

AWARDS ESTABLISHED
 Research and Other Sponsored Activities
 October 1, 2009 through October 31, 2009

Received by the Regents
 November 19, 2009

The awards detailed in this list were established October 1, 2009 through October 31, 2009. The dollar values depict the best available estimate of the funding the University should receive over the life of the award. These values may be modified, as additional data become available relative to future funding prospects. These modifications are not reported in the attached list. As a result, the dollar values of awards presented in this list will differ from the year-end totals. The full amount of an award is recorded in the year in which it was established. Often these funds are expended over several years, making comparisons between awards and expenditures somewhat misleading. Research expenditures are presented here to provide a trend line for the current fiscal year.
