College of Arts and Sciences, effective September 1, 2014 through June 30, 2015.

Professor Hanashiro received his B.A. degree and his Ph.D. from the University of Hawaii in 1990 and 1997, respectively. He joined the faculty at the University of Michigan-Flint as an assistant professor in 1989, was promoted to associate professor, with tenure, in 1995, and to professor in 2003.

Since joining the faculty at the University of Michigan-Flint, Professor Hanashiro has served as acting chair, department advisor, Social Studies Program advisor, reviewer for the Center for Japanese Studies Research Proposal, a member of the university Research Advisory Committee and International and Global Studies Program. Professor Hanashiro is currently serving as the University of Michigan-Flint coordinator for the Japan Center for Michigan Universities (JCMU).

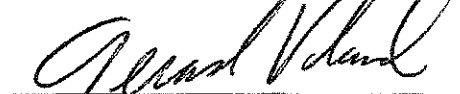

Professor Hanashiro will be an effective leader. We are pleased to recommend the appointment of Roy S. Hanashiro as interim chair, Department of History, College of Arts and Sciences, effective September 1, 2014 through June 30, 2015.
