

**THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION**

**ACTION REQUEST**

**Subject:** Regental Action Required Under the State of  
Michigan Conflict of Interest Statute

**Action Requested:** Authorization for the University to enter into an agreement with ArborMetrix  
(University of Michigan Employee Justin Dimick, MD, MPH, Co-Founder and  
Part Owner)

**Background:**

The University of Michigan Pediatric Critical Care Consortium (PC4) seeks approval to enter into an agreement with ArborMetrix to provide and implement an electronic system for facilitating the collection and tracking of longitudinal patient data in support of the Patent Reported Outcome ("PRO") project. This agreement represents an initial pilot that is being conducted at Children's Hospital of Philadelphia Cardiac Center and C.S. Mott Children's Hospital Congenital Heart Center and enhances the existing PC4 platform.

The proposed agreement falls under the State of Michigan Conflict of Interest Statute as Dr. Justin Dimick is a University employee in the Department of Surgery, Division of General Surgery and would be party to the contract as Co-Founder and Part Owner of ArborMetrix.

However, the Statute allows the University to enter into such agreements if the following conditions are met:

- a) The public servant promptly discloses any pecuniary interest in the contract to the official body which has power to approve the purchase, which disclosure shall be a matter of record in its official proceedings.
- b) The purchase is approved by a vote of not less than 2/3 of the full membership of the approving body in open session without the vote of the public servant making the disclosure.
- c) The official body discloses the following summary information in its official minutes:
  - i) The name of each party involved in the contract.
  - ii) The terms of the purchase, including duration, financial consideration between the parties, facilities or services of the public entity included in the purchase, and the nature and degree of assignment of employees of the public entity for fulfillment of the purchase.
  - iii) The nature of any pecuniary interest.

The following information is provided in compliance with the statutory requirements contained in Section (c) above:

- i) The parties to the contract are the Regents of the University of Michigan and its Pediatric Critical Care Consortium and ArborMetrix.
- ii) The agreement will provide the University with software licensing, maintenance and analytical tools to support the PC4 PRO project at a total cost of \$75,000.
- iii) The pecuniary interest arises from the fact that University of Michigan employee Dr. Justin Dimick is Co-Founder and Part Owner of ArborMetrix.

Dr. Justin Dimick has met state law requirements with the disclosure of his pecuniary interest and formal appointment arrangements with the University of Michigan. Requirements, if any, that may be applicable under the Medical School's or OVPR's Conflict of Interest Committee's procedures are separately analyzed and managed.

We recommend that the Board of Regents approve the agreement between the University of Michigan and ArborMetrix subject to requirements, if any, that either the Medical School's or OVPR's Conflict of Interest Committee may impose.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Kevin P. Hegarty', is written over the typed name and title below.
