ACTION REQUEST

Subject: Report of Faculty Retirement

Action Requested: Adoption of Retirement Memoir

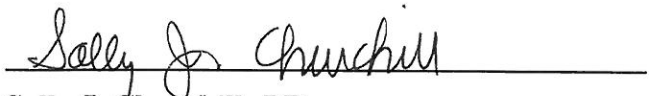

Frank C. Brosius III, M.D., professor of internal medicine and professor of molecular and integrative physiology in the Medical School, will retire from active faculty status on December 31, 2016.

Dr. Brosius received his B.G.S. (1976) and M.D. (1979) degrees from the University of Kansas. He completed a research fellowship at the National Institutes of Health (1979-80), an internal medicine internship and residency at the University of Michigan (1980-83), a nephrology clinical and research fellowship at the Beth Israel Hospital (1985-89), and a research fellowship at the Whitehead Institute for Biomedical Research (1986-89). Dr. Brosius also served as a lieutenant commander for the U.S. Public Health Service (1983-1985). He joined the University of Michigan faculty as an assistant professor in 1989, and was promoted to associate professor in 1996, and professor in 2002. He served as the director of the Nephrology Fellowship Program in the Division of Nephrology (1996-2003) and chief of the Division of Nephrology (2004-16).

Dr. Brosius is an internationally recognized physician scientist with expertise in molecular and translational kidney research with a goal to develop effective new treatments for diabetic complications. He published over 100 peer-reviewed articles in high impact journals, such as *Diabetes*, the *Journal of Clinical Investigation*, and the *Journal of the American Society of Nephrology*. Dr. Brosius served on the editorial boards for the *American Journal of Physiology-Renal Physiology*, the *Journal of the American Society of Nephrology*, and the *West Indian Medical Journal*. He also served as an ad hoc journal reviewer for many prominent journals, including the *New England Journal of Medicine*, the *Journal of the American Society of Nephrology*, and *The Lancet*. Dr. Brosius was actively involved in numerous national study sections, including the VA Merit Review Board for Nephrology, the National Institutes of Health PBKD Study Section, and the Diabetes Complications Consortium pilot grant program.

The Regents now salute this distinguished faculty member by naming **Frank C. Brosius III, professor emeritus of internal medicine**.

Requested by:

Sally J. Churchill, J.D.

Vice President and Secretary of the University

December 2016
